Proposed County Board of Health Budget - Tami Ogden, Champaign County, and Amanda Knight, Director of Finance, CUPHD, provided an overview of the proposed budget. Grants and contracts were lower due to COVID-19. For FY22, the budgeted fund balance \$425,583.00, which represents 32.7% fund balance based on budgeted expenditures. The board at large discussed the appropriation of potential additional funds from the budget in the event of emergency spending needs. Mr. Thies proposed amending the motion. Dr. Goodly then proceeded with the motion to approve the Proposed County Board of Health Budget for FY2022. Mr. Thies seconded the motion. With all in favor, the motion carried.

55
56 The Board would like to amend some of the phrasing describing the usage for
57 funds received to affect the COVID-19 Pandemic. This adjusted statement of purpose
58 will be sent to Tami Ogden to provide description to the proposed budget document. Dr.
59 Vura-Weis noted that the statement should reflect the mission and vision of the county
60 board of health. Dr. Peterson made a motion to adapt the language of the budget
61 proposal. Ms. Emanuel seconded that motion. With all in favor, the motion carried.
62

81
82 Ms. Julie Pryde noted that CUPHD had received the NACCHO Grant for
83 \$250,000.00 to apply to the purchase of a new Mobile Clinic Unit.
84

85 Dr. Peterson asked Ms. Pryde if it would be possible to link together the COVID-
86 19 public vaccinations page with the public caseload page on the CUPHD Website.
87

88 Dr. Peterson also raised the question regarding vaccinations holding steady at
89 60%. Ms. Pryde noted that CUPHD has been working diligently to increase the
90 community vaccination numbers, but the data, for the time being, is consistently holding
91 at 60% total vaccinations. Ms. Pryde expressed a concern regarding the particular
92 metrics for measuring the data, noting that it is unclear how many students are being
93 included in the count, or how consistent that count is. Ms. Pryde provided the CUPHD
94 COVID-19 Update during her correspondence.

For the discussion of COVID-19 Updates and Outreach, Julie Pryde was absent from the meeting. She did provide Dr. Jones with notes regarding ongoing numbers and strategies. Dr. Jones noted that those reports were available online, and are updated daily.

44

45

46 **Other Business**

47

48 Dr. Jones presented the discussion of the Fund Balance. She noted that the
49 Board allocated \$50,000 into the budget for this FY for the purposes of addressing the
50 pandemic, particularly the concerns raised in previous meetings in terms of vaccination
51 numbers, and how to increase those numbers through community outreach. Ms. Pryde
52 had provided Dr. Jones with notes regarding outreach strategies, which Dr. Jones
53 shared here. She mentions a program through Promise Healthcare that is providing gift
54 cards to individuals who choose to vaccinate. The second proposal was to develop
55 social media content to advertise to communities that have been directly impacted by
56 infections or deaths. A third proposal was to advertise on billboards in lesser vaccinated
57 communities.

58

59 Mr. Thies asks for clarification how the advertising ideas connects to the fund
60 balance, and how it pertains to the budget. Dr. Jones explains that the board allocated
61 50k from the fund balance specifically for COVID-19 Pandemic Vaccination Response
62 and Outreach.

63

64 Mr. Thies recommends directly speaking with restaurant owners, and other
65 community members to appeal for assistance promoting vaccinations, particularly those
66 community members who have contact with those who are hesitant or resistance to
67 receive the vaccine. Appealing also to individuals who have pushed back against
68 vaccinations and safety mandates

69

70 Dr. Vura-Weis suggests that restaurants perhaps participate in the effort by either
71 providing gift cards that the county can give them, or providing advertising.

72

73 Dr. Goodly recommends outreach to more influential community members, such
74 as pediatricians, to advocate for vaccinations to lesser vaccinated groups. Mr. Thies
75 agrees that pediatricians could be strong leaders in promoting vaccination for children.
76 Dr. Goodly also suggested the board investigate social media outreach to pinpoint
77 where messages need to go to reach particular demographics. Dr. Vura-Weis, Ms.
78 Emanuel, Mr. Thies, and Dr. Goodly all agree that targeting younger audiences with
79 vaccination efforts will hopefully produce greater results in influencing older, more
80 hesitant community members.

81

82 Ms. Emanuel asked for more specific information on the vaccination numbers.
83 Joshua Valentine from CUPHD provided this information that Administrator Julie Pryde
84 had given at the August CUPHD Monthly Board Meeting.

85 Racial demographics for vaccination numbers within the community, as of August
86 9th, were 67% for White/Caucasian, 8.16% for Black/African-American, 12% for Asian,
87 5.2% for Hispanic/Latinx.

93

94
95 Dr. Vura-Weis asked for further clarification to those numbers, as to whether they
96 pertained specifically to the Champaign-Urbana Public Health District, or if those
97 numbers were county-wide. Mr. Valentine explained that he didn't have the specifics in
98 front of him, he believed that the numbers were for the full county. Noting several county
99 vaccination rates as example.
