Subject: EMA Activities July 2010
Date: August 2, 2010

The department has been working to complete our Tactical Interoperable Communication plan as well as the required exercise to test the plan. The exercise was conducted on the 21st and included Police, Fire, EMS, Public Works, EMA, Hospitals and Canadian National Railroad. The scenario involved a passenger train derailment at the Windsor Rd. Overpass and required all agencies to coordinate services and be able to pass information by radio communications. We found a couple of minor changes that will need to be added or corrected and then the plan will be submitted to IEMA to meet our grant requirements. The Illinois Terrorism Task force conducted an audit of the Equipment purchased for first responders in 2004. All equipment was accounted for and in working order. We also participated in the CUPHD Assessment process that is required by IDPH to maintain their licensing. Our Emergency Operation Plan has been reviewed and will be sent to the State along with our accreditation application. This will allow us to maintain our EMPG grant monies for 2011-2012.
