To: Justice Committee
From: Bill Keller Director
Subject: January Activity Report
Date: January 31, 2011

The month of January was a relative quite as far as activations.

We are working with the University of Illinois and other Public Safety Departments on a tabletop exercise. This exercise will test and evaluate the campus threat assessment, response to an active shooter, and building evacuation. This exercise will take place in March and the after action report will be submitted to the state for approval as well as to meet requirements.

Our emergency management team is meeting to train on the use of the newly remodeled Emergency Operation Center. We are also working on a new resource manual for all jurisdiction use. The joint information committee continues to meet on a quarterly basis and work on pre scripted messages to the public for emergency notification to the public. Planning with all jurisdiction began on the impending winter storm that will affect the County.
