Office 365 Essentials

Quick Reference Guide

An Office 365 Program Screen

Office Fundamentals

[Create a Blank File](#): Click the **File** tab, select **New**, and click the **Blank** template; or, press **Ctrl + N**.

[Create a File from a Template](#): Click the **File** tab, select **New**, search for a template category or select a search suggestion, select a template, then click **Create**.

[Open a File](#): Click the **File** tab and select **Open**, or press **Ctrl + O**. Select a location with a file you want, then select a file and click **Open**.

[Save a File](#): Click the **Save**  button on the Quick Access Toolbar, or press **Ctrl + S**. If it's the first time you're saving the file, choose a location where you want to save the file, give it a name, and then click **Save**.

[Save a Copy of a File](#): Click the **File** tab, then select **Save As** or **Save a Copy**. Choose a location where you want to save the file, give it a name, and then click **Save**.

[Print](#): Click the **File** tab, select **Print**, view the print preview, set up your print settings, and then click **Print**.

[Get Help](#): Click the **Help** tab on the ribbon, then click the **Help** button to open the Help pane. Search for a topic in the Search field, then select a topic from the results.

Editing

[Select Text](#): Click and drag across the text you want to select; or, click at the beginning of a text block, hold down the **Shift** key, and click at the end of a text block.

[Edit Text](#): Select the text you want to replace and type new text.

[Cut, Copy and Paste](#): Select the text or object you want to cut or copy and click the **Cut**  or **Copy**  button on the Home tab. Click where you want to paste, and click the **Paste**  button.

[Add a Comment](#): Select the text or object you want to comment on, click the **Review** tab, then click the **New Comment**  button. Type a comment, then click outside of the comment bubble.

Formatting Text

[Change the Font](#): Select the text you want to change, click the **Font** menu arrow, and select a font.

[Change the Font Size](#): Select the text you want to change, click the **Font Size** menu arrow, and select a font size.

[Apply Bold, Italic, or an Underline](#): Click the **Bold** , **Italic** , or **Underline**  button in the Font group on the Home tab.

The Excel Program Screen

Excel Fundamentals

[Select a Cell](#): Click a cell or use the keyboard arrow keys to select it.

[Select a Cell Range](#): Click and drag to select a range of cells. Or, press and hold down the **Shift** key while using the arrow keys to move the selection to the last cell of the range.

[Select an Entire Worksheet](#): Click the **Select All** button where the column and row headings meet.

[Select Non-Adjacent Cells](#): Click the first cell or cell range, hold down the **Ctrl** key, and select any non-adjacent cell or cell range.

[Edit Cell Data](#): Select a cell and click in the Formula Bar or double-click the cell. Edit the cell's contents and press **Enter**.

[Clear Cell Data](#): Select the cell(s) and press the **Delete** key. Or, click the **Clear** button on the Home tab and select **Clear Contents**.

[Insert Cells](#): Select the cell(s) where you want to insert cell(s), click the **Insert** button menu arrow on the Home tab, select **Insert Cells**, select how you want to move existing cells, then click **OK**.

[Insert a Column or Row](#): Right-click to the right of the column or below the row you want to insert. Select **Insert** in the menu, or click the **Insert** button on the Home tab.

[Move or Copy Cells Using Drag and Drop](#):

Select the cell(s) you want to move or copy, position the pointer over any border of the selected cell(s), then drag to the destination cells. To copy, hold down the **Ctrl** key before starting to drag.

[Delete Cells](#): Select the cell(s) you want to delete, click the **Delete** button menu arrow on the Home tab, select **Delete Cells**, select how you want to move cells to fill the deleted area, then click **OK**.

[Delete a Column or Row](#): Select the row or column heading(s) you want to remove. Right-click and select **Delete** from the contextual menu, or click the **Delete** button in the Cells group on the Home tab.

[Adjust Column Width or Row Height](#): Click and drag the right border of the column header or the bottom border of the row header. Double-click the border to AutoFit the column or row according to its contents.

[Set a Fixed Column Width or Row Height](#): Select a cell in the column or row you want to adjust, click the **Format** button on the Home tab, select **Column Width or Row Height**, enter a column width or row height value, then click **OK**.

[Freeze Panes](#): Select a cell in the row below and the column to the right of where you want to freeze the window, click the **View** tab on the ribbon, click the **Freeze Panes** button in the Window group, and select **Freeze Panes**.

[Freeze the First Row or Column](#): Click the **View** tab on the ribbon, click the **Freeze Panes** button in the Window group, and select **Freeze Top Row** or **Freeze First Column**.

[Unfreeze Panes](#): Click the **View** tab on the ribbon, click the **Freeze Panes** button in the Window group, and select **Unfreeze Panes**.

Keyboard Shortcuts

PowerPoint Fundamentals

Insert a New Slide: Click the **Home** tab and click the **New Slide** button in the Slides group, or press **Ctrl + M**.

Change the Slide Layout: Click the **Home** tab, click the **Layout** button in the Slides group, and select a layout.

Insert a Text Box: Click the **Insert** tab on the ribbon and click the **Text Box** button. The cursor changes to a crosshair; click and drag to place the text box on the slide.

Hide or Unhide a Slide: Select a slide in the Thumbnails pane in Normal view. Click the **Slide Show** tab on the ribbon and click the **Hide Slide** button in the Set Up group to toggle the slide visibility.

Delete a Slide: Select a slide in the Thumbnails pane (or in Slide Sorter view) and press the **Delete** key, or right-click a slide in the Thumbnails pane (or in Slide Sorter view) and select **Delete**.

Add Slide Notes: Click the **View** tab on the ribbon and click the **Notes** button in the Show group to turn on the Notes pane. Enter a slide note to use during the presentation or for slide handouts.

Apply a Presentation Theme: Click the **Design** tab on the ribbon. Click the **More** button in the Themes group and select a theme.

Modify Theme Elements: Click the **Design** tab, then, in the Variants group, click **Colors** , **Fonts** , or **Effects** to expand the menu and select a new style that coordinates with the current theme.

Apply Picture Adjustments: Select a picture, then click the **Picture Format** tab on the ribbon. In the Adjust group, click the **Corrections** , **Color** , and/or **Artistic Effects** button and select an adjustment from the menu.

Apply a Picture Style: Select a picture, then click the **Picture Format** tab on the ribbon. Select a style in the Picture Styles gallery.

Crop a Picture: Select the picture you want to crop. Click the **Picture Format** tab on the ribbon and click the **Crop** button. Click and drag the crop handles to remove any unwanted areas, then click the **Crop** button again.

Insert a Shape: Click the **Insert** tab on the ribbon and click the **Shapes** button. Select the shape you want to use in the menu. Click and drag to place the shape on the slide.

Change a Shape: Select a shape, click the **Shape Format** tab on the ribbon, click the **Edit Shape** button, and select **Change Shape**. Select a new shape from the menu.

Move an Object Forward or Backward: Select an object, click the **Shape** (or **Picture**) **Format** tab on the ribbon, and click **Bring Forward** or **Send Backward** .

Move an Object to the Front or Back: Select an object, click the **Shape** (or **Picture**) **Format** tab on the ribbon, click either the **Bring Forward** or **Send Backward** button menu arrow and select **Bring to Front** or **Send to Back** .

Rotate an Object: Select an object, then click and drag its rotate handle to rotate it.

Flip an Object: Select an object, click the **Shape** (or **Picture**) **Format** tab on the ribbon, click the **Rotate** button, and select **Flip Vertical** or **Flip Horizontal** .

Apply a Slide Transition: Select the slide(s) where you want to add a transition. Click the **Transitions** tab on the ribbon and click the **More** button in the Transition to This Slide group. Select the transition you want to use.

Modify a Transition: Click the **Transitions** tab on the ribbon and click the **Effect Options** button. Select an effect option in the menu.

Apply a Transition to All Slides: While viewing a slide with a transition, click the **Apply to All** button on the Transitions tab.

Apply an Animation: Select the text or object you want to animate and click the **Animations** tab on the ribbon. Click the **Animation Styles** button and select the animation you want to use. Click the **Add Animation** button to add additional animations to the same object.

Start a Slide Show: Click the **Slide Show** tab on the ribbon and click either the **From Beginning** or **From Current Slide** button. Or, click the **Slide Show** button on the status bar, or press **F5**.

End a Slide Show: While presenting a slide show, click the **Options** button in the toolbar at the bottom left and select **End Show**. Or, press the **Esc** key.

Advance to the Next Slide: Click the **Next Slide** button, press the **Spacebar**, click the right mouse button, or press the **Page Down** key.
