*David and Faye Wetherow created the structure of Microboards - a pattern that currently serves over 2,000 people worldwide. They are parents, advocates, and seasoned trainers in qualitative program evaluation and person-centered planning.

David has been involved in human service design and development for over thirty years, working in the fields of mental health, substance abuse recovery, child welfare, and disability services. He now serves as the Executive Director of the nonprofit Star Raft Project. In addition to supporting several active field projects, David hosts web-based trainings and 'kitchen-table' video conversations with families, self advocates, providers, professionals, church congregations, and community partnerships. He joins us from Vancouver Island, British Columbia.
