# CHAMPAIGN COUNTY MENTAL HEALTH BOARD

# CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

REMEMBER this meeting is being audio recorded. Please speak clearly into the microphone during the meeting.

# Champaign County Mental Health Board (CCMIIB) WEDNESDAY, September 26, 2018

Brookens Administrative Center, Lyle Shields Room 1776 E. Washington St. Urbana, IL. 5:30 p.m.

- 1. Call to Order Dr. Fowler, President
- 2. Roll Call
- Citizen Input/Public Participation
   The CCMHB reserves the authority to limit individual public participation to five minutes and limit total time to 20 minutes.
- 4. Approval of Agenda\*
- President's Comments
- New Business
  - A. Needs Assessment (Pages 3-181) Briefing Memorandum with Needs Assessment and a compilation of various source documents included for informational purposes.
  - B. Draft CCMHB Three Year Plan with FY19 Objectives (Pages 182-190) Included for information and discussion is a draft Three Year Plan with FY19 Objectives. A Briefing Memorandum prefaces the draft Plan.
  - C. Fund Balances, Tax Liabilities, & Unanticipated Revenues (Pages 191-193) Briefing Memorandum reviewing issues raised in the current budget process along with possible next steps is included in the packet for information only.

MESANA, ILLINIOIS 61802

- Agency Information
   The CCMHB reserves the authority to limit individual agency participation to five minutes and limit total time to 20 minutes.
- 8. Old Business
  - A. CCMHB FY2019 Budget\* (Pages 194-202) Decision Memorandum on updated CCMHB Fiscal Year 2019 Budget is included in the packet. Action is requested.
  - B. Schedules & Allocation Process Timeline (Pages 203-206)
    Updated copies of meeting schedules and allocation timeline are included in the packet.
- 9. CCDDB Information
- Approval of CCMHB Minutes (Pages 207-212)\*
   Minutes are included. Action is requested.
- 11. Executive Director's Comments
- Staff/Consultant Reports
   Staff reports from Mark Driscoll (Pages 213-214), Kim Bowdry (Pages 215-222), Shandra Summerville (Pages 223-225), Stephanie Howard-Gallo (Page 226), and Barb Bressner (Page 227) are included.
- Board to Board Reports
- 14. Financial Information (Pages 228-246)\*
  The Expenditure Approval List is included in the packet.
  Action is requested.
- 15. Board Announcements
- 16. Adjournment
- \*Board action

# CHAMPAIGN COUNTY MENTAL HEALTH BOARD

# CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

# BRIEFING MEMORANDUM

DATE: September 26, 2018

TO: Members, Champaign County Montal Health Board (CCMHB)

FROM: Mark Driscoll, Kim Bowdry, Lynn Canfield

SUBJECT Needs Assessment

Background: The Champaign County Mental Health Board is charged with developing a threeyear plan with the coming year being the first year of the new three-year cycle. As part of the planning process, the CCMHB solicited input of four broad constituencies via an online survey to learn about their experiences navigating the behavioral health and intellectual and developmental disability systems in Champaign County. The compilation of responses to the online surveys are the centerpiece of the 2018 needs assessment. Other supporting content of the needs assessment is derived from local community assessments, reports, and data sets from other public bodies or consortiums, internal data analysis on CCMHB funding and populations served, and more broadly focused metrics associated with the general well-being of Champaign County residents.

The balance of the Briefing Memo references each of the documents comprising the 2018 Needs.

Assessment:

- CCMHB/DDB Online Needs Assessment Survey
- ISC Preference Assessment Independent Service Coordination Unit at the Champaign County Regional Planning Commission (CCRPC)
- DHS Division of Developmental Disabilities Prioritization of Urgency of Needs for Services (PUNS)
- Champaign Urbana Public Health District IPLAN
- Justice Mental Health Collaboration Program Planning Grant Final Report (includes Sequential Intercept Map & Gaps Analysis)
- CIT Response Report (8/1/17 7/31/18)
- Champaign County Continuum of Cure Point in Time Count
- Illinois Youth Survey Champaign County, 2016
- Health Disparities (National Overview)
- Champaign County Indicators of Well Being
- CCMHB Trends Data (Allocations, Service Data)
- · National Prevalence Rate Statistics and Related Articles

1776 E SHINGTON STITEET

# CCMHB/DDB Online Needs Assessment Survey Overview

Throughout the course of any given year the Board participates in a dynamic process highlighting issues of the day. This process can entail presentations by outside entities during Board meetings, topics addressed during study sessions, distribution of research or other professional articles, materials prepared by staff, and input from members of the public. The on-line survey developed in the fall of 2017 attempted to engage the broader community as an extension of this dynamic process.

To that end, staff and EMK Consulting developed surveys asking questions of consumers, caregivers, providers, and stakeholders. Respondents were invited to self-select from among eight surveys the one most appropriate to their circumstance. One set was specific to mental health and substance use services, and the other focused on developmental disability services. The surveys within each set solicit responses on a person's experience with the system, access to services, and gaps in services. All responses were anonymous although some demographic data were requested. For three months, the surveys were available online, with paper copies upon request, and promoted broadly throughout the community.

The surveys featured similar questions but targeted these eight distinct audiences. While a few questions were open-ended, most included numerous choices so that the data can be aggregated and analyzed. Due to the surveys' length and complexity, respondents could treat all answers as optional. Incomplete but substantially completed surveys were included in analysis.

## Survey Category/Types MH/SUD:

- CONSUMER: A person who has a mental health and/or substance use disorder (25 questions)
- CAREGIVER: Family member, caregiver, loved one, or guardian of a person with a mental health and/or substance use disorder. (25 questions)
- PROVIDER: of services or supports to people who have mental health and/or substance use disorders (18 questions)
- STAKEHOLDER: with an interest in services and supports for persons with a mental health and/or substance use disorder (10 questions)

#### ID/DD:

- CONSUMER: A person with an intellectual or developmental disability (29 questions)
- CAREGIVER: Family member, caregiver, loved one, or guardian of a person with an intellectual or developmental disability (31 questions)
- PROVIDER: of services for persons with an intellectual or developmental disability (14 questions)
- STAKEHOLDER: with an interest in services and supports for persons with an intellectual or developmental disability (7 questions)

### Summary Statistics:

				#	of Surveys					
Category	Type	# of	Completed				Coreo		Incomplete	
		Questions	Total	On-tine	Paper	Ave Time*	incomplete			
MH/SA	Consumer	25	25	20		15	25			
	Caregiver	25	39	30	9	10	25			
	Provider	18	59	56	3	21	22			
	Stakeholder	10	20	20	0	16	10			
00/10	Consumer	29	9	7	2	16	21			
	Caregiver	31	42	\$7]	3	17	25			
	Provider.	14	28	27	1	15	10			
	Stakeholder.	7		8	0	12	14			

\*Minutes

The survey results included in the Needs Assessment are presented in two forms:

# Individual Survey Write-up:

This format highlights key statistics from each survey type/question and is summary in format. However, each write-up does contain the full text of all comments made by respondents.

# Survey Data Analysis Write-up:

This format highlights aggregated responses across similar questions in the consumer and caregiver responses. Data are presented for: services received; services needed but not received; barriers; comments; and demographics. The "barriers" section includes a sidebar note on Provider and Stakeholder responses.

For most respondent groups, there were enough responses to conduct an analysis and report on findings. We had hoped that, by making the survey tools anonymous, available for three months, promoted broadly, and with all responses optional, we would learn from people outside of our immediate spheres, including those who are not aware of funders, those who have limited time, and those who experience stigma. While this appears to be the case for most groups, the responses from people who have ID/DD were still very low. To mitigate this low response rate and supplement the results reported from that survey, we have included results from the "ISC Preference Assessment" of people with intellectual and developmental disabilities served by Independent Service Coordination Unit at the Champaign County Regional Planning Commission, Excerpts of the "ISC Preference Assessment" are included in the body of the needs assessment and discussed briefly below.

On June 27, 2018, the CCMHB and CCDDB were presented with summaries of the individual survey results and an addendum with complete copies of each survey and results. The Survey Data Analysis is a new addition to compiled results. Included in the attached 2018 Needs Assessment are the Survey Data Analysis and the Individual Survey results summaries for each of the eight surveys.

### Mental Health/Substance Use Disorder Survey Data

Aggregated consumer and caregiver responses reflect the breadth of services these respondents had received. The most frequent response of the few identified for "Substance use services received" was "Do not receive SUD services." One cannot discern from the survey whether this represents a lack of access to treatment or lack of interest in receiving treatment. Not reflected in the survey responses is experience with the prevention focused activities intended to build resiliency in youth, families, and community which the Board has invested in and expanded over time.

"Services needed but not received" overlap with the "services received" responses on mental health. The differences between the two categories indicate limited capacity restricting access. A drop-in center does not currently exist; nor does a triage center. Both continue to be topics of on-going discussions and are referenced in other assessments. The few substance use disorder responses again point to not receiving services. In that the category is "Services Needed but Not Received," this may indicate desire to engage in treatment but no access. Inability to access treatment for co-occurring disorders is also on this list.

Barriers identified most often by consumers and caregivers are:

- · length of time to engage in services;
- · not believing services will help;
- · provider cannot meet their need; and
- inability to pay.

Providers and stakeholders express similar themes to those of consumers and caregivers, with comments about barriers consumers face including:

- financial issues including insurance coverage;
- · not aware of services available
- don't know how to access services:
- wait time to engage in services;
- · transportation; and
- · stigma,

# Intellectual/Developmental Disability Survey Data

Aggregated consumer and caregiver responses reflect breadth of services respondents had received. Regarding "Services needed but not received," in a few instances, these overlap with "services received" responses. As expected, Respite was identified as a needed service. Recreation supports and transportation were the most frequent choices for services needed. Employment Supports and Services was the third most frequent choice for "services needed but not received."

Barriers identified most aften by consumers and caregivers are:

- Transportation
- Financial issues

- Stigma/embarrassment/fear
- · Waiting list

# Barriers identified most often in Provider surveys:

- Transportation
- · Don't know how to access services
- Unaware of services availability
- · Eligibility of services
- Financial Issues

## Stakeholders identified three of the same barriers as Providers:

- Unaware of service availability
- Transportation.
- Financial Issues

Common themes among the comments made by Caregivers were the desire that loved ones lead a happy, healthy, and safe life, and that they be respected, independent, and part of their community.

#### "ISC Preference Assessment"

Independent Service Coordination Unit at the Champaign County Regional Planning Commission (CCRPC) (included with CCDDB Needs Assessment but not attached here)

The Preference Assessment, completed by the CCRPC Independent Service Coordination Team, has been completed for the last three funding cycles and has consistently revealed that people with EDD want to go out to eat and to the movies or to recreation/sporting events. Each year, people have also revealed that they need supports with Independent Living Skills, and for the past two years, people stated that they needed transportation and vocational supports as well.

# DHS Division of Developmental Disabilities Prioritization of Urgency of Needs for Services (PUNS) (included with CCDDB Needs Assessment but not attached here)

According to DHS-DDD's Prioritization of Urgeney of Needs for Services (PUNS) data, Champaign County has 417 active PUNS cases and a total of 870 PUNS, which includes those who have been closed, are deceased, no longer need services, or were clinically ineligible. According to DHS PUNS data, people requested Personal Support fineludes habilitation, personal care, and intermittent respite services), Behavioral Supports (includes behavioral intervention, therapy, and counseling), Speech Therapy, Transportation supports, and Support to work in the community.

# Champaign-Urbana Public Health District 2018 – 2020 Community Health Improvement Plan

The Champaign-Urbana Public Health District (CUPHD), in collaboration with the two hospitals and United Way, conducts a Community Health Assessment and Community Health Improvement Plan every three years. The Champaign County Mental Health Board and Champaign County Developmental Disabilities Board have been invited to join this collaborative process. Excerpts from the current plan are referenced below and included in the attached 2018 Needs Assessment. Charts and tables were originally published in color and may not be as readable in black and white format. Readers are referred to the CUPHD website to view the documents in color. The Community Health Improvement Plan aka IPLAN can be found on the CUPHD website at http://www.c-uphd.org/

The Community Health Survey conducted as part of the assessment process surveyed 700 Champaign County residents. The top five health concerns identified by respondents to the survey were:

- Mental Health.
- Alcohol and Drug Abuse,
- Gun Violence,
- Obesity, and
- Domestic Violence.

At a public meeting, community stakeholders and other interested parties identified three priorities out of the five health concerns. Work groups have been established setting goals and objectives related to each of the three priorities.

Behavioral Health: increase capacity, create behavioral health triage center, promote education and training on mental and behavioral health to reduce stigma, provide youth targeted prevention programs

Reducing Obesity and Promoting Healthy Lifestyles: improve access to healthy food options, expand physical activity prescription program, and increase access to physical activity

Violence: promote police-community relations, increase community engagement, and reduce community violence through partnering with local initiatives

Included in the CCMHB Needs Assessment are the following charts and tables from the CUPHD Community Health Improvement Plan (CHIP):

Health Resources and Indicators Table: Compares various resources and indicators for uninsured, healthcare providers, cost. Of note is the low rate of uninsured children, the rate of mental health providers, and healthcare costs.

Uninsured Percentages Chart: Champaign County, the first column in the chart, has seen a significant decline in the uninsured rate from 2011 to 2017.

Mental Health Care Provider Ratio Table: Champaign County has a higher ratio of providers compared to state and national rates. Narrative accompanying the table indicates Champaign County has experienced a significant increase in providers between 2010 and 2016.

Total Crime Index-Champaign County: Compares rates of various violent crimes and change in rate between 2012 and 2015. While many categories have seen decreases, murder, theft, and motor vehicle theft have increased during the period.

Gun Related Deaths in Champaign County: Table shows changes in gun related deaths over a six-year period. With the exception of 2014 and 2016, there were more suicides committed with a gun than homicides. Since 2011, the suicide rate, by any means, has been increasing in Champaign County.

Drug Deaths by Drug Type, Champaign County 2011-2015: Opiate (46.3%) and opiate plus another drug (10.2%) account for over 56% of all drug related deaths. Some were determined to be suicides, others accidental overdoses. Narrative accompanying the chart provides additional detail on all drug related deaths including demographics.

PROMPT Opiate Non-Fatal & Fatal Overdose Rates (Various Charts): The Partnership to Reduce Opiate Mortality and Promote Training (PROMPT) is a grant funded Multi-County Task Force led by the CUPHD to provide training and resources to prevent opiate overdoses. PROMPT produced the various charts and tables for the east central Illinois region served by the Task Force using state compiled data.

Additional tables, charts, and maps on mental health, alcohol and other drug use, and community violence not included here can found in the CHIP/IPLAN at the CUPHD website previously referenced.

# Justice Mental Health Collaboration Program - Planning Grant Final Report (Needs Assessment includes Sequential Intercept Map & Gaps Analysis)

Champaign County was awarded a United States Department of Justice "Justice and Mental Health Program - Planning Grant" in 2015. The CCMHB provided matching funds and representation on the planning body, the Crisis Response Planning Committee. A presentation on the results was made to the CCMHB on September 20, 2017. A copy of the report submitted to Department of Justice is included in the Needs Assessment.

Recommendations made by the Crisis Response Planning Committee, as a result of the gaps identified during the planning process:

- Establish a Behavioral Health and Justice Coordinating Council (BHJCC) to oversee all CJ/BH activities;
- 2. Implement risk-needs-responsivity screening (I.SI-R) at earliest point in the criminal

- justice process, to inform decisions throughout the system;
- 3. Enhance initial response with provision of a Co-Responder Model;
- Provide behavioral health and case management support to the Public Defender's Office:
- Gather data to determine the level of need, capacity, and budget required to institute
  and maintain an Assessment Center where law enforcement can take persons with
  MI/COD, instead of jail or the hospital (envisioned to include assessment for MI,
  SUD, and Criminogenic Risk, crisis stabilization, emergency respite services, a living
  room model, and medical detox services):
- 6. Enhance reentry services specifically for the population with MI/COD; and
- Ensure adequate resources and facilities for community behavioral health providers working in the jail.

The Final Report includes Appendix A. Champaign County Sequential Intercept Map (SIM) completed during the planning process. The SIM references existing resources broken out by policy/practices, evidence-based programs, relevant data, and services. A map (flowchart) of community resources across the five intercepts appears at the end of the appendix. Appendix B. SIM Chart identifies gaps and limitations across the five intercepts. The SIM is an assessment of the criminal justice-behavioral health system as it existed at that point in time. The appendices are included in the Needs Assessment with full report available on request.

### CIT Response Report (8/1/17 - 7/31/18)

The Urbana Police Department (UPD) compiles data on Crisis Intervention Team (CIT) responses with results reported at each bi-monthly meeting of the CIT Steering Committee. Included in the Needs Assessment is an analysis of twelve months of data. The reports are the work product of Melissa Haynes at UPD.

Data are collected through a uniform CIT contact form used by the five jurisdictions: Champaign, Urbana, Rantoul, and University of Illinois Police Departments, and the Champaign County Sheriff's Office. Data included in the report exclude Rantoul Police CIT contacts due to a reporting anomaly that is being investigated.

Analysis is comprehensive starting with volume of CIT contacts, including frequency of contact by jurisdiction, day of week, and time of day. Followed by demographics on those whom law enforcement is engaging at the scene and whether the contact involved a CIT trained officer, and if a crisis team or other provider offered support at the scene or by telephone. Nature of the incident (i.e., reason for an officer being dispatched), followed by symptoms displayed at the scene, and outcome of the contact, delve into the nature of the call on how resolved. Petitions represent those persons transported to an emergency department. Being the most frequent "nature of incident" and "symptom", additional detail on suicide calls is included in the report. Closing out the report is an analysis of repeat contacts by officers with individuals.

# Champaign County Continuum of Care - Point in Time Count

The Continuum of Care conducts a "Point in Time Count" of persons who are homeless on one day in January. The count is required by the U.S. Department of Housing and Urban Development, with results reported to Congress, and forms the basis for allocation of federal funding to address homelessness. The survey provides a snapshot of how many people are homeless at the point in time the survey is conducted. The Point in Time Count includes the number of persons residing in emergency shelter and transitional housing and those found to be unsheltered, such as living on the street or in cars. Two sets of data are included in the Needs Assessment related to the Point in Time Count:

- Chart presenting longitudinal data for years 2014 through 2018 for the "Point in Time Count." Data are broken out by sheltered population — emergency shelter (ES) and transitional housing (TH) and for unsheltered. Demographic data are for all persons counted in the survey.
- Various tables, specific to the results of the 2018 Point in Time Count. Tables, again
  broken out by sheltered and unsheltered, provide details on various subgroups of the
  homeless population included in the count. Data sets include households with
  children, children only, and adults only. An additional table, "Other Homeless
  Subpopulations" references those surveyed who identified as having a mental illness,
  substance use disorder, HIV/AIDS, or victim of domestic violence.

More information on the Champaign County Continuum of Care and the Point in Time Count survey can be found on the Champaign County Regional Planning Commission website, https://ecspe.org/committees/continuum-of-care/

# Hlinois Youth Survey - Champaign County, 2016

Every two years, participating middle schools and high schools complete the Illinois Youth Survey administered by the Center for Prevention Research and Development at the University of Illinois under contract with the Illinois Department of Human Services. Only students in 8th, 10th and 12th grade may complete the survey. Included in the 2018 Needs Assessment are a brief overview of the survey followed by demographic data and selected charts and tables. Data presented are participants responses to questions on use of alcohol and other drugs, violence and bullying, and mental health from the 2016 Illinois Youth Survey County Report for Champaign County. The full report can be found at: https://livs.cprd.illinois.edu/

<u>Drug Prevalence and Behaviors</u>: Series of tables presenting survey results on reported substance use rates by grade, first age of use, and frequency of use for alcohol and other drugs.

<u>Drug Use Contributing Factors</u>: Series of tables on respondents' perceptions on personal use of alcohol and other drugs, use of alcohol and marijuana by peers compared to actual use rates, and perceived risk of use.

Interpersonal Conflict, Violence, and Delinquency: Series of tables on respondents' experience involving delinquent behaviors, bullying, and dating violence.

Mental Health Concerns: Series of three charts on respondents indicating having "experienced depression" (8th grade survey), and for "experienced depression and considered suicide" for 10th grade and 12th grade survey. Grade specific results are compared to prior survey results for all Illipois students.

### Health Disparities

Substance Abuse and Mental Health Services Administration (SAMHSA) statement on health disparities. The one-page overview identifies groups where behavioral health disparities persist:

- Racial and ethnic groups
- Lesbian, gay, transgender, and questioning (LGBTQ) populations
- · People with disabilities
- · Transition-age youth
- · Young adults

Links to additional resources are embedded in the overview. For more information on the topic, go to https://www.samhsa.gov/health-disparities

# Champaign County Indicators of Well Being

A general assessment of how well Champaign County compares to the state as whole is provided here. Various indicators are used by the two entities preparing the respective reports to present an assessment of how well Champaign County fares. For additional context associated with each report, visit the webpages referenced in the brief overview.

2017 Kids Count Profile (Champaign County): Voices for Illinois Children publishes the Kids Count Profile. The profile is a series of indicators of child well-being across the domains of health, family and community, economic security, and education. Kids Count Profiles can be found in the publications drop down menu at Voices for Illinois Children webpage: http://www.voices-kids.org

(Champaign County): The Social IMPACT Research Center at Heartland Alliance produces the referenced report. Similar to the Kids Count Profile, the Poverty Report identifies a series of indicators across six domains: Well-Being Index; Poverty and Income; Employment: Education; Housing; Health & Nutrition; and Assets. Data specific to Champaign County are included in the Needs Assessment. For more information on the Illinois Poverty Report, go to: http://doi.org/10.18.ilpoverty/eport/org/county/champaign-county/#

#### CCMHB Allocation Trends Data

Over the last couple of years, CCMHB staff has prepared various tables and charts on the allocation of resources for the Board's consideration. That information is revisited here.

PY2019 Allocation Tier Sheet: Newest addition to allocation decisions by the Board. The tiers align with the priorities selected by agencies in the application for funding.

Criminal Justice - Behavioral Health and Other Funding Priorities (PY13 - PY18): Presents table and chart of past allocation decisions over a six-year period. Funding is grouped based on staff assessment of the application and population served. A breakdown of allocations within the Criminal Justice-Behavioral Health Priority is also included as a separate table and chart.

CCMHB Appropriation by Sector, Population, and Type of Service (PY16 - PY19): Contract awards by primary disability sector, primary population served, and type of service are presented in table and chart formats. The CCMHB Annual Report presents this same data for the respective fiscal year, in a different chart format.

Comparison Population Characteristics to CCMHB Population Served (PY15 - PY17): Census data for age, race, ethnicity, gender, and residency are presented along with CCMHB data on population served. Data specific to poverty are presented in table and chart formats. Separate tables and charts comparing census data and CCMHB population data are also included.

## National Prevalence Rate Statistics and Related Articles

To close out the Needs Assessment, an overview of prevalence rates is provided for reference. Not included are data specific to Illinois or Champaign County.

National Institute of Mental Health: General overview of prevalence rate for mental illness in the United States. Narrative and tables present prevalence for any mental illness and severe mental illness in past year for adults by age, race, and gender. Additional tables on adults receiving treatment are also included. For information including prevalence rates for specific mental illnesses, go to: <a href="https://www.nimh.nih.gov/health/statistics/index.shtml">https://www.nimh.nih.gov/health/statistics/index.shtml</a>

Prevalence of Depression Among Adults Aged 20 and Over: United States, 2013 - 2016: Article from National Center for Health Statistics on prevalence of depression in adult population.

Estimated Prevalence of Children Diagnosed with Developmental Disabilities in the United States. 2014 - 2016: Article from National Center for Health Statistics on prevalence of children with developmental disabilities.

# Mental Health/Substance Use Disorder Survey Data Analysis

#### Focus Areas:

- Services Received
- · Services Needed But Not Received
- Barriers to Receiving Services
- Comments: Service Needs or Gaps
- Demographics

#### SERVICES RECEIVED:

MENTAL HEALTH: Combining -

Consumer - Q5. What mental health services have you used or are you getting now? CHECK ALL THAT APPLY.

Caregiver - Q5. What mental health services have they used or are they getting now? CHECK ALL THAT APPLY.

SERVICE	96
Therapy or Counseling	69%
Psychiatry	58%
Medication Management	47%
Called a Crisis Line	3196
Coordination of Services Across Providers	23%
Inpatient Hospitalization/Residential	23%
Integrated Primary Care & Behavioral Health Services	22%
Care Coordination	19%
Day treatment/partial hospitalization	1436
Anger management services	13%
Peer support services	13%
Crisis Team	1196
Group services counseling	11%
Respite services/crisis stabilization	1196

#### SUBSTANCE USE DISORDER: Combining -

Consumer - Q7. What substance use disorder services have you used or are you getting now? CHECK ALL THAT APPLY.

Caregiver-Q7. What substance use disorder services have they used or are they getting now? CHECK ALL THAT APPLY.

SERVICE	56
Do Not receive SUD services	54%
12-Step Program	13%
Therapy/Counseling	11%

#### SERVICES NEEDED BUT NOT RECEIVED:

MENTAL HEALTH: Combining -

Consumer - Q6. What mental health services do you need but are NOT getting now?

CHECK ALL THAT APPLY I need.

Caregiver - Q6. What mental health services do they need but are NOT getting now?

CHECK ALL THAT APPLY. They need.

SERVICE	96
Case management or other professional who helps link you (them) to services and resources	17%
Employment support services for person with mental health issues	17%
Coordination of services across providers	16%
Therapy or counseling	16%
Peer support services	1336
Anger management services	1156
Drop in center (peer-run)/"Living Room" Model	11%
Medication management	11%

#### SUBSTANCE USE DISORDER: Combining

Consumer - Q8. What substance use disorder services do you need but are NOT getting now. CHECK ALL THAT APPLY. I need.

Caregiver - Q8. What substance use disorder services do they need but are NOT getting now. CHECK ALL THAT APPLY. They need.

Service	%
You/They do not receive substance use disorder services.	11%
Both mental health and substance use disorder services (to-occurring) from same or different agencies.	8%
12-Step Program	8%
Do Not Know	6%

#### BARRIERS:

Nate: Not specific to either MH or SUD.

Common answers (Consumers & Caregivers) - "Often" - by more than 14% of respondents combined.

Barrier	36
Have to wait too many days to get services	19%
Don't believe services will help	17%
Can't pay for services	14%
Don't think the service provider meets their needs	1496

#### NOTE:

Provider respondents noted as "Often" barriers/Issues to include: Insurance coverage; Financial Issues; Stigma; Don't know how to access services; Transportation; Wait too long for services.

Stakeholders: Unaware of service availability; Transportation, Financial.

#### COMMENTS (SERVICES/GAPS):

Summary of:

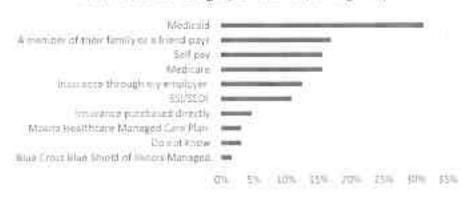

Consumer: 24 responses combined Consumer & Caregiver - Themes:

- · Psychiatrists:
  - Students need for Psychiatric and other long-terms services; too long to get appointment;
  - Auto call back suggested instead of being on-hold for long period of time.
  - Specialty care (ie eating, mood, behavioral, substance use
  - Need more quality psychiatrists in the county
  - Need one-stop facility for children including psychiatry
  - Shorter wait-lists
  - MH system in Champaign Urbana 'very poor' not enough qualified psychiatrists.
- Emergency departments: More training to deal with those with acute panic
- Can't afford services even with sliding scale.
- Living room model:
  - Need peer-run living room project
  - Would be good and at least staff for peers for talking
- Psych & Counseling: too long between need and availability
- Education needed for parents re: step-down and transitional services
- Service coordination desired
- Children's service not adequate

- Respite:
  - Need info on how and where to obtain
  - Need more such services.
- PTSD services

DEMOGRAPHICS: % of respondents that answered insurance Coverage:

Insurance Coverage (Consumer/Caregiver)

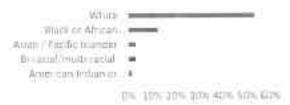

Residence:

Race;

Where I/They Live

Race (Consumer/Caregiver)

### Language:

- English (39%); Spanish (2% Spanish); Balance Did not answer
- NOTE: 53% of Provider respondents stated they provided "Language Access & Communication Assistance Services"

### Hispanic Origin:

- No (67%); Yes (3%); Did Not Answer (30%).
- NOTE: 83% of Provider respondents stated their agency serves persons of Hispanic or Latino/a origin.

Gender (Consumer/Caregiver)

lesse

Timbeender

INTRODUCTION: Twenty Five (25) complete responses were received and processed via on-line and manually.

#### Initial Questions:

Question	Yes	No	Don't know	% Yes
Nave you been told that you have a mental health diagnosis?	24	1	0	96%
2. Have you been told you have a substance use disorder diagnosis?	20	5	0	80%
3. Have you been screened?	18	4	3	72%
4. Have you had an assessment?	21	2	2	84%

What mental health services have you used or are you getting now? CHECK ALL THAT APPLY. Above 25% -

Item	# Selected	96
Psychiatry	20	80%
Therapy or counseling	18	72%
Medication Management	14	56%
Integrated primary care and behavioral health services	8	32%
Coordination of services across providers	7	28%
Called a Crisis Line	7	28%

#### Other Services:

I see a psychiatrist and get medication for anxiety condition.

Medication management through psychiatrist, Intensive Outpatient treatment (IOP)

Psychiatric & Neurologic care

6. What mental health services do you need but are NOT getting now? CHECK ALL THAT APPLY. I need....

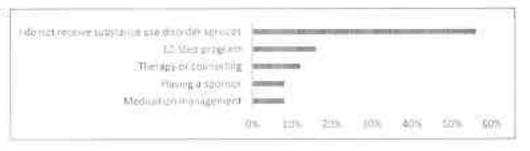

Only 2 options had more than 2 persons responding and each had 3 responses: Peer Support and Do Not Know

#### Other Services Needed:

EMDR for complex PTSD.

Either more intensive or specified therapy for my diagnosis/diagnoses and concerns.

 What substance use disorder services have you used or are you getting now? CHECK ALL THAT APPLY. Top 5 responses:

#### Another Type of Service:

Peer run living room project I do not have substance abuse issue None

9. What barriers do you face when trying to get services? Top responses by Response category:

RESPONSE	QUESTION	96
Often	I feel embarrassed or afraid	16% 16%
	I can't pay for services	16%
Sometimes	I have to wait too many days to get services	36%
W 0-10	I can't pay for services	28% 16%
	I feel embarrassed or afraid	16%
	I cannot get services at hours that are convenient for me	16%
	I don't think the services I need are available in my area.	16% 20%
Seldam	I do not try to get services

	I don't believe services will help.	20% 16%
	I cannot get services at hours that are convenient for me	16%

#### Another kind of barrier:

ER Services inadequate for mental health care (acute)

My own depression makes it hard to follow through.

My psychiatrist does not prescribe prazosin for PTSD according to the VA protocol or any other PTSD medication protocol

10. If you have been arrested and booked into the jail, have you received any of the following services while in jail?
CHECK ALL THAT APPLY.

#### MENTAL HEALTH SERVICES

#### SUBSTANCE USE DISORDER SERVICES

Counseling/therapy - Once Case management - Once Psychiatry - Once Screening - Once Assessment Once

Assessment -Twice

None of the above - Twice

Counseling/therapy - Once

Case management - Once

Screening - Twice

Other: For alcohol abuse, I used AA for 13 years. I am 22 years sober now.

10. If you have been arrested and booked into the jail, what barriers do you face when trying to get services while in jail? Only one option was answered more than once in the "Often"/"Sometimes."/"Seldom" categories:

I do not know what service are available [Twice/8%]

#### Other:

Was only in jail for a few hours at a time, did not consider asking about services

12. Is there anything else you would like to tell us about your experience getting mental health and/or substance use disorder services? Comments include:

As someone on Medicaid/Medicare, I can say that it is difficult to receive even the same basic care as someone with good insurance

# Champaign County Mental Health Board MHSUD\_Consumer Survey

Report/Results

For people in our area who do not have insurance, there is limited assistance available. For people who need detox for drug or alcohol abuse, there is nowhere anymore that does this as a medical detox, unless you have insurance. People have to leave this county and have a way to do that to gethelp. Otherwise, it falls on the hospital emergency departments.

Good therapists who accept Medicaid are extremely difficult to find, this leaves me settling for substandard care with therapists who do not understand my diagnosis.

High turn-over of counselors, case-managers. Indifference/lack of understanding/compassion of psychiatrist

I really need weekly service. It is very hard to find someone who can provide this because of a combination of my low income and the shortage of providers.

I'll most likely live in CU all my life because I can't imagine what it would be like to live in another town. I don't think there is a single town/city like Champaign/Urbana. Not only would I not get the same help, I'd be leaving close friends.

It was difficult finding a therapist/psychiatrist that was covered my insurance and even now, it's hard meeting that deductible. A lot of it is money issues, especially since I am a student and having withdrawn from the University had me lose a lot of benefits that I previously had.

No

Primarily, I do not seek further treatment because I am receiving counseling services from the University of Illinois. Although I am not seeing an eating disorder specialist, I believe counseling helps momentarily, but does not help with receiving "homework" or tips to practice between sessions. Secondly, I do not seek further mental health treatment because I worry about the financial costs to my parents, since they pay for my treatment. When I become financially independent, I do not want the costs to become a burden

I wish it was easier to be able to see a psychiatrist. I wish that universities and middle and high schools discussed when you should get help and steps to getting it.

13. Based on your experience, is there a service need or gap about which you would like to tell us? If so, please describe. Comments include:

EMDR for PTSD

I believe there should be more accommodating services for people who are in school and out of school. Even when I was enrolled in the University, it took me at least a semester to get in touch with a therapist.

No

Providing better, longer-term services for college students. Providing students with specialty care (e.g., eating, mood, behavioral, substance use, and other disorder specialists). Providing better mental health and substance abuse treatment opportunities for incarcerated individuals.

There were times I wanted to get into counseling I could not afford even when fees were on a sliding scale

We desperately need a peer run living room project in our area.

YES. Seeing psych and counseling - too long of a gap between need and availability.

14. What is your job (employment) status? Two responses were selected by more than 10% responding -

I am working a job for pay (outside the home, home-based, etc) 32% I am retired and not in the workforce 12%

#### Other:

I am employed as a student taking a gap year.

I have a full-time job, a home business, and I'm in school.

I take employment not necessarily for money, but for practical time use. I am a volunteer receptionist at PACE, & sometimes help in various paper work, I or 2 days a week, about 4 hours a day.

Also answered: disabled & not in workforce; Student and not in work force

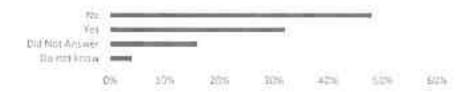

Applying for disability - attempting appeal process at the moment

I am a full-time student with a part time job

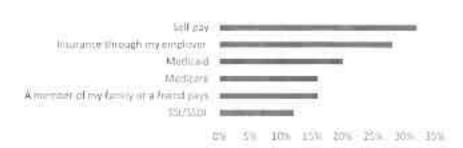

15. In the past 30 days, where did you live most of the time? 76% of the respondents responded -

Private home - Taking care of yourself (living alone, with friends, a partner, or family members)

#### 16. Do you have Medicaid?

17. How do you pay for your treatment/services? CHECK ALL THAT APPLY. Responses selected by more than 10% of respondents:

#### Other:

Father's insurance (BCBS-IL) and parents pay the outstanding co-pay balance. I'm currently under parent insurance. Hospital program [financial] Insurance I am able to purchase through being a student Parent's insurance blue cross blue shield.

18. Where do you live in Champaign County? Urbana - 10 (48%); Champaign - 7 (28%)

 What is your race and/or ethnic background? CHECK ALL THAT APPLY.

White 17/68%
Asian / Pacific Islander 2/8%
American Indian or Alaska Native 1/4%
Black or African American 1/4%

Other: Ashkenazi, Hispanic

20. Are you of Hispanic or Latino/a origin? Only one respondent answered "Yes"

21. What is the primary language spoken in your home?

3. Have they been screened?	28	4	7	O.	72%
4. Have they had an assessment?	3.2	2	4	1	82%

# 5. What mental health services have they used or are they getting now? CHECK ALL THAT APPLY. Above 25% -

ltem .	# Selected	96
Therapy or Counseling	26	67%
Psychiatry	17	44%
Medication Management	16	4199
Called a Crisis Line	13	33%
Case management or other professional who helps link them to services and resources	12	31%
Inpatient Hospitalization/Residential	11	28%
Care Coordination	10	26%

#### Other Services:

Has an IEP at her school

We had trouble finding suitable mental health services to help our family member. Living in Eden's Supportive Living and currently is not getting other services.

# 6. What mental health services do they need but are NOT getting now? CHECK ALL THAT APPLY. I need.... Top 4:

Item	# Selected	96
Case management or other professional who helps link them to services and resources	9	23%
Coordination of services across providers	9	23%
Employment support services for person with mental health issues	9	23%
Therapy or counseling	8	21%

#### Other Services Needed:

Someone to check to make sure they aren't still using substance. Some kind of follow-up or blood test.

 What substance use disorder services have they used or are they getting now?
 CHECK ALL THAT APPLY. Top 4 responses:

#### Another Type of Service:

I'm not sure. They met in Urbana in a building a block or so East of Lincoln St. Not far from 174. It might have been 12-Step program

# 8. What substance use disorder services do they need but are not getting now? CHECK ALL THAT APPLY

Only 2 options had 10% or more of respondents responding:

They do not receive substance use disorder services. 18% 12-Step program 10%

### Another Type of Service:

As per his neurologist, he needs medical cannabis to combat intractable seizures, but due to state laws it is impossible to administer it in the group home (CILA) where he resides. THIS DRACONIC LAW MUST CHANGE!

Recognition by the local mental health providers that substance abuse is extremely common for those with mental health issues, rather than treated disrespectfully when clients ask for help with substance abuse. A coordination of services in our community is vital.

# 9. What barriers do they face when trying to get services? Top responses by Response category:

RESPONSE	QUESTION	36
Often	They have to wait too many days to get services	31%
	They don't believe services will help	28%
	They can't pay for services	23%
	They don't think the service provider meets their needs	23%
Sometimes	They have medical issues	23%
	They do not know what services are available	23%
	They cannot get services at hours that are convenient for them.	21%
	They don't know how to find services	21%
Seldom	They have medical issues	8%
200000000	They have been told they are not eligible for services	8%
	They do not know what services are available	8%
	They don't know how to find services	8%
	They need transportation	8%
	They do not have insurance	8%

#### Another kind of barrier:

Not many choices in care providers and long waiting lists.

The young adult is involved with the legal system and has limited access to services.

They don't think they have a problem because they casually use the substance

Those who have been denied services should be given a second chance

Emergency doctor belittled subject for wasting his time w/ anxiety - needed else

# 10. If the person had been arrested and booked into the jail, have they received any of the following services while in jail? CHECK ALL THAT APPLY.

#### MENTAL HEALTH SERVICES

Psychiatry – Twice Assessment – Twice Counseling/therapy – Once Screening – Once

# SUBSTANCE LISE DISORDER SERVICES

None of the Above — Six Screening — Twice Counseling/therapy — Once Assessment — Once

### Substance Use Disorder Other Service

The only reason they went through a program was because their attorney said it would look good to the Judge if the case went to court

- If the person has been arrested and booked into the jail, what barriers do they face when trying to get services
  while in jail? None of the categories ("Often"/"Sometimes"/"Seldom") had any one option selected by more than
  8%.
- 12. Is there anything else you would like to tell us about the person's experience getting mental health and/or substance use disorder services? Comments include:

He received services in Champaign many years ago for several years with intermittent long and short term hospitalizations, but wasn't able to stabilize he was eventually hospitalized for about a year and then lived independently and was stable for more than 10 years due to very intense supportive services in another county. We wish those intense comprehensive services existed here.

Because he is receiving medical cannabis, no psychiatrist will see him (to consider change in his medication).

Extremely frustrating that the law enforcement officers do not seem to understand and pay attention to the fact that the person is trying to tell them about Bipolar and Traumatic Brain Injury

#### Hard to a cess

I believe she is currently homeless on the street (possibly sleeping in the parking garage) in Urbana. She has been estranged from her family for many years so we are not sure if she has been diagnosed or ever received services other than treatment for ADHD. She is probably challenged with schizophrenia. Lives on the street, carries large garbage bags with garbage and talk/yells to herself, Likely doesn't believe she needs help,

I believe subject should have been inpatient and not left in the community to fend for self. Barriers from within like fear prevent seeking services in crisis.

I don't think it was a lot of services

My daughter has mental health issues, developmental disabilities and substance abuse issues. Because she appears to be "normal", communication issues always develop. Because of misunderstandings she has been denied services at Rosecrance or Champaign County Mental Health and the Pavilion. I wish providers would look at the whole person, rather than just treat mental illness or developmental issues or substance abuse, but sadly that is not the case.

We are able to pay for services and struggled to find good assessment and therapy options. The barriers for families with fewer resources must seem insurmountable. It was a frustrating and difficult time for our family.

Doctors and health care providers do not coordinate on drug interactions, side-effects etc. do not, in fact, act like they are allowed to talk to each other directly.

Help with appropriate job search.

13. Based on your experience as a family member, caregiver or guardian, is there a service need or gap about which you would like to tell us? If so, please describe, Comments include:

Given he has been involved with the legal system since he was 16, I was surprised to find out that he did not receive help connecting with the services he needed at the time. Therefore, it would have been helpful as a family member to have an understanding of step down and transitional programs for youth and their families.

Having had 2 children with mental health issues, I can say there is a tremendous service gap in our community. All of the agencies should be working together to provide services. Quality psychiatrists should be hired for our county and we need more psychiatrists. I believe our local police force is better trained and more understanding than our county psychiatrists.

He has recently moved to Champaign, and still sees a doctor he likes in Springfield. He seems to have trouble often getting the correct meds. I would like him to have someone who could coordinate various services for him. Right now his mother does it, and it is a terrible burden on an aging parent with health care issues of her own.

It has been a nightmare to get good, consistent help for my son with ADHD. This is a common condition and early intervention greatly improves outcomes (which helps every person in our society), so why in the world do I feel all alone fighting for my son? The wait lists at Carle for psychology are months-long, many of the service providers at private counseling centers are not well-trained for children with behavior disorders, and there are no parent support groups or respite services. Once you've been dealing with this problem for a few years you begin to get your bearings but it should not take that long. There should be a "one stop shop" for mental health, especially for children, or at least a "What do I do now" guide specific to C-U resources.

More psychiatric services and shorter waiting lists.

#### None

One of my children is very high needs but has been excluded from Choices services, one has no services but doesn't want to be excluded from activities my other 3 receive.

PTSD services/supports for non-veterans

Someone to keep him on track at school. His behavior is an issue.

Stabilization on an inpatient basis is needed, rather than leaving in community. This results in ER visits and "meltdowns" due to fear and in my opinion neglect on the part of providers who expect patients to seek services during business hours.

The mental health system in Champaign-Urbana is very poor and NOT enough qualified psychiatrists and Christian counselors! The need is great and the providers are few!

They do not listen, the family like the parent

We really need a place where individuals with mental health issues and their family members can drop in for talking!!! Then refer to other resources. Living Room model would be good but at least staff a location 11am-7pm with peers for talking. Could keep a lot of individuals from the ER or Jail.

Wish there was a place she could stay by herself cause she gets kicked out of shelters for behavior issues.

How and where to go to get respite care.

Need more respite type services, voluntary/involuntary mental health services have become scary

#### 14. What is their job (employment) status? Three responses were selected by 10% or more responding -

They are a student and not in the workforce – 13%. They are unemployed and not looking for a job – 10%. They are disabled and not in the workforce – 10%.

#### Other:

He would like to work, but needs guidance to seek and apply for appropriate work. He has not had a job for more than 20 years.

He would probably like to eventually find a job but is not currently looking.

They are employed part-time.

Unable to keep a job because bipolar condition and traumatic brain injury grupts and causes problems. Works for DSC at a sheltered facility.

#### 15. In the past 30 days, where did they live most of the time? Two responses were selected by 10% or more responding.

Private home: Taking care of themselves (living alone, with friends, a partner, or family) – 21%

Private home: Someone helping to take care of them-relying on others to help them live in this setting – 13%

#### Other:

Also - Crisis Facility
Assisted living facility for the physically disabled.
Assisted living facility with our 94 year old Father.
Eden's Assisted Living

Other barriers:

Culture competency

Home & Office Visits

In the absence of county funding there would be a more significant barrier in supports and services due to the number of individuals and families that are 'in line' for state funding. While they are eligible by definition, they do not have access to state funded services. People with no personal means to pay for services would go without as they wait for access to services based on PUNS selection process and state resources. At the state level, there is also a 'one size fits all' rate structure for many services regardless of the individual needs of each person leading to inadequate funding for personalized supports.

Language Spanish speaking providers.

Even with sliding scale, many people cannot afford even a small copay for counseling.

Lack of coordination/follow through

Stereo type persons with dementia or disability that mental health treatment couldn't help. Blame problems on the disease not mental health.

#### 16. As a provider, are your services office/facility based or delivered in natural settings or both? (Please explain.)

Office based facility

All our groups and social activities meet in a community setting

Both in office and in home, or facility

Both, in office and client's home

Both. By definition, some services are location-based, but all others are located wherever is most convenient and helpful to the person(s) seeking service.

Both: counseling and advocacy office//facility; 24-hour hotline delivered wherever the person calls from. Sexual Violence Prevention Education delivered in schools, churches and community centers.

Delivered in natural settings
Delivered/offered in office/facility.
Facility based.
Meet in available places that do not charge for use.
My services are provided in an office building.
Office, group homes, family residences, individual residences
Office/facility based

Outreach services for people with Substance Abuse/mental health disorders access to care remains a problem getting clients connected with services they need

Private practice office setting

Services are offered/provided in individual/family homes, community locations, daycare centers, and in center

Services both ways

34

# Champaign County Mental Health Board

#### MHSUD\_Provider Survey

Report/Results

We provide services primarily in natural settings. Services can be provided in the home or in the community. Whatever works best for the client.

Yes, we go out to homes both both office and in home facility based, their base, in nature going for walk office office based

yes. We serve our clients primarily in their own homes but can see them in the office or the community if they prefer.

# 17. Do you have other comments regarding service needs or service gaps in your area that you would like us to consider?

Detoxification outside of the pavilion. Medication assisted therapy including Suboxone and methadone for statefunded treatment facilities.

As state resources become available, people that are supported through county-funding convert to state funding. This typically creates opportunities for people that are waiting for state funding to have an opportunity to access services which is one of the most significant benefits to county-funded service delivery. While all funding is limited, access has definitely improved as a result of CCMHB and CCDDB funding.

Better funding of mental health services. As a business, I'm unable to afford to provide counseling services to the most vulnerable population because the reimbursement rates of Medicaid (and the copious amounts of unnecessary paperwork required only by Medicaid and Medicare) do not even cover my costs.

Carle/Health Alliance should expand their network of mental health providers and also provide at least some reimbursement for out-of-network providers to allow more clients/patients access to specialized mental health care (specifically trauma-informed) with shorter wait times for intake.

Genatric mental health assessment

I am deeply concerned about the gaps in services for people without great insurance and waits for people with Medicaid. There are also fewer holistic services for individuals living with severe psychiatric disorders.

Mental Health Court would divert some from the judicial system.

No/None

One suggestion is to create a list of all the services and providers in the community. Then, publish the list on this website and, maybe, promote said services/providers. It would help the process of identifying appropriate services and facilitate the referral of clients. Moreover, in my experience, some providers and agencies might benefit from establishing partnerships to provide services. For example, one provider might provide mental health counseling while another agency/provider provide treatment for substance use.

Also, there is a considerable need for Spanish-speaking providers of mental health services. Some providers have left the area in pursuit of better economic opportunities. Perhaps the board can create some incentives to retain providers.

# Champaign County Mental Health Board MHSUD\_Provider Survey

Report/Results

Overall, there is a lack of needed services - nothing stands out, as people's unfulfilled needs are diverse and constant.

Services for autistic spectrum disorders including patient and family are non existent in Champaign County. The most frequent request that goes unmet is for child psych.

There are many

There is a need for more mental health services for all populations in most areas outside of Champaign/Urbana. There is not enough to go around/meet the growing need!

While many services are available, a great many of them are for Medicaid only or have prohibitive waiting lists.

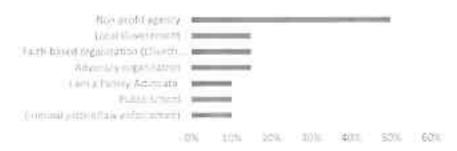

18. Do you as a provider serve people outside Champaign County? Yes: 44%; No. 19%; Did not Answer: 37%

	Medical issues	25%
Seldom	No other services answered more than once	896

#### Other:

How quickly they can receive help in the moment they are in crisis and the length of the service they are provided.

10. Please tell us about service needs or service gaps you have experienced that you want brought to our attention.

Respite services and parent peer support

Sober housing, homeless sheltering, and medical treatment for psychological issues, including and many times leading to substance abuse. These services are limited, and do not have the availability, resources, and proper therapeutic value for more rehabilitation of derelict members in society to get a chance to get better and become less of hazards in our community and more of contributing and docile members of the public. We need LONG TERM recovery housing as well as homeless housing. We need assistance available to send case workers to people s homes, and even doctors, and/or better transportation availability for people with no money. They also need better means of how to find the help, like the 211 line.

There is a tremendous need for housing [i.e. rent subsidy] for people with developmental or mental disabilities whose sole source of income is SSI. Far too many are homeless simply because of their low incomes. People with developmental disabilities or mental health issues can't quality for any help through Housing Authority if the individual has had any criminal involvement — unless at least 5 years has passed since completion of any sentence or probation. As a result, some of the most vulnerable people in our community have no housing and no hope of acquiring housing at any time in the foreseeable future. Housing Authority's policy must change and we need more subsidized housing options for people with disabilities.

Transportation and child care are the two most often cited when I work with families. In addition, the lack of flexibility/not getting their schedule ahead of time with employment makes it very difficult to make it to appointments while trying to hold a job.

28. Did anyone help you fill out this survey? No: 56%; Yes: 11% Did Not Answer: 33%

#### 29. Is there anything else we should know about you?

I am a stroke survivor who suffered an absence seizure in 2016. I am currently taking Keppra, feet fine now, but am having visual distrurbances in my left eye (the stroke affected my left side as well) but can see ok. I will visit my neurologist through his nurse practitioner in December and may need my eyes checked out.

I do not like DHS or DCFS. They are not fair.

No

None

INTRODUCTION: Forty-Two (42) complete responses were received and processed via on-line and manually.

#### Initial Questions:

Question	Yes	Nο	Don't Know/Did Not answer	% Yes
<ol> <li>Are you a family member, caregiver, loved one, and/or guardian of a person who has an intellectual and/or developmental disability?</li> </ol>	42	0	D	100%
2. Do you live in Champaign County, Illinois?	38	1	3	90%

#### What is important to you regarding the person in your life who has a developmental disability?

A nice place to live and a job to do.

A safe and caring living situation (group Home) that provides 24 hr care. A supervised work environment. Being included in a community, access to various services, therapies and equipment.

Feeling safe in the group home he lives in. Participating in activities with his house mates. Continuing to enjoy working at Clark Rd.

Happy, painfree, inclusive life

I have him in a behavior facility for his disability at this time for him to get help he needs at this time so he'll be able to come back home.

I want my daughter to live as independently and safely as possible. I want her to be challenged but successful. I want her to be able to live in a safe neighborhood with support. I want her to have a paid job and a way to safely get to that job. I want her to have friends. I want to maximize her abilities.

I want to know that my family member who can not always articulate things is not being mistreated and being taken care of. I want to know that they are in a safe environment both in the home and at work.

I would like for them to be happy and content and to live as independently as possible.

I would like for them to be happy in their life and living as independently as they possibly can.

It is important my brother be able to live in his community of choice, a small town in rural Champaign County, and have access to community services and programs that anyone else in the community has access to without regard to ID/DD.

It is important that my son have the opportunity to live a fully integrated life in the community with the supports he needs to live outside our family home. It is important that he gets to decide how he lives his life - as long as it is safe for him and others.

It is important to me that she has the same choices as all people; however, it is equally important that she receives the guidance and assistance needed in making those decisions. It is extremely important to me that she be able to get services when needed, and we know in the state of Illinois that is not the case.

Just want them to have the best life possible.

Options and supports for participating in community life.

Quality of life outcomes such as friendship, self-determination, & employment!

School resources and community resources

Services for the individual at Development Services Center as a young adult graduating from High School and needing a shadowing for him!

Services/Supports
Services/support
That he has the same opportunities for his future as any other child
That she grows up to be a happy and mostly independent adult
That she is happy, healthy and safe.
That they are treated with respect.

That they can live independently (hold a job, take care of finances, etc) and have meaningful relationships with others.

That they have apportunities to be contributing members of their community. I have two daughters with disabilities, one is 18, the other is 8.

That this person gets treated with the respect they deserve and not looked down upon because they have a developmental disability.

To feel that there are opportunities in our community to truly develop living skills, social skills, and recreation to increase chances for more independence and a more fulfilling life. Simply housing someone and trying to fill up the day with activities is not enough. More group homes are needed in our community. These homes should be a true "home", a place of support and not treated as institutions where normal everyday choices are nonexistent (what to eat for each meal etc.etc.)

Where she can live, work an enjoy her life
Ability to receive services so she can eventually lead an independent lifestyle:
Resources to live an enriched life in East Central IL, full of opportunities
respite care and life coaching

That he is able to live a productive and interdependent life in this community

4. Tell us about where they live. (Check all that apply.)

TTS 10% 7:0% 20% 40% 52% 60% 70% 80%

#### Other:

Home is owned 25% each by his 3 brothers and sisters and special needs trust.

They pay room and board to parents

5. Do you want to change something about their home and/or where they live? Yes: 52%; No. 48%

#### If "Yes":

Although my son will be turning 18 soon, we worry about where he will live, and if he can keep a job or afford rent.

Another bedroom on main floor with accessible bathroom

As brother ages, the home will need modifications, it has stairways to get into the house and to his 2nd floor bedroom.

So perhaps buy a different house or get an apartment, but will he be welcomed by neighbors and safe?

Better pay so that there is not so much staff turnover. Also, perhaps, a group home with fewer residents would help quality of life.

Eventually, I would like my daughter to live in supported housing with a roommate or 2. It would be great if there was some sort of step down system. High support initially but moving her toward less support as she learned more skills.

I know that with the ongoing State budget getting quality help is often difficult. However, I believe that there are issues at some of the group homes that is overlooked because they are already understaffed and under paid. It is a shame they can't address issues because they fear losing more bodies. I have also heard that staff have complained about issues up the chain of command however, when asked about complaints I have been told there are none when I know for a fact there have been staff complaints.

I want him to live outside our family's home. He is an adult. I want there to be a continuum of supported housing available so individuals can move from their family homes with the right amount of support. Something like a dorm first - then on to more independent living as he acquires the skills he needs.

I want him to get well so he'll come back home.

I want them to live in a group home instead of with their parents.

I want them to someday be living outside of our home, but they are too young and not ready yet-

I would like a bigger house but that is unrelated

I would like for her group home to get staffed, so she can move in.

I would like for my child to eventually move into their own house (with a basement) and a roommate and a pet.

I would like for them to to be able to eventually move out of the family home and into a small house (with a basement) where they could live with a roommate and a pet.

It would be nice if they could get the home fully staffed as it was when they moved in, and also have a house manager/which they have been without for six months.

It would be nice to have a second bathroom.

Make more accessible/comfortable

Not for now, he is only 14

Stairs

We love having our son live with us but realize we will not be around forever.

We recently moved in with my sister and brother in law

Would love to have someone that wants to live with her for more than one year at a time.

We would like him to be living with other young people in the community

#### Champaign County Mental Health Board

#### ID/DD Caregiver Survey

Report/Results

## 6. Do they want to change something about their home and/or where they live?

No: 62%; Yes: 31%; Did Not Answer: 7%

#### If "Yes", Please describe:

A big problem is that my son does not want to leave the family home. However, if there was the right supported housing available for young adults that looked like fun—and had the right support—he could change his mind.

He wants a dish washer!

He wants more independence :)

He wants to live independently, but is not sure he can do it yet.

I assume this is geared more toward adults that are considering independent living situations vs group homes or living with their families?

It would be nice to have a second bathroom.

My family member wants good staff who don't yell and take good care of them.

Our son is 14 now. At his recent "transition" I.E.P. when talking about living arrangements, he's interested in living ON OUR PROPERTY, but not necessarily WITH us, as we eye home improvements and upgrades to the backyard Shed as a "guest house" inside the next 10 years!

Our son seems to enjoy living with us. We try to be very supportive and provide opportunities.

Stairs

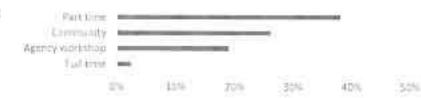

Transportation to DSC!

Unknown for sure. Individual is nonverbal.

He would like to live in an apartment or house like his sisters do, not with his parents

They like moving in with aunt and uncle

## Tell us about the person's job. (Check all that apply.)

#### If "Other", please specify.

Champaign County Humane Society "Pet Pal Program" volunteering 2x a month

Child does not work

Currently volunteers are a long term care facility in town.

Elementary school

Elementary school student

Junior High Student

Minor

My daughter is in her last year of Young Adult Program throught the school syste.

None

Still in High School doing the life skills program. Needing a job at DSCI

Student

Volunteer

currently a student

looking for work

student

#### 8. Does the person have the job they want? Yes: 50%; No: 29%; Did Not Answer: 21%

#### If "No", please describe.

Brother has had an employment consultant since August 2016. He wants a job at the nursing home in town where he volunteers: He applied for 2 jobs with help of the employment specialist. The employment specialist has been playing phone and email tag with people at the nursing home. I am very frustrated and feel the employment consultant needs to make things happen or I might as well be doing it myself! But I live 100 miles away; other brothers and sisters are out of state.

#### Currently a full time student

He has a job at the high school for an hour a day, but it is ending (he wasn't able to keep up). He's not "of working age" but DOES want to work with non-judgemental animals.

He's only 14, but has had one temporary job mowing grass. He did NOT like that. He wants to go to college, be a lawyer, and live in his own house in Seattle.

Not really applicable

She is still in school and exploring job possibilities. It's difficult for her to know what she might like to do when she is unaware of all the possibilities.

Still looking for work

The places he wants to work have not been willing to hire him.

#### Do they want to change something about their job? No: 50%; Did Not Answer: 33%; Yes: 17%

#### If "Yes", please describe:

At this point, she and I would like to see her hours lowered by eight hours a week.

Could use more hours if behavior better

He wants a job where he wants it.

He would like more hours (after school/weekends) at a job that does not overwhelm him.

He's only 14

Not sure

She would like to be working more.

Too much "free" time. Need more actual work.

she would like more hours

#### 10. Do you want to change something about their job? No: 43%; Yes: 24% Did Not Answer: 33%;

#### If "Yes", please describe.

"Job" is not a particularly relevant description. Individual does not understand economic goals, achievement, earning, etc. very well.

As my family member ages I feel that consideration needs to be given to the hours they currently work. I feel my family member requires more rest and the schedule and the house hours of staff do not allow for this.

He needs a job coach to check in with his employer once a week, and then offer guidance/feedback. However, the school took away his IEP so he does not have access to job coaching/life skills classes.

He's only 14

His volunteer job could be developed to be more than the menial tasks he does; why not work with the facility to develop meaningful volunteer projects? He just gets shoved aside. No one seems to be mentoring him or supporting him to get out in the community.

I want him to have a job with a good fit.

I would like her to have more hours

I would like to see her get more hours at Clark Rd and learning some different jobs.

More hrs

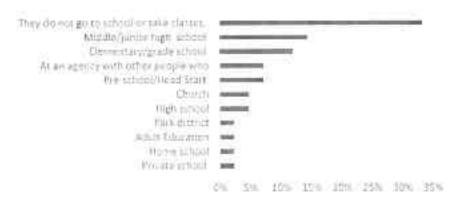

Same as above

Too much "free" time. Need more actual work.

Would like to increase the number of hours he works but he needs to be supported. Not sure how to move to next step. Trying to work on that with DSC.

## ID/DD\_Caregiver Survey

Report/Results

31. Is there anything else you would like us to know about your experience as a loved one, caregiver, family member, or guardian of a person with an intellectual and/or developmental disability?

As a parent of a two children (ages 3 and 4), who both have autism, I would like to see more information or more access to information of what is available. I have found it difficult to find, and then, I will find out and think, man, I wish I would've known that a year ago. Also, I think it's important to have access and financial help for respite services for young children. My husband and I have a hard time finding time for ourselves because we only have one person to watch our kids. We can't just go hire anyone. It needs to be someone who understands our kids' disabilities and is able to handle them. (Also, I found this survey kind of hard to fill out. It seems a little more geared toward older people with disabilities.)

At the time the individual left high school there was only one option available. That is why the above question was answered that way. We are not looking for another option.

Currently staff at CILA are not being paid enough. They are dedicated, capable people who stay as long as they can "survive" on low pay. Often they work longer hours.

DSC does a great job!

DSC is a very good organization. There just seems to be a problem hiring and retaining group home staff.

I fear that when my daughter ages out of school this summer, she will have no options but to sit at home doing nothing but losing the skills she has gained through school. I know of many families that are in this situation now. Or, I will need to quit work in order to keep her active in volunteer situations.

I know I would like to see a movie theater that shows movies that are not dark and not foud for sensory sensitive children.

I like the disability exposingered in the area to explain so many difference resources. We also do things with T.A.P. family resiliency center & CU autism group. We'd like to do Challenger League and CUSpecRec and therapy ponies but haven't yet. I think we have a lot of caring people to help around here! Good job!

My son falls through the cracks. He needs support, but not intensive support. He will not be independent without a set amount of critical support outside the home. A little support goes a long way with him. He will need support if he wants to go to Parkland, for example. He will not be able to "graduate" Parkland due to his severe math learning disability, although he is very accomplished in history/social studies/civics. He needs a supportive and flexible post-secondary educational opportunity that develops his strengths so he can contribute to society.

Need help to provide and teach residential success as parents will not be here forever to provide needed supports

No

Parenting a child with special needs is the hardest thing that we have ever done. Besides being parents, we have to become specialists in the disability and savvy navigators of a complex system of care. We live with a lot of stress and it is taking its toll on all of us in the family. Also, thanks for all that you do to help us!

Some needs: A continuum of supported housing options - from Dorm style - to supported housing (less than 24 hours support) Also - more behavioral support for adults who still exhibit challenging behavior.

Thank goodness for DSC Thank you for all that you do for our community!

We currently don't receive any services from the State of Illinois and are waiting for the disability waiver for many years.

All the services that our son receives at this time have to be paid by us [ his parents], including all the respite that we need to take a break of taking care of a child with sever disability.

We have received a lot of help from the Illinois Association of Microboards and Vicki Niswander since 2014, when she met with our family to do a PATH person centered plan. This was a life changing event for our family and my brother. I am very appreciative of the present support of the IAMC project in Champaign County. My brother updated his PATH in May 2017 and we are building a support team in Gifford. IAMC needs better funding to help more families in the future. Our parents had to both die in order for my brother to get services. This is wrong and terrible. He needed employment supports 20 years ago; Also the employment supports are inadequate. Once a person with disability is employed they should have access to continued support according to their needs. One size model does not fit all. Elderly parents need to know that the disability service system can help them NOW not at some future date, at the event of their demise and death.

We love the staff and clients at McKinley 3!! not at this time

That it's frightening to not know that there will be services and opportunities when we are not around. Everything he receives now has to be initiated and coordinated by us. He pays or we pay.

### 14. Do you have other comments regarding service needs or service gaps in your area that you would like us to consider?

Transportation continues to be a pressing concern. Many people use transportation (Plattran, CCarts, DSC), so many activities / opportunities are limited by their transportation schedule.

Based on my observations as a parks and recreation professional, I think we have a real issue with homelessness (likely due in part to mental health issues) in this community that needs to be addressed. There are non-profit organizations such as CU at Home that do great work, but this problem seems best addressed at a government level, especially in regard to improving awareness of, and access to, mental health services. Moreover, better efforts should be made to provide support past the "treatment" phase, and into the "housing/job" phase, so the cycle doesn't continuously repeat.

In the nearer term, it seems like it would be prudent to increase access/awareness of shelters that are available for the homeless population. It just seems like there are not enough, and people resort to sleeping in the parks, and other public spaces. This is a huge safety concern, especially as the weather gets colder. We have worked with CU at Home in the past regarding this issue, and it would be wonderful to be able to provide people with multiple options of places they can go, not only for a warm bed, but comprehensive services that can help them.

I think it is difficult for families to navigate the DD system as a whole. Need assistance with starting point.

I work with individuals who also have case management for ID/DD services through Rosecrance. It is very difficult to get the case managers to respond to the needs of the individuals. This has been an ongoing issue well before Rosecance merged with Community Elements. I have found that turn over and lack of experience in dealing with those with ID/DD and mental health are significant factors. When I bring up issues to the case managers they do not know what to do and nothing gets addressed. We are having serious issues with not getting help with budgeting (when Rosecrance is the payee), no support with changing lifestyles (which are leading to serious health issues that WILL have a terrible impact on these folks future health) and no support in making good decisions. It appears that these folks that need the help are left to themselves and they are failing in many ways. We can improve their lives, however we need case managers and supervisors that are invested in the work and those that know what they are doing.

Services for students in college who are blind have been unavailable in Champaign county in many instances. The Bureau of Blind Services and Parkland's Office of Disability were not meeting needs for many of my graduating students in the past 3 or so years.

There is a lot of overlap between the mental health world and the intellectual disabilities world—some more options for co-occurring disorders would be helpful including more coordination between providers (like overlapping training services for providers so that we don't have Silos of services/information)

What has been happening with students is that they are urged to stay in school until age 22, which is appropriate in some cases, but not others who have accomplished their high school goals and are ready to move on to transitional services. It is not appropriate for some students to stay in high school because the services are not available due to funding or availability.

Often	Financial Issues	75%
Top 3	Transportation issues	38%
	Unaware of service availability	38%
Sometimes	Services too far away	63%
Top 3	Medical issues	50%
	Services do not meet needs	50%
Seldom	No option selected more than once	25%

#### 7. Please tell us about service needs or service gaps you have experienced that you want brought to our attention.

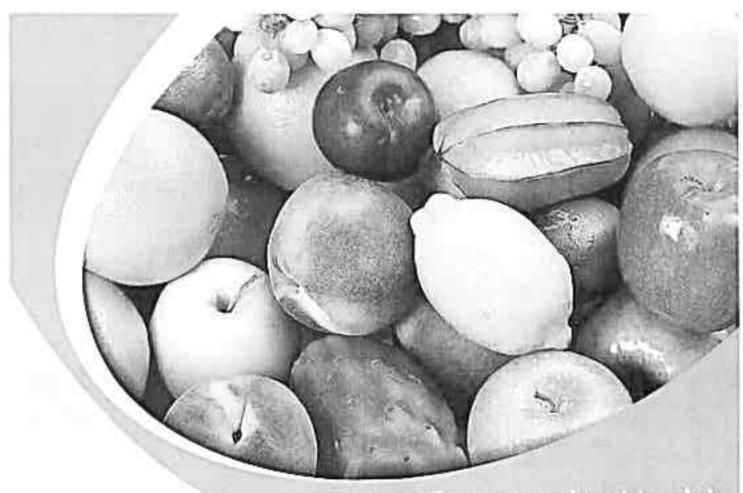

The programs exist to provide services but the funding doesn't exist to support enough people in need of the services. Specifically, state funding is frequently not enough to allow an organization to provide the level of service necessary or to provide it in a manner that works well.

The drive to encourage more community involvement is also key and very important but we need to make sure those individuals who are not able to participate (lack of programs, funding, ability, etc.) are not overlooked and the limited options they currently have are not lost.

Two significant concerns: 1) financial strains stemming from eroded State financial support (stagnant State rates for 10+ years eroded by costs inflation), and 2) potential elimination of a full continuum of supports and services for individuals of all levels of abilities/disabilities in pursuit of the important and laudable goal of primarily 'community-based supports and services.

Insufficient state funding. Rates are too low.

# 2018-2020 Champaign County Illinois

Presence

Davenant Medical Center

United Way of Champaign County

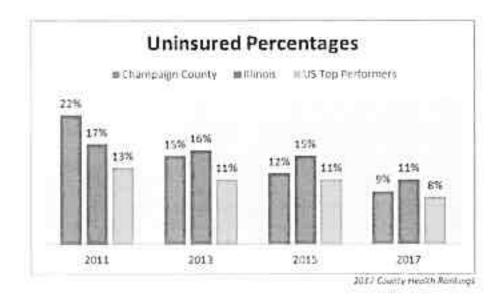

The rates of insurance and health resources in 2017 are shown in the table below. Champaign has a lower rate of uninsured adults than in Illinois. Champaign County also has a lower number of preventable hospital stays and lower healthcare costs (price-adjusted Medicare spending per enrollee.)

Health Resources and Indicators	Champaign County	Illinois
Uninsured	9%	21%
Uninsured adults	31%	14%
Uninsured children	4%	4%
Primary care physicians	1,200 1	1,2401
Dentists	1,740:1	1,380:1
Mental health providers	470:1	580 1
Other primary care providers	893:1	1,741.1
Health care costs	\$9,084	59.939
Preventable hospital stays	46	56
Mammography Screening	64%	64%

2017 County Health Rankings

According to County Health Rankings, the percentage of Champaign County residents that are uninsured has dropped from 22% in 2011 to 9% in 2017.

69

According to County Health Rankings the ratio of mental health providers per 100,000 has improved drastically over the past six years, moving from 2055 1 in 2010 to 470:1 in 2016. The table below shows the ratio and number of mental health providers for Champaign County, Illinois, and the US in 2016.

Report Area	Estimated Population	Number of Mental Health Providers	Mental Health Care Provider Rate (Per 100,000 Population)
Champaign County	207,131	445	214.8
Illinois	12,806,917	23,090	180.2
United States	317,105,555	643,219	202.8

#### Chronic Disease and Health Behaviors

- Access to exercise opportunities at 84% is lower than the state average of 89%
- · HIV prevalence is much lower in Champaign County than in Illinois.
- Sexually transmitted infections, food insecurity, adult smoking are all higher than the state of Illinois overall.

Health Behaviors	Champaign County	Illinois
Adult smoking	16%	15%
Adult obesity	25%	2794
Food environment index	7.2	8.0
Physical mactivity	1936	21%
Access to exercise opportunities	84%	89%
Excessive drinking	20%	21%
Alcohol impaired driving deaths	28%	34%
Sexually transmitted infections per 100,000	608.6	516.5
HIV prevalence rate per 100,000	193	323
Food insecurity	16%	13%
Limited access to healthy foods	4%	4%
Motor vehicle crash deaths	7	8
Drug overdose deaths	14	13

2017 County Health Bankings

Access to exercise opportunities measures the percentage of individuals in a county who live reasonably close to a location for physical activity. Locations for physical activity are defined as parks (local, state, and national) or recreational facilities, which includes gyms, community centers, YMCAs, dance studios, and pools. According to the County Health Rankings, 84% of Champaign County residents have adequate access to opportunities for physical activity. Illinois' percentage is 89% and US Top Performers' percentage is 91%. Having adequate access to opportunities for physical activity is defined as individuals who:

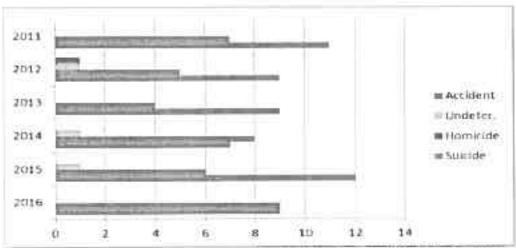

According to 2017 County Health Rankings the violent crime rate (the number of reported violent crime offenses per 100,000 population) is 526 which is substantially higher than the state of Illinois rate of 388. The table below shows the total crime index offenses for Champaign County from 2012-2015.

Champaign County	2015	2014	2013	2012	% change from 2012 - 2015
Total Crime Index Offense	6,494	6,243	6,567	6,999	7.2% Decrease
Murder	7	11	7	4	75% Increase

#### Gun Related Deaths in Champaign County

Champuge Uniona Public Neurith District Death Cert/Yeates

#### Maternal and Child Health

- The teen birth rate in Champaign County (per 1,000 female population, ages 15-19) is 18. It is almost half of the prevalence in Illinois. Champaign County has one of the lowest teen birth rates in the US, with the top performing US County having a teen birth rate of 17.
- Child mortality is higher for Champaign than for Illinois.

Maternal Child Health Indicators	Champaign County	Illinois
Teen birth rate (per 1,000 female population ages 15-19)	18	30
Low birth weight	816	8%
Infant mortality (within 1 year, per 1,000 live births)	7	7
Child mortality (among children under age 18 per 100,000)	60	50

2017 County Health Nankings

#### Environmental Health

- 22.64% of the population living in Champaign County has low food access. This percentage is higher than the percentage in Illinois (19.36%), but mirrors the average in the United States (22.43%)
- The number of grocery stores per 100,000 populations in Champaign County is 18.40. In Illinois and the United States the rate of grocery stores was slightly higher at 21.8 and 21.19.

72

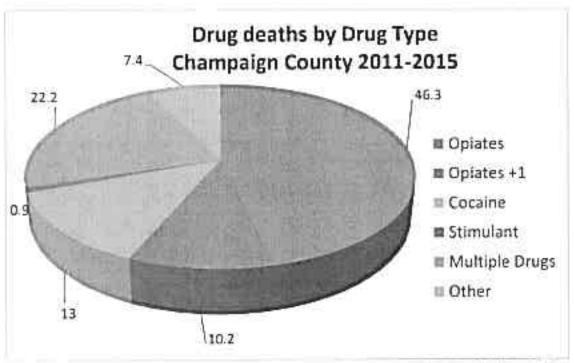

#### Drug-related Deaths in Champaign County, 2011-2015

According to the death certificate data compiled by Vital Records, Champaign-Urbana Public Health District, there were 132 drug-related deaths for the five-year period 2011-2015. Of these deaths, 108 were residents of Champaign County.

2011	2012	2013	2014	2015	
19	19	15	26	29	

Those are the ones included in this analysis. Seventy-seven of the deaths (72%) were in white individuals, and 28% in Black individuals. Over 71.3% were male, and 28.7% were female. Ages of those who had drug-related deaths were from 18-90, range 72. The mean age was 45.18. The data was bimodal with most deaths occurring at ages 39 and 47.

Opiates were the leading cause of drug-related deaths in Champaign County with nearly 47% listed as an opiate (heroin, methadone, hydrocodone, fentanyl), and an additional 10.2% had the cause of death listed as an opiate plus another drug(s). Over 22% listed multiple drugs as the cause of death. Over 13% died from cocaine, and less than one percent died of other stimulant use. 7.4% of the deaths were categorized as "other". They included such things as prescription drug overdose, over-the-counter drug over dose, and inhalant abuse.

Source: Champaign Urbana Public Health District Vital Records:

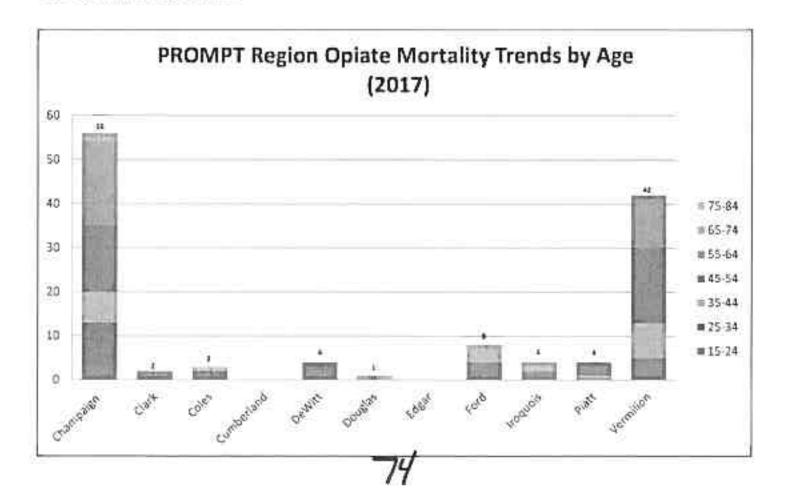

Of the 43 men who died of opiate-related death, 3 were ruled suicides, and 32 accidental. Of the 17 opiate-related deaths among females, 16 were ruled accidental, none suicides, and one natural.

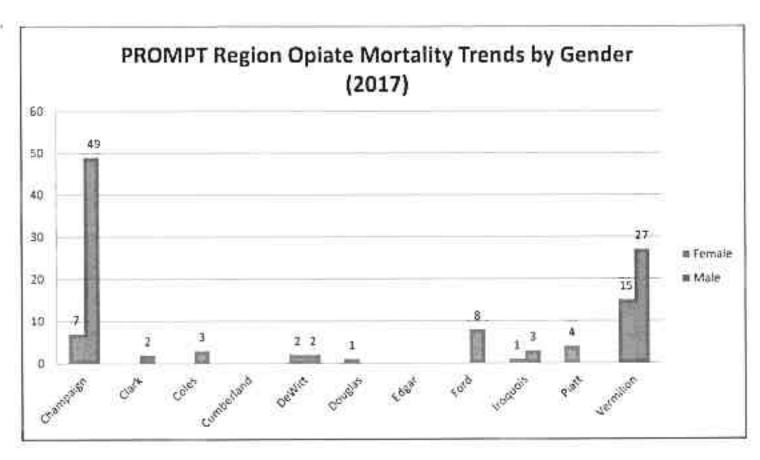

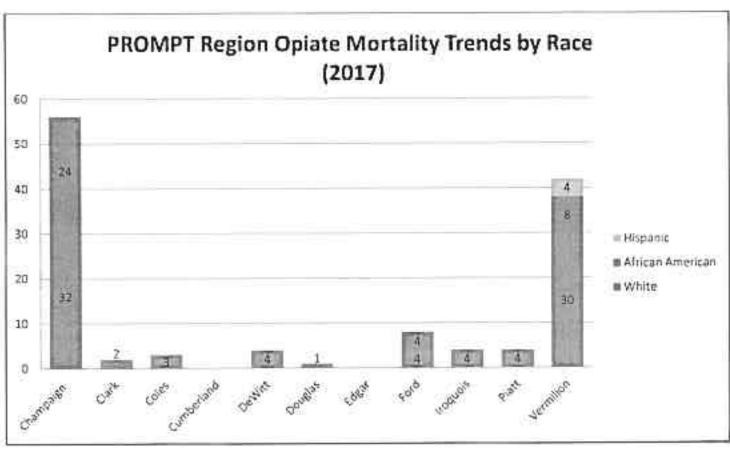

## PROMPT Region Opiate Non-Fatal & Fatal Overdose Rates (2017)

APPENDIX A

Champaign County SIM - February 2017

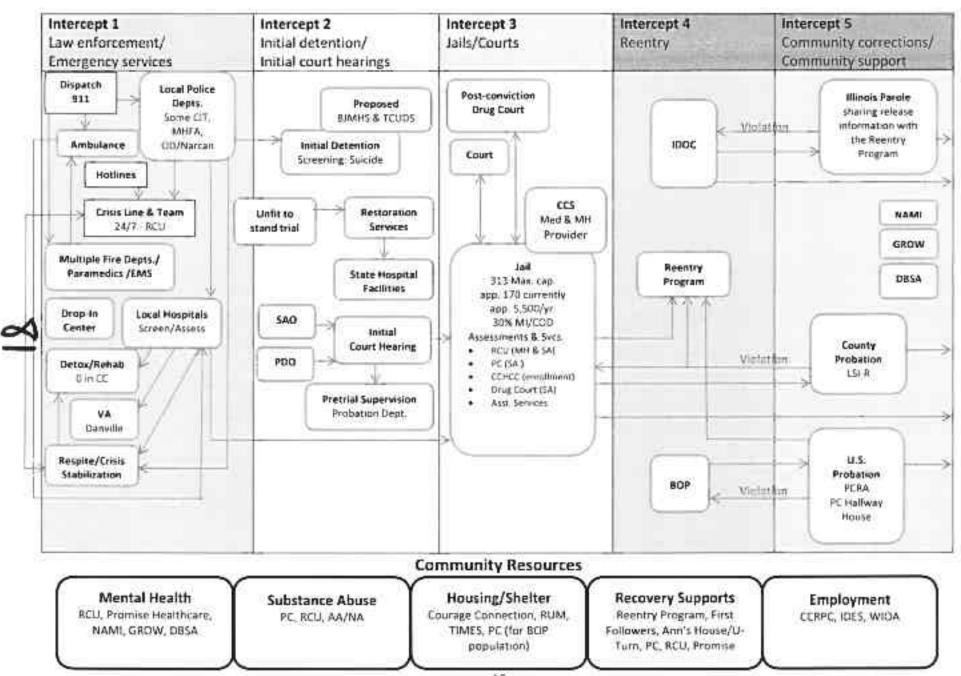

C

Evidence-Based Programs & Treatments: N/A	Evidence-Based Programs & Treatments: CIT Officers	Evidence-Based Programs & Treatments: Proposed screenings are BJMHS and TCUDS.	Evidence-Based Programs & Treatments: MRT groups are offered in the jail.	Evidence-Based Programs & Treatments: Reentry programming provides wrap- around services.	Evidence-Based Programs & Treatments: The LSI-R is conducted by Probation, MRT, cognitive behavioral therapy, groups are conducted by a community based provider at Probation and in the community, in addition to Anger Management groups.
Data: In FY17 CCMHB allotted: \$609,000 for Iuvenile Justice Contracts; \$799,584 for Adult Criminal Justice-Mental Health Contracts; \$199,050 for Problem Solving Courts Contracts; \$122,628 for Support Services Victims of Crime; \$885,952 for Community Based Services Contracts; \$460,189 for System of Care for Youth & Families; \$633,073 for ID/OD Contracts	Data: In 2014, CIT Officers responded to 1,687 calls; 461 were for Crisis; 16 excited delirium; 710 were for suicide attempts or threats; In2014, U of 1 PD transported 101 people to the hospital for involuntary commitments.	Data: 5,589 bookings in 2016; Since March 7, 2017, everyone booked into the jail is screened for MI with the BJMHS and a substance use disorder with the TCUDS V. An average of 11 screens are conducted daily. Preliminary data indicates that 32% or 3 per day will be referred for secondary screening including the LSI-R-SV proposed.	Data: In 2015, a point-in- time census was conducted in the jail. Of the 136 inmates surveyed, 63 or 46% reported COD, 22 or 16% cited SUD only, and 12 or 9% cited MI only. For those who stay ≥ 72 hours, ALOS = 35.81 days. At this time, there is no data available for ALOS re: the population with MI/COD.	Data: Identified needs data, gathered from 239 Reentry Program participants over the past 2.5 years, indicated 189 or 81% indicate a need for behavioral health services.	Data: County Probation approximates that: 35% of 835 cases received by the Probation Department in one year were ordered or referred to undergo a MHA, 45% were ordered or referred to undergo SUD treatment, A fair estimate would be that 60-65% of total intakes were either ordered or referred for MH/SUD treatment.

In FY1617, the City of Urbana/Cunningham. Township provided \$250,000 in funding to 26 different agencies. The United Way invested \$2.7M in FY16 to social services, education and health. Community Foundation allocated nearly \$80,000 to community organizations in 2016.  Services: N/A	Services: 117 Police Officers are CIT trained, 306 Police Officers are trained in MHFA. Limited mobile crisis consult with MH Professional available, which provide 73 consults in 2016.	Services: Medical staff completes non- validated screening for only those who demonstrate observable symptoms of mental illness.	Services: Limited jail-based MH in-reach services and connection to care.	Services: Reentry case management services are available for anyone returning to the Champaign County community, from incarceration. Services include assistance with obtaining a state ID or driver's license, linkage to available resources in CC for housing, employment, education, medical coverage and care, benefits, some transportation, and MH and/or SA treatment.	Services: ESI R risk assessment, cognitive behavioral- based groups

#### INTRODUCTION

In October 2012, at the Urbana City Building, members from local law enforcement agencies and the mental health community met to discuss the current law enforcement response to citizens in mental health crisis, build stronger partnerships between stakeholders, and identify resource options. The law enforcement community was represented by the Champaign County Sheriff's Department (CCSO), Champaign Police Department (CPD), University of Illinois Police Department (UIPD), Urbana Police Department (UPD) and Champaign County State's Attorney Office (SAO). The local mental health system was represented by area mental health providers, the local hospitals, a member of the jail task force, and other stakeholders.

The group continued meeting regularly and is now recognized as the Champaign County Crisis Intervention Team Steering Committee (CITSC).

#### METHODOLOGY

This report illustrates the Crisis Intervention Team (CIT) responses from the Champaign County Sheriff's Office, Champaign Police Department, University of Illinois Police Department, and Urbana Police Department for one full year, from August 1, 2017 to July 31, 2018. Rantoul Police Department data is excluded from this analysis

After a great deal of discussion and work among stakeholders and the administrators of the Area-Wide Records Management System (ARMS), a new method of tracking CIT contacts was developed. On February 14, 2017, a pilot of this new method was launched, where selected officers began using the new form. All officers across all agencies began using this new method on April 1, 2017. Data quality has continually improved. Analyses represent an aggregate of all four agencies.

#### VOLUME OF CIT CONTACTS

The four agencies recorded 1553 symptomatic contacts in from August 1, 2017 to July 31, 2018. Figure 1 displays the disaggregation of the symptomatic contacts by agency. Urbana Police Department recorded 40% of symptomatic CIT contacts, Champaign Police Department represented 36%, the Champaign County Sheriff's Office recorded 13% of contacts, and the University of Illinois Police Department represented 11% of contacts.

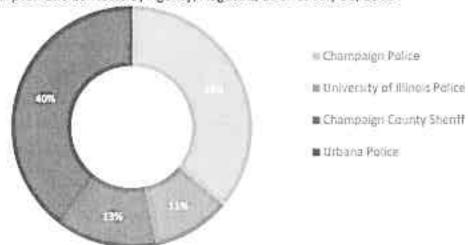

Figure 1. Symptomatic Contacts by Agency, August 1, 2017 to July 31, 2018

As shown in Figure 2, from April 1 to May 31, 2017, 1553 CIT contacts with individuals displaying symptoms were conducted by all agencies. There were an additional 106 contacts with individuals not displaying symptoms at the time. These 106 contacts are excluded from all analyses.

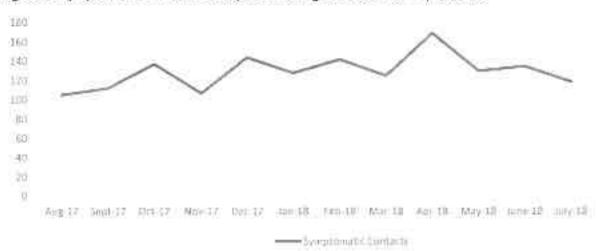

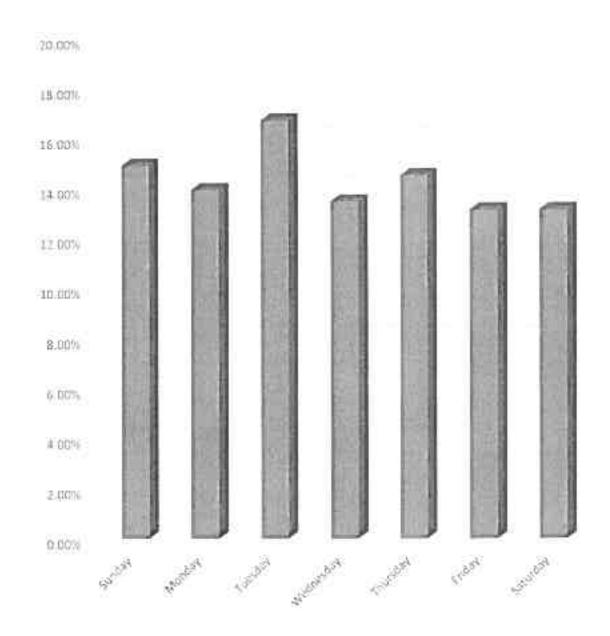

Figure 2. Symptomatic CIT Contacts by Month, August 1, 2017 to July 31, 2018

Figure 3 illustrates the contacts by day of the week. This data revealed that the CIT contacts are fairly similar across days of the week. The most contacts occur on Tuesday (16.74%), and the least occur on Friday and Saturday (each, 13.17%). The largest proportion of CIT contacts are between 5 pm and 9 pm, followed by 9 am to 1 pm.

Figure 3. Symptomatic CIT Contacts by Day of Week, August 1, 2017 to July 31, 2018

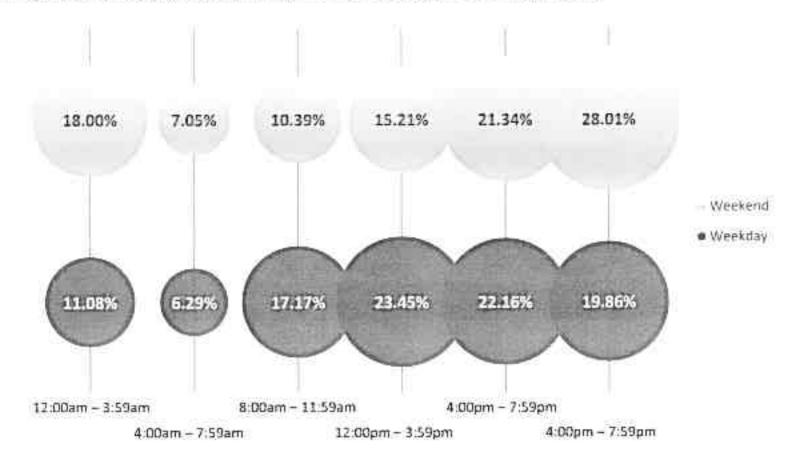

8

The temporal analysis presented in Figure 4 demonstrates that weekdays and weekends have a different distribution across time.

During the week, the most contacts occur from 8:00am to 8:00pm. On the weekends, this shifts to 4:00 pm to 4:00 am.

Figure 4. Symptomatic CIT Contacts by Day of Week and Time of Day, August 1, 2017 to July 31, 2018

#### DEMOGRAPHICS

The four agencies had contact with 1028 individuals in the past 12 months. Many individuals had repeat contacts — this analysis presents the information by person, so each person is counted only once regardless of the number of contacts. For more details on repeat contacts, please refer to that section of this report.

As shown in Tables 1, 2, and 3, over half of the symptomatic CIT contacts involve a Caucasian subject (59.38%), followed by African American, and Hispanic. The gender distribution of individuals with symptomatic contacts are nearly equal - 51.75% of are male, and 48.25% are female. The individuals ranged in age from 8 to 93; the median age was 27 and the mean was 32.

131 individuals were under the age of 18.

Table 1. Race of Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

Race		
Caucasian	59.44%	
African American	29.67%	
Asian	6.03%	
Hispanic	3,99%	
Other	0.88%	

Table 2. Sex of Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

Sex	
Male	51.75%
Female	48.25%%

Table 3. Descriptive Statistics of Age of Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

Age	UE
Range	8 to 93
Median	27
Mean	32
Individuals under 18	131

Officers will collect some additional information if it is relevant. From August 2017 to July 2018, individuals involved in CIT contacts included 45 veterans, 181 individuals affiliated with the University of Illinois, 66 homeless individuals, and 13 individuals where it was relevant to indicate they had a FOID card. In the cases any of these characteristics is not relevant to the case, the officer will mark unknown. The following statistics displayed in Table 4 exclude unknown answers, and only count each person one time. The sample size of known characteristics is denoted in each row.

Table 4: Additional Information for Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

	Veteran	UIUC	Homeless	FOID Card
No	93.43%	76.28%	93.17%	96.41%
Yes	6.57%	23.72%	6.83%	3.59%
Total Known	685	763	967	362

#### CIT OFFICER AND CRISIS RESPONSE UTILIZATION

Figure 5 illustrates the proportion of CfT incidents that involve a certified CfT officer. Becoming a CfT officer is voluntary, and certification is granted after successful completion of 40 hours of intensive training. Approximately 73% of all CfT contacts involve a CfT officer.

Figure 5. Symptomatic CIT Contacts with CIT Officer, August 1, 2017 to July 31, 2018

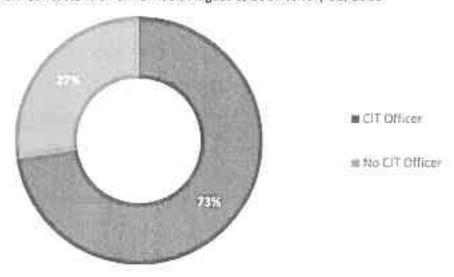

Figure 6 illustrates when Crisis Response was called from the scene. Of all symptomatic CIT contacts, Crisis Response was called in approximately 2% of contacts.

Figure 6. Crisis Response Called from Scene, August 1, 2017 to July 31, 2018

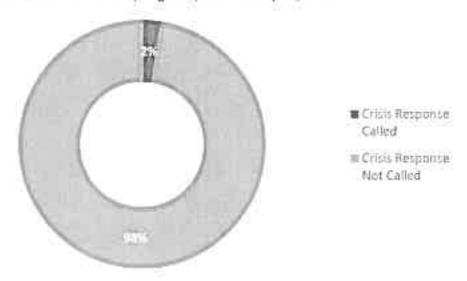

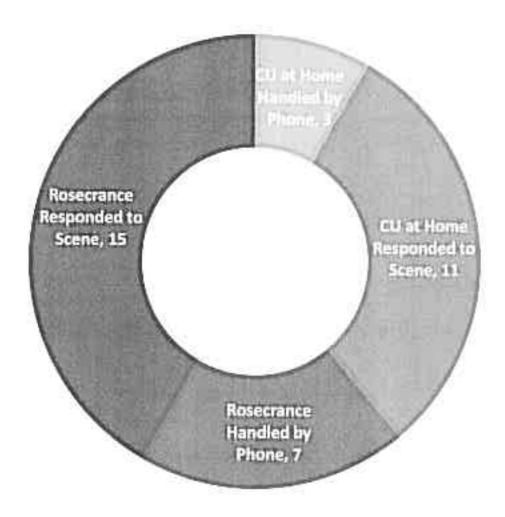

Figure 7 presents the types of Crisis Response action for the 36 instances in which Crisis Response was utilized. The most frequent action was responding to the scene (26), and there were ten instances that CU at Home or Rosecrance handled by phone.

Figure 7 Crisis Response Action, August 1, 2017 to July 31, 2018

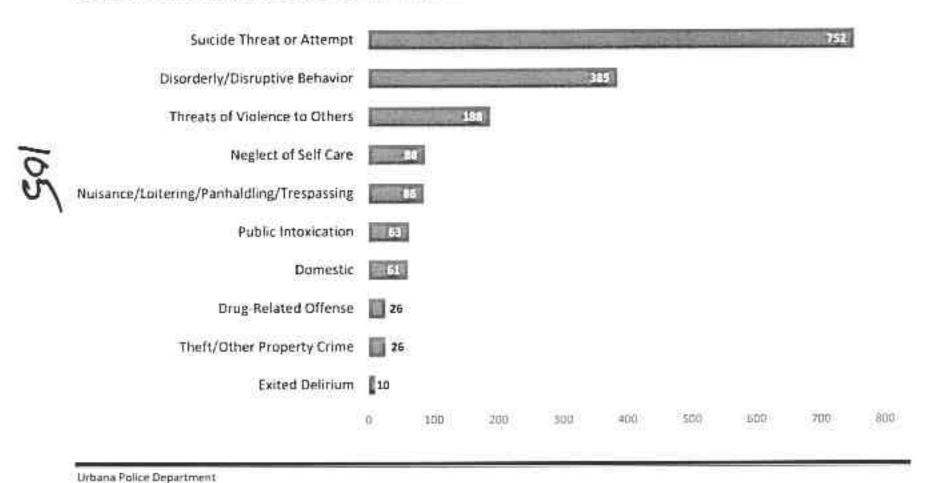

#### NATURES OF INCIDENTS

Crime Analysis

The nature of an incident is defined as the reason the officer was dispatched or responded to an incident. The most frequent nature of CIT contacts are suicide threats or attempts, followed by disorderly or disruptive behavior, as displayed in Figure 8. Please note that multiple natures of event can be indicated for one CIT contact.

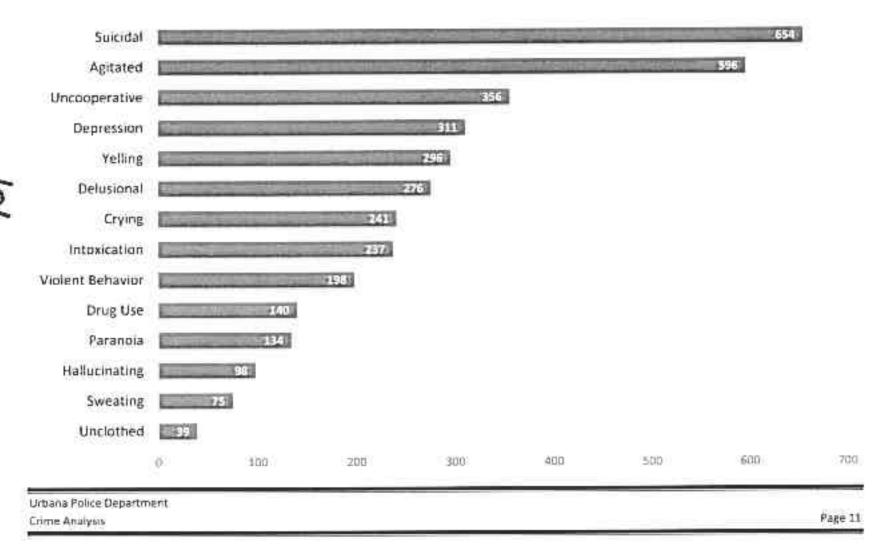

Figure 8. Natures of Incidents, August 1, 2017 to July 31, 2018

Page 10

The most common symptoms displayed by individuals engaged in CIT contacts suicidal symptoms and agitation, as displayed in Figure 9. Please note that more than one symptom can be indicated for one CIT contact.

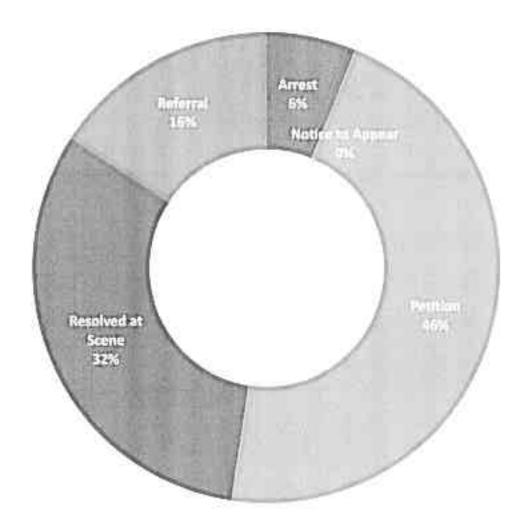

Figure 9. Symptoms Displayed, August 1, 2017 to July 31, 2018

#### **OUTCOMES OF CONTACTS**

CIT contacts can be resolved in one of five ways: custodial arrest, issuance of notices to appear, petitions, resolved at scene, and referrals. As displayed in Figure 10, 46% of contacts resulted in a petition, 32% were resolved at the scene. Approximately 6% CIT contacts resulted in arrest, or 89 incidents.

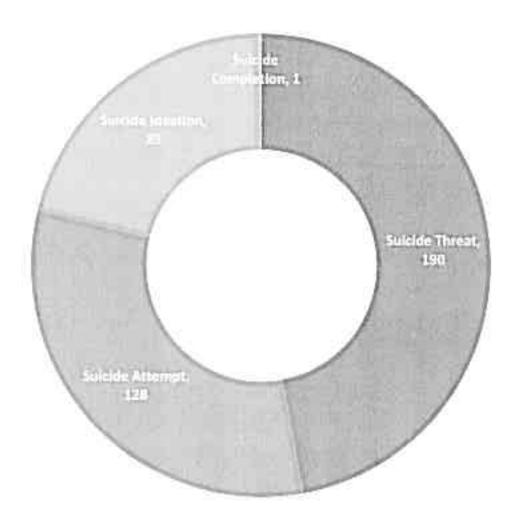

Figure 10. Outcome of Contacts, August 1, 2017 to July 31, 2018

### SUICIDE ATTEMPTS, THREATS, AND IDEATIONS

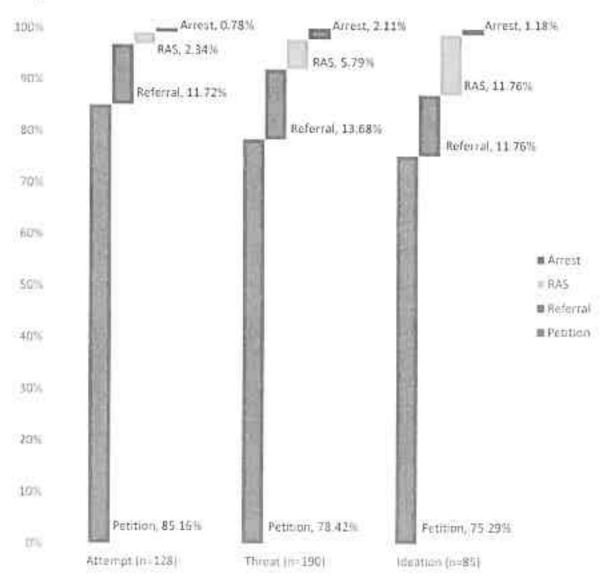

The most frequent nature of incident, and most frequent symptoms, involve suicide threats, attempts, and ideations. It is useful to consider these contacts separately. The below analysis in Figure 11 represents 404 CIT contacts from January 1, 2018 – July 31, 2018 with a suicide-related incident code nature of incident, representing 43% of all contacts from that time frame. Data quality improved beginning on July 1, and officers now denote whether the call was a suicide threat, attempt, ideation, or completion.

Figure 11. Suicide Threats, Attempts, Ideations, and Completions, January 1, 2018 to July 31, 2018

Below in Figure 12, the dispositions of each type of suicide CIT contact is disaggregated by threats, attempts, and ideations. Over % of all of these contacts result in a petition; this ranges from 85% for contacts involving suicide attempts, and 75% for contacts involving suicide ideations. Referrals are highest (almost 14%) for contacts involving suicide threats, and officers resolve contacts involving suicide ideations at the scene in nearly 12% of contacts. Arrests occurred in only 6 suicide threat, attempt, or ideation CIT contacts.

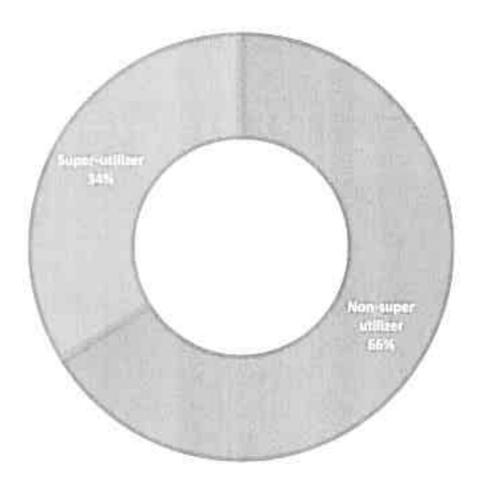

Figure 12. Dispositions of Suicide Threats, Attempts, and Ideations CIT Contacts, January 1, 2018 to July 31, 2018

### REPEAT CONTACTS

Many of the CIT contacts are with individuals who have had multiple previous CIT contacts in the recent past. The 1553 symptomatic CIT contacts from August 2017 to July 2018 were with 1028 individuals. For purpose of this analysis, an individual is considered a super-utilizer if he or she has had 3 or more symptomatic CIT contacts in the past 16 months (when data collection began in earnest in April of 2017). Based on this definition, 122 individuals were involved in 526 symptomatic contacts. As displayed in Figure 13, super-utilizers accounted for 34% of symptomatic CIT contacts across all 4 agencies.

Figure 13. Percent of Symptomatic CIT Contacts with Super-Utilizers, August 1, 2017 to July 31, 2018

The nature of incidents as well as symptoms displayed varies when comparing super-utilizer CIT contacts to non-super utilizer CIT contacts. As shown in Figures 14 & 15, the most frequent nature of incidents for CIT contacts with super-utilizers is disorderly/disruptive behavior, while the most frequent for non-super utilizers is suicide threats/attempts/ideations. Super-utilizers' most frequently displayed symptoms include agitation and delusions, while non-super utilizers most frequently display suicidal symptoms.

Figure 14. Comparison of Nature of Incidents by Super-Utilizers, August 1, 2017 to July 31, 2018

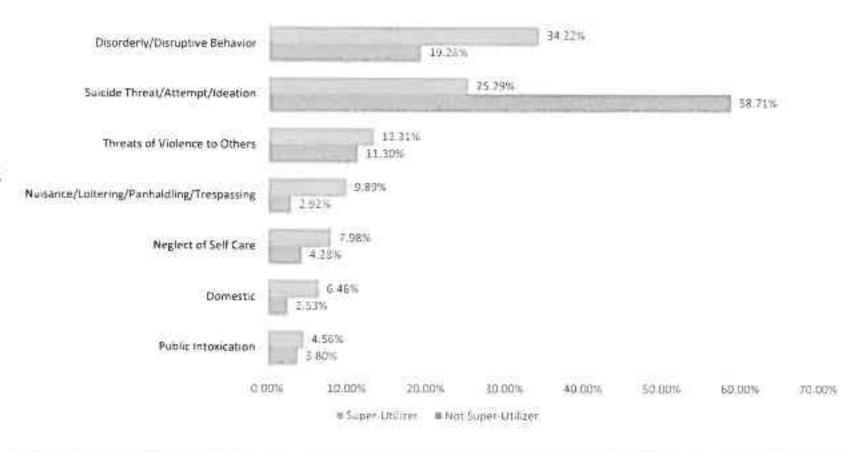

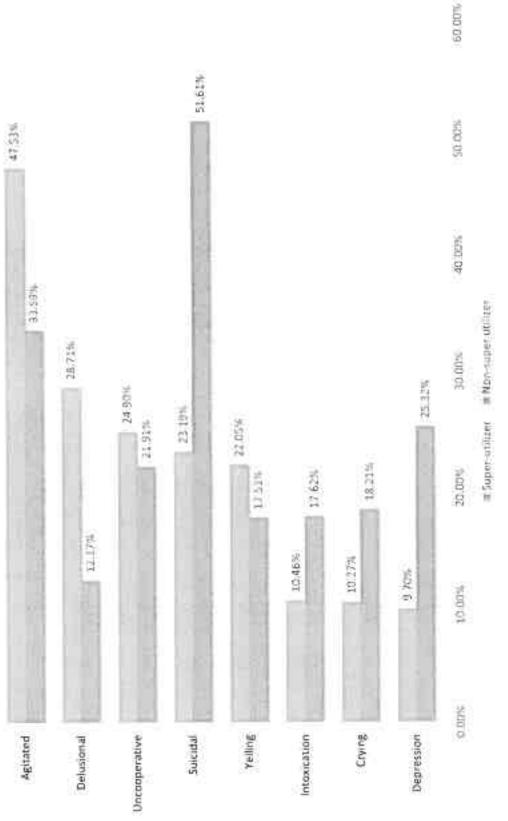

Figure 15. Comparison of Symptoms by Super-Utilizers, August 1, 2017 to July 31, 2018

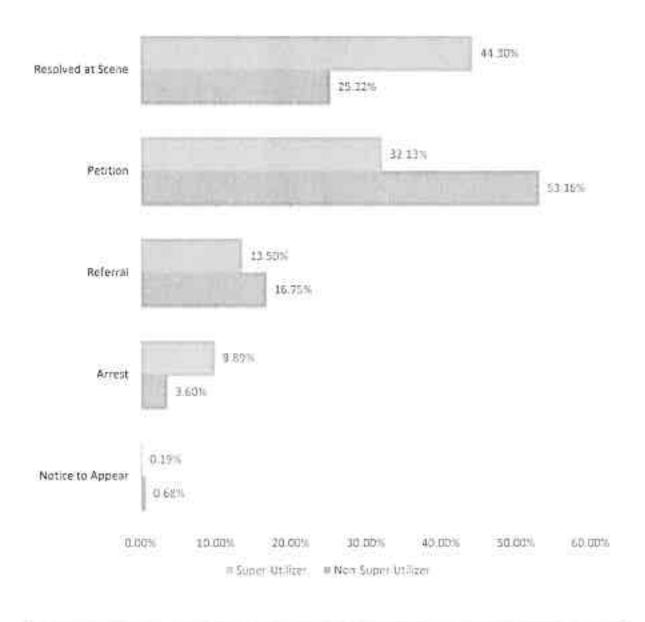

Urbana Police Department Crime Analysis

Fage 17

112

Dutcomes also vary across super-utilizer status, as shown in Figure 16. CIT contacts with superutilizers are most likely to be resolved at the scene, while contacts with non-super utilizers most frequently result in a petition. Notably, super-utilizer contacts end in arrest in twice as frequently as symptomatic contacts with non-super utilizers.

# **2016 County Report**

County Name: Champaign

Data collected Spray 255%

#### Introduction

Based on the administration of the Illinois Youth Survey (2016), this report provides county-level data on a variety of health and social indicators such as drug use, bullying, and school climate. The data has been organized into topical sections as noted in the table of contents following this introduction. In most cases, only a portion of schools in a county participate in the Illinois Youth Survey (IYS). There will be NO DATA presented in this report for any grade level with only one district reporting. This is to protect the confidentiality of district level results.

The IYS is offered to both public and private schools. In order to have the best understanding of how well the results in this report reflect the experiences of the youth in this county, several factors should be considered including. Public School Building Participation. Public School Student Participation.

#### Public School Building Participation

In Table 1, the number of eligible public schools (i.e. contain at least 10 students at the 8th, 10th or 12th grade level) is compared with the actual number of IYS participating public schools in the county.

Middle Schools		High Schools		
(8th grade)		(10th and/or 12th grades)		
N Schools	N Schools	N Schools	N Schools	
Participating	Eligible	Participating	Eligible	
2	13	2	10	

Table 1: Public School Building IVS Participation by School Level

#### Public School Student Participation

Table 2 provides a comparison between the actual number of students surveyed and the number of all students enrolled in public schools within the county. This percentage can be increased by surveying more schools and students within the county. Again, enrollment totals are based on student enrollment at public schools with at least 10 enrolled students at the 8th, 10th or 12th grade level. Table 2 is based solely on public school students due to the lack of available enrollment information for private schools.

	N Student Surveyed	N Enrolled Students in County	% Enrolled Students in County Report
8th	243	1780	14%
10th	358	1736	21%
12th	231	1567	15%
Total	832	5083	16%

Table 2: Public School Student IYS Participation by Grade

#### Private School Student Participation

Table 3 provides a count of the number of private school students surveyed in this county. Note that the data presented in this report includes both public and private schools that participated in this county.

Table 3: Number of Private School Students Surveyed by Grade

Bth	10th	12th	Total
0	78	51	129

If schools that serve youth in specialized settings like charter schools, alternative schools, etc. participated in the IYS, these students are represented in the survey results but are not included in data summaries presented in Table 2 or Table 3 above

#### Organization of the Report (Data Tables and Charts)

Tables can be helpful when you are looking for a summary of responses for particular survey questions, for example, the percentage of 8th grade youth who report using prescription pain killers to get high. Some tables may contain a mean score (an average of all the responses), a median score (the middle point of all responses given) or an 'N' (number of students who responded to that question). Tables can also be useful when you need specific data to support a grant or report. If you see an 'N/A' (Not Applicable) noted in a table, this indicates that the question was not asked at that grade level. If you see an 'N/A' (Not Reported) noted in a table, this indicates that at least 90% of students skipped the question for no known reason, making the results too biased to report.

Summary charts can be helpful to view multiple questions in one place (e.g., use of different drugs to determine which is the most used) and to compare your results with the scientific sample of Illinois students who participated in the 2014 IYS. State level results from the 2016 IYS will not be available until late fall. IYS state level norms from 2014 are a good benchmark for immediate decision-making because state estimates stay relatively stable across two IYS administration years. To locate the starting page of the Summary Charts, refer to the Table of Contents on the next page.

Keep in mind that the IYS 6th and 8th grade forms do not include all questions asked on the IYS high school form. For that reason, responses to some questions do not appear in the tables and charts for some grade levels. If you would like to determine what section includes responses to a specific survey item or verify if a question was asked at a specific grade level, please refer to the Site Report Appendix on our website http://lya.cord.illinois.edu/results

We are confident that you will find this report to be a valuable resource for planning, grant writing, program development and reporting. If you have any questions about this report, please call 888-333-5612 and ask for an IYS Coordinator or visit the IYS website at http://vs.cprd.illnois.edu/

### **Health Disparities**

SAMHSA works to reduce behavioral health disparities among different population groups through programs, technical assistance, and workforce development.

### Overview

Healthy People 2020 defines a health disparity as a "particular type of health difference that is closely linked with social, economic, and/or environmental disadvantage. Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion."

Significant behavioral health disparities persist in diverse communities across the United States, including:

- Racial and ethnic groups
- Lesbian, gay, bisexual, transgender, and questioning (LGBTQ). populations
- People with disabilities
- Transition-age youth
- · Young adults

Various subpopulations face elevated levels of mental and substance use disorders, and experience higher rates of suicide, poverty, domestic violence, childhood and historical trauma, as well as involvement in the foster care and criminal justice systems. Historically, these diverse populations tend to have less access to care, lower or disrupted service use, and poorer behavioral health outcomes. These disparities may be related to factors such as a lack of access to health care, the need for a diverse health care workforce, a lack of information, and the need for culturally and linguistically competent care and programs.

The Department of Health and Human Services' (HHS) HHS Action Plan to Reduce Racial and Ethnic Disparities states, "the societal burden of health and health care disparities in America manifests itself in multiple and major ways. In one stark example, Murray et al. show a difference of 33 years between the longest living and shortest living groups in the U.S." Another study, The Economic Burden of Health Inequalities in the United States by the Joint Center for Political and Economic Studies, concludes that "the combined costs of health inequalities and premature death in the United States were \$1.24 trillion between 2003 and 2006."

Behavioral health disparities and their impact point to the need for an increased focus on effective prevention, treatment, and services for diverse populations.

## Champaign County Population Data: Persons in Poverty

### Mental Illness

include many different conditions that vary in degree of severity, ranging from mild to moderate to severe. Two broad categories can be used to describe these conditions: Any Mental Illness (AMI) and Serious Mental Illness (SMI). AMI encompasses all recognized mental illnesses. SMI is a smaller and Mental illnesses are common in the United States. Nearly one in five U.S. adults lives with a mental illness (44.7 million in 2016). Mental illnesses more severe subset of AMI. Additional information on mental illnesses can be found on the NIMII Health Topics Pages (www.nimh.nih.govo/health/temes/index.shtml)

### Definitions

past year, of sufficient duration to meet diagnostic criteria specified within the 4th edition of the Diagnostic and Statistical Manual of Mental Disorders Administration (SAMHSA). For inclusion in NSDUH prevalence estimates, mental illnesses include those that are diagnosable currently or within the The data presented here are from the 2016 National Survey on Drug Use and Health (NSDUII) by the Substance Abuse and Mental Health Services (DSM-IV); and, exclude developmental and substance use disorders

### Any Mental Illness

Any mental illness (AMI) is defined as a mental, behavioral, or emotional disorder. AMI can vary in impact, ranging from no impairment to mild, moderate, and even severe impairment (e.g., individuals with serious mental illness as defined below).

### Serious Mental Illness

substantially interferes with or limits one or more major life activities. The burden of mental illnesses is particularly concentrated among those Serious mental illness (SMI) is defined as a mental, behavioral, or emotional disorder resulting in serious functional impairment, which who experience disability due to SMI.

## Prevalence of Any Mental Illness (AMI)

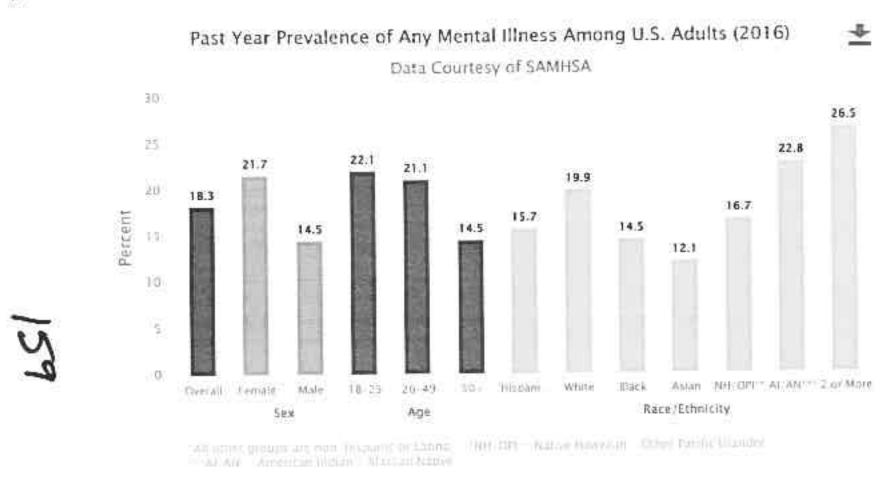

Figure 1 shows the past year prevalence of AMI among U.S. adults.

In 2016, there were an estimated 44.7 million adults aged 18 or older in the United States with AMI. This number represented 18.3% of all

Young adults aged 18-25 years had the highest prevalence of AMI (22.1%) compared to adults aged 26-49 years (21.1%) and aged 50 and The prevalence of AMI was higher among women (21.7%) than men (14.5%).

The prevalence of AMI was highest among the adults reporting two or more races (26.5%), followed by the American Indian/Alaska Native group (22.8%). The prevalence of AMI was lowest among the Asian group (12.1%).

Figure 1

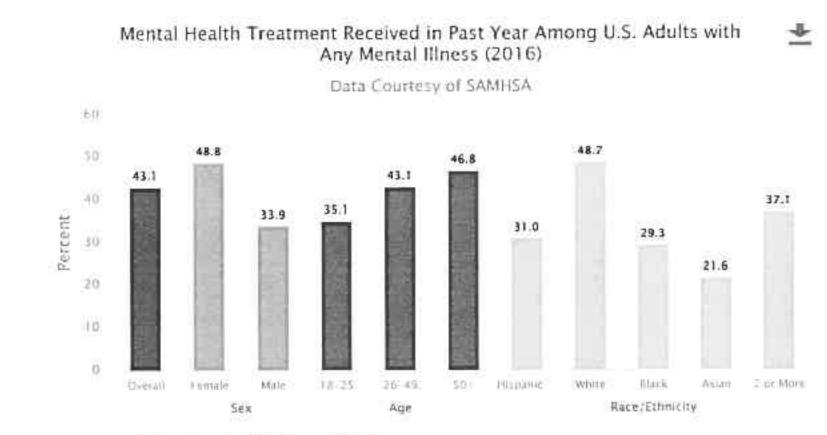

### Mental Health Treatment - AMI

Figure 2 presents data on mental health treatment received within the past year by U.S. adults aged 18 or older with any mental illness (AMI).

NSDUH defines mental health treatment as having received inpatient treatment/counseling or outpatient treatment/counseling, or having used prescription medication for problems with emotions, nerves, or mental health.

In 2016, among the 44.7 million adults with AMI, 19.2 million (43.1%) received mental health treatment in the past year. More women with AMI (48.8%) received mental health treatment than men with AMI (33.9%).

Figure 2

All sever princip All the (thinks) or Live !

### Prevalence of Serious Mental Illness (SMI)

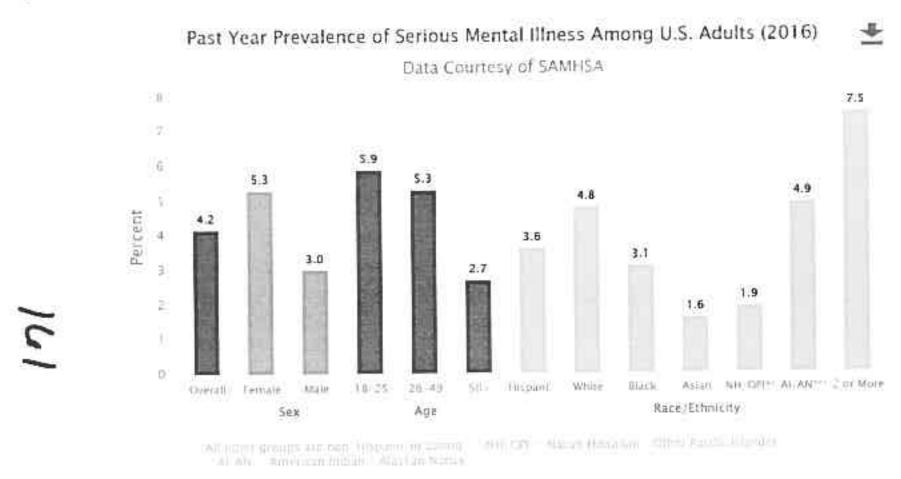

Figure 3 shows the past year prevalence of SMI among U.S. adults.

In 2016, there were an estimated 10.4 million adults aged 18 or older in the United States with SML This number represented 4.2% of all U.S. adults.

The prevalence of SMI was higher among women (5.3%) than men (3.0%).

Young adults aged 18-25 years had the highest prevalence of SMI (5.9%) compared to adults aged 26-49 years (5.3%) and aged 50 and older (2.7%).

Figure 3

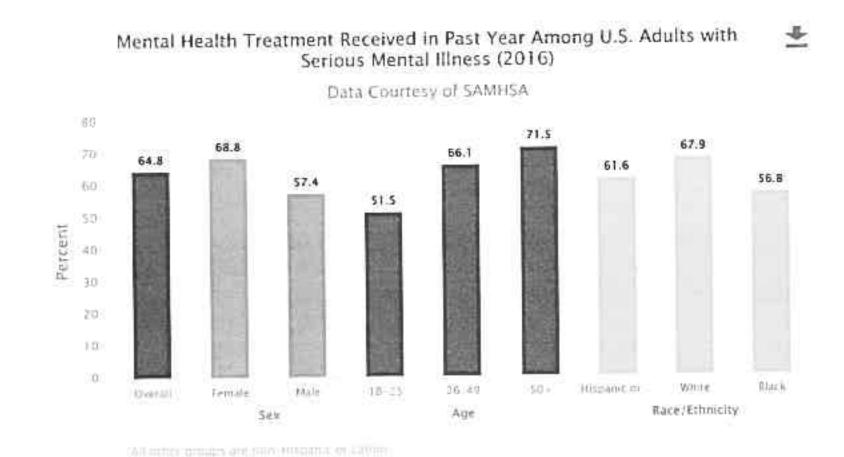

### Mental Health Treatment - SMI

Figure 4 presents data on mental health treatment received within the past year by U.S. adults 18 or older with serious mental illness (SMI). The NSDUH defines mental health treatment as having received inpatient treatment/counseling or outpatient treatment/counseling or having used prescription medication for problems with emotions, nerves, or mental health.

In 2016, among the 10.4 million adults with SMI, 6.7 million (64.8%) received mental health treatment in the past year. More women with SMI (68.8%) received mental health treatment than men with AMI (57.4%).

The percentage of young adults aged 18-25 years with AMI who received mental health treatment (51.5%) was lower than adults with AMI aged 26-49 years (66.1%) and aged 50 and older (71.5%).

Figure 4

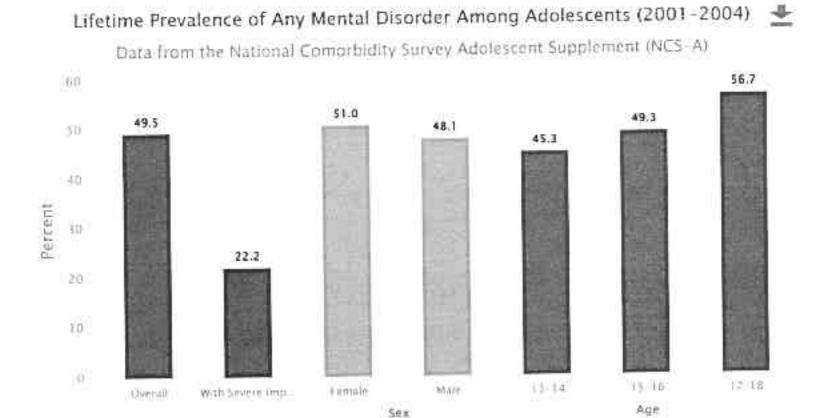

### Prevalence of Any Mental Disorder Among Adolescents

Based on diagnostic interview data from National Comorbidity Survey Adolescent Supplement (NCS-A), Figure 5 shows lifetime prevalence of any mental disorder among U.S. adolescents aged 13-18.1

An estimated 49.5% of adolescents had any mental disorder.

Of adolescents with any mental disorder, an estimated 22.2% had severe impairment. DSM-IV criteria were used to determine impairment.

Figure 5

### 163

### **Data Sources**

Merikangas KR, He JP, Burstein M, Swanson SA, Avenevoli S, Cui L, Benjet C, Georgiades K, Swendsen J. Lifetime prevalence of mental disorders in U.S. adolescents: results from the National Comorbidity Survey Replication--Adolescent Supplement (NCS-A). J Am Acad Child Adolesc Psychiatry. 2010 Oct;49(10):980-9. PMID: 20855043

### Statistical Methods and Measurement Caveats

National Survey on Drug Use and Health (NSDUH)

Diagnostic Assessment:

The NSDUH AMI and SMI estimates were generated from a prediction model created from clinical interview data collected on a subset of adult NSDUH respondents who completed a past 12-month version of the Structured Clinical Interview for DSM-IV-TR Axis i Disorders (Research Version, Non-patient Edition (SCID-I/NP)).

The assessment included diagnostic modules assessing: mood, anxiety, eating, impulse control, substance use, adjustment disorders, and a psychotic symptoms sereen.

The assessment did not contain diagnostic modules assessing: adult attention deficit hyperactivity disorder (ADHD), autism spectrum disorders. schizophrenia or other psychotic disorders (although the assessment included a psychotic symptom screen)

patterns of high comorbidities among mental disorders; these patterns increase the likelihood that people who meet AMI and/or SMI criteria were People who only have disorders that are not included in these diagnostic modules may not be adequately detected. However, there are known detected by the study, as they may also have one or more of the disorders assessed in the SCID-LNP.

### Population:

The entirety of NSDUH respondents for the AMI and SMI estimates were the civilian, non-institutionalized population aged 18 years old or older residing within the United States.

The survey covered residents of households (persons living in houses/townhouses, apartments, condominiums; civilians living in housing on military bases, etc.) and persons in non-institutional group quarters (e.g., shelters, rooming/boarding bouses, college dormitories, migratory workers' camps, and halfway houses).

The survey did not cover persons who, for the entire year, had no fixed address (e.g., homeless and/or transient persons not in shelters); were on active military duty; or who resided in institutional group quarters (e.g., correctional facilities, nursing homes, mental institutions, long-term

hospitals).
Some people in these excluded categories had AMI and/or SMI, but were not accounted for in the NSDUH AMI and/or SMI estimates.

Survey Non-response:

Reasons for non-response to interviewing include; refusal to participate (22.2%); respondent unavailable or never at home (4.5%); and other In 2016, 31.6% of the selected NSDUH sample did not complete the interview. reasons such as physical/mental incompetence or language barriers (4.6%).

People with mental illness may disproportionately fall into these non-response categories. While NSDUH weighting includes non-response adjustments to reduce hias, these adjustments may not fully account for differential non-response by mental illness status. Please see the 2016 National Survey on Drug Use and Health Methodological Summary and Definitions report for further information on how these data were collected and calculated

# National Comorbidity Survey Adolescent Supplement (NCS-A)

Diagnostic Assessment and Population:

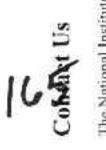

The NCS-A was carried out under a cooperative agreement sponsored by NIMH to meet a request from Congress to provide national data on the prevalence and correlates of mental disorders among U.S. youth. The NCS-A was a nationally representative, face-to-face survey of 10,123

disorders were assessed using a modified version of the fully structured World Health Organization Composite International Diagnostic Interview. residents of the households that participated in the adult U.S. National Comorbidity Survey Replication and 9,244 adolescent students selected adolescents aged 13 to 18 years in the continental United States. The survey was based on a dual-frame design that included 904 adolescent from a nationally representative sample of 320 schools. The survey was fielded between February 2001 and January 2004, DSM-IV mental

Survey Non-response:

thinded school sample, and 77.7% in the blinded school sample. Non-response was largely due to refusal (21.3%), which in the household and un-For more information, see PMID: 19507169 and the NIMII NCS-A study page twww.nimb.nih.gov//archive/news/2010/national-surrev-confirms-that-youth-are-The overall adolescent non-response rate was 24.4%. This is made up of non-response rates of 14.1% in the household sample, 18.2% in the unblinded school samples came largely from parents rather than adolescents (72.3% and \$1.0%, respectively). The refusals in the blinded school sample, in comparison, came almost entirely (98.1%) from parents failing to return the signed consent postcard. dispropertionalely-affected-by-mental-disorders shirnly

### Prevalence of Depression Among Adults Aged 20 and Over: United States, 2013–2016

Debra J. Brody, M.P.H., Laura A. Pratt, Ph.D., and Jeffery P. Hughes, M.P.H.

### Key findings

### Data from the National Health and Nutrition Examination Survey

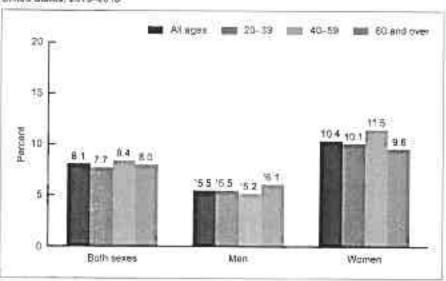

- During 2013--2016, 8.1% of American adults aged 20 and over had depression in a given 2-week period.
- Women (10.4%) were almost twice as likely as were men (5.5%) to have had depression.
- Depression was lower among non-Hispanic Asian adults, compared with Hispanic, non-Hispanic black, or non-Hispanic white adults.
- The prevalence of depression decreased as family income levels increased.
- About 80% of adults with depression reported at least some difficulty with work, home, and social activities because of their depression.
- From 2007–2008 to 2015–2016, the percentage of American adults with depression did not change significantly over time.

Major depression is a common and treatable mental disorder characterized by changes in mood, and engative and physical symptoms over a 2-week period (1). It is associated with high societal costs (2) and greater functional impairment than many other chronic diseases, including diabetes and arthritis (3). Depression rates differ by age, sex, income, and health behaviors (4). This report provides the most recent national estimates of depression among adults. Prevalence of depression is based on scores from the Patient Health Questionnaire (PHQ-9), a symptom-screening questionnaire that allows for criteria-based diagnoses of depressive disorders (5), Estimates for non-Hispanic Asian persons are presented for the first time.

### NCHS Data Brief = No. 303 = February 2018

- Overall, women (18.4%) were almost twice as likely to have depression as men (5.5%). This pattern also was observed among each age group (Figure 1).
- · Among both men and women, the percentage with depression did not differ statistically across age groups.

### The prevalence of depression was lower among non-Hispanic Asian adults than among any other race and Hispanic-origin group.

- Overall, non-Hispanic Asian adults had the lowest prevalence of depression (3.1%) compared with Hispanic (8:2%), non-Hispanic white (7.9%), and non-Hispanic black (9.2%) adults. This pattern was observed among both men and women (Figure 2).
- The prevalence of depression was not statistically different for Hispanic, non-Hispanic white, and non-Hispanic black adults, overall and among both men and women.
- Among all race and Hispanic-origin groups, except non-Hispanic Asian, men had a significantly lower prevalence of depression compared with women.

### NCHS Data Brief ■ No. 303 ■ February 2018

### The prevalence of depression among adults decreased as family income levels increased.

- Overall, 15.8% of adults from families living below the federal poverty level (FPL) had depression. The prevalence of depression decreased to 3.5% among adults at or above 400% of the FPL (Figure 3).
- Among both men and women, the prevalence of depression decreased with increasing levels of family income.
- Men with family incomes at or above 400% of the FPL had the lowest prevalence of depression (2.3%), while women with family incomes below the FPL had the highest prevalence (19.8%).

### Summary

During 2013–2016, 8.1% of American adults had depression in a given 2-week period. As observed in other studies (4,6), depression was almost twice as common among women as among men. Depression prevalence did not differ by age. Non-Hispanic Asian adults had the lowest prevalence of depression, a finding noted in other studies (7). Depression prevalence did not vary significantly among the other race and Hispanic-origin groups studied. The proportion of adults with depression increased with decreasing family income level. About 80% of adults with depression reported at least some difficulty with work, home, or social activities due to their depression symptoms. From 2007–2008 to 2015–2016, the prevalence of depression among both men and women showed no significant changes, similar to the results of another major federal survey that tracks depression estimates in the United States (8).

### NCHS Data Brief . No. 303 . February 2018

Prevalence estimates reported here do not include populations considered at higher risk for depression (i.e., those in nursing homes or other institutions). Persons currently treated for depression (i.e., medication or therapy) may not have screened positively for depression using the PHQ-9. Finally, some persons with depression may not have been able or willing to participate in the National Health and Nutrition Examination Survey (NHANES). Therefore, these findings may represent conservative estimates of depression among adults in the United States.

### Definitions

Depression: Measured using the score from the Patient Health Questionnaire (PRQ-9), a nineitem depression-screening instrument that asks about the frequency of symptoms of depression in the past 2 weeks (5). Response categories of "not at all," "several days," "more than half the days," and "nearly every day" are given a score of 0 to 3. Summary scores ranged from 0 to 27, Depression was defined using a score of 10 or higher, a well-validated cut point used in primary care settings (5).

Difficulties related to depression: Persons with a score of 1 or more on the PHQ-9 symptoms are asked: "Flow difficult have these problems made it for you to do your work, take care of things at home, or get along with other people?" Responses are 0 (not at all difficult). I (somewhat difficult), 2 (moderately difficult), or 3 (extremely difficult). In Figure 4, 1 was defined as "some difficulty." 2 and 3 were defined as "moderate or extreme difficulty."

<u>Percent of federal poverty level</u>: Based on the income-to-poverty ratio, a measure of the annual total family income divided by the poverty guidelines, adjusted for family size.

### Data sources and methods

Data from the NHANES 2007–2016 were used for these analyses. Data from two combined cycles (2013–2016) were used to test differences between subgroups. Trends in depression prevalence reflect a 10-year period of five 2-year NHANES survey cycles, 2007–2016.

NHANES is a cross-sectional survey designed to monitor the health and muritional status of the noninstitutionalized civilian U.S. population (9). The survey consists of home interviews and standardized physical examinations in mobile examination centers (MEC). The PHQ-9 was administered by trained interviewers during a private interview in the MEC. Approximately 89% of MEC-examined adults completed the PHQ-9.

The NHANES sample is selected through a complex, multistage probability design. During, 2007–2016, non-Hispanic black, non-Hispanic Asian, and Hispanic persons, among other groups, were oversampled to obtain reliable estimates for these population subgroups. Race and Hispanic origin-specific estimates reflect individuals reporting only one race. Persons reporting another race or multiple races are included in the total but are not reported separately.

Examination sample weights, which account for the differential probabilities of selection, nonresponse, and noncoverage, were incorporated into the estimation process. The standard errors of the percentages were estimated using Taylor series linearization (10), a method that incorporates the sample weights and sample design.

### NCHS Data Brief = No. 303 ■ February 2018

A t statistic was used to test for difference between groups. Tests for trends by family income and survey cycle were evaluated using orthogonal polynomials to determine linear or quadratic trends. The significance level for statistical testing was set at  $p \le 0.05$ . All differences reported are statistically significant unless otherwise indicated. All estimates presented are statistically reliable based on a relative standard error of the estimate being at or below 30%. Statistical analyses were conducted using SAS System for Windows (release 9.4; SAS Institute Inc., Cary, N.C.) and SUDAAN (release 11.1; RTI International, Research Triangle Park, N.C.).

### Estimated Prevalence of Children With Diagnosed Developmental Disabilities in the United States, 2014–2016

Benjamin Zablotsky, Ph.D., Lindsey I. Black, M.P.H., and Stephen J. Blumberg, Ph.D.

### Key findings

### Data from the National Health Interview Survey

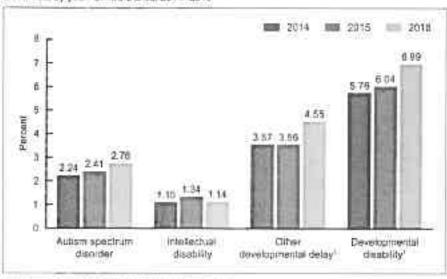

- During 2014–2016, the prevalence of children aged 3–17 years who had ever been diagnosed with a developmental disability increased from 5.76% to 6.99%.
- During this same time, the prevalence of diagnosed autism spectrum disorder and intellectual disability did not change significantly.
- The prevalence of autism spectrum disorder, intellectual disability, other developmental delay, and any developmental disability was higher among boys compared with girls.
- The prevalence of any developmental disability was lower among Hispanic children compared with children in all other race and ethnicity groups.

Developmental disabilities are a set of heterogeneous disorders characterized by difficulties in one or more domains, including but not limited to, learning, behavior, and self-care. This report provides the latest prevalence estimates for diagnosed autism spectrum disorder, intellectual disability, and other developmental delay among children aged 3–17 years from the 2014–2016 National Health Interview Survey (NHIS). Estimates are also presented for any developmental disability, defined as having had one or more of these three diagnoses. Prevalence estimates are based on parent or guardian report of ever receiving a diagnosis of each developmental disability from a doctor or other health care professional.

Keywords: autism spectrum disorder • National Health Interview Survey

### The prevalence of children diagnosed with any developmental disability increased from 2014 to 2016.

Centers for Disease Control and Prevention National Center for Health Statelics

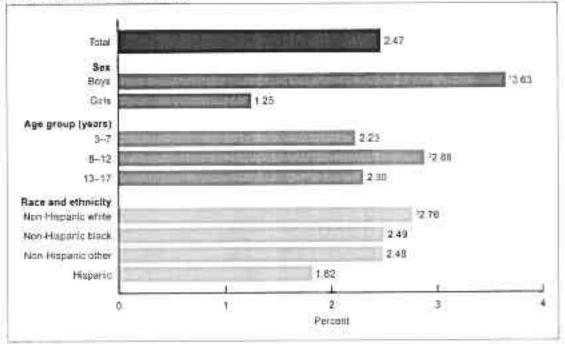

- During 2014–2016, the prevalence of children ever diagnosed with any developmental disability significantly increased, from 5.76% in 2014 to 6.99% in 2016 (Figure 1).
- The prevalence of children ever diagnosed with a developmental delay other than autism spectrum disorder or intellectual disability increased, from 3.57% in 2014 to 4.55% in 2016.
- There was not a statistically significant change in the prevalence of children ever diagnosed with autism spectrum disorder from 2014 to 2016.
- The prevalence of children ever diagnosed with intellectual disability did not significantly change from 2014 to 2016.

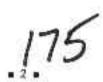

### A higher percentage of boys have been diagnosed with autism spectrum disorder compared with girls.

- During 2014–2016, the prevalence of children diagnosed with autism spectrum disorder was higher among boys (3.63%) than girls (1.25%) (Figure 2).
- Non-Hispanic white children (2.76%) were more likely to have been diagnosed with autism. spectrum disorder than Hispanic children (1.82%)-
- Children aged 8-12 years (2.88%) were more likely to have been diagnosed with autism spectrum disorder than children aged 3-7 years (2.23%).

### Summary

During 2014–2016, there was a significant increase in the prevalence of children who had ever been diagnosed with any developmental disability. This increase was largely the result of an increase in the prevalence of children diagnosed with a developmental delay other than autism spectrum disorder or intellectual disability. There was not a significant change in the prevalence of diagnosed autism spectrum disorder or intellectual disability over the same time period.

The prevalence of developmental disabilities described in this report is lower than findings described in previous reports using NHIS data (1). This report uses a more restrictive definition for a developmental disability that does not include conditions such as attention-deficit/ hyperactivity disorder or learning disabilities, which may account for differences in estimates. A similar definition was used in a 2015 National Health Statistics Report (2).

For each condition examined, the prevalence was significantly higher among boys than girls, a finding common among children diagnosed with a developmental disability (1.3). The prevalence of any developmental disability diagnosis was lowest among Hispanic children compared with all other race and ethnicity groups; racial and ethnic disparities in the prevalence of developmental disabilities are findings commonly reported in the scientific literature (1.4). Prevalence among age groups varied by condition, which may reflect recent improvements in awareness and screening for developmental delay, resulting in younger cohorts having a higher diagnosed prevalence (4). However, for some children with less severe impairment, developmental disabilities, such as autism spectrum disorder and intellectual disability, may not be diagnosed until the child enters school and is observed by trained teachers (5).

### Definitions

Diagnosed intellectual disability: Based on a positive response to the survey question, "Has a doctor or health professional ever told you that [sample child] had an intellectual disability, also known as mental retardation?"

Diagnosed autism spectrum disorder: Based on a positive response to the survey question, "Has a doctor or health professional ever told you that [sample child] had Autism, Asperger's disorder, pervasive developmental disorder, or autism spectrum disorder?"

Diagnosed other developmental delay: Based on a positive response to the survey question, "Has a doctor or health professional ever told you that [sample child] had any other developmental delay?"

Diagnosed developmental disability: A composite measure of children with a diagnosis of autism spectrum disorder, intellectual disability, or any other developmental delay.

Race and ethnicity: Based on two separate questions that determine Hispanic or Latino origin and race. Persons of Hispanic or Latino origin may be of any race.

### Data source and methods

Data from the 2014–2016 NHIS were used for this analysis. NHIS is a nationally representative survey of the civilian noninstitutionalized U.S. population. It is conducted community throughout the year by the National Center for Health Statistics (NCHS). NHIS is an in-person interview conducted in the respondent's home. In some instances, follow-up to complete the interview is conducted via telephone. The survey consists of (a) the Family Core component, which collects information on all family members; (b) the Sample Adult component, which collects additional information from one randomly selected adult per family; and (c) the Sample Child component, which collects additional information about one randomly selected child per family. The sample child component is completed by a family respondent, usually the parent (approximately 91% of all cases). Data for this analysis come from the Sample Child and Family Core components of NHIS. For more information about NHIS, visit

NHIS is designed to yield a nationally representative sample, and these analyses used weights to produce national estimates. The sample design is described in more detail elsewhere (6). Point estimates and the corresponding variances for this analysis were calculated using SLDAAN software (7) to account for the complex sample design of NHIS. Linear and quadratic trends over time and differences between percentages were evaluated using two sided significance tests at the 0.05 level.

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

### CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

### BRIEFING MEMORANDUM

DATE:

September 26, 2018

TO:

Members, Champaign County Mental Health Board (CCMHB)

FROM:

Lynn Cantield and Mark Driscoll

SUBJECT

DRAFT Three Year Plan

Background: The Champaign County Mental Health Board is charged with developing a three-year plan with the coming year being the first year of the new three-year cycle. Throughout the course of any given year the Board participates in a dynamic process highlighting issues of the day. This process can entail presentations by outside entities during Board meetings, topics addressed during study sessions, distribution of research or other professional articles, materials prepared by staff, and input from members of the public. The on-line survey developed in the fall of 2017 attempted to engage the broader community as an extension of this dynamic process. The survey solicited input from four broad constituencies to learn about their experiences navigating the behavioral health and intellectual and developmental disability systems in Champaign County. The compilation of responses to the online surveys are the centerpiece of the 2018 needs assessment. The strategic planning process begins with this community needs assessment, described in a separate memorandum in this board packet.

The needs assessment project sought insight into the experiences people have with the local system. Typical barriers identified were: lack of transportation; financial issues; eligibility; stigma/embarrassment/fear; waiting lists; not knowing how to access services or what is available.

While community-based providers and other supportive organizations continue to respond to threats posed by a rapidly changing state and federal funding and policy context, making the Board's role as complex as ever, people seeking services have some difficulty finding and accessing local resources. As a result, our efforts should also include connecting people, coordinating across providers, and making the best possible information available to the public.

Action to Consider: The attached DRAFT Three Year Plan is presented for the period of 2019 to 2021, with revised goals and proposed objectives for 2019. Suggestions for improvement are welcomed. Service providers and other stakeholders will have an opportunity to provide input, and a revised draft will be presented for approval at a later meeting of the Board.

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD THREE-YEAR PLAN FOR

FISCAL YEARS 2019 - 2021 (1/1/19 - 12/31/2021)

WITH ONE YEAR OBJECTIVES FOR

> FISCAL YEAR 2019 (1/1/19 - 12/31/19)

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

WHEREAS, the Champaign County Mental Health Board has been established under Illinois Revised Statutes (405 ILCS – 20/Section 0.1 et. seq.) In order to "construct, repair, operate, maintain and regulate community mental health facilities to provide mental health services as defined by the local community mental health board, including services for the developmentally disabled and for the substance abuser, for residents (of Champaign County) and/or to contract therefore,..."

WHEREAS, the Champaign County Mental Health Board is required by the Community Mental Health Act to prepare a one- and three-year plan for a program of community mental health services and facilities;

THEREFORE, the Champaign County Mental Health Board does hereby adopt the following Mission Statement and Statement of Purposes to guide the development of the mental health plan for Champaign County:

### MISSION STATEMENT

The mission of the CCMHB is the promotion of a local system of services for the prevention and treatment of mental or emotional, intellectual or developmental, and substance abuse disorders, in accordance with the assessed priorities of the citizens of Champaign County.

### STATEMENT OF PURPOSES

- To plan, coordinate, evaluate and allocate funds for the comprehensive local system
  of mental health, intellectual disabilities and developmental disabilities, and
  substance abuse services for Champaign County.
- To promote family-friendly community support networks for the at-risk, underserved and general populations of Champaign County.
- To increase support for the local system of services from public and private sources.
- To further develop the systematic exchange of information about local services and needs between the public/private service systems and the CCMHB.

In order to accomplish these purposes, the Champaign County Mental Health Board must collaborate with the public and private sectors in providing the resources necessary for the effective functioning of the community mental health system.

SYSTEMS OF CARE

Goal #1. Support a continuum of services to improve the quality of life experienced by meet the needs of individuals with mental and/or emotional disorders, addictions, substance use disorders, and/or intellectual or developmental disabilities and their families residing in Champaign County.

Objective #1. Conduct a needs assessment to inform development of the next three year plan.

Objective #2: Under established policies and procedures, solicit proposals from community based providers in response to Board defined priorities and associated criteria using a compatitive application process:

Objective #1 Expand use of evidence informed, evidence based, best practice, recommended, and promising practice models appropriate to the presenting need in an effort to improve outcomes for individuals across the lifespan and for their families and supporters.

Objective #2: Promote wellness for people with mental illnesses, substance use disorders, intellectual disabilities, or developmental disabilities to prevent and reduce early mortality, through support services including access to services addressing basic needs, enrollment in benefit plans and coordinated access to primary care.

Objective #3: As practicable in light of potential congressional or presidential actions on the Affordable Care Act and Medicaid expansion, support development or expansion of residential and/or employment supports for persons with behavioral health diagnosis not supported through expansion of Medicaid or the Affordable Care Act.

Objective #4: Support broad based community efforts to prevent opiate overdoses and expand treatment options.

Objective #5: As enrollment in health insurance and Medicaid managed care plans reduce the uninsured population, realign CCMHB deltars to fund services and supports outside the realim of Medicaid. Build resiliency and support recovery e.g. Peer Supports, putside of a therapeutic environment.

Objective #6. Build evaluation capacity of contracted providers utilizing expertise of evaluators from the Department of Psychology at the University of Illinois to further positive outcomes of those engaging in funded services.

Goal #2. Sustain commitment to addressing health disparities experienced by the need for underrepresented and diverse populations, access to and engagement in services.

Objective #1: Support culturally responsive and family driven support networks for underrepresented populations, underserved populations, and general populations of Champaign County.

Objective #2: Provide technical assistance in support of continuous improvement of cultural and linguistic competence plans to meet the needs of the population served.

Objective #3 Encourage providers and other community-based organizations to allocate resources to provide training, seek technical assistance, and pursue other professional development activities for staff and governing and/or advisory boards to advance cultural and linguistic competence.

Objective #4: Use the Culturally and Linguistically Appropriate Services Standards (CLAS) as a blueprint to strengthen funded agencies' Cultural and Linguistic Competence.

Goal #3: Improve consumer access to and engagement in services, through increased coordination, and collaboration, between providers, community stakeholders, and consumers.

Objective #1: Encourage development of collaborative agreements between providers to increase or maintain access and coordination of services for consumers throughout Champaign County.

Objective #2: Participate in various coordinating councils whose missions align with the needs of the **various** populations of interest to the Board with the intent of strengthening coordination between providers in the delivery of services.

Objective #3: Explore at the Board level potential for collaboration on issues of mutual interest with the C-U Public Health District and the Champaign County Board of Health.

Objective #4 Engage with CUPHD, United Way, Carle Foundation Hospital, and OSF in the collaborative planning process for the next Community Health Improvement Plan.

Objective #5: Increase awareness of community services and access to information on when, where and how to apply for services. In conjunction with the United Way of Champaign County, monitor implementation of the 211 information and referral system.

Objective #5: Investigate options for development of a web based compilation of local resources and or directories targeted to specific populations.

Goal #4: Continue the collaborative working relationship with the Champaign County Board for Care and Treatment of Persons with a Developmental Disability (CCDDB).

Objective #1. Coordinate integration, alignment, and allocation of resources with the CCDDB to ensure the efficacious use of resources within the intellectual disability and developmental disability (ID/DD) service and support continuum.

Objective #2. Assess alternative service strategies that empower people with ID/DD and increase access to integrated settings as exemplified by the collaborative approach to the Employment First Act.

Objective #3: Concurrent With the CCDDB, continue financial commitment to maintain and, if demonstrated expand the availability of community-based housing Community Integrated Living Arrangement (CILA) housing opportunities for people with ID/DD from Champaign County and as part of that sustained

186

commitment, review the Community Integrated Living Arrangement (CILA) fund and recommend any changes:

Objective #4: Collaborate with the Champaign County Board for the Care and Treatment of Persons with a Developmental Disability on Issues of mutual interest as exemplified by the expansion of CILA housing and joint sponsorship of events promoting acceptance, promoting inclusion and respect for people with ID/DD.

### MULTI-AGENCY INVOLVED YOUTH AND FAMILIES

Goal #5 Building on progress achieved through the six Year Cooperative Agreement between the Federal Substance Abuse and Mental Health Services Administration (SAMHSA), the Illinois Department of Human Services (IDHS), and the Champaign County Mental Health Board (CCMHB) implement a plan to sustain the SAMHSA/IDHS system of care model.

Objective #1 Support the efforts of the Champaign Community Coalition and other system of care initiatives.

Objective #2: Ongoing Sustain support of Champaign County family-run organizations that incorporate family-driven and youth-guided principles. In recognition of the importance of in use of peer support specialists, and other peer-to-peer supports to assist multi-system involved families and youth. I maintain direct involvement and input about decisions that are made. Encourage organizations focus on puer support specialists, peer to peer support, advocacy at the local level, and statewide expansion of family run organizations.

### CRIMINAL JUSTICE AND MENTAL HEALTH SYSTEM COLLABORATION.

Goal #6 Support infrastructure development and investment in services along the five briminal justice intercepts points to Divert from the criminal justice system, as appropriate, persons with behavioral health needs or developmental disabilities.

Objective #1. Continue involvement in the Crisis Intervention Team Steering Committee in support of increased collaboration between law enforcement and crisis leam service providers on implementing mobile crisis response in the community.

Objective #2: Sustain efforts to engage persons with behavioral health diagnoses re-entering the community from jail or prison or with recent involvement with the criminal justice system, in treatment and other support services such as the Champaign County Problem Solving Court and reentry services

Objective #3: Maintain commitment to the Problem Solving Courts operating in Champaign County including continued participation on the Specialty Court Steering Committee:

Objective #4. Support integrated planning and service coordination for adults involved in the criminal justice system through participation in the Champaign County Reentry Council or similar body to address needs identified in the Sequential Intercept Map gaps analysis.

Objective #5: Through the National Association of County Behavioral Health and Developmental Disability Directors (NACBHDD), in its partnership with the National Association of Counties (NACo.) pursue opportunities for technical assistance and support through the "Decarceration Initiative," "Stepping Up: A National Initiative to Reduce the Number of People with Mental Illnesses in Jails," and the "Data Driven Justice Initiative," Encourage and participate in and other similar collaborative opportunities aimed at improving outcomes for those with behavioral health needs involved with the criminal justice system.

Goal #7: In conjunction with the Champaign County Sheriff's Office and other community stakeholders pursue a continuum of services as an alternative to incarceration and/or overutilization of local Emergency Departments for persons with behavioral health needs or developmental disabilities.

Objective #1: Serve on the Crisis Response Planning Committee, or its successor body, to continue to advance work initiated under the Justice and Mental Health Collaboration planning grants

Objective #1: Support initiatives providing housing and employment supports for persons with a mental illness, substance use disorder, and/or intellectual and developmental disabilities through the Champaign County Continuum of Care or other local collaboration.

Objective #2: Identify options for developing jail diversion services to provide behavioral health assessments, crisis stabilization and detoxification from alcohol and/or other substances as may be necessary to serve Champaign County.

Objective #3: Secure commitment to support and sustain the development of a spordinated system of diversion services, from vested stakeholders in the public and private sectors:

Objective #4: Use public input gathered through these collaborations to guide advocacy for planning and policy changes at the state and federal levels, local system redesign and enhancement, and in the consideration of future funding priorities for the CCMHB.

Goal #8: Support interventions for youth who have juvenile justice system involvement to reduce contact with law enforcement or prevent deeper penetration into the system.

Objective #1: Investigate evidence based or recommended juvenile justice models as an alternative to the Parenting with Love and Limits (PLL) programs

Objective #1: Support continued implementation of the Parenting with Love and Limits (PLL) program based on positive evaluation and feedback from community partners and stakeholders, or as appropriate, an acceptable alternative.

Objective #3 Monitor local utilization of PLL and pursue options as necessary to address potential excess capacity.

Objective #2: Through participation on the Youth Assessment Center Advisory Board advocate for community and education-based interventions contributing to positive youth development and decision-making. Objective #3. Through participation and engagement in the Champaign Community Coalition and other community focused initiatives, promote and encourage multi-system collaborative approaches for prevention and reduction of youth violence.

Objective #4. Promote and support those targeted interventions that specifically address historical trauma experienced by African American and other minority youth disproportionately impacted in multiple systems.

Objective #5. Utilize the principles from "Models for Change" to reduce the disproportionate minority contact with law-enforcement and involvement with the juvenile justice system.

### COMMUNITY ENGAGEMENT & ADVOCACY

Goal #9: Address the need for acceptance, inclusion and respect associated with a person's or family members' mental illness, substance use disorder, intellectual disability, and/or developmental disability through broad based community education efforts to increase community acceptance and positive self-image.

Objective #1: Continue support for and involvement in efforts to challenge stigma and discrimination and other community education events including disABILITY Resource Expo: Reaching Out for Answers, and the National Children's Mental Health Awareness Day.

Objective #2 Promote substance use disorder prevention initiatives as a community education tool targeting youth and young adults.

Objective #3. Participate in behavioral health community education initiatives, such as national depression screening day, to encourage individuals to be screened and seek further assistance where indicated.

Objective #4: Encourage and support efforts to more fully integrate people with behavioral health disorders and/or intellectual or developmental disabilities into community life in Champaign County.

Goal #10: Stay abreast of emerging issues affecting the local systems of care and consumer access to services and be proactive through concerted advocacy efforts. Engage with other local, state, and federal stakeholders on emerging issues.

Objective #1. Monitor implementation of state Medicaid Plan amendments, 1115 waiver pilot projects, use of Managed Care Organizations to implement the Affordable Care Act and the expansion of Medicaid by the State of Illinois and advocate for increased service capacity sufficient to meet consumer demand through active participation in the Association of Community Mental Health Authorities of Illinois (ACMHAI) and other statewide associations and advocacy groups, and national associations such as the National Association of Countries (NACo).

Objective #2: Track state implementation of class action suit settlements involving persons with intellectual disabilities or developmental disabilities or mental illness, e.g. Ligas vs. Hamos Consent Decree and Williams vs. Quinn Consent Decree, and proposed closure of state facilities; and advocate for the

allocation of state resources sufficient to meet needs of clients returning to home communities or seeking fuller integration in their communities.

Objective #3: Maintain active participation in Through the National Association of County Behavioral Health and Developmental Disability Directors (NACHBBD). National Association of Counties (NACo), and like-minded national organizations, to monitor activities at the federal level, monitor the federal rulemaking process applying parity to Medicaid Managed Care and associated benefit plans and on the institutions for Mental Disease (IMD) Medicaid Exclusion. Use opportunities for public comment on proposed rules and legislative action to advacate for the needs of our community:

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

### CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

### BRIEFING MEMORANDUM

DATE

September 26, 2018

TO:

Members, Champaign County Mental Health Board (CCMHB) and

Champaign County Developmental Disabilities Board (CCDDB)

FROM

Lynn Canfield, Executive Director

SUBJECT

Fund Balances, Tax Liabilities, Unanticipated Revenues

### Purpose

In this packet, revised 2019 budgets are presented for your consideration. Additional revenues and associated revisions are explained in a Decision Memorandum accompanying the budget documents, under Old Business. The purpose of this Briefing Memorandum is to offer context for possible Board actions in response to tax liabilities, miscellaneous revenues, and fund balances.

### Background

Fond Balances: The recommended fund halance goal is to cover six months of operating costs, including contracts for services and supports provided by community-based organizations.

At the end of the Boards' fiscal year. December 31, fund balances appear to be higher than this goal because this is not the point in the year used for planning. For our purposes, the projected balances in May are most critical, as this is when the funds reach their lowest amount, just before the first distribution of property tax revenues each year. The majority of Board funding is spent on agency contracts, which use a term coinciding with the state fiscal year of July 1 through June 30. Accurately predicting property tax revenues in order to allocate in this way is a challenge, but overestimating the available revenue can put the agency programs, and the people they serve, at risk.

Analysis of the Board funds at their lowest point, in May 2018, showed that the CCDDB did not have sufficient funds to cover three months of operating costs and that the CCMHB had more than enough. The Treasurer invests these funds and anticipates increased interest income; although earning more on the funds is better than not, it may be desirable to plan bringing the fund balances closer to goal. The causes of the higher balance are: liabilities; return of excess revenue from agencies; unanticipated changes in revenues and expenditures.

The CILA fund relates to a mortgage and to maintenance of properties, and its revenues are largely interfund expenditures from the Boards.

Tax and Other Liabilities: Application of the fund halance goal is complicated by substantial liabilities in each Board's fund:

- CCMIII tax liability of \$430,716, hospital property tax revenues previously distributed.
- CCDDB tax liability of \$359,364, hospital property tax revenues previously distributed.
- The Boards share small liabilities associated with staff benefits which would be paid upon resignation, termination, or retirement.

1776 E W SHITS ON STREET

LIGBANA, ILLINOIS & 802

In the event of an unfavorable decision in the hospital property tax case, repayments from each fund would have the result of leaving the CCDDB with very low reserve, though the CCMHB would still have a small amount of reserve beyond the fund balance goal. Hospital tax revenues anticipated for 2019 would simply not be spent. Although the case is scheduled to be heard in January 2019, a decision might not be made in time for allocation of agency contracts next year.

<u>Unanticipated Revenues:</u> Reserves build through return of excess revenue from agency contracts along with other unplanned revenues and savings. Fortunate examples of unplanned revenue are a \$64,000 refund from a vendor in 2017 and refunds for 2018 national conference registrations.

The 2019 budgets were adjusted to receive higher estimated additional revenues - repayments from agencies, increased interest income, increased donations related to anti-stigma and Expo - and to spend them as Contributions & Grants, funding service providers through an established annual, competitive allocation process, with public review and decisions made in late Spring. The CILA budget uses additional revenue for improvements and repairs of the homes and appliances.

It is important to note that the return of excess revenue associated with agency contracts results directly from some persistent problems. It is unfortunate that we now plan for these in our budgeting process.

As early as August, agencies return unused funds from the contract year ending on June 30. This continues as independent audits are performed and reviewed, often into the following calendar year. A short-term problem emerges because we lack a process for reallocation. The longer-term issue is that these repayments relate to underperformance on contracts, whether due to low referrals, insufficient staffing, loss of other funding, or other barriers encountered by community-based providers. These issues are not expected to resolve during 2018 or 2019. The Boards and staff track local, state, and federal changes. To invest less in the local systems of support would not align with mission, but we might consider other ways to support these systems.

### Supports Other than through Agency Contracts

These additional program supports exist and could be expanded, with the purpose of strengthening agency supports and services. They are not charged to the Contributions & Grants lines of Board Fund budgets and include:

- training workshops for case managers and others providing service directly to eligible people (may also improve coordination across providers);
- service-level data collection and analysis of programs used by adults with L/DD;
- outcome evaluation support through UIUC researchers; and
- technical assistance for cultural and linguistic competence strategies.

Additional supports for persons with MI, SUD or I/DD are being explored or in progress, also not not charged to Contributions & Grants:

- March 2019 disABILITY Resource Expo and updated comprehensive resource guide;
- unti-stigma events;
- Mental Health First Aid trainings for interested groups, especially in northern Champaign County and rural areas;
- low cost, web-based or text-based mental health supports available Countywide;

- collaboration with those entities most likely to encounter people in crisis, to improve crisis response; and
- Parkland Foundation scholarship fund, through which people eligible for board-funded services would access to post-secondary educational opportunities.

The CILA budget allows for repairs to the current homes. The Boards might also consider:

- purchasing one or two more homes (with consideration for workforce shortage and appropriate referrals of Champaign County residents);
- selling the current homes to a private investor or non-profit service provider;
- paying off the mortgage ahead of schedule.

### Possible Actions

As stated above, the amounts associated with previous hospital tax revenues are quite large, \$430,716 in the CCMHB fund and \$359,364 in the CCDDB fund, the majority of each board's reserve. If there is a ruling favorable to the County, these amounts will no longer need to be available to pay off the liabilities. The CCDDB could leave this amount in the fund account to build toward the recommended reserve; the CCMHB is in a good position to spend at least this amount.

In addition to these earlier revenues, the CCMHB's 2019 budget has anticipated hospital property tax revenue of \$142,532, and the CCDDB \$118,919, pending favorable ruling. There is a mechanism in the budgets to spend these amounts during 2019, though not prior to a ruling.

The Boards might consider new strategies to further their missions:

- a student loan debt repayment program for people committing to work in Champaign
  County for a period of time, in the areas of service most harmed by the current and growing
  workforce shortage, from psychiatrists to direct support professionals, as there is no
  question that the shortage of each has deeply damaged our service systems;
- a scholarship fund, for recipients making a similar commitment to Champaign County, also for the purpose of strengthening the workforce;
- capital/infrastructure projects for eligible community-based service providers, through the
  existing competitive allocation process;
- housing, paid internships, or scholarships for people with I/DD or MI/SUD;
- other capital projects identified as of value to one or both Boards.

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

### 8.A

### CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

### DECISION MEMORANDUM

DATE: September 26, 2018

TO: Members, Champaign County Mental Health Board (CCMHB)

FROM: Lynn Canfield, Executive Director

SUBJECT: FV2019 Champaign County CCMHB and CILA Budget Submissions

Overview: The purpose of this memorandum is to seek approval of second drafts of the Champaign County Mental Health Board (CCMHB) Budget and CILA Fund Budget, for County Fiscal Year 2019 (January 1, 2019 through December 31, 2019). Earlier approved versions were revised with advice from County Administration, incorporating increused revenue estimates and refining personnel cost estimates, and submitted for information to the Champaign County Board in August. Final budgets will be presented as part of their appropriations process in November. Further changes in revenue projections, personnel costs, or other planned expenditures, may occur before November, requiring your approval.

The CILA Fund Budget, under joint authority of the CCMHB and Champaign County Developmental Disabilities Board (CCDDB), uses previous and current year actuals. The projected fund balance may protect against larger liabilities or, at the direction and agreement of the Boards, be used to purchase additional homes or pay the bank loan ahead of schedule.

Attached are a revised 2019 CCMHB Budget and a revised 2019 CILA Fund Budget. The draft 2019 CCDDB Budget is included for information only, along with four pages of background details. Changes made to earlier versions are italicized in the attachments and include:

- · Higher projected property tax revenues (both boards)
- Property tax revenue associated with the hospital; court hearing scheduled for January; a subsequent finding will determine whether this revenue will be used or repaid. In addition, a finding favorable to the hospital will result in repayment of earlier revenue deposits, reducing the fund balance (both hoards)
- Increased investment interest (both boards and CILA)
- Small adjustments of personnel costs (CCMHB budget)
- Increased estimate of costs for non-employee trainings (to host workshops for local service providers) and decreased estimate of bank charges (CCMHB budget)
- Increased contributions and grants line (both boards)
- Increased rent revenue (CILA)
- Increase in equipment expense (CILA)
- · Decrease in mortgage interest expense (CILA)

Please call the CCMHB/CCDDB office to confirm all meetings.

### DRAFT

### July 2017 to June 2018 Meeting Schedule with Subject and Allocation Timeline\*

The schedule provides the upcoming dates and subject matter of board meetings through June 2018 for the Champaign County Mental Health Board. The subjects are not exclusive to any given meeting as other matters requiring Board review or action may also be addressed or may replace the subject listed.

Study sessions may be scheduled throughout the year with potential dates listed. Study session topics will be based on issues raised at board meetings, brought to the CCMHB by staff, or in conjunction with the Champaign County Developmental Disabilities Board.

Included with the meeting dates is a tentative schedule for the CCMHB allocation process for Contract Year 2019 (July 1, 2018 - June 30, 2019).

Timeline	Tasks

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD BOARD MEETING

DRAFT

Minutes-June 27, 2018

Brookens Administrative Center Lyle Shields Room 1776 E. Washington St Urbana, 1L

5:30 p.m.

MEMBERS PRESENT: Susan Fowler, Judi O'Connor, Thom Moore, Joe Omo-Osagie,

Elaine Palencia, Kyle Patterson, Anne Robin, Julian Rappaport

MEMBERS EXCUSED: Margaret White

STAFF PRESENT: Lynn Canfield, Mark Driscoll, Stephanie Howard-Gallo

OTHERS PRESENT: Gail Raney, Chris Gleason, Rosecrance: Nancy Greenwalt.

Promise Healthcare; Alex Campbell, EMK Consulting

### CALL TO ORDER:

Dr. Fowler called the meeting to order at 5:30 p.m.

### ROLL CALL:

Roll call was taken and a quorum was present.

### CITIZEN INPUT / PUBLIC PARTICIPATION:

None.

### APPROVAL OF AGENDA:

Dr. Fowler requested Agenda Items 6.B. and 6.C. be moved in front of 6.A. The Board agreed and the agenda was approved.

### PRESIDENT'S COMMENTS:

None.

207

### NEW BUSINESS:

### Promise Healthcare Child Psychiatry Request:

Promise Healthcare has sent a letter requesting \$20,250 from the Champaign County Mental Health Board for support services necessary to manage children's access to the new psychiatric services. The letter from Promise Healthcare requesting assistance from the Board was included in the Board packet.

The new request would enable Promise Healthcare to expand psychiatric services available to patients at Frances Nelson to include children and youth. The pediatric psychiatry services would be available one morning per week. Up to fifty children and youth are projected to be served in the first year. Services would likely start sometime in September. Other revenue will result from billing Medicaid, Managed Care Plans, and private insurance, and from nominal sources such as patient fees or co-pays. Even with these, the agency projects a gap of \$20,250 between anticipated revenue and expenses. A means of funding the \$20,250 requested from the Board has been identified by staff.

The Rosecrance Recovery Home contract is to be pro-rated adjusting the term of the contract and reducing the contract maximum when issued. The delayed implementation of the Recovery Home contract is expected to generate sufficient funds to support the Promise Healthcare request. Promise Healthcare has an existing contract with the Board that includes psychiatric services. The scope of services and budget can be amended to include child psychiatry and adjust the contract maximum. Funding beyond the current contract term would be contingent upon submission of an application that includes support child psychiatry, for the PY2020 allocation cycle. Staff recommended the Champaign County Mental Health Board approve the request.

Board discussion followed. Dr. Rappaport stated for the record he was deeply disappointed and found it shameful this service was not getting support from state or local providers for this service to the community. Dr. Robin and Dr. Moore concurred for the record.

MOTION: Dr. Robin moved to authorize the Executive Director to issue an amendment to the Promise Healthcare "Mental Health Services with Promise" contract increasing the contract maximum by \$20,250 to support the expansion of psychiatric services to include pediatric psychiatry one half day per week. Dr. Moore seconded the motion. A roll call vote was taken with all members voting aye. The motion passed unanimously.

### University of Illinois "Build Program Evaluation Capacity: Year 4 Proposal"

For the last three years, the Champaign County Mental Health Board has contracted with the University of Illinois to assist agencies to build evaluation capacity within funded programs. The initial proposal was the result of meetings with the evaluators, staff, and representatives of the Board. The consultants under contract are Drs. Nicole Allen and Mark Aber. They are well

qualified to engage in this work, have worked with CCMHB funded agencies in the past, and are familiar with the mission and work of the Board.

Annual reports on the outcome of their work with funded programs have been presented to the Board and to the agencies. As part of the FV16 contract, the evaluators participated in the Board retreat, assessed current evaluation activities and reporting of funded programs, and reported their findings to the Board. A similar report was presented to Board following the close out of year two. In September, the evaluators are scheduled to present a report on activities and progress achieved under year three.

Throughout the last year, a representative of the evaluation team has attended meetings of the Mental Health and Developmental Disabilities Agencies Council to report on activities and promote services available to CCMHB funded programs. A presentation by the evaluators and four agencies that received intensive support will be made at the August meeting of the Council.

The first year was an assessment of current evaluation requirements and agency reports. Year two and three focused on developing evaluation capacity within programs, including targeted intensive support to four programs each year. Renewal of the contract for another year is recommended in order to continue supporting progress achieved by the targeted programs under prior contracts, to engage several new programs with intensive evaluation technical assistance and support, and to offer consultation and other support services to all CCMHB funded programs and to the Board. Amount requested is \$53,335 an increase of \$359 over last year. A copy of the proposal was included in the Board packet.

MOTION: Dr. Rabin moved to authorize the Executive Director to execute a contract with the University of Illinois in the amount \$53,335 to implement the scope of work presented in Capacity Building Evaluation: Year 4 proposal. Dr. Rappaport seconded the motion. A roll call vote was taken and all CCMHB members voted aye. The motion passed.

### Needs Assessment Survey Results:

Alex Campbell from EMK Consultants presented the results of the online Needs Assessment Survey initiated in the fall of 2017. The results were included in the Board packet. A written summary of the data will be fortbooming.

### Anti-Stigma Community Event:

A Decision Memorandum was included in the Board packet. Allocation of up to \$15,000 to sponsor a film and support and amplify concurrent activities is requested. The Roger Ebert's Film Festival has been central to our anti-stigma efforts, with a sponsored film and the festival's support for related community activities. Our anti-stigma messaging has become a festival theme and received increased exposure, media coverage, and special attention from festival leadership and staff, especially for panel discussions and concurrent art exhibits. The Alliance itself has expanded over the years to include large and small provider organizations, support groups, UIUC School of Social Work, Parkland, the Champaign Community Coalition, and Swann Special

Care Center. The anti-stigma/pro-inclusion effort supports Mental Health, Developmental Disabilities, and Substance Use Disorder community awareness and education.

During the 2018 festival, we held a youth screening/discussion of the sponsored film, staged and promoted an art show, participated in a well-attended panel discussion dedicated to anti-stigma, and maintained a website to promote the artists and the Alliance's mission. Activities are ongoing in response to opportunities, including beyond the festival.

The total cost for the film sponsorship is anticipated to be \$15,000. In 2018, the initial expense of this sponsorship was offset by \$5,560 in Alliance member contributions and sales of passes.

MOTION: Dr. Moore moved to approve up to \$15,000 for sponsorship of an anti-stigma film at the 2019 Roger Ebert's Film Festival. Mr. Patterson seconded the motion. A roll call vote was taken and all members voted aye. The motion passed unanimously.

### CCMHB FY2018 Budget:

A copy of the proposed FY2018 CCMHB Budget and the CILA Budget was included in the Board packet for review. Ms. Canfield reviewed the documents with Board members.

MOTION: Dr Robin moved to approve the proposed 2019 CCMHB Budget with anticipated revenues and expenditures of \$5,231,018. Ms. O'Connor seconded the motion. A roll call vote was taken and the motion passed unanimously.

MOTION: Ms. O'Connor moved to approve the proposed 2019 CILA Fund Budget, with anticipated revenue of \$118,100 and expenditures of \$94,194. Payment to this fund is consistent with the terms of the Intergovernmental Agreement between the CCDDB and CCMHB. Dr. Rappaport seconded the motion. A roll call vote was taken and the motion passed unanimously.

### Agency Information:

Mr. Chris Gleason from Rosecrance, Central Illinois (RCI) announced there is currently no wait list for assessments for mental health services. Walk-in assessments for adults are currently available 2 days a week.

### OLD BUSINESS:

### Schedules and Allocation Process Timeline:

An updated copy of the meeting schedule and allocation timeline was included in the Board packet for information only.

MOTION: Ms. O'Connor moved to cancel the July 2018 meeting. Mr. Omo-Osagie seconded the motion. A voice vote was taken and the motion passed unanimously.

210

### CCDDB INFO:

The CCDDB met earlier in the day.

### APPROVAL OF MINUTES:

Minutes from 5/16/18 and 5/23/18 meetings were included in the Board packet for review.

MOTION: Dr. Moore made a motion to approve the minutes from the May 16th and May 23rd meetings. Ms. Palencia seconded the motion. A voice vote was taken and the motion passed.

### EXECUTIVE DIRECTOR'S COMMENTS:

None:

### STAFF REPORTS:

Staff reports from Mark Driscoll, Kim Bowdry, Shandra Summerville, and Stephanie Howard-Gallo were included in the packet for review. Dr. Fowler asked for a PUNS update. 900 names were chosen and 12 were from Champaign County.

### BOARD TO BOARD:

Ms. Palencia had an orientation with RACES and Adelaide Aime, Executive Director.

### FINANCIAL INFORMATION:

The Expenditure Approval Report from the Champaign County Auditor's Office was included in the packet for review.

MOTION: Dr. Robin moved to approve the Expenditure Approval Report as presented in the packet. Dr. Rappaport seconded the motion. A voice vote was taken and the motion passed. The claims report was approved.

### BOARD ANNOUNCEMENTS:

None.

### ADJOURNMENT:

The meeting adjourned at 6:50 p.m.

Respectfully

Submitted by: Stephanie Howard-Gallo

CCMHB/CCDDB Staff

\*Minutes are in draft form and are subject to CCMHB approval.

### Mark Driscoll Associate Director for Mental Health & Substance Abuse Services

### Staff Report - September 26, 2018 Board Meeting

### Summary of Activity

PY19 Contracts Update: At the June meeting, the Board approved an amendment to the Promise Healthcare Mental Health Services contract and renewal of the U of I program evaluation contract. The Promise Healthcare amendment has been executed. It increases the contract maximum to support access to pediatric psychiatry for children and youth being served by the agency. Payments were adjusted as of September 1<sup>st</sup>. The U of I contract has been executed. The Program Evaluation Team is in the process of selecting the three programs for intensive support. A decision will be made on the targeted programs prior to the September Mental Health Development Disabilities Council meeting.

An amendment has also been issued to the new Cunningham Children's Home contract. Shortly after the start of the contract year the program requested the name be changed from Independent Living Opportunities to ECHO Housing and Employment Support. The reason for the change was to eliminate confusion between DCFS funded services and those supported with CCMHB funds. The agency has communicated with staff on separate occasions about staffing pattern, other funds that target employment support to young adults, and plans to pursue other funding specific to assisting homeless youth. The agency also requested a follow-up meeting to the June contract meeting to reaffirm expectations on staffing and use of other funds.

The Rosecrance Recovery Home contract has not been issued. The Recovery Home is expected to open in late 2018. The contract is on hold until Rosecrance notifies CCMHB it is ready to move forward with hiring program staff. The contract amount will be pro-rated to account for the shortened contract term.

Parenting with Love and Limits: The Rosecrance Parenting with Love and Limits (PLL) program was moved from grant to fee for service for the PY19 contract. In late June and July, the program has experienced an exodus of staff. Three of the four therapists have resigned as has the case manager. The remaining therapist is attempting to engage referred families and has started a PLL group. No services were billed in July. With a group started some billable activity will have occurred during intake and continue through completion of group and family coaching sessions.

Rosecrance has met with CCMHB staff to discuss the status of the program. Effort is being made to recruit new staff but so far has not resulted in many qualified candidates applying. A secondary issue is with engagement of referred families. In many instances staff has been unable to contact the families. Neither of these issues is unique to PLL.

Subsequent to the CCMIIB meeting, Rosecrance held a meeting with stakeholders. Based on the discussion with stakeholders, there was interest in getting input from youth and families on PLL, having PLL attempt to engage families at court that has proven successful in the past, consider program alternatives although stakeholders are supportive of PLL and consider it successful for those families that complete the program. It was acknowledged that issues with recruiting and retaining staff and engagement with families remain regardless of whatever program is offered. Rosecrance is to draft a proposal outlining options for moving forward.

CCMHB Needs Assessment and Draft Three Year Plan: A fair amount of time and energy has been spent compiling the documents included in the Needs Assessment and drafting the cover memo. The online survey of various constituencies completed last fall is the central piece of the Needs Assessment. Supplementing this information are other assessments and reports. The Briefing Memo references content of the assessment and provides links to the source documents as appropriate. An initial working draft of the Three-Year Plan appears as a separate document. Revisions to the draft will be made based on Board discussion and community input.

<u>CCMHB Site Visits</u>: Site visits on two agencies were completed in July. Agencies monitored were Community Service Center of Northern Champaign County and the Children's Advocacy. Center. No significant issues were noted and both programs met expectations for documentation of reported activity. More site visits will be scheduled in the coming months.

Criminal Justice - Mental Health: The Reentry Council continues to meet on a regular basis. The Housing Authority of Champaign County has chosen to join the Council. Effort is being made to broaden community representation to include health care providers, peer supports groups (GROW), and expand participation from municipal government as well as reconnect with members having light attendance. The Council is establishing bylaws. An executive committee has been formed and I have agreed to serve on that body. The County Board has approved continued funding for the Reentry Program administered by Rosecrance. Services provided under this contract are coordinated with the CCMHB funded Criminal Justice program.

A primary focus of the most recent meeting of the Crisis Intervention Team Steering Committee was the county wide CIT report. This particular report reviewed twelve months' worth of data on disposition of CIT calls. That report is included as part of the CCMHB 2018 Needs Assessment.

In other crisis related news, Carle Foundation Hospital is contracting with The Pavilion to provide crisis services to individuals presenting at the Carle Emergency Department. While Rosecrance is now providing 24-hour coverage on-site at the OSF Emergency Department. And the state is expanding its crisis service array to include mobile crisis response for those enrolled in Medicaid. As part of this shift, providers of youth crisis services (SASS Providers) can now serve adults. Other providers wanting to serve the Medicaid population will need to meet Illinois Department of Health and Family Services certification requirements. A CCMHB study session on changes to crisis services is scheduled for October 24, 2018.

<u>Champaign County Continuum of Care</u>: The Continuum reviewed and ranked proposals from local providers as part of the Department of Housing and Urban Development annual application. Cunningham Township has been meeting with local funders and other stakeholders on developing an emergency shelter and transitional housing for women and women with children. And CU at Home has agreed to lease the TIMES Center. It will house the Phoenix Drop-in Center and this winter the CU Men's Emergency Shelter.

ACMHAI Fall Meeting: Attended the educational forum at the ACMHAI meeting held in Normal, Illinois. Presenters included the Executive Director of the Community Behavioral Health Association, the Director of the DRS-Division of Mental Health, and President of Meridian Health Plan. All spoke from different perspectives of the changes occurring in state supported behavioral healthcare services.

### Kim Bowdry, Associate Director for Intellectual & Developmental Disabilities Staff Report – September 2018

NACBHDD: I traveled to the NACBHDD Summer Board Meeting in Nashville, TN. I attended the NACBHDD ID/DD Summit and the Board Meeting. For more information on this please refer to the NACBHDD Summer Meeting and I/DD Summit and NACo Annual Conference Briefing Memo from Lynn. Lynn sent this as an email attachment on Wednesday, September 12, 2018. The biggest take away from this was how terrible it will be for Illinois to move the I/DD population into Medicaid Managed Care.

I also participated in monthly NACBHDD I/DD committee calls.

<u>Site Visits</u>: I accompanied Mark Driscoll, Associate Director for MH/SUD on site visits at the Community Service Center of Northern Champaign County and the Children's Advocacy Center. I completed a site visit with the CCRPC Decision Support Person Program in August.

<u>Trauma Informed Care</u>: I attended a "Trauma and Crisis Response Workshop" at the University Of Illinois School Of Social Work in July. In August, I attended a "Trauma in the Community" workshop, presented by Karen Simms with the CU Trauma and Resilience Initiative.

<u>Provider Trainings</u>: In early August, I began coordinating the "Trauma Informed Care for Persons with Intellectual/Developmental Disabilities Training." I have attached the flier for this training. It will be held at the Champaign Public Library on October 4, 2018 and Raul Almazar, RN, MS is the presenter. The University Of Illinois School Of Social Work is cosponsoring this training, so in addition to QIDP CEUs, LSW, LCSW, and LCPC CEUs will also be available.

Other scheduled trainings include "211" on November 1, 2018 and "Law Enforcement Rules and Regulations in Response to Crisis Situations" on December 6, 2018. Each of these scheduled trainings will be held at the Champaign Public Library.

<u>CCDDB Reporting</u>: We will begin our second year using the online reporting system. I am looking forward to having a full year's worth of data to begin looking at and tracking trends in the services provided.

ACMHAI: I participated in the I/DD committee call in May. I attended the quarterly meeting in Bloomington in September. The focus of the presentations was on Managed Care.

MHDDAC: I participated in monthly meetings of the Mental Health & Developmental Disabilities Agencies Council Meeting.

Webinars & Chats: I participated in a "Working Memory" chat. I participated in the Doors to Wellbeing Peer Specialist Monthly Webinar Series. I participated in an nTIDE Lunch and Learn webinar. I attended a Reentry Council Meeting. I listened to two "Sex Talk for Self-Advocates" webinars. I participated in an "ISBE: Parent Guide" webinar. I participated in a Managed Care webinar. I participated in two Employment First State Leadership Mentoring Program webinars. I participated in a chat on "Executive Functioning." I participated in a webinar titled, "Direct Support Professionals and Quality of Life of People with IDD," which focused on the relationship between DSPs and people with IDD's quality of life. I participated in a webinar titled, "DRS - What is it? How Can it Help?"

215

<u>School of Social Work - Community Learning Lab</u>: Lynn and I attended a Case Management class at the University Of Illinois School Of Social Work. This semester those students are working on mapping out local resources. This class is also gathering data on barriers people/families face when trying to access services in Champaign County through an online survey.

Racial Taboo Planning Committee: I attended a meeting of the Racial Taboo Planning Committee. The group decided to pursue three main lines of action from now through June 2019. The lines of action include:

- Naming resources (films or short audio/video clips to discuss; books; etc.) to be used throughout the year.
- Plan a conference.
- 3. Use Parkland's Race Talks model of planned conversations with youth in community settings.

Alliance for Inclusion & Respect: I participated in three planning meetings for the Alliance for Inclusion and Respect. The AIR artists will be selling their books and artwork at the Market Place Shopping Center Family Fun Fest on October 6, 2018 from 10am – 2 pm. The event organizers have asked that AIR provide a children's art activity, we will have a foam pumpkin craft available to attendees.

<u>DisABILITY Resource Expo</u>: I participated in planning meeting for the DisABILITY Resource Expo Steering Committee. The 12th Annual DisABILITY Resource Expo is scheduled for March 30, 2019 at the Vincyard Church.

<u>Transition Planning Committee</u>: The TPC held its first meeting of the school year on Friday, September 21, 2018. Jermaine Raymer and Kharis Gordon of PACE presented a new PACE program, "Fast Track." The TPC is planning events throughout the school year.

Illinois Department of Human Services-Division of Developmental Disabilities Updates: On Tuesday, September 11, 2018 the DDD released the Notice of Funding Opportunity for the Independent Service Coordination Program. The state currently has 17 ISCs, with each ISC serving a different region. Effective July 1, 2019 there will be 12 regions. Of these 12 regions, seven of the current regions were unchanged. Existing ISC agencies and new providers can apply to cover one or more of the 12 regions. Applications are due by November 12, 2018.

For more information: http://www.dbs.state.il.us/page.aspx?item=112848

The DDD updated the Self-Direction Assistance guidelines for the Home-Based Services program, which were previously significantly changed in May 2018.

For more information: http://www.dhs.state.ll.us/page.aspx?iten(=93863

As of August 1, 2018 the PUNS categories will no longer include the "Emergency" and "Critical" categories. People will instead be categorized as "seeking services" and those who are not in need of services at this time will be categorized as "planning for services."

For more information: http://www.dhs.state.il.us/page.aspx/fitem=109266

PUNS Selection & Reports: DHS-DDD selected fifteen Champaign County people from the PUNS database in June 2018. New PUNS Selection 2018. Three of those 15 people have already received award letters - two for Home Based Services (HBS) and one for CILA. The remaining ten people are working with a CCRPC ISC to complete the pre-admission screening (PAS) process (one person is no longer interested in Medicaid waiver services and one person is currently incarcerated). Of the 10 individuals actively pursuing services, two are interested in CILA and the remaining eight are interested in HBS.

I have attached updated (September 11, 2018) PUNS Summary by County and Selection Detail for Champaign County.

TRAUMA INFORMED CARE FOR PERSONS WITH INTELLECTUAL/DEVELOPMENTAL DISABILITIES Raul Almazar, RN, MA

### What is Trauma: Understanding the Impact of Trauma in Our Lives

Traumatic experiences can be dehumanizing, shocking and terrifying. Often a traumatic experience includes the betrayal of a trusted person or institution and a loss of safety. Trauma can result from experiences of violence, abuse, neglect or disasters that induce powerlessness, fear and recurring hopelessness. Trauma impacts one's spirituality and relationships often resulting in ongoing feelings of shame, guilt, rage and isolation. Despite all of this, healing is possible. This session will address the very high prevalence of trauma in the population we serve and will use the ACE study to help explain the symptoms and behaviors we see every day. With a better collective understanding of trauma, more people will find their path to healing and wellness. And with a greater public commitment to trauma- informed programs and systems for survivors, we lessen and prevent a wide range of health, behavioral health and social problems for generations to come.

October 4, 2018 9am – 12:30 pm 3.0 CEUs

Champaign Public Library 200 W. Green Street Champaign, IL 61820 Robeson Pavilion C.

Learning objectives:

- The attendee will understand the prevalence of trauma and the effect of trauma in our lives and the lives of those we serve
- Attendees will learn of the importance and implications of the ACE study, not only in terms of symptom development but also as a way to integrate physical and behavioral health.
- Attendees will learn to view symptoms as adaptations and shift practice from stabilization and symptom reduction to providing new tools for self-regulation.

### September 2018 Monthly Staff Report-Shandra Summerville

### Cultural and Linguistic Competence Coordinator

### Agency Cultural and Linguistic Competence(CLC) Technical Assistance, Monitoring, Support and Training for CCMHB/DDB Funded Agencies

Organizations have submitted 4th Quarter Reports. I will provide information about the progress and required benchmarks by the Boards. There are a few organizations that received an extension until September 28, 2018

#### CLC Coordinator Direct Service Activities:

The CLC Site visit protocol was updated to ensure that monitoring and evaluation are documented about the agencies progress.

Mental Health First Aid The instructor certification for Mental Health First Aid is up for renewal. I began the recertification process for renewal to ensure that it is up to date.

CLC Training Series: I met with Community Choices about the IN Project. This is an opportunity for self-advocates to provide training on effective ways of learning how to serve people with a developmental disability and intellectual disability. I will begin a collaboration with Community Choices to ensure that other organizations are able to take advantage of this training. The IN-Project Training will be able to fulfill the Annual Training Requirement for one year.

### Georgetown Leadership Academy: Increasing Cultural Diversity and Cultural and Linguistic Competence in Networks Supporting Individuals with Intellectual and Developmental Disabilities:

The individual coaching calls with Professor Tawara Goode, Director of National Center for Cultural Competence will be in October.

<u>ACHMHAI-</u> I participated in the Children's Behavioral Health Committee Call on August 23. I also attended the meeting on September 7<sup>th</sup> & 8<sup>th</sup> in Bloomington, IL. This was in partnership with the Illinois Public Health Association.

### Anti-Stigma Activites/Community Collaborations and Partnerships

University of Illinois African-American Community Healing Storytelling Project-

The Voices of Community Healing Storytelling event was held on September 8th. There were four stories that were featured from people that live in the community. They defined community healing and how to heal from trauma that impacted their community.

#### Background and Framework about the project:

As members of C-HeART (Community Healing and Resistance Through Storytelling), we are interested in creating healing spaces. Each member came to our collaboration with knowledge about individual healing. We believe it is important to go beyond personal healing strategies to include a community in the healing process. We also wanted to create a framework that focused on cultural strengths, specifically storytelling and resistance. Over the course of several meetings we shared our ideas about storytelling and healing then we reviewed the research literature to identify how others talked about storytelling as a form of healing. At varying times, for example 4 months after an initial draft, we invited colleagues to review the framework. We received their feedback and made further changes to the framework. We also shared the framework informally with community members in order to get feedback. We engaged in this process for over a year. Ultimately, we created the Community Healing and Resistance Through Storytelling.

The 3 major components to the C-HeARTS framework are: (a) justice, (b) storytelling and resistance, and (c) three psychological dimensions: connectedness, collective memory, and critical consciousness.

Justice is a moral ideal and a guiding principle that communities aim for to realize optimal wellbeing within three spheres of life: personal, interpersonal and organizational. In the personal sphere, wellbeing involves (e.g., feeling safe and accepted and includes increased social bonding and commitment to each other and more smiling and less crying), in the interpersonal sphere wellbeing is enhanced when individuals build trust and resist interpersonal distrust and resist denigrating dominant cultural narratives and disprove stereotypes, and in the organizational sphere, systems are in place to promote fairness, develop new community narratives and where you have control over resources and are able to meet demands.

Storytelling and resistance are cultural behaviors that enable psychological dimensions.

Storytelling is a rich oral tradition among African-descended people that is an effective healing intervention. Resistance reflects the fact that even in the face of oppression, African-descended people defy systems of injustice and pursue acts of self-determination.

- Storytelling and resistance through public testifying apportunities or facilitated group processes can be used to understand, validate, and nurture relationships to promote Connectedness
- Storytelling and resistance through co-creating and sharing products and critical bycommunity reflection can be used to increase trust, remember traumas and triumphs, and decolonize minds to promote Collective Memory

Alliance for Inclusion and Respect-

There have been 3 meetings with the Artists that have been productive and helpful as we provide additional opportunities to promote artists and authors that are living with different abilities and mental health challenges. ( August 1, August 29, September 17) We have created an opportunity hear feedback from the artists about ways they their artwork and books can promoted. There is an interest to have more opportunities to sell their products. There will be additional opportunities for the AIR artists to be at the following activities:

- Winter Famer's Market at Lincoln Square ( Dates will be based on the artists' availability and actual booth space.
- October 6 Family Day at Market Place Mall-10:00- 2:00pm
- 3. Ebert Festival Art Show April 20, 2019- 9:00am-2:00pm

#### Ebert Festival 2019

The planning for Ebert Festival has begun with an initial contact with Andrew Hall, Ebertfest Coordinator. There is an interest to have more student engagment this year from high school students. I met the new principal from Urbana High School about the student screening during the Ebert Festival. Ebertfest will be April 10-14, 2019.

### Stephanie Howard-Gallo

### Operations and Compliance Coordinator Staff Report -

### September 2018 Board Meeting

#### SUMMARY OF ACTIVITY:

#### Contracts:

A few 2019 contracts for our funded programs were returned after the June 29th deadline, which resulted in delayed payments.

### Certificates of Liability Insurance:

Certificates of Liability Insurance were requested on July 6th with a due date of August 1th. A reminder was sent the last week of July. Three agencies did not meet the deadline, which resulted letters of non-compliance being sent to them and their payment being held. I have received the three agency's proof of liability insurance and payments have been released.

### Fourth Quarter Reporting:

4th Quarter financial and program reports for all funded programs were due August 31th at the close of business. Performance Outcome Measures are due at the 4th Quarter of each funding year, as well. Quite a few of the agencies requested an extension of time to complete the reporting. As of this writing, no letters of non-compliance have been sent and no payments have been withheld.

### Anti-Stigma Efforts:

I attended Alliance for Inclusion and Respect (AIR) planning meetings on August 1st. August 29th, and September 17th. Our artists have been invited to participate in the October 6, 2018 "Family Fun Fest" at Market Place Mall from 10 am - 2 pm. They will have an area to sell their artwork, books, and other goods called "Artist Avenue".

A possible booth at the Urbana Farmer's Market is being explored as well. We discussed having two artists share the space each Saturday or as many Saturdays that we have an interest from the artists.

### 2019 DisABILITY Expo:

I attended an Expo planning meeting on September 11th. The Expo will take place on March 30, 2019 at the Vineyard. We discussed last year's event and ways to improve the Expo this year.

#### Other:

- Preparing meeting materials for CCMHB/CCDDB regular meetings and study sessions/presentations.
- · Composing minutes from the meetings.
- I attended the County Department Heads meeting in Lynn Canfield's place on September 12th.

### disABILITY Resource Expo: Reaching Out For Answers Board Report September, 2018

The 12th annual Expo will be held on Saturday, March 30th at The Vineyard Church in Urbana.

The first Steering Committee of the new planning year was held on September 11 with 18 members present. We were pleased to welcome 3 new members to our group, Michelle Clayton-disability advocate, Dianne Husby-Gordon-CU Able, and Shawn Johnson-U. of I. Police Dept. The group reviewed responsibilities of the Expo Subcommittees, and spent some time discussing evaluation summaries from the 2018 Expo. Ideas for a theme for the 12th annual Expo were given to the Exhibitor Committee to discuss further. Subcommittees will begin to meet soon. Our next Steering Committee will be Oct. 23 at 1:00 pm at the IL Worknet Center in Champaign.

There are multiple opportunities in Sept. and Oct. to distribute Expo Save-The Date magnets and posters promoting the 2018 Expo. We will have an Expo booth at two events, Family Day by Dr. G's Brainworks and Carle's Wellness, Fun & Medicare 101 on Oct. 6. We hope to have the above-noted materials distributed at all of the following events:

*PACE Open House for new Access Alley	Sept. 20 (3:00-7:00 pm)
*Penguin Project Play — "High School Musical, Jr." Urbana High School	Sept. 21 & 22 (7:00 pm) Sept. 23 (2:00 pm)
*Out of the Darkness Walk/American Foundation Crystal Lake Park	Sept. 22 (11:00am-1:00 pm)
*Low Vision Fair, Danville Library	Sept. 24 (Time?)
*Family Day presented by Dr. G's Brainworks AIR Artist's exhibit and sale, Market Place Mail	Oct. 6 (10:00am-2:00 pm)
*Wellness, Fun & Medicare 101 Carle at the Fields	Oct. 6 (9am-Noon)
*Octoberfest (Benefits DSC) Downtown Champaign	Oct. 6 (3:00 pm-Midnight)
*Down Syndrome Network Buddy Walk Champaign County Fairgrounds	Oct. 6 (9:00 am-Z:00 pm)
*disABILITY Awareness Month, Champaign City Bldg. displ	lay Month of October

Respectfully submitted.

Barb Bressner & Jim Mayer

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

### CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

### BRIEFING MEMORANDUM

DATE: September 26, 2018

TO: Members, Champaign County Mental Health Board (CCMHB)

FROM: Mark Driscoll, Kim Bowdry, Lynn Canfield

SUBJECT: Needs Assessment

Background: The Champaign County Mental Health Board is charged with developing a threeyear plan with the coming year being the first year of the new three-year cycle. As part of the planning process, the CCMHB solicited input of four broad constituencies via an online survey to learn about their experiences navigating the behavioral health and intellectual and developmental disability systems in Champaign County. The compilation of responses to the online surveys are the centerpiece of the 2018 needs assessment. Other supporting content of the needs assessment is derived from local community assessments, reports, and data sets from other public bodies or consortiums, internal data analysis on CCMHB funding and populations served, and more broadly focused metrics associated with the general well-being of Champaign County residents.

The balance of the Briefing Memo references each of the documents comprising the 2018 Needs Assessment:

- CCMHB/DDB Online Needs Assessment Survey
- ISC Preference Assessment Independent Service Coordination Unit at the Champaign County Regional Planning Commission (CCRPC)
- DHS Division of Developmental Disabilities Prioritization of Urgency of Needs for Services (PUNS)
- Champaign Urbana Public Health District IPLAN
- Justice Mental Health Collaboration Program Planning Grant Final Report (includes Sequential Intercept Map & Gaps Analysis)
- CIT Response Report (8/1/17 7/31/18)
- Champaign County Continuum of Care Point in Time Count
- Illinois Youth Survey Champaign County, 2016
- Health Disparities (National Overview)
- Champaign County Indicators of Well Being
- CCMHB Trends Data (Allocations, Service Data)
- National Prevalence Rate Statistics and Related Articles

1776 8 (3)

### CCMHB/DDB Online Needs Assessment Survey Overview

Throughout the course of any given year the Board participates in a dynamic process highlighting issues of the day. This process can entail presentations by outside entities during Board meetings, topics addressed during study sessions, distribution of research or other professional articles, materials prepared by staff, and input from members of the public. The on-line survey developed in the fall of 2017 attempted to engage the broader community as an extension of this dynamic process.

To that end, staff and EMK Consulting developed surveys asking questions of consumers, caregivers, providers, and stakeholders. Respondents were invited to self-select from among eight surveys the one most appropriate to their circumstance. One set was specific to mental health and substance use services, and the other focused on developmental disability services. The surveys within each set solicit responses on a person's experience with the system, access to services, and gaps in services. All responses were anonymous although some demographic data were requested. For three months, the surveys were available online, with paper copies upon request, and promoted broadly throughout the community.

The surveys featured similar questions but targeted these eight distinct audiences. While a few questions were open-ended, most included numerous choices so that the data can be aggregated and analyzed. Due to the surveys' length and complexity, respondents could treat all answers as optional. Incomplete but substantially completed surveys were included in analysis.

### Survey Cutegory/Types MH/SUD:

- CONSUMER: A person who has a mental health and/or substance use disorder (25 questions)
- CAREGIVER: Family member, caregiver, loved one, or guardian of a person with a mental health and/or substance use disorder. (25 questions)
- PROVIDER: of services or supports to people who have mental health and/or substance use disorders (18 questions)
- STAKEHOLDER: with an interest in services and supports for persons with a mental health and/or substance use disorder (10 questions)

#### ID/DD:

- CONSUMER: A person with an intellectual or developmental disability (29 questions)
- CAREGIVER: Family member, caregiver, loved one, or guardian of a person with an intellectual or developmental disability (31 questions)
- PROVIDER: of services for persons with an intellectual or developmental disability (14 questions)
- STAKEHOLDER: with an interest in services and supports for persons with an intellectual or developmental disability (7 questions)

#### Summary Statistics:

\*Minutes

The survey results included in the Needs Assessment are presented in two forms:

### Individual Survey Write-up:

This format highlights key statistics from each survey type/question and is summary in format. However, each write-up does contain the full text of all comments made by respondents.

### Survey Data Analysis Write-up:

This format highlights aggregated responses across similar questions in the consumer and caregiver responses. Data are presented for: services received; services needed but not received; barriers; comments; and demographics. The "barriers" section includes a sidebar note on Provider and Stakeholder responses.

For most respondent groups, there were enough responses to conduct an analysis and report on findings. We had hoped that, by making the survey tools anonymous, available for three months, promoted broadly, and with all responses optional, we would learn from people outside of our immediate spheres, including those who are not aware of funders, those who have limited time, and those who experience stigma. While this appears to be the case for most groups, the responses from people who have ID/DD were still very low. To mitigate this low response rate and supplement the results reported from that survey, we have included results from the "ISC Preference Assessment" of people with intellectual and developmental disabilities served by Independent Service Coordination Unit at the Champaign County Regional Planning Commission, Excerpts of the "ISC Preference Assessment" are included in the body of the needs assessment and discussed briefly below.

On June 27, 2018, the CCMHB and CCDDB were presented with summaries of the individual survey results and an addendum with complete copies of each survey and results. The Survey Data Analysis is a new addition to compiled results. Included in the attached 2018 Needs Assessment are the Survey Data Analysis and the Individual Survey results summaries for each of the eight surveys.

#### Mental Health/Substance Use Disorder Survey Data

Aggregated consumer and caregiver responses reflect the breadth of services these respondents had received. The most frequent response of the few identified for "Substance use services received" was "Do not receive SUD services." One cannot discern from the survey whether this represents a lack of access to treatment or lack of interest in receiving treatment. Not reflected in the survey responses is experience with the prevention focused activities intended to build resiliency in youth, families, and community which the Board has invested in and expanded over time.

"Services needed but not received" overlap with the "services received" responses on mental health. The differences between the two categories indicate limited capacity restricting access. A drop-in center does not currently exist; nor does a triage center. Both continue to be topics of on-going discussions and are referenced in other assessments. The few substance use disorder responses again point to not receiving services. In that the category is "Services Needed but Not Received," this may indicate desire to engage in treatment but no access. Inability to access treatment for co-occurring disorders is also on this list.

Barriers identified most often by consumers and caregivers are:

- length of time to engage in services;
- · not believing services will help;
- · provider cannot meet their need; and
- inability to pay.

Providers and stakeholders express similar themes to those of consumers and caregivers, with comments about barriers consumers face including:

- financial issues including insurance coverage;
- not aware of services available
- don't know how to access services;
- wait time to engage in services;
- · transportation; and
- · stigma,

#### Intellectual/Developmental Disability Survey Data

Aggregated consumer and caregiver responses reflect breadth of services respondents had received. Regarding "Services needed but not received," in a few instances, these overlap with "services received" responses. As expected, Respite was identified as a needed service. Recreation supports and transportation were the most frequent choices for services needed. Employment Supports and Services was the third most frequent choice for "services needed but not received."

Barriers identified most often by consumers and caregivers are:

- Transportation
- Financial issues

- Stigma/embarrassment/fear
- Waiting list

# Barriers identified most often in Provider surveys:

- Transportation
- Don't know how to access services
- · Unaware of services availability
- · Eligibility of services
- · Financial Issues

# Stakeholders identified three of the same barriers as Providers:

- Unaware of service availability
- Transportation
- · Financial Issues

Common themes among the comments made by Caregivers were the desire that loved ones lead a happy, healthy, and safe life, and that they be respected, independent, and part of their community.

#### "ISC Preference Assessment"

Independent Service Coordination Unit at the Champaign County Regional Planning Commission (CCRPC) (included with CCDDB Needs Assessment but not attached here)

The Preference Assessment, completed by the CCRPC Independent Service Coordination Team, has been completed for the last three funding cycles and has consistently revealed that people with I/DD want to go out to cut and to the movies or to recreation/sporting events. Each year, people have also revealed that they need supports with Independent Living Skills, and for the past two years, people stated that they needed transportation and vocational supports as well.

# DHS Division of Developmental Disabilities Prioritization of Urgency of Needs for Services (PUNS) (included with CCDDB Needs Assessment but not attached here)

According to DHS-DDD's Prioritization of Urgency of Needs for Services (PUNS) data, Champaign County has 417 active PUNS cases and a total of 870 PUNS, which includes those who have been closed, are deceased, no longer need services, or were clinically ineligible. According to DHS PUNS data, people requested Personal Support (includes habilitation, personal care, and intermittent respite services). Behavioral Supports (includes behavioral intervention, therapy, and counseling), Speech Therapy. Transportation supports, and Support to work in the community

www.dbs/state.il/us/OneNetLibrary/27897/documents/DD%20Reports/PUNS/County and Township-060412.pdf

# Champaign-Urbana Public Health District 2018 – 2020 Community Health Improvement Plan

The Champaign-Urbana Public Health District (CUPHD), in collaboration with the two hospitals and United Way, conducts a Community Health Assessment and Community Health Improvement Plan every three years. The Champaign County Mental Health Board and Champaign County Developmental Disabilities Board have been invited to join this collaborative process. Excerpts from the current plan are referenced below and included in the attached 2018 Needs Assessment. Charts and tables were originally published in color and may not be as readable in black and white format. Readers are referred to the CUPHD website to view the documents in color. The Community Health Improvement Plan aka IPLAN can be found on the CUPHD website at http://www.c-uphd.org/

The Community Health Survey conducted as part of the assessment process surveyed 700 Champaign County residents. The top five health concerns identified by respondents to the survey were:

- Mental Health,
- Alcohol and Drug Abuse,
- Gun Violence,
- Obesity, and
- Domestic Violence.

At a public meeting, community stakeholders and other interested parties identified three priorities out of the five health concerns. Work groups have been established setting goals and objectives related to each of the three priorities.

Behavioral Health: increase capacity, create behavioral health triage center, promote education and training on mental and behavioral health to reduce stigma, provide youth targeted prevention programs

Reducing Obesity and Promoting Healthy Lifestyles: improve access to healthy food options, expand physical activity prescription program, and increase access to physical activity.

Violence: promote police-community relations, increase community engagement, and reduce community violence through partnering with local initiatives

Included in the CCMHB Needs Assessment are the following charts and tables from the CUPHD Community Health Improvement Plan (CHIP):

Health Resources and Indicators Table: Compares various resources and indicators for uninsured, healthcare providers, cost. Of note is the low rate of uninsured children, the rate of mental health providers, and healthcare costs.

Uninsured Percentages Chart: Champaign County, the first column in the chart, has seen a significant decline in the uninsured rate from 2011 to 2017.

Mental Health Care Provider Ratio Table: Champaign County has a higher ratio of providers compared to state and national rates. Narrative accompanying the table indicates Champaign County has experienced a significant increase in providers between 2010 and 2016.

<u>Total Crime Index-Champaign County</u>: Compares rates of various violent crimes and change in rate between 2012 and 2015. While many categories have seen decreases, murder, theft, and motor vehicle theft have increased during the period.

Gun Related Deaths in Champaign County: Table shows changes in gun related deaths over a six-year period. With the exception of 2014 and 2016, there were more suicides committed with a gun than homicides. Since 2011, the suicide rate, by any means, has been increasing in Champaign County.

Drug Deaths by Drug Type, Champaign County 2011-2015: Opiate (46.3%) and opiate plus another drug (10.2%) account for over 56% of all drug related deaths. Some were determined to be suicides, others accidental overdoses. Narrative accompanying the chart provides additional detail on all drug related deaths including demographics.

PROMPT Opiate Non-Fatal & Fatal Overdose Rates (Various Charts): The Partnership to Reduce Opiate Mortality and Promote Training (PROMPT) is a grant funded Multi-County Task Force led by the CUPHD to provide training and resources to prevent opiate overdoses. PROMPT produced the various charts and tables for the east central Illinois region served by the Task Force using state compiled data.

Additional tables, charts, and maps on mental health, alcohol and other drug use, and community violence not included here can found in the CHIP/IPLAN at the CUPHD website previously referenced.

# Justice Mental Health Collaboration Program - Planning Grant Final Report (Needs Assessment includes Sequential Intercept Map & Gaps Analysis)

Champaign County was awarded a United States Department of Justice "Justice and Mental Health Program - Planning Grant" in 2015. The CCMHB provided matching funds and representation on the planning body, the Crisis Response Planning Committee. A presentation on the results was made to the CCMHB on September 20, 2017. A copy of the report submitted to Department of Justice is included in the Needs Assessment.

Recommendations made by the Crisis Response Planning Committee, as a result of the gaps identified during the planning process:

- Establish a Behavioral Health and Justice Coordinating Council (BHJCC) to oversee all CJ/BH activities;
- 2. Implement risk-needs-responsivity screening (LSI-R) at earliest point in the criminal

- justice process, to inform decisions throughout the system;
- 3. Enhance initial response with provision of a Co-Responder Model;
- Provide behavioral health and case management support to the Public Defender's Office;
- Gather data to determine the level of need, capacity, and budget required to institute and maintain an Assessment Center – where law enforcement can take persons with MI/COD, instead of jail or the hospital (envisioned to include assessment for MI, SUD, and Criminogenic Risk, crisis stabilization, emergency respite services, a living room model, and medical detox services):
- 6. Enhance reentry services specifically for the population with MI/COD; and
- Ensure adequate resources and facilities for community behavioral health providers working in the jail.

The Final Report includes Appendix A. Champaign County Sequential Intercept Map (SIM) completed during the planning process. The SIM references existing resources broken out by policy/practices, evidence-based programs, relevant data, and services. A map (flowchart) of community resources across the five intercepts appears at the end of the appendix. Appendix B. SIM Chart identifies gaps and limitations across the five intercepts. The SIM is an assessment of the criminal justice-behavioral health system as it existed at that point in time. The appendices are included in the Needs Assessment with full report available on request.

# CIT Response Report (8/1/17 - 7/31/18)

The Urbana Police Department (UPD) compiles data on Crisis Intervention Team (CIT) responses with results reported at each bi-monthly meeting of the CIT Steering Committee. Included in the Needs Assessment is an analysis of twelve months of data. The reports are the work product of Melissa Haynes at UPD.

Data are collected through a uniform CIT contact form used by the five jurisdictions: Champaign, Urbana, Rantoul, and University of Illinois Police Departments, and the Champaign County Sheriff's Office. Data included in the report exclude Rantoul Police CIT contacts due to a reporting anomaly that is being investigated.

Analysis is comprehensive starting with volume of CIT contacts, including frequency of contact by jurisdiction, day of week, and time of day. Followed by demographics on those whom law enforcement is engaging at the scene and whether the contact involved a CIT trained officer, and if a crisis team or other provider offered support at the scene or by telephone. Nature of the incident (i.e., reason for an officer being dispatched), followed by symptoms displayed at the scene, and outcome of the contact, delve into the nature of the call on how resolved. Petitions represent those persons transported to an emergency department. Being the most frequent "nature of incident" and "symptom", additional detail on suicide calls is included in the report. Closing out the report is an analysis of repeat contacts by officers with individuals.

# Champaign County Continuum of Care - Point in Time Count

The Continuum of Care conducts a "Point in Time Count" of persons who are homeless on one day in January. The count is required by the U.S. Department of Housing and Urban Development, with results reported to Congress, and forms the basis for allocation of federal funding to address homelessness. The survey provides a snapshot of how many people are homeless at the point in time the survey is conducted. The Point in Time Count includes the number of persons residing in emergency shelter and transitional housing and those found to be unsheltered, such as living on the street or in cars. Two sets of data are included in the Needs Assessment related to the Point in Time Count:

- Chart presenting longitudinal data for years 2014 through 2018 for the "Point in Time Count." Data are broken out by sheltered population – emergency shelter (ES) and transitional housing (TH) and for unsheltered. Demographic data are for all persons counted in the survey.
- Various tables, specific to the results of the 2018 Point in Time Count. Tables, again
  broken out by sheltered and unsheltered, provide details on various subgroups of the
  homeless population included in the count. Data sets include households with
  children, children only, and adults only. An additional table, "Other Homeless
  Subpopulations" references those surveyed who identified as having a mental illness,
  substance use disorder, HIV/AIDS, or victim of domestic violence.

More information on the Champaign County Continuum of Care and the Point in Time Count survey can be found on the Champaign County Regional Planning Commission website, https://eerpc.org/committees/continuum-of-care/

# Illinois Youth Survey - Champaign County, 2016

Every two years, participating middle schools and high schools complete the Illinois Youth Survey administered by the Center for Prevention Research and Development at the University of Illinois under contract with the Illinois Department of Human Services. Only students in 8th, 10th and 12th grade may complete the survey. Included in the 2018 Needs Assessment are a brief overview of the survey followed by demographic data and selected charts and tables. Data presented are participants responses to questions on use of alcohol and other drugs, violence and bullying, and mental health from the 2016 Illinois Youth Survey County Report for Champaign County. The full report can be found at: https://ies.cprd.illinois.edu/

<u>Drug Prevalence and Behaviors</u>: Series of tables presenting survey results on reported substance use rates by grade, first age of use, and frequency of use for alcohol and other drugs.

<u>Drug Use Contributing Factors</u>: Series of tables on respondents' perceptions on personal use of alcohol and other drugs, use of alcohol and marijuana by peers compared to actual use rates, and perceived risk of use.

Interpersonal Conflict, Violence, and Delinquency: Series of tables on respondents' experience involving delinquent behaviors, bullying, and dating violence.

Mental Health Concerns: Series of three charts on respondents indicating having "experienced depression" (8th grade survey), and for "experienced depression and considered suicide" for 10th grade and 12th grade survey. Grade specific results are compared to prior survey results for all Illinois students.

# Health Disparities

Substance Abuse and Mental Health Services Administration (SAMHSA) statement on health disparities. The one-page overview identifies groups where behavioral health disparities persist:

- Racial and ethnic groups
- Lesbian, gay, transgender, and questioning (LGBTQ) populations
- · People with disabilities
- · Transition-age youth
- Young adults

Links to additional resources are embedded in the overview. For more information on the topic, go to https://www.sambsa.gov/health-disparities

# Champaign County Indicators of Well Being

A general assessment of how well Champaign County compares to the state as whole is provided here. Various indicators are used by the two entities preparing the respective reports to present an assessment of how well Champaign County fares. For additional context associated with each report, visit the webpages referenced in the brief overview.

2017 Kids Count Profile (Champaign County): Voices for Illinois Children publishes the Kids Count Profile. The profile is a series of indicators of child well-being across the domains of health, family and community, economic security, and education. Kids Count Profiles can be found in the publications drop down menu at Voices for Illinois Children webpage: <a href="http://www.voices4kids.org">http://www.voices4kids.org</a>

#### CCMHB Allocation Trends Data

Over the last couple of years, CCMHB staff has prepared various tables and charts on the allocation of resources for the Board's consideration. That information is revisited here.

<u>PY2019 Allocation Tier Sheet</u>: Newest addition to allocation decisions by the Board. The tiers align with the priorities selected by agencies in the application for funding.

Criminal Justice - Behavioral Health and Other Funding Priorities (PY13 - PY18): Presents table and chart of past allocation decisions over a six-year period. Funding is grouped based on staff assessment of the application and population served. A breakdown of allocations within the Criminal Justice-Behavioral Health Priority is also included as a separate table and chart.

CCMHB Appropriation by Sector, Population, and Type of Service (PY16 – PY19): Contract awards by primary disability sector, primary population served, and type of service are presented in table and chart formats. The CCMHB Annual Report presents this same data for the respective fiscal year, in a different chart format.

Comparison Population Characteristics to CCMHB Population Served (PY15 - PY17): Census data for age, race, ethnicity, gender, and residency are presented along with CCMHB data on population served. Data specific to poverty are presented in table and chart formats. Separate tables and charts comparing census data and CCMHB population data are also included.

#### National Prevalence Rate Statistics and Related Articles

To close out the Needs Assessment, an overview of prevalence rates is provided for reference. Not included are data specific to Illinois or Champaign County.

National Institute of Mental Health: General overview of prevalence rate for mental illness in the United States. Narrative and tables present prevalence for any mental illness and severe mental illness in past year for adults by age, race, and gender. Additional tables on adults receiving treatment are also included. For information including prevalence rates for specific mental illnesses, go to: <a href="https://www.nimh.nih.gov/health/statistics/index.shtml">https://www.nimh.nih.gov/health/statistics/index.shtml</a>

Prevalence of Depression Among Adults Aged 20 and Over: United States, 2013 - 2016: Article from National Center for Health Statistics on prevalence of depression in adult population.

<u>Estimated Prevalence of Children Diagnosed with Developmental Disabilities in the United States, 2014 - 2016</u>: Article from National Center for Health Statistics on prevalence of children with developmental disabilities.

Stakeholders: Unaware of service availability; Transportation; Financial.

## COMMENTS (SERVICES/GAPS):

Summary of:

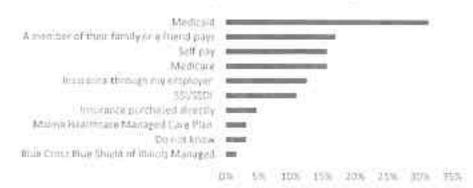

Consumer: 24 responses combined Consumer & Caregiver - Themes:

- Psychiatrists:
  - Students need for Psychiatric and other long-terms services: too long to get appointment;
  - Auto call back suggested instead of being on-hold for long period of time.
  - Specialty care (ie eating, mood, behavioral, substance use
  - Need more quality psychiatrists in the county
  - Need one-stop facility for children including psychiatry
  - Shorter wait-lists
  - Mill system in Champaign-Urbana 'very poor' not enough qualified psychiatrists
- Emergency departments: More training to deal with those with acute panic
- Can't afford services even with sliding scale.
- · Living room model:
  - Need peer-run living room project
  - Would be good and at least staff for peers for talking.
- Psych & Counseling: too long between need and availability
- Education needed for parents re: step-down and transitional services
- Service coordination desired
- Children's service not adequate

- · Respite:
  - Need info on how and where to obtain.
  - Need more such services.
- PTSD services

#### MENTAL HEALTH SERVICES

# SUBSTANCE USE DISORDER SERVICES

Counseling/therapy - Once Case management - Once Psychiatry - Once Screening - Once Assessment - Once

Assessment -Twice

None of the above - Twice

Counseling/therapy - Once

Case management - Once

Screening - Twice

Other: For alcohol abuse, I used AA for 13 years. I am 22 years sober now.

10. If you have been arrested and booked into the jail, what barriers do you face when trying to get services while in jail? Only one option was answered more than once in the "Often"/"Sometimes"/"Seldom" categories:

I do not know what service are available (Twice/8%)

#### Other:

Was only in jail for a few hours at a time, did not consider asking about services

12. Is there anything else you would like to tell us about your experience getting mental health and/or substance use disorder services? Comments include:

As someone on Medicaid/Medicare, I can say that it is difficult to receive even the same basic care as someone with good insurance

# Champaign County Mental Health Board MHSUD Consumer Survey

Report/Results

For people in our area who do not have insurance, there is limited assistance available. For people who need detox for drug or alcohol abuse, there is nowhere anymore that does this as a medical detox, unless you have insurance. People have to leave this county and have a way to do that to get help. Otherwise, it falls on the hospital emergency departments.

Good therapists who accept Medicaid are extremely difficult to find, this leaves me settling for substandard care with therapists who do not understand my diagnosis.

High turn-over of counselors, case-managers. Indifference/lack of understanding/compassion of psychiatrist

I really need weekly service. It is very hard to find someone who can provide this because of a combination of my low income and the shortage of providers.

I'll most likely live in CU all my life because I can't imagine what it would be like to live in another town. I don't think there is a single town/city like Champaign/Urbana. Not only would I not get the same help, I'd be leaving close friends.

It was difficult finding a therapist/psychiatrist that was covered my insurance and even now, it's hard meeting that deductible. A lot of it is money issues, especially since I am a student and having withdrawn from the University had me lose a lot of benefits that I previously had.

No

Primarily, I do not seek further treatment because I am receiving counseling services from the University of Illinois. Although I am not seeing an eating disorder specialist, I believe counseling helps momentarily, but does not help with receiving "homework" or tips to practice between sessions. Secondly, I do not seek further mental health treatment because I worry about the financial costs to my parents, since they pay for my treatment. When I become financially independent, I do not want the costs to become a burden.

I wish it was easier to be able to see a psychiatrist. I wish that universities and middle and high schools discussed when you should get help and steps to getting it.

13. Based on your experience, is there a service need or gap about which you would like to tell us? If so, please describe. Comments include:

#### EMDR for PTSD

I believe there should be more accommodating services for people who are in school and out of school. Even when I was enrolled in the University, it took me at least a semester to get in touch with a therapist.

No

Providing better, longer term services for college students. Providing students with specialty care (e.g., eating, mood, behavioral, substance use, and other disorder specialists). Providing better mental health and substance abuse treatment opportunities for incarcerated individuals.

There were times I wanted to get into counseling I could not afford even when fees were on a sliding scale.

We desperately need a peer run living room project in our area.

YES. Seeing psych and counseling - too long of a gap between need and availability.

14. What is your job (employment) status? Two responses were selected by more than 10% responding --

I am working a job for pay (outside the home, home-based, etc) 32% I am retired and not in the workforce 12%

#### Other:

I am employed as a student taking a gap year.

I have a full-time job, a home business, and I'm in school.

I take employment not necessarily for money, but for practical time use. I am a volunteer receptionist at PACE, & sometimes help in various paper work, 1 or 2 days a week, about 4 hours a day.

Also answered: disabled & not in workforce; Student and not in work force

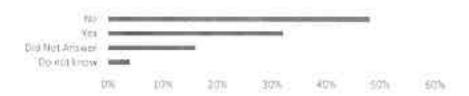

Applying for disability - attempting appeal process at the moment

I am a full-time student with a part time job

15. In the past 30 days, where did you live most of the time? 76% of the respondents responded -

Private home - Taking care of yourself (living alone, with friends, a partner, or family members)

#### 16. Do you have Medicaid?

17. How do you pay for your treatment/services? ... CHECK ALL THAT APPLY. Responses selected by more than 10% of respondents:

Other:

Father's insurance (BCBS-IL) and parents pay the outstanding co-pay balance. I'm currently under parent insurance. Hospital program (financial) Insurance I am able to purchase through being a student Parent's insurance blue cross blue shield

Employment support services for person with mental health issues	9	23%
Therapy or counseling	8	21%

#### Other Services Needed:

Someone to check to make sure they aren't still using substance. Some kind of follow-up or blood test.

7 What substance use disorder services have they used or are they getting now? CHECK ALL THAT APPLY. Top 4 responses:

Another Type of Service:

I'm not sure. They met in Urbana in a building a block or so East of Lincoln St. Not far from 174. It might have been 12-Step program

# 8. What substance use disorder services do they need but are not getting now? CHECK ALL THAT APPLY

Only 2 options had 10% or more of respondents responding:

They do not receive substance use disorder services. 18% 12-Step program 10%

#### Another Type of Service:

As per his neurologist, he needs medical cannabis to combat intractable seizures, but due to state laws it is impossible to administer it in the group home (CILA) where he resides. THIS DRACONIC LAW MUST CHANGE!

Recognition by the local mental health providers that substance abuse is extremely common for those with mental health issues, rather than treated disrespectfully when clients ask for help with substance abuse. A coordination of services in our community is vital.

#### What barriers do they face when trying to get services? Top responses by Response category;

RESPONSE	QUESTION	36
Often	They have to wait too many days to get services	3196
- 2002	They don't believe services will help	28%
	They can't pay for services	23%
	They don't think the service provider meets their needs	23%
Sometimes	They have medical issues	23%
	They do not know what services are available	23%
	They cannot get services at hours that are convenient for them	21%
	They don't know how to find services	2136
Seldom	They have medical issues	8%
	They have been told they are not eligible for services	8%
	They do not know what services are available	8%
	They don't know how to find services	8%
	They need transportation	8%
	They do not have insurance	8%

#### Another kind of barrier:

Not many choices in care providers and long waiting lists.

The young adult is involved with the legal system and has limited access to services.

They don't think they have a problem because they casually use the substance.

Those who have been denied services should be given a second chance.

Emergency doctor belittled subject for wasting his time w/ anxiety - needed else

# If the person had been arrested and booked into the jail, have they received any of the following services while in jail? CHECK ALL THAT APPLY.

#### MENTAL HEALTH SERVICES

Psychiatry - Twice
Assessment - Twice
Counseling/therapy - Once
Screening - Once

SUBSTANCE USE DISORDER SERVICES

None of the Above — Six Screening — Twice Counseling/therapy — Once Assessment — Once

#### Substance Use Disorder Other Service:

The only reason they went through a program was because their attorney said it would look good to the Judge if the case went to court

- If the person has been arrested and booked into the jail, what barriers do they face when trying to get services
  while in jail? None of the categories ("Often"/"Sometimes"/"Seldom") had any one option selected by more than
  8%.
- 12. Is there anything else you would like to tell us about the person's experience getting mental health and/or substance use disorder services? Comments include:

He received services in Champaign many years ago for several years with intermittent long and short term hospitalizations, but wasn't able to stabilize the was eventually hospitalized for about a year and then fived independently and was stable for more than 10 years due to very intense supportive services in another county. We wish those intense comprehensive services existed here.

Because he is receiving medical cannabis, no psychiatrist will see him (to consider change in his medication).

Extremely frustrating that the law enforcement officers do not seem to understand and pay attention to the fact that the person is trying to tell them about Bipolar and Traumatic Brain Injury.

Hard to a cess

I believe she is currently homeless on the street (possibly sleeping in the parking garage) in Urbana. She has been estranged from her family for many years so we are not sure if she has been diagnosed or ever received services other than treatment for ADHD. She is probably challenged with schizophrenia. Lives on the street, carries large garbage bags with garbage and talk/yells to herself. Likely doesn't believe she needs help.

I believe subject should have been inpatient and not left in the community to fend for self. Barriers from within like fear prevent seeking services in crisis.

I don't think it was a lot of services

My daughter has mental health issues, developmental disabilities and substance abuse issues. Because she appears to be "normal", communication issues always develop. Because of misunderstandings she has been denied services at Rosecrance or Champaign County Mental Health and the Pavilion. I wish providers would look at the whole person, rather than just treat mental illness or developmental issues or substance abuse, but sadly that is not the case.

We are able to pay for services and struggled to find good assessment and therapy options. The barriers for families with fewer resources must seem insurmountable. It was a frustrating and difficult time for our family.

Doctors and health care providers do not coordinate on drug interactions, side-effects etc. do not, in fact, act like they are allowed to talk to each other directly.

Help with appropriate job search.

13. Based on your experience as a family member, caregiver or guardian, is there a service need or gap about which you would like to tell us? If so, please describe. Comments include:

Given he has been involved with the legal system since he was 16, I was surprised to find out that he did not receive help connecting with the services he needed at the time. Therefore, it would have been helpful as a family member to have an understanding of step down and transitional programs for youth and their families.

Having had 2 children with mental health issues, I can say there is a tremendous service gap in our community. All of the agencies should be working together to provide services. Quality psychiatrists should be hired for our county and we need more psychiatrists. I believe our local police force is better trained and more understanding than our county psychiatrists.

He has recently moved to Champaign, and still sees a doctor he likes in Springfield. He seems to have trouble often getting the correct meds. I would like him to have someone who could coordinate various services for him. Right now his mother does it, and it is a terrible burden on an aging parent with health care issues of her own.

It has been a nightmare to get good, consistent help for my son with ADHD. This is a common condition and early intervention greatly improves outcomes (which helps every person in our society), so why in the world do I feel all alone fighting for my son? The wait lists at Carle for psychology are months-long, many of the service providers at private counseling centers are not well-trained for children with behavior disorders, and there are no parent support groups or respite services. Once you've been dealing with this problem for a few years you begin to get your bearings but it should not take that long. There should be a "one stop shop" for mental health, especially for children, or at least a "What do I do now" guide specific to C-U resources.

More psychiatric services and shorter waiting lists

#### None

One of my children is very high needs but has been excluded from Choices services, one has no services but doesn't want to be excluded from activities my other 3 receive.

PTSD services/supports for non-veterans

Someone to keep him on track at school. His behavior is an issue.

Stabilization on an inpatient basis is needed, rather than leaving in community. This results in ER visits and "meltdowns" due to fear and in my opinion neglect on the part of providers who expect patients to seek services during business hours.

The mental health system in Champaign-Urbana is very poor and NOT enough qualified psychiatrists and Christian counselors! The need is great and the providers are few!

They do not listen, the family like the parent

We really need a place where individuals with mental health issues and their family members can drop in for talking!!! Then refer to other resources. Living Room model would be good but at least staff a location 11am-7pm with peers for talking. Could keep a lot of individuals from the ER or jail.

Wish there was a place she could stay by herself cause she gets kicked out of shelters for behavior issues.

How and where to go to get respite care.

Need more respite type services, voluntary/involuntary mental health services have become scary.

#### 14. What is their job (employment) status? Three responses were selected by 10% or more responding —

They are a student and not in the workforce – 13%. They are unemployed and not looking for a job – 10%. They are disabled and not in the workforce – 10%.

#### Other:

He would like to work, but needs guidance to seek and apply for appropriate work. He has not had a job for more than 20 years.

He would probably like to eventually find a job but is not currently looking.

They are employed part-time

Unable to keep a job because bipolar condition and traumatic brain injury erupts and causes problems.

Works for DSC at a sheltered facility

Other barriers:

Culture competency

Home & Office Visits

In the absence of county funding there would be a more significant barrier in supports and services due to the number of individuals and families that are 'in line' for state funding. While they are eligible by definition, they do not have access to state funded services. People with no personal means to pay for services would go without as they wait for access to services based on PUNS selection process and state resources. At the state level, there is also a 'one size fits all' rate structure for many services regardless of the individual needs of each person leading to inadequate funding for personalized supports.

Language Spanish speaking providers.

Even with sliding scale, many people cannot afford even a small copay for counseling.

Lack of coordination/follow through

Stereo type persons with dementia or disability that mental health treatment couldn't help. Blame problems on the disease not mental health.

#### 16. As a provider, are your services office/facility based or delivered in natural settings or both? (Please explain.)

Office based facility
All our groups and social activities meet in a community setting.
Both in office and in home, or facility
Both, in office and client's home

Both By definition, some services are location-based, but all others are located wherever is most convenient and helpful to the person(s) seeking service.

Both: counseling and advocacy office//facility; 24-hour hotline delivered wherever the person calls from Sexual Violence Prevention Education delivered in schools, churches and community centers.

Delivered in natural settings Delivered/offered in office/facility. Facility based.

Meet in available places that do not charge for use.

My services are provided in an office building.

Office, group homes, family residences, individual residences

Office/facility based

Outreach services for people with Substance Abuse/mental health disorders access to care remains a problem getting clients connected with services they need

Private practice office setting

Services are offered/provided in individual/family homes, community locations, daycare centers, and in center.

Services both ways

# Champaign County Mental Health Board MHSUD Provider Survey

Report/Results

We provide services primarily in natural settings. Services can be provided in the home or in the community. Whatever works best for the client,

Yes, we go out to homes both both office and in-home facility based, their base, in nature going for walk, office office based

yes. We serve our clients primarily in their own homes but can see them in the office or the community if they prefer.

# 17. Do you have other comments regarding service needs or service gaps in your area that you would like us to consider?

Detoxification outside of the pavilion. Medication assisted therapy including Suboxone and methadone for state-funded treatment facilities.

As state resources become available, people that are supported through county-funding convert to state funding. This typically creates opportunities for people that are waiting for state funding to have an opportunity to access services which is one of the most significant benefits to county-funded service delivery. While all funding is limited, access has definitely improved as a result of CCMHB and CCDDB funding.

Better funding of mental health services. As a business, I'm unable to afford to provide counseling services to the most vulnerable population because the reimbursement rates of Medicaid (and the copious amounts of unnecessary paperwork required only by Medicaid and Medicare) do not even cover my costs.

Carle/Health Alliance should expand their network of mental health providers and also provide at least some reimbursement for out-of-network providers to allow more clients/patients access to specialized mental health care (specifically trauma-informed) with shorter wait times for intake.

Geriatric mental health assessment

I am deeply concerned about the gaps in services for people without great insurance and waits for people with Medicaid. There are also fewer holistic services for individuals living with severe psychiatric disorders.

Mental Health Court would divert some from the judicial system.

No/None

One suggestion is to create a list of all the services and providers in the community. Then, publish the list on this website and, maybe, promote said services/providers. It would help the process of identifying appropriate services and facilitate the referral of clients. Moreover, in my experience, some providers and agencies might benefit from establishing partnerships to provide services. For example, one provider might provide mental health counseling while another agency/provider provide treatment for substance use.

Also, there is a considerable need for Spanish-speaking providers of mental health services. Some providers have left the area in pursuit of better economic opportunities. Perhaps the board can create some incentives to retain providers.

# Champaign County Mental Health Board

# MHSUD\_Provider Survey

Report/Results

Overall, there is a lack of needed services - nothing stands out, as people's unfulfilled needs are diverse and constant.

Services for autistic spectrum disorders including patient and family are non existent in Champaign County. The most frequent request that goes unmet is for child psych.

There are many

There is a need for more mental health services for all populations in most areas outside of Champaign/Urbana. There is not enough to go around/meet the growing need!

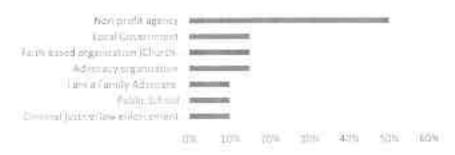

While many services are available, a great many of them are for Medicaid only or have prohibitive waiting lists.

18. Do you as a provider serve people outside Champaign County? Yes: 44%; No. 19%; Did not Answer: 37%

#### Other:

How quickly they can receive help in the moment they are in crisis and the length of the service they are provided.

10. Please tell us about service needs or service gaps you have experienced that you want brought to our attention.

Respite services and parent peer support

Sober housing, homeless sheltering, and medical treatment for psychological issues, including and many times leading to substance abuse. These services are limited, and do not have the availability, resources, and proper therapeutic value for more rehabilitation of derelict members in society to get a chance to get better and become less of hazards in our community and more of contributing and docile members of the public. We need LONG TERM recovery housing as well as homeless housing. We need assistance available to send case workers to people's homes, and even doctors, and/or better transportation availability for people with no money. They also need better means of how to find the help, like the 211 line.

There is a tremendous need for housing (i.e. rent subsidy) for people with developmental or mental disabilities whose sole source of income is SSI. Far too many are homeless simply because of their low incomes. People with developmental disabilities or mental health issues can't quality for any help through Housing Authority if the individual has had any criminal involvement — unless at least 5 years has passed since completion of any sentence or probation. As a result, some of the most vulnerable people in our community have no housing and no hope of acquiring housing at any time in the foreseeable future. Housing Authority's policy must change and we need more subsidized housing options for people with disabilities.

Transportation and child care are the two most often cited when I work with families. In addition, the lack of flexibility/not getting their schedule ahead of time with employment makes it very difficult to make it to appointments while trying to hold a job.

I am a stroke survivor who suffered an absence seizure in 2016. I am currently taking Keppra, feel fine now, but am having visual distrurbances in my left eye (the stroke affected my left side as well) but can see ok. I will visit my neurologist through his nurse practitioner in December and may need my eyes checked out.

do not like DHS or DCFS. They are not fair.

No

None

INTRODUCTION: Forty Two (42) complete responses were received and processed via on-line and manually.

#### Initial Questions:

Question	Yes	No	Don't Know/Did Not answer	% Yes
<ol> <li>Are you a family member, caregiver, loved one, and/or guardian of a person who has an intellectual and/or developmental disability?</li> </ol>	42	0	D	100%
2. Do you live in Champaign County, Illinois?	38	1	3	90%

#### 3. What is important to you regarding the person in your life who has a developmental disability?

A nice place to live and a job to do.

A safe and caring living situation (group Home) that provides 24 hr care. A supervised work environment. Being included in a community, access to various services, therapies and equipment.

Feeling safe in the group home he lives in. Participating in activities with his house mates. Continuing to enjoy working at Clark Rd.

Happy, painfree, inclusive life

I have him in a behavior facility for his disability at this time for him to get help he needs at this time so he'll be able to come back home.

I want my daughter to live as independently and safely as possible. I want her to be challenged but successful. I want her to be able to live in a safe neighborhood with support. I want her to have a paid job and a way to safely get to that job. I want her to have friends. I want to maximize her abilities.

I want to know that my family member who can not always articulate things is not being mistreated and being taken care of. I want to know that they are in a safe environment both in the home and at work.

I would like for them to be happy and content and to live as independently as possible.

I would like for them to be happy in their life and living as independently as they possibly can.

It is important my brother be able to live in his community of choice, a small town in rural Champaign County, and have access to community services and programs that anyone else in the community has access to without regard to ID/DD.

It is important that my son have the opportunity to live a fully integrated life in the community with the supports he needs to live outside our family home. It is important that he gets to decide how he lives his life - as long as it is safe for him and others.

It is important to me that she has the same choices as all people; however, it is equally important that she receives the guidance and assistance needed in making those decisions. It is extremely important to me that she be able to get services when needed, and we know in the state of Illinois that is not the case.

Just want them to have the best life possible.

Options and supports for participating in community life.

Quality of life outcomes such as friendship, self-determination, & employment!

School resources and community resources

Services for the individual at Development Services Center as a young adult graduating from High School and needing a shadowing for him!

Services/Supports
Services/support
That he has the same opportunities for his future as any other child.
That she grows up to be a happy and mostly independent adult.
That she is happy, healthy and safe.
That they are treated with respect.

That they can live independently (hold a job, take care of finances, etc.) and have meaningful relationships with others.

That they have opportunities to be contributing members of their community. I have two daughters with disabilities, one is 18, the other is 8.

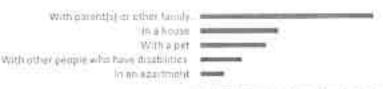

That this person gets treated with the respect they deserve and not looked down upon because they have a developmental disability.

To feel that there are opportunities in our community to truly develop living skills, social skills, and recreation to increase chances for more independence and a more fulfilling life. Simply housing someone and trying to fill up the day with activities is not enough. More group homes are needed in our community. These homes should be a true "home", a place of support and not treated as institutions where normal everyday choices are nonexistent (what to eat for each meal etc etc.)

Where she can live, work an enjoy her life
Ability to receive services so she can eventually lead an independent lifestyle
Resources to live an enriched life in East Central IL, full of opportunities
respite care and life coaching

That he is able to live a productive and interdependent life in this community

4. Tell us about	where they	live.	(Check	all
that apply.)				

On 10% 10% 20% 20% 40% 50% 60% 70% 80%

#### Othera

Home is owned 25% each by his 3 brothers and sisters and special needs trust.

They pay room and board to parents

5. Do you want to change something about their home and/or where they live? Yes: 52%, No: 48%

#### If "Yes":

Although my son will be turning 18 soon, we worry about where he will live, and if he can keep a job or afford rent.

Another bedroom on main floor with accessible bathroom

As brother ages, the home will need modifications. It has stairways to get into the house and to his 2nd floor bedroom.

So perhaps buy a different house or get an apartment, but will he be welcomed by neighbors and safe?

Better pay so that there is not so much staff turnover. Also, perhaps, a group home with fewer residents would help quality of life.

Eventually, I would like my daughter to live in supported housing with a roommate or 2. It would be great if there was some sort of step down system. High support initially but moving her toward less support as she learned more skills.

I know that with the ongoing State budget getting quality help is often difficult. However, I believe that there are issues at some of the group homes that is overlooked because they are already understaffed and under paid. It is a shame they can't address issues because they fear losing more bodies. I have also heard that staff have complained about issues up the chain of command however, when asked about complaints I have been told there are none when I know for a fact there have been staff complaints.

I want him to live outside our family's home. He is an adult. I want there to be a continuum of supported housing available so individuals can move from their family homes with the right amount of support. Something like a dorm first - then on to more independent living as he acquires the skills he needs.

I want him to get well so he'll come back home.

want them to live in a group home instead of with their parents.

I want them to someday be living outside of our home, but they are too young and not ready yet.

I would like a bigger house but that is unrelated

I would like for her group home to get staffed, so she can move in.

I would like for my child to eventually move into their own house (with a basement) and a roommate and a pet.

I would like for them to to be able to eventually move out of the family home and into a small house (with a basement) where they could live with a roommate and a pet.

It would be nice if they could get the home fully staffed as it was when they moved in, and also have a house manager (which they have been without for six months.

It would be nice to have a second bathroom.

Make more accessible/comfortable

Not for now, he is only 14

Stairs

We love having our son live with us but realize we will not be around forever.

We recently moved in with my sister and brother in law

Would love to have someone that wants to live with her for more than one year at a time.

We would like him to be living with other young people in the community

#### Champaign County Mental Health Board

#### ID/DD\_Caregiver Survey

Report/Results

#### 6. Do they want to change something about their home and/or where they live?

No: 62%; Yes: 31%; Did Not Answer: 7%

#### if "Yes", Please describe:

A big problem is that my son does not want to leave the family home. However, if there was the right supported housing available for young adults that looked like fun - and had the right support - he could change his mind.

He wants a dish washer!

He wants more independence :]

He wants to live independently, but is not sure he can do it yet.

I assume this is geared more toward adults that are considering independent living situations vs group homes or living with their families?

It would be nice to have a second bathroom.

My family member wants good staff who don't yell and take good care of them.

Our son is 14 now. At his recent "transition" | E.P. when talking about fiving arrangements, he's interested in living ON OUR PROPERTY, but not necessarily WITH us, as we eye home improvements and upgrades to the backyard Shed as a "guest house" inside the next 10 years!

Our son seems to enjoy living with us. We try to be very supportive and provide apportunities.

Stairs

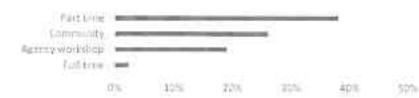

Transportation to DSC!

Unknown for sure, Individual is nonverbal.

He would like to live in an apartment or house like his sisters do, not with his parents

They like moving in with aunt and uncle

## Tell us about the person's job. (Check all that apply.)

Champaign County Humane Society "Pet Pai Program" volunteering 2x a month

Child does not work

Currently volunteers are a long term care facility in town.

Elementary school

Elementary school student

Junior High Student

Minor

My daughter is in her last year of Young Adult Program throught the school syste

None

Still in High School doing the life skills program. Needing a job at DSCI

Student

Volunteer.

currently a student

looking for work

student

#### 8. Does the person have the job they want? Yes: 50%; No. 29%, Did Not Answer: 21%

#### If "No", please describe.

Brother has had an employment consultant since August 2016. He wants a job at the nursing home in town where he volunteers. He applied for 2 jobs with help of the employment specialist. The employment specialist has been playing phone and email tag with people at the nursing home. I am very frustrated and feel the employment consultant needs to make things happen or I might as well be doing it myself! But I live 100 miles away; other brothers and sisters are out of state.

#### Currently a full time student

He has a job at the high school for an hour a day, but it is ending (he wasn't able to keep up). He's not "of working age" but DOES want to work with non-judgemental animals.

He's only 14, but has had one temporary job mowing grass. He did NOT like that. He wants to go to college, be a lawyer, and live in his own house in Scattle.

Not really applicable

She is still in school and exploring job possibilities. It's difficult for her to know what she might like to do when she is unaware of all the possibilities.

Still looking for work

The places he wants to work have not been willing to hire him.

#### 9. Do they want to change something about their job? No: 50%; Did Not Answer: 33%; Yes: 17%

#### If "Yes", please describe:

At this point, she and I would like to see her hours lowered by eight hours a week.

Could use more hours if behavior better

He wants a job - where he wants it.

He would like more hours (after school/weekends) at a job that does not overwhelm him.

He's only 14

Not sure

She would like to be working more.

Too much "free" time. Need more actual work.

she would like more hours

#### 10. Do you want to change something about their Job? No: 43%; Yes: 24% Did Not Answer: 33%;

#### If "Yes", please describe.

"Job" is not a particularly relevant description. Individual does not understand economic goals, achievement, earning, etc. very well.

As my family member ages I feel that consideration needs to be given to the hours they currently work. I feel my family member requires more rest and the schedule and the house hours of staff do not allow for this.

He needs a job coach to check in with his employer once a week, and then offer guidance/feedback. However, the school took away his IEP so he does not have access to job coaching/life skills classes:

He's only 14

His valunteer job could be developed to be more than the menial tasks he does; why not work with the facility to develop meaningful valunteer projects? He just gets shoved aside. No one seems to be mentaring him or supporting him to get out in the community.

I want him to have a job with a good fit.

I would like her to have more hours

I would like to see her get more hours at Clark Rd and learning some different jobs.

More hrs

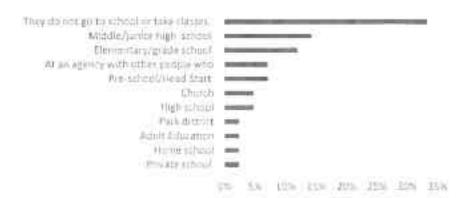

Same as above

Too much "free" time. Need more actual work.

Would like to increase the number of hours he works but he needs to be supported. Not sure how to move to next step. Trying to work on that with DSC.

#### ID/DD\_Caregiver Survey

Report/Results

31. Is there anything else you would like us to know about your experience as a loved one, caregiver, family member, or guardian of a person with an intellectual and/or developmental disability?

As a parent of a two children (ages 3 and 4), who both have autism, I would like to see more information or more access to information of what is available. I have found it difficult to find, and then, I will find out and think, man, I wish I would ve known that a year ago. Also, I think it's important to have access and financial help for respite services for young children. My husband and I have a hard time finding time for ourselves because we only have one person to watch our kids. We can't just go hire anyone. It needs to be someone who understands our kids' disabilities and is able to handle them. (Also, I found this survey kind of hard to fill out. It seems a little more geared toward older people with disabilities.)

At the time the individual left high school there was only one option available. That is why the above question was answered that way. We are not looking for another option.

Currently staff at CILA are not being paid enough. They are dedicated, capable people who stay as long as they can "survive" on low pay. Often they work longer hours.

DSC does a great job!

DSC is a very good organization. There just seems to be a problem hiring and retaining group home staff.

I fear that when my daughter ages out of school this summer, she will have no options but to sit at home doing nothing but losing the skills she has gained through school. I know of many families that are in this situation now. Or, I will need to quit work in order to keep her active in volunteer situations.

know ( would like to see a movie theater that shows movies that are not dark and not loud for sensory sensitive children.

I like the disability exposioffered in the area to explain so many difference resources. We also do things with T.A.P. family resiliency center & CU autism group. We'd like to do Challenger League and CUSpecRec and therapy ponies but haven't yet. I think we have a lot of caring people to help around here! Good job!

My son falls through the cracks. He needs support, but not intensive support. He will not be independent without a set amount of critical support outside the home. A little support goes a long way with him. He will need support if he wants to go to Parkland, for example. He will not be able to "graduate" Parkland due to his severe math learning disability, although he is very accomplished in history/social studies/civics. He needs a supportive and flexible post-secondary educational opportunity that develops his strengths so he can contribute to society.

Need help to provide and teach residential success as parents will not be here forever to provide needed supports

Nα

Parenting a child with special needs is the hardest thing that we have ever done. Besides being parents, we have to become specialists in the disability and savvy navigators of a complex system of care. We live with a lot of stress and it is taking its' toll on all of us in the family. Also, thanks for all that you do to help us!

Some needs: A continuum of supported housing options - from Dorm style - to supported housing (less than 24 hours - support) Also - more behavioral support for adults who still exhibit challenging behavior.

Thank goodness for DSC
Thank you for all that you do for our community!

We currently don't receive any services from the State of Illinois and are waiting for the disability waiver for many years.

All the services that our son receives at this time have to be paid by us ( his parents), including all the respite that we need to take a break of taking care of a child with sever disability.

We have received a lot of help from the Illinois Association of Microboards and Vicki Niswander since 2014, when she met with our family to do a PATH person centered plan. This was a life changing event for our family and my brother. I am very appreciative of the present support of the IAMC project in Champaign County. My brother updated his PATH in May 2017 and we are building a support Ieam in Gifford. IAMC needs better funding to help more families in the future. Our parents had to both die in order for my brother to get services. This is wrong and terrible. He needed employment supports 20 years ago; Also the employment supports are inadequate. Once a person with disability is employed they should have access to continued support according to their needs. One size model does not fit all. Elderly parents need to know that the disability service system can help them NOW not at some future date, at the event of their demise and death.

We love the staff and clients at McKinley 3!! not at this time

That it's frightening to not know that there will be services and opportunities when we are not around. Everything he receives now has to be initiated and coordinated by us. He pays or we pay.

Office

School based.

We have a main office for meetings and work, but most of our services are delivered in the community. Yes, both office and home/day training visits.

both

#### 14. Do you have other comments regarding service needs or service gaps in your area that you would like us to consider?

Transportation continues to be a pressing concern. Many people use transportation (Piattran, CCarts, OSC), so many activities / opportunities are limited by their transportation schedule.

Based on my observations as a parks and recreation professional, I think we have a real issue with homelessness (likely due in part to mental health issues) in this community that needs to be addressed. There are non-profit organizations such as CU at Home that do great work, but this problem seems best addressed at a government level, especially in regard to improving awareness of, and access to, mental health services. Moreover, better efforts should be made to provide support past the "treatment" phase, and into the "housing/job" phase, so the cycle doesn't continuously repeat.

In the nearer term, it seems like it would be prudent to increase access/awareness of shelters that are available for the homeless population. It just seems like there are not enough, and people resort to sleeping in the parks, and other public spaces. This is a huge safety concern, especially as the weather gets colder. We have worked with CU at Home in the past regarding this issue, and it would be wonderful to be able to provide people with multiple options of places they can go, not only for a warm bed, but comprehensive services that can help them.

I think it is difficult for families to navigate the DD system as a whole. Need assistance with starting point.

I work with individuals who also have case management for ID/DD services through Rosecrance. It is very difficult to get the case managers to respond to the needs of the individuals. This has been an ongoing issue well before Rosecance merged with Community Elements. I have found that turn over and lack of experience in dealing with those with ID/DD and mental health are significant factors. When I bring up issues to the case managers they do not know what to do and nothing gets addressed. We are having serious issues with not getting help with budgeting (when Rosecrance is the payee), no support with changing lifestyles (which are leading to serious health issues that WILL have a terrible impact on these folks future health) and no support in making good decisions. It appears that these folks that need the help are left to themselves and they are failing in many ways. We can improve their lives, however we need case managers and supervisors that are invested in the work and those that know what they are doing.

Services for students in college who are blind have been unavailable in Champaign county in many instances. The Bureau of Blind Services and Parkland's Office of Disability were not meeting needs for many of my graduating students in the past 3 or so years.

There is a lot of overlap between the mental health world and the intellectual disabilities world—some more options for co-occurring disorders would be helpful including more coordination between providers (like overlapping training services for providers so that we don't have Silos of services/information)

What has been happening with students is that they are urged to stay in school until age 22, which is appropriate in some cases, but not others who have accomplished their high school goals and are ready to move on to transitional services. It is not appropriate for some students to stay in high school because the services are not available due to funding or availability.

Da Not Know	Couples services	100%
	WRAP (Wellness Recovery Action Plan)	100%

6. Based on your experience and knowledge of the service system in Champaign County, are there barriers that deter persons with intellectual and developmental disabilities from accessing the most appropriate services? If so, how often do the barriers occur?

RESPONSE	QUESTION	%
Often	Financial Issues	75%
Tap 3	Transportation Issues	38%
	Unaware of service availability	38%
Sometimes	Services too far away	63%
Top 3	Medical issues	50%
-22	Services do not meet needs	50%
Seldom	No option selected more than once	25%

7. Please tell us about service needs or service gaps you have experienced that you want brought to our attention.

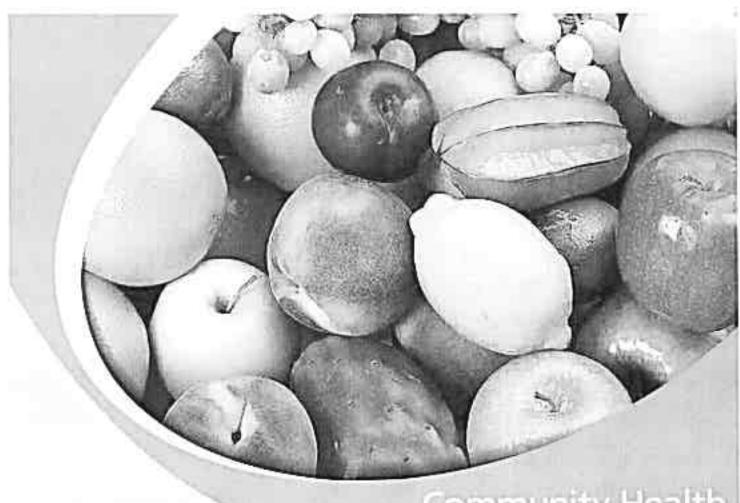

The programs exist to provide services but the funding doesn't exist to support enough people in need of the services. Specifically, state funding is frequently not enough to allow an organization to provide the level of service necessary or to provide it in a manner that works well.

The drive to encourage more community involvement is also key and very important but we need to make sure those individuals who are not able to participate (lack of programs, funding, ability, etc) are not overlooked and the limited options they currently have are not lost.

Two significant concerns: 1) financial strains stemming from eroded State financial support (stagnant State rates for 10+ years eroded by costs inflation), and 2) potential elimination of a full continuum of supports and services for individuals of all levels of abilities/disabilities in pursuit of the important and laudable goal of primarily community-based supports and services.

Insufficient state funding. Rates are too low.

Community Health Improvement Plan

## 2018-2020 Champaign County Illinois

United Way of Champaign County

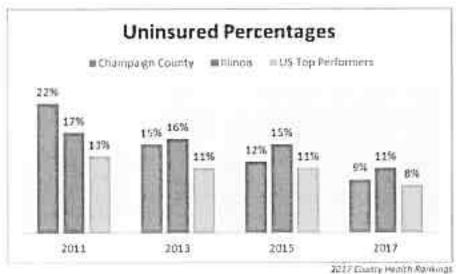

The rates of insurance and health resources in 2017 are shown in the table below. Champaign has a lower rate of uninsured adults than in Illinois. Champaign County also has a lower number of preventable hospital stays and lower healthcare costs (price-adjusted Medicare spending per enrollee.)

Health Resources and Indicators	Champaign County	Illinois
Uninsured	9%	11%
Uninsured adults	2.1%	14%
Uninsured children	4%	4%
Primary care physicians	1,200:1	1,240.1
Dentists	1,740:1	1,380:1
Mental health providers	47D:1	580 1
Other primary care providers	893:1	1,741:1
Health care costs	\$9,084	\$9,939
Preventable hospital stays	46	56
Mammagraphy Screening	64%	54%

2017 County Health Rankings

According to County Health Rankings, the percentage of Champaign County residents that are uninsured has dropped from 22% in 2011 to 9% in 2017.

According to County Health Rankings the ratio of mental health providers per 100,000 has improved drastically over the past six years, moving from 2055:1 in 2010 to 470:1 in 2016. The table below shows the ratio and number of mental health providers for Champaign County, Illinois, and the US in 2016.

Report Area	Estimated Population	Number of Mental Health Providers	Mental Health Care Provider Rate (Per 100,000 Population)
Champaign County	207,131	445	214.8
Illinois	12,806,917	73,090	180.2
United States	317,105,555	643,219	202.8

Source: University of Wisconsin Population Health Institute and County Health Rankings 2016

#### Chronic Disease and Health Behaviors

- Access to exercise opportunities at 84% is lower than the state average of 89%
- HIV prevalence is much lower in Champaign County than in Illinois.
- Sexually transmitted infections, food insecurity, adult smoking are all higher than the state of Illinois overall.

Health Behaviors	Champaign County	Illinois
Adult smoking	16%	15%
Adult obesity	25%	27%
food environment index	7.2	8.0
Physical inactivity	19%	21%
Access to exercise opportunities	84%	89%
Excessive drinking	20%	22%
Alcohol-impaired driving deaths	28%	34%
Sexually transmitted infections per 100,000	6CB.5	516.5
HIV prevalence rate per 100,000	193	323
Food insecurity	16%	13%
Limited access to healthy foods	496	4%
Motor vehicle crash deaths	7	8
Drug overdose deaths	14	13

2017 County Health Ransings

Access to exercise opportunities measures the percentage of individuals in a county who live reasonably close to a location for physical activity. Locations for physical activity are defined as parks (local, state, and national) or recreational facilities, which includes gyms, community centers, YMCAs, dance studios, and pools. According to the County Health Rankings, 84% of Champaign County residents have adequate access to opportunities for physical activity. Illinois' percentage is 89% and US Top Performers' percentage is 91%. Having adequate access to opportunities for physical activity is defined as individuals who:

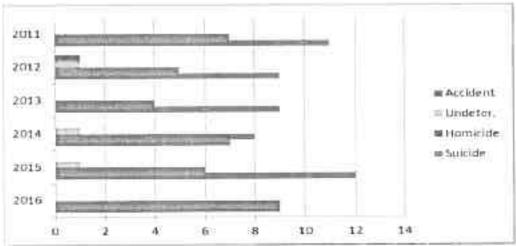

According to 2017 County Health Rankings the violent crime rate (the number of reported violent crime offenses per 100,000 population) is 526 which is substantially higher than the state of Illinois rate of 388. The table below shows the total crime index offenses for Champaign County from 2012-2015.

Champaign County	2015	2014	2013	2012	% change from 2012 – 2015
Total Crime Index Offense	6,494	6,243	6,567	6,999	7.2% Decrease
Murder	7	11	7	4	75% Increase
Forcible Rape	127	101	112	129	1.6% Decrease
Robbery	205	222	215	226	9.3% Decrease
Aggravated Assault/Battery	579	647	730	798	27.4% Decrease
Burglary	1,100	1,262	1,275	1,585	30.6% Decrease
Theft	4,235	3,840	4,049	4,045	4.7% Increase
Motor Vehicle Theft	196	118	147	165	18.8% Increase
Arson	37	42	32	47	21.3% Decrease

#### Gun Related Deaths in Champaign County

The table below shows the gun related deaths in Champaign County from 2011 to 2016.

Champayn-Lichana Poon, Neurth Gistrict Death Cort/Icates

#### Maternal and Child Health

- The teen birth rate in Champaign County (per 1,000 female population, ages 15-19) is 18. It is almost half of the prevalence in Illinois. Champaign County has one of the lowest teen birth rates in the US, with the top performing US County having a teen birth rate of 17.
- Child mortality is higher for Champaign than for Illinois.

Maternal Child Health Indicators	Champaign County	Illinois
Teen birth rate (per 1,000 female population ages 15-19)	18	30
Low birth weight	8%	8%
infant mortality (within 1 year, per 1,000 live births)	7	7
Child mortality (among children under age 18 per 100,000)	60	50

2017 County Health Rankings

#### Environmental Health

- 22 64% of the population living in Champaign County has low food access. This percentage is higher than the percentage in illinois (19.36%), but mirrors the average in the United States (22.43%)
- The number of gracery stores per 100,000 populations in Champaign County is 18.40. In Illinois and the United States the rate of gracery stores was slightly higher at 21.8 and 21.19.

32

72

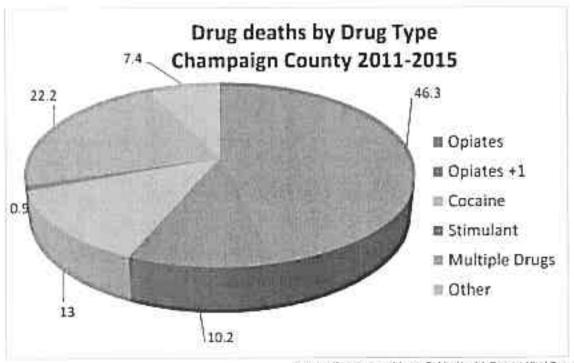

#### Drug-related Deaths in Champaign County, 2011-2015

According to the death certificate data compiled by Vital Records, Champaign-Urbana Public Health District, there were 132 drug related deaths for the five-year period 2011-2015. Of these deaths, 108 were residents of Champaign County.

2011	2012	2013	2014	2015
19	19	15	26	29

Those are the ones included in this analysis. Seventy-seven of the deaths (72%) were in white individuals, and 28% in Black individuals. Over 71.3% were male, and 28.7% were female. Ages of those who had drug-related deaths were from 18-90, range 72. The mean age was 45.18. The data was bimodal with most deaths occurring at ages 39 and 47.

Opiates were the leading cause of drug related deaths in Champaign County with nearly 47% listed as an opiate (heroin, methadone, hydrocodone, fentanyl), and an additional 10.2% had the cause of death listed as an opiate plus another drug(s). Over 22% listed multiple drugs as the cause of death. Over 13% died from cocaine, and less than one percent died of other stimulant use. 7.4% of the deaths were categorized as "other". They included such things as prescription drug overdose, over the counter drug over dose, and inhalant abuse.

Source, Champaign Urbana Public Health District Vital Records

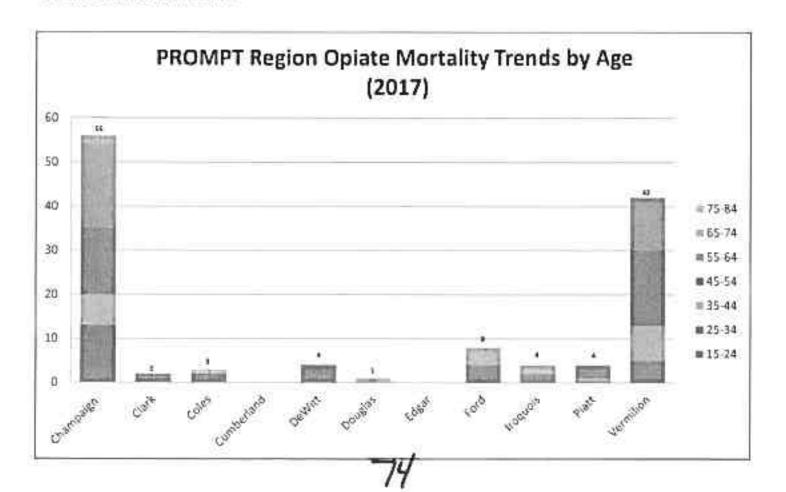

Of the 43 men who died of opiate-related death, 3 were ruled suicides, and 32 accidental. Of the 17 opiate related deaths among females, 16 were ruled accidental, none suicides, and one natural.

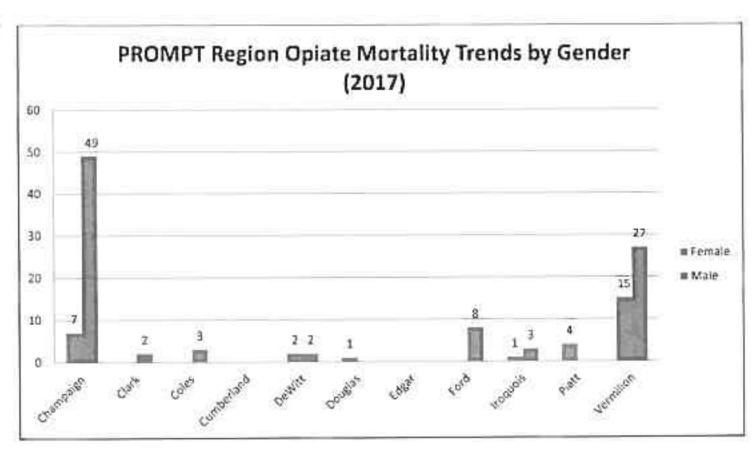

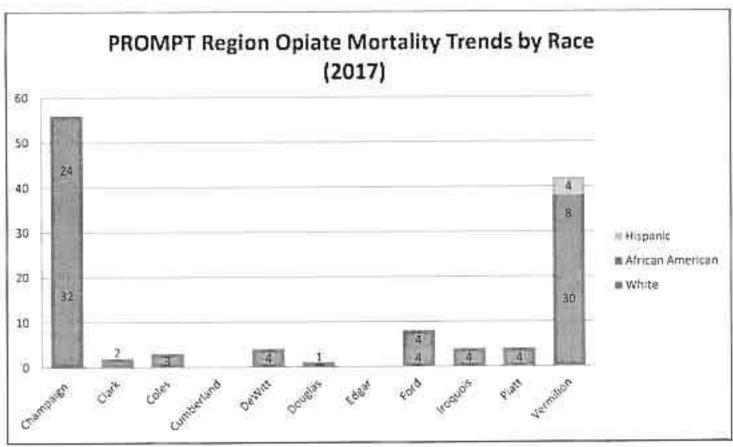

# PROMPT Region Opiate Non-Fatal & Fatal Overdose Rates (2017)

APPENDIX A

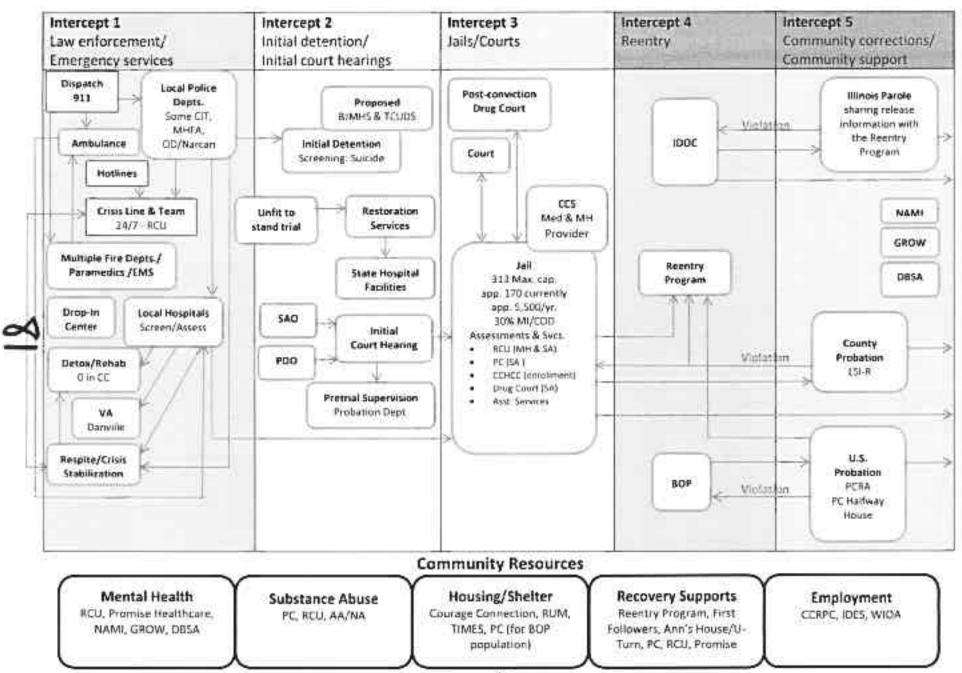

Champaign County SIM - February 2017

						-
	Evidence-Based Programs & Treatments: N/A	Evidence-Based Programs & Treatments: CIT Officers	Evidence-Based Programs & Treatments: Proposed screenings are BIMHS and TCUDS.	Evidence-Based Programs & Treatments: MRT groups are offered in the jail.	Evidence-Based Programs & Treatments: Reentry programming provides wrap- around services.	Evidence-Based Programs & Treatments: The LSI-R is conducted by Probation. MRT, cognitive behavioral therapy, groups are conducted by a community-based provider at Probation and in the community, in addition to Anger Management groups.
1	Data: In FY17 CCMHB allotted: \$609,000 for Juvenile Justice Contracts; \$799,584 for Adult Criminal Justice-Mental Health Contracts; \$199,050 for Problem Solving Courts Contracts; \$122,628 for Support Services Victims of Crime; \$885,952 for Community Based Services Contracts; \$460,189 for System of Care for Youth & Familles; \$633,073 for 10/DD Contracts	Data: In 2014, CIT Officers responded to 1,687 calls; 461 were for Crisis; 16 excited delirium; 710 were for suicide attempts or threats; In2014, U of I PD transported 101 people to the hospital for involuntary commitments.	Data: 5,589 bookings in 2016; Since March 7, 2017, everyone booked into the jail is screened for MI with the BJMHS and a substance use disorder with the TCUDS V. An average of 11 screens are conducted daily. Preliminary data indicates that 32% or 3 per day will be referred for secondary screening including the LSI-R-SV proposed.	In 2015, a point-in- time census was conducted in the jail. Of the 136 inmates surveyed, 63 or 46% reported CDD, 22 or 16% cited SUD only, and 12 or 9% cited MI only. For those who stay > 72 hours, ALOS = 35 81 days. At this time, there is no data available for ALOS re: the population with MI/COD.	Data: Identified needs data, gathered from 239 Reentry Program participants over the past 2.5 years, indicated 189 or 81% indicate a need for behavioral health services.	Data: County Probation approximates that: 35% of 835 cases received by the Probation Department in one year were ordered or referred to undergo a MHA, 45% were ordered or referred to undergo SUD treatment. A fair estimate would be that 60-65% of total intakes were either ordered or referred for MH/SUD treatment.

(CCMHB/CCDDB IGA). In FY1617, the City of Urbana/Cunningham Township provided 5250,000 in funding to 26 different agencies. The United Way invested \$2.7M in FY16 to social services, education and health. Community Foundation allocated nearly \$80,000 to community organizations in 2016.  Services: N/A	Services: 117 Police Officers are CIT trained, 306 Police Officers are trained in MHFA. Limited mobile crisis consult with MH Professional available, which provide 73 consults in 2016.	Services: Medical staff completes non- validated screening for only those who demonstrate observable symptoms of mental illness.	Services: Limited jail-based MH in-reach services and connection to care.	Services: Reentry case management services are available for anyone returning to the Champaign County community, from incarceration. Services include assistance with obtaining a state ID or driver's license, linkage to available resources in CC for housing, employment, education, medical coverage and care, benefits, some transportation, and MH and/or SA treatment.	Services: LSI-R risk assessment, cognitive behavioral- based groups.

### INTRODUCTION

In October 2012, at the Urbana City Building, members from local law enforcement agencies and the mental health community met to discuss the current law enforcement response to citizens in mental health crisis, build stronger partnerships between stakeholders, and identify resource options. The law enforcement community was represented by the Champaign County Sheriff's Department (CCSO), Champaign Police Department (CPD), University of Illinois Police Department (UIPD), Urbana Police Department (UPD) and Champaign County State's Attorney Office (SAO). The local mental health system was represented by area mental health providers, the local hospitals, a member of the jail task force, and other stakeholders.

The group continued meeting regularly and is now recognized as the Champaign County Crisis Intervention Team Steering Committee (CITSC).

# METHODOLOGY

This report illustrates the Crisis Intervention Team (CIT) responses from the Champaign County Sheriff's Office, Champaign Police Department, University of Illinois Police Department, and Urbana Police Department for one full year, from August 1, 2017 to July 31, 2018. Rantoul Police Department data is excluded from this analysis

After a great deal of discussion and work among stakeholders and the administrators of the Area-Wide Records Management System (ARMS), a new method of tracking CIT contacts was developed. On February 14, 2017, a pilot of this new method was launched, where selected officers began using the new form. All officers across all agencies began using this new method on April 1, 2017. Data quality has continually improved. Analyses represent an aggregate of all four agencies.

### **VOLUME OF CIT CONTACTS**

The four agencies recorded 1553 symptomatic contacts in from August 1, 2017 to July 31, 2018. Figure 1 displays the disaggregation of the symptomatic contacts by agency. Urbana Police Department recorded 40% of symptomatic CIT contacts, Champaign Police Department represented 36%, the Champaign County Sheriff's Office recorded 13% of contacts, and the University of Illinois Police Department represented 11% of contacts.

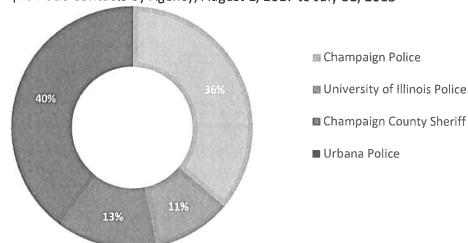

Figure 1. Symptomatic Contacts by Agency, August 1, 2017 to July 31, 2018

As shown in Figure 2, from April 1 to May 31, 2017, 1553 CIT contacts with individuals displaying symptoms were conducted by all agencies. There were an additional 106 contacts with individuals not displaying symptoms at the time. These 106 contacts are excluded from all analyses.

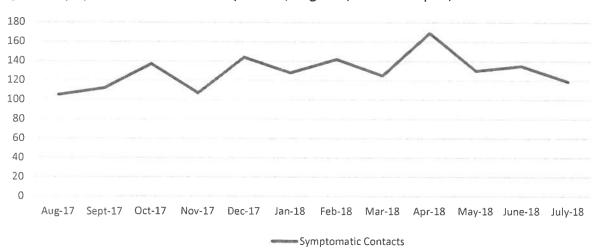

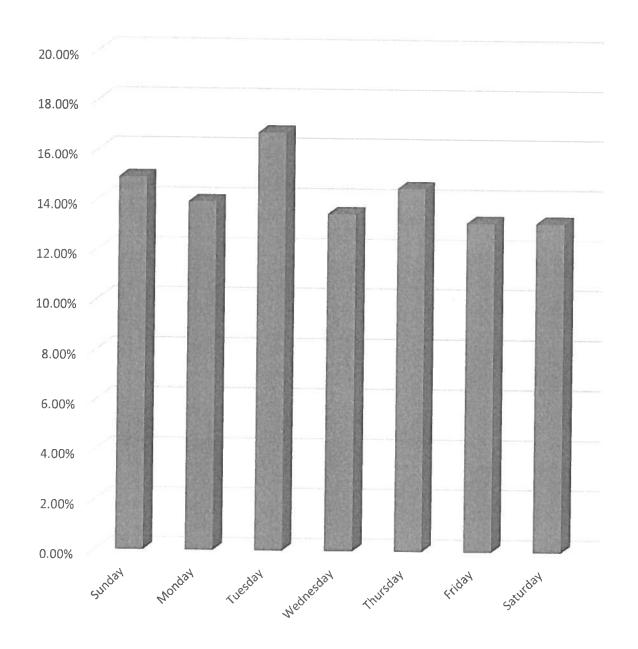

Figure 2. Symptomatic CIT Contacts by Month, August 1, 2017 to July 31, 2018

Figure 3 illustrates the contacts by day of the week. This data revealed that the CIT contacts are fairly similar across days of the week. The most contacts occur on Tuesday (16.74%), and the least occur on Friday and Saturday (each, 13.17%). The largest proportion of CIT contacts are between 5 pm and 9 pm, followed by 9 am to 1 pm.

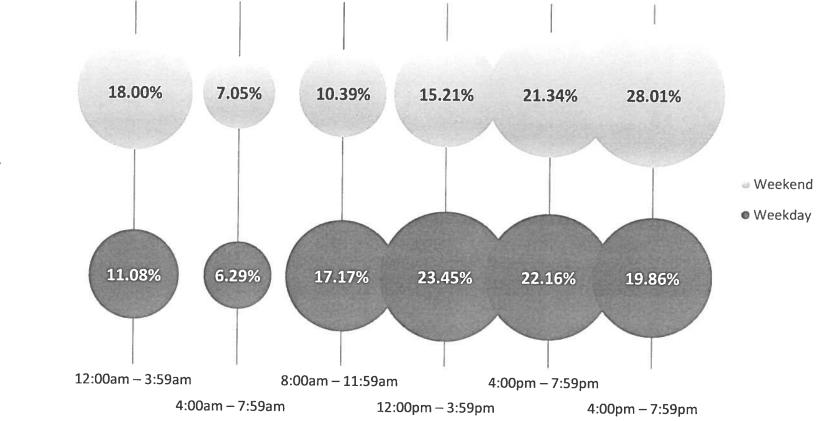

Figure 3. Symptomatic CIT Contacts by Day of Week, August 1, 2017 to July 31, 2018

00

The temporal analysis presented in Figure 4 demonstrates that weekdays and weekends have a different distribution across time. During the week, the most contacts occur from 8:00am to 8:00pm. On the weekends, this shifts to 4:00 pm to 4:00 am.

Figure 4. Symptomatic CIT Contacts by Day of Week and Time of Day, August 1, 2017 to July 31, 2018

#### **DEMOGRAPHICS**

The four agencies had contact with 1028 individuals in the past 12 months. Many individuals had repeat contacts – this analysis presents the information by person, so each person is counted only once regardless of the number of contacts. For more details on repeat contacts, please refer to that section of this report.

As shown in Tables 1, 2, and 3, over half of the symptomatic CIT contacts involve a Caucasian subject (59.38%), followed by African American, and Hispanic. The gender distribution of individuals with symptomatic contacts are nearly equal - 51.75% of are male, and 48.25% are female. The individuals ranged in age from 8 to 93; the median age was 27 and the mean was 32. 131 individuals were under the age of 18.

Table 1. Race of Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

Race	
Caucasian	59.44%
African American	29.67%
Asian	6.03%
Hispanic	3.99%
Other	0.88%

Table 2. Sex of Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

Sex	
Male	51.75%
Female	48.25%%

Table 3. Descriptive Statistics of Age of Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

Age	
Range	8 to 93
Median	27
Mean	32
Individuals under 18	131

Officers will collect some additional information if it is relevant. From August 2017 to July 2018, individuals involved in CIT contacts included 45 veterans, 181 individuals affiliated with the University of Illinois, 66 homeless individuals, and 13 individuals where it was relevant to indicate they had a FOID card. In the cases any of these characteristics is not relevant to the case, the officer will mark *unknown*. The following statistics displayed in Table 4 exclude *unknown* answers, and only count each person one time. The sample size of known characteristics is denoted in each row.

Table 4. Additional Information for Individuals with Symptomatic CIT Contacts, August 1, 2017 to July 31, 2018

	Veteran	UIUC	Homeless	FOID Card
No	93.43%	76.28%	93.17%	96.41%
Yes	6.57%	23.72%	6.83%	3.59%
Total Known	685	763	967	362

# CIT OFFICER AND CRISIS RESPONSE UTILIZATION

Figure 5 illustrates the proportion of CIT incidents that involve a certified CIT officer. Becoming a CIT officer is voluntary, and certification is granted after successful completion of 40 hours of intensive training. Approximately 73% of all CIT contacts involve a CIT officer.

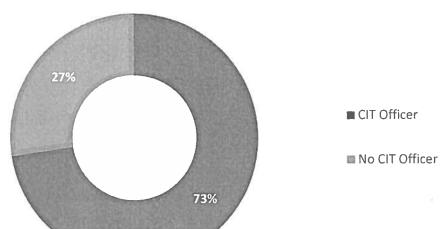

Figure 5. Symptomatic CIT Contacts with CIT Officer, August 1, 2017 to July 31, 2018

Figure 6 illustrates when Crisis Response was called from the scene. Of all symptomatic CIT contacts, Crisis Response was called in approximately 2% of contacts.

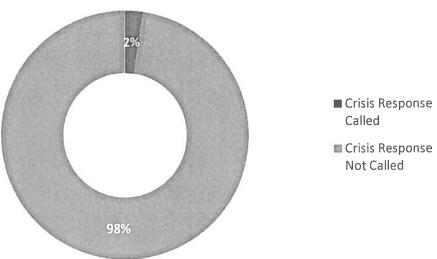

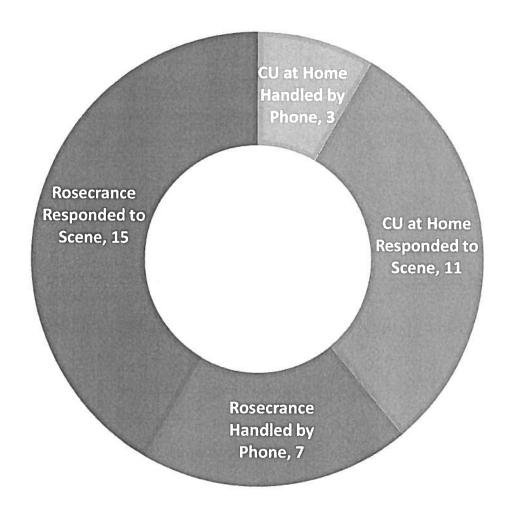

Figure 7 presents the types of Crisis Response action for the 36 instances in which Crisis Response was utilized. The most frequent action was responding to the scene (26), and there were ten instances that CU at Home or Rosecrance handled by phone.

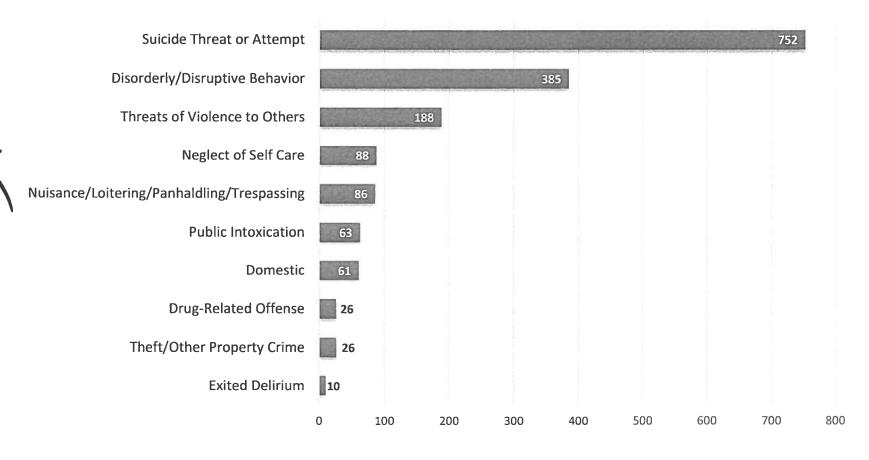

Figure 7. Crisis Response Action, August 1, 2017 to July 31, 2018

## NATURES OF INCIDENTS

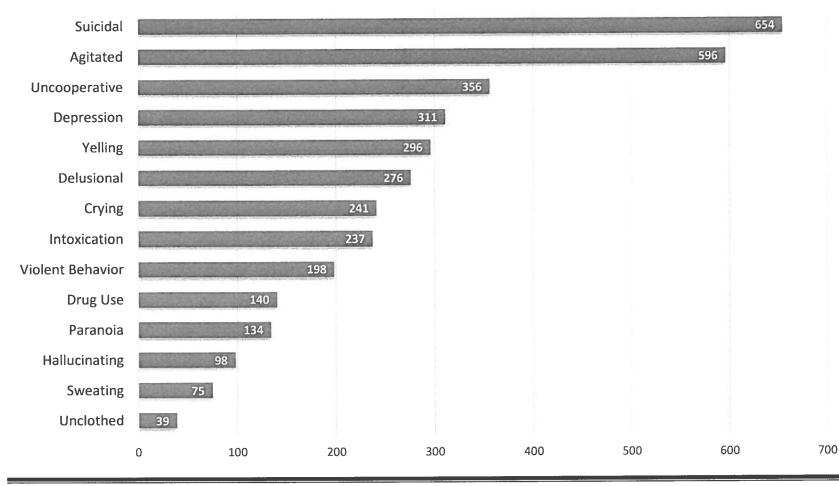

The nature of an incident is defined as the reason the officer was dispatched or responded to an incident. The most frequent nature of CIT contacts are suicide threats or attempts, followed by disorderly or disruptive behavior, as displayed in Figure 8. Please note that multiple natures of event can be indicated for one CIT contact.

Figure 8. Natures of Incidents, August 1, 2017 to July 31, 2018

The most common symptoms displayed by individuals engaged in CIT contacts suicidal symptoms and agitation, as displayed in Figure 9. Please note that more than one symptom can be indicated for one CIT contact.

Figure 9. Symptoms Displayed, August 1, 2017 to July 31, 2018

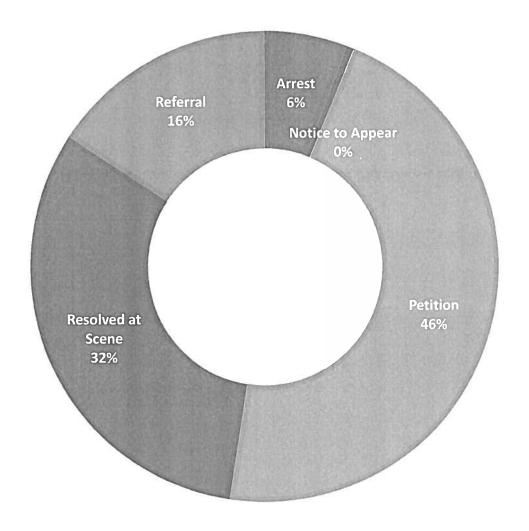

106

# **OUTCOMES OF CONTACTS**

CIT contacts can be resolved in one of five ways: custodial arrest, issuance of notices to appear, petitions, resolved at scene, and referrals. As displayed in Figure 10, 46% of contacts resulted in a petition, 32% were resolved at the scene. Approximately 6% CIT contacts resulted in arrest, or 89 incidents.

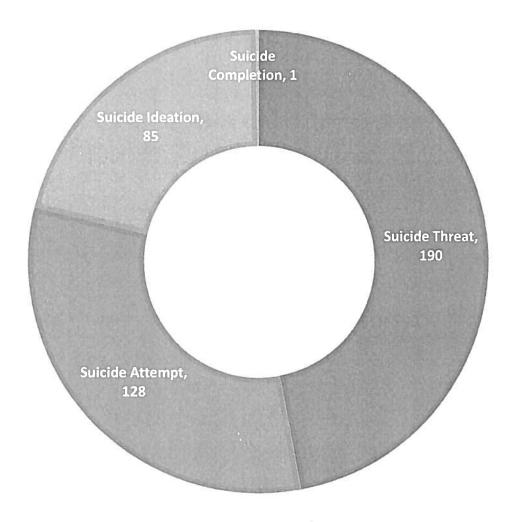

Figure 10. Outcome of Contacts, August 1, 2017 to July 31, 2018

# SUICIDE ATTEMPTS, THREATS, AND IDEATIONS

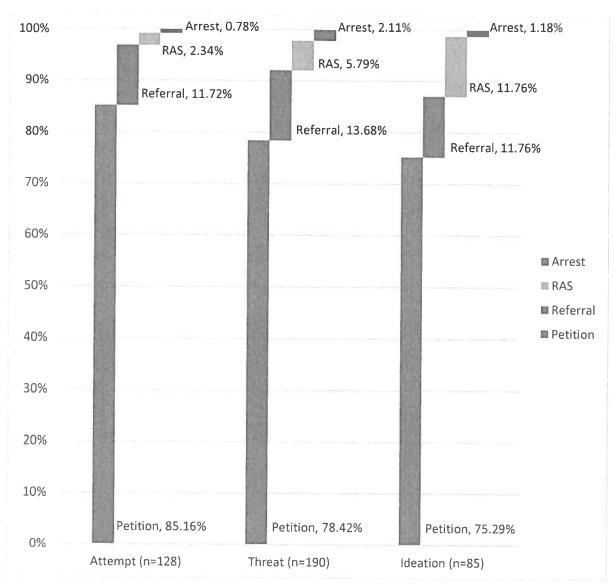

The most frequent nature of incident, and most frequent symptoms, involve suicide threats, attempts, and ideations. It is useful to consider these contacts separately. The below analysis in Figure 11 represents 404 CIT contacts from January 1, 2018 – July 31, 2018 with a suicide-related incident code nature of incident, representing 43% of all contacts from that time frame. Data quality improved beginning on July 1, and officers now denote whether the call was a suicide threat, attempt, ideation, or completion.

Figure 11. Suicide Threats, Attempts, Ideations, and Completions, January 1, 2018 to July 31, 2018

Below in Figure 12, the dispositions of each type of suicide CIT contact is disaggregated by threats, attempts, and ideations. Over ¾ of all of these contacts result in a petition; this ranges from 85% for contacts involving suicide attempts, and 75% for contacts involving suicide ideations. Referrals are highest (almost 14%) for contacts involving suicide threats, and officers resolve contacts involving suicide ideations at the scene in nearly 12% of contacts. Arrests occurred in only 6 suicide threat, attempt, or ideation CIT contacts.

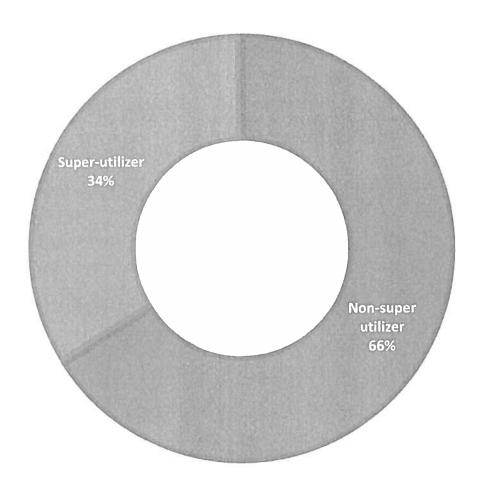

Figure 12. Dispositions of Suicide Threats, Attempts, and Ideations CIT Contacts, January 1, 2018 to July 31, 2018

### REPEAT CONTACTS

Many of the CIT contacts are with individuals who have had multiple previous CIT contacts in the recent past. The 1553 symptomatic CIT contacts from August 2017 to July 2018 were with 1028 individuals. For purpose of this analysis, an individual is considered a *super-utilizer* if he or she has had 3 or more symptomatic CIT contacts in the past 16 months (when data collection began in earnest in April of 2017). Based on this definition, 122 individuals were involved in 526 symptomatic contacts. As displayed in Figure 13, super-utilizers accounted for 34% of symptomatic CIT contacts across all 4 agencies.

Figure 13. Percent of Symptomatic CIT Contacts with Super-Utilizers, August 1, 2017 to July 31, 2018

The nature of incidents as well as symptoms displayed varies when comparing super-utilizer CIT contacts to non-super utilizer CIT contacts. As shown in Figures 14 & 15, the most frequent nature of incidents for CIT contacts with super-utilizers is disorderly/disruptive behavior, while the most frequent for non-super utilizers is suicide threats/attempts/ideations. Super-utilizers' most frequently displayed symptoms include agitation and delusions, while non-super utilizers most frequently display suicidal symptoms.

Figure 14. Comparison of Nature of Incidents by Super-Utilizers, August 1, 2017 to July 31, 2018

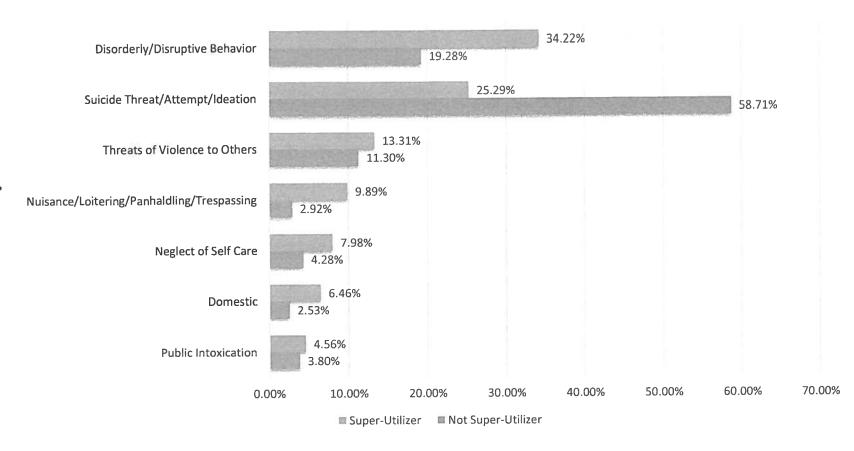

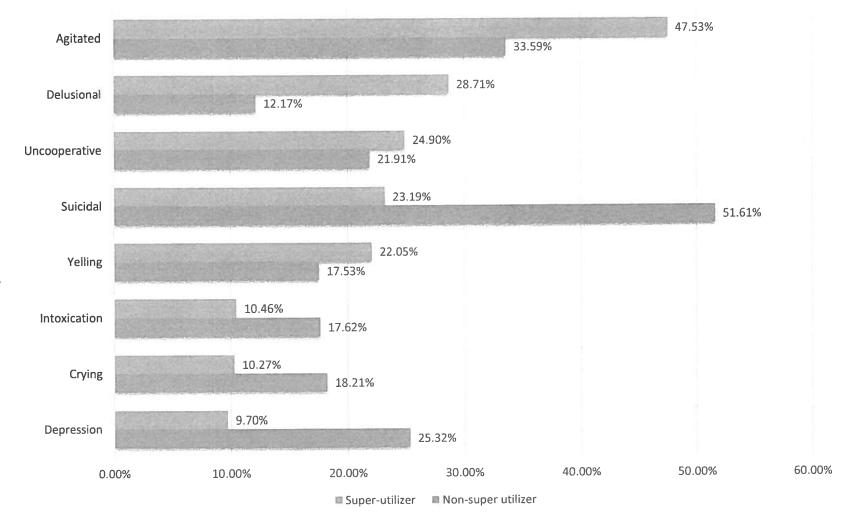

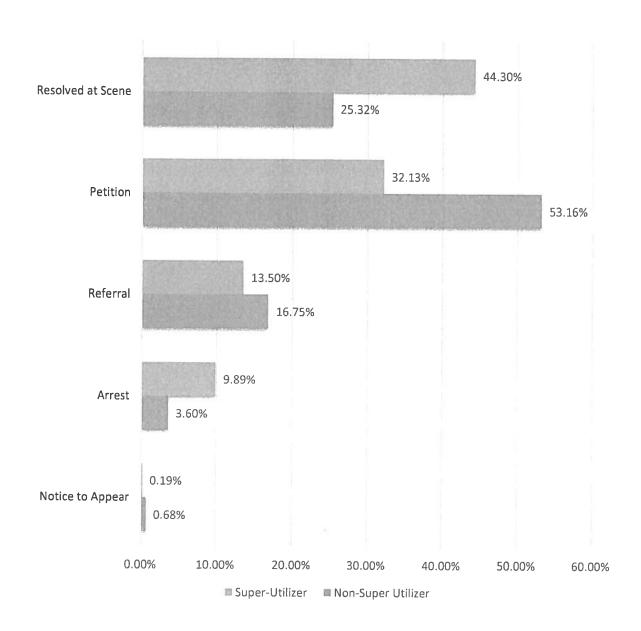

Figure 15. Comparison of Symptoms by Super-Utilizers, August 1, 2017 to July 31, 2018

Outcomes also vary across super-utilizer status, as shown in Figure 16. CIT contacts with super-utilizers are most likely to be resolved at the scene, while contacts with non-super utilizers most frequently result in a petition. Notably, super-utilizer contacts end in arrest in twice as frequently as symptomatic contacts with non-super utilizers.

Figure 16. Comparison of Outcomes by Super-Utilizers, August 1, 2017 to July 31, 2018

# 2016 County Report

**County Name: Champaign** 

Data collected Spring 2016

#### Introduction

Based on the administration of the Illinois Youth Survey (2016), this report provides county-level data on a variety of health and social indicators such as drug use, bullying, and school climate. The data has been organized into topical sections as noted in the table of contents following this introduction. In most cases, only a portion of schools in a county participate in the Illinois Youth Survey (IYS). There will be NO DATA presented in this report for any grade level with only one district reporting. This is to protect the confidentiality of district-level results.

The IYS is offered to both public and private schools. In order to have the best understanding of how well the results in this report reflect the experiences of the youth in this county, several factors should be considered including: Public School Building Participation, Public School Student Participation, and Private School Student Participation.

#### Public School Building Participation

In Table 1, the number of eligible public schools (i.e. contain at least 10 students at the 8th, 10th or 12th grade level) is compared with the actual number of IYS participating public schools in the county.

Middle S (8th gr		High Schools (10th and/or 12th grades)		
N Schools Participating	N Schools Eligible	N Schools Participating	N Schools Eligible	
2	13	2	10	

Table 1: Public School Building IYS Participation by School Level

#### **Public School Student Participation**

Table 2 provides a comparison between the actual number of students surveyed and the number of all students enrolled in public schools within the county. This percentage can be increased by surveying more schools and students within the county. Again, enrollment totals are based on student enrollment at public schools with at least 10 enrolled students at the 8th, 10th or 12th grade level. Table 2 is based solely on public school students due to the lack of available enrollment information for private schools.

	N Student Surveyed	N Enrolled Students in County	% Enrolled Students in County Report
8th	243	1780	14%
10th	358	1736	21%
12th	231	1567	15%
Total	832	5083	16%

Table 2: Public School Student IYS Participation by Grade

#### **Private School Student Participation**

Table 3 provides a count of the number of private school students surveyed in this county. Note that the data presented in this report includes both public and private schools that participated in this county.

Table 3: Number of Private School Students Surveyed by Grade

8th	10th	12th	Total
0	78	51	129

If schools that serve youth in specialized settings like charter schools, alternative schools, etc. participated in the IYS, these students are represented in the survey results but are not included in data summaries presented in Table 2 or Table 3 above.

#### Organization of the Report (Data Tables and Charts)

Tables can be helpful when you are looking for a summary of responses for particular survey questions, for example, the percentage of 8th grade youth who report using prescription pain killers to get high. Some tables may contain a mean score (an average of all the responses), a median score (the middle point of all responses given) or an "N" (number of students who responded to that question). Tables can also be useful when you need specific data to support a grant or report. If you see an "N/A" (Not Applicable) noted in a table, this indicates that the question was not asked at that grade level. If you see an "N/R" (Not Reported) noted in a table, this indicates that at least 90% of students skipped the question for no known reason, making the results too biased to report.

Summary charts can be helpful to view multiple questions in one place (e.g., use of different drugs to determine which is the most used) and to compare your results with the scientific sample of Illinois students who participated in the 2014 IYS. State level results from the 2016 IYS will not be available until late fall. IYS state level norms from 2014 are a good benchmark for immediate decision-making because state estimates stay relatively stable across two IYS administration years. To locate the starting page of the Summary Charts, refer to the Table of Contents on the next page.

Keep in mind that the IYS 6th and 8th grade forms do not include all questions asked on the IYS high school form. For that reason, responses to some questions do not appear in the tables and charts for some grade levels. If you would like to determine what section includes responses to a specific survey item or verify if a question was asked at a specific grade level, please refer to the Site Report Appendix on our website <a href="http://iys.cprd.illinois.edu/results">http://iys.cprd.illinois.edu/results</a>.

We are confident that you will find this report to be a valuable resource for planning, grant writing, program development and reporting. If you have any questions about this report, please call 888-333-5612 and ask for an IYS Coordinator or visit the IYS website at http://ivs.cprd.illinois.edu/.

## DRUG INITIATION AMONG THOSE WHO HAVE EVER USED EACH DRUG: Average (mean) age when first:

	12	th
	Avg	N
Had more than a sip or two of alcohol	14.7	169
Began drinking alcohol regularly (at least once or twice a month)	15.8	61
Smoked a cigarette, even just a puff	13.7	48
Used any other tobacco product (e.g., chewing tobacco or cigars)	15.3	29
Smoked marijuana	15.4	73

### When, If ever, did you FIRST:

		Never have	More than 12 months ago	During the past 12 months	Total
	Drink more than a sip or two of beer, wine, or hard liquor (e.g., vodka, whiskey, or gin)	74%	15%	11%	100%
8th	Smoke a cigarette, even just a puff	90%	7%	2%	100%
O.I.I	Use an electronic cigarette (e-cigarette)	89%	6%	4%	100%
	Smoke marijuana	88%	5%	7%	100%
	Drink more than a sip or two of beer, wine, or hard liquor (e.g., vodka, whiskey, or gin)	61%	16%	23%	100%
10th	Smoke a cigarette, even just a puff	87%	8%	5%	100%
10111	Use an electronic cigarette (e-cigarette)	84%	8%	8%	100%
	Smoke marijuana	79%	9%	12%	100%
	Drink more than a sip or two of beer, wine, or hard liquor (e.g., vodka, whiskey, or gin)	44%	29%	27%	100%
12th	Smoke a cigarette, even just a puff	83%	10%	6%	100%
12111	Use an electronic cigarette (e-cigarette)	82%	7%	10%	100%
	Smoke marijuana	74%	12%	14%	100%

### ALCOHOL: On how many occasions (if any) have you had alcohol:

		0 occasions	1-2 occasions	3-5 occasions	6-9 occasions	10-19 occasions	20 or more occasions	Total
041-	In the past 30 days	88%	8%	2%	2%	0%	0%	100%
8th	In the past year	79%	12%	6%	1%	0%	1%	100%
4.04%	In the past 30 days	82%	14%	3%	1%	1%	1%	100%
10th	In the past year	67%	18%	7%	3%	1%	3%	100%
404	In the past 30 days	66%	22%	8%	3%	1%	0%	100%
12th	In the past year	49%	20%	12%	5%	8%	7%	100%

## BINGE DRINKING: Think back over the last two weeks. How many times have you had five or more alcoholic drinks in a row:

Ten Rane Sal	8th	10th	12th
None	96%	92%	86%
Once	2%	3%	8%
Twice	1%	2%	2%
3-5 times	0%	2%	3%
6-9 times	0%	0%	1%
10 or more times	0%	1%	1%
Total	100%	100%	100%

## INHALANTS: On how many occasions (if any) have you sniffed glue, breathed the contents of an aerosol spray can, or inhaled other gases or sprays, in order to get high:

		0 occasions	1-2 occasions	3-5 occasions	6-9 occasions	10-19 occasions	20 or more occasions	Total
041-	In the past 30 days	95%	2%	2%	0%	0%	0%	100%
8th	In the past year	97%	2%	2%	0%	0%	0%	100%
4.011	In the past 30 days	99%	0%	0%	0%	0%	0%	100%
10th	In the past year	99%	1%	0%	0%	0%	0%	100%
400	In the past 30 days	98%	1%	1%	0%	0%	0%	100%
12th	In the past year	99%	0%	1%	0%	0%	0%	100%

#### MARIJUANA: On how many occasions (if any) have you used marijuana:

		0 occasions	1-2 occasions	3-5 occasions	6-9 occasions	10-19 occasions	20 or more occasions	Total
011	In the past 30 days	91%	3%	1%	2%	2%	1%	100%
8th	In the past year	89%	4%	1%	2%	2%	3%	100%
400	In the past 30 days	89%	3%	3%	0%	1%	3%	100%
10th	In the past year	83%	6%	3%	1%	2%	4%	100%
4011	In the past 30 days	85%	4%	4%	3%	1%	2%	100%
12th	In the past year	79%	6%	4%	1%	3%	7%	100%

ILLICIT DRUGS: During the past 12 months, how often have you used:

### (3) Drug Use Contributing Factors

### PERSONAL DISAPPROVAL: How wrong do you think it is for someone your age to:

		Very wrong	Wrong	A little bit wrong	Not wrong at all	Total
	Drink beer, wine or hard liquor (e.g., vodka, whiskey or gin) regularly	66%	23%	9%	2%	100%
8th	Smoke cigarettes	81%	15%	3%	0%	100%
	Smoke marijuana	65%	18%	9%	8%	100%
	Use prescription drugs not prescribed to them	79%	17%	4%	1%	100%
	Drink beer, wine or hard liquor (e.g., vodka, whiskey or gin) regularly	47%	31%	17%	5%	100%
10th	Smoke cigarettes	68%	24%	5%	3%	100%
,	Smoke marijuana	54%	20%	15%	11%	100%
	Use prescription drugs not prescribed to them	73%	19%	6%	3%	100%
	Drink beer, wine or hard liquor (e.g., vodka, whiskey or gin) regularly	27%	31%	31%	11%	100%
12th	Smoke cigarettes	54%	26%	12%	8%	100%
(, )	Smoke marijuana	31%	25%	27%	16%	100%
	Use prescription drugs not prescribed to them	68%	22%	7%	2%	100%

## PERCEPTIONS OF PEER ALCOHOL USE: In the past 30 days, what percent of students at your school do you think have had beer, wine, or hard liquor:

	10th	12th
0% of students	4%	1%
1-10% of students	10%	5%
11-20% of students	13%	12%
21-30% of students	17%	15%
31-40% of students	15%	12%
41-50% of students	14%	14%
51-60% of students	9%	14%
61-70% of students	7%	8%
71-80% of students	6%	14%
81-90% of students	4%	5%
91-100% of students	2%	1%
Total	100%	100%

### Compared to:

	10th	12th
Actual past 30 day alcohol use reported	16%	34%

### PERCEPTIONS OF PEER MARIJUANA USE: In the past 30 days, what percent of students at your school do you think have used marijuana:

	10th	12th
0% of students	5%	2%
1-10% of students	12%	14%
11-20% of students	14%	14%
21-30% of students	15%	11%
31-40% of students	11%	10%
41-50% of students	9%	10%
51-60% of students	8%	9%
61-70% of students	5%	7%
71-80% of students	9%	9%
81-90% of students	7%	12%
91-100% of students	4%	3%
Total	100%	100%

### Compared to:

	10th	12th
Actual past 30 day marijuana use reported	10%	14%

## PERCEIVED RISK ASSOCIATED WITH USE: How much do you think people risk harming themselves (physically or in other ways) if they:

		No risk	Slight risk	Moderate risk	Great risk	Total
	Take one or two drinks of an alcoholic beverage (beer, wine, liquor) nearly every day	5%	16%	34%	45%	100%
	Have five or more drinks of an alcoholic beverage once or twice a week	5%	9%	27%	60%	100%
8th	Smoke one or more packs of cigarettes per day	6%	5%	15%	74%	100%
	Smoke marijuana once or twice a week	13%	21%	23%	44%	100%
	Use prescription drugs not prescribed to them	4%	7%	14%	75%	100%
	Take one or two drinks of an alcoholic beverage (beer, wine, liquor) nearly every day	4%	14%	41%	40%	100%
	Have five or more drinks of an alcoholic beverage once or twice a week	2%	15%	33%	50%	100%
10th	Smoke one or more packs of cigarettes per day	2%	8%	20%	71%	100%
	Smoke marijuana once or twice a week	13%	25%	30%	32%	100%
	Use prescription drugs not prescribed to them	3%	10%	22%	65%	100%
	Take one or two drinks of an alcoholic beverage (beer, wine, liquor) nearly every day	4%	15%	38%	42%	100%
400	Have five or more drinks of an alcoholic beverage once or twice a week	4%	14%	32%	51%	100%
12th	Smoke one or more packs of cigarettes per day	3%	7%	15%	75%	100%
	Smoke marijuana once or twice a week	21%	30%	26%	23%	100%
	Use prescription drugs not prescribed to them	1%	10%	23%	66%	100%

### (4) Interpersonal Conflict, Violence and Delinquency

### DELINQUENCY: How many times in the past year (12 months) have you:

		Never	1-2 times	3-5 times	6 or more times	Total
184	Been in a physical fight	70%	26%	1%	3%	100%
	Carried a weapon such as a handgun, knife or club	86%	5%	3%	6%	100%
8th	Sold illegal drugs	97%	1%	1%	1%	100%
	Been drunk or high at school	94%	2%	2%	2%	100%
	Been in a physical fight	82%	13%	4%	1%	100%
	Carried a weapon such as a handgun, knife or club	90%	3%	3%	4%	100%
10th	Sold illegal drugs	97%	2%	0%	1%	100%
9.1	Been drunk or high at school	95%	2%	1%	2%	100%
	Been in a physical fight	89%	7%	3%	1%	100%
	Carried a weapon such as a handgun, knife or club	92%	1%	1%	6%	100%
12th	Sold illegal drugs	97%	2%	1%	0%	100%
	Been drunk or high at school	93%	5%	1%	1%	100%

### BULLYING EXPERIENCES: During the past 12 months, has another student at school:

	8th	10th	12th
Bullied you by calling you names	37%	24%	17%
Threatened to hurt you	19%	15%	9%
Bullied you by hitting, punching, kicking, or pushing you	13%	8%	3%
Bullied, harassed or spread rumors about you on the Internet or through text messages	20%	19%	11%
Ever bullied (reported at least 1 type of bullying)	45%	33%	24%
Intensely bullied (reported all types of bullying)	6%	3%	1%

## BIAS-BASED BULLYING: In the past 12 months at school, how often have you been builled, harassed, or made fun of because of:

		Never	1-2 times	3-5 times	6 or more times	Total
8th	Your appearance or a disability	60%	16%	7%	18%	100%
10th	What someone assumed about your religion, sexual orientation, or race/ethnicity	83%	10%	4%	3%	100%
	Your appearance or a disability	76%	14%	5%	5%	100%
12th	What someone assumed about your religion, sexual orientation, or race/ethnicity	85%	9%	2%	4%	100%
	Your appearance or a disability	84%	8%	4%	4%	100%

# DATING VIOLENCE: During the past 12 months, have any of the following been done by someone in a dating relationship with you:

		I have not begun to date	Yes	No	Not sure	Total
8th	Slapped, kicked, punched, hit, or threatened you	29%	6%	61%	4%	100%
4.1	Slapped, kicked, punched, hit, or threatened you	23%	5%	69%	3%	100%
10th	Put you down or tried to control you	23%	14%	60%	4%	100%
i i i	Slapped, kicked, punched, hit, or threatened you	18%	4%	75%	3%	100%
12th	Put you down or tried to control you	18%	10%	68%	4%	100%

### **Health Disparities**

SAMHSA works to reduce behavioral health disparities among different population groups through programs, technical assistance, and workforce development.

#### Overview

Healthy People 2020 <u>defines a health disparity</u> as a "particular type of health difference that is closely linked with social, economic, and/or environmental disadvantage. Health disparities adversely affect groups of people who have systematically experienced greater obstacles to health based on their racial or ethnic group; religion; socioeconomic status; gender; age; mental health; cognitive, sensory, or physical disability; sexual orientation or gender identity; geographic location; or other characteristics historically linked to discrimination or exclusion."

Significant behavioral health disparities persist in diverse communities across the United States, including:

- · Racial and ethnic groups
- Lesbian, gay, bisexual, transgender, and questioning (LGBTQ) populations
- People with disabilities
- Transition-age youth
- Young adults

Various subpopulations face elevated levels of mental and substance use disorders, and experience higher rates of suicide, poverty, domestic violence, childhood and historical trauma, as well as involvement in the foster care and criminal justice systems. Historically, these diverse populations tend to have less access to care, lower or disrupted service use, and poorer behavioral health outcomes. These disparities may be related to factors such as a lack of access to health care, the need for a diverse health care workforce, a lack of information, and the need for culturally and linguistically competent care and programs.

The Department of Health and Human Services' (HHS) <u>HHS Action Plan to Reduce Racial and Ethnic Disparities</u> states, "the societal burden of health and health care disparities in America manifests itself in multiple and major ways. In one stark example, Murray et al. show a difference of 33 years between the longest living and shortest living groups in the U.S." Another study, <u>The Economic Burden of Health Inequalities in the United States</u> by the Joint Center for Political and Economic Studies, concludes that "the combined costs of health inequalities and premature death in the United States were \$1.24 trillion between 2003 and 2006."

Behavioral health disparities and their impact point to the need for an increased focus on effective prevention, treatment, and services for diverse populations.

There are a number of different data sources available for poverty estimates. The timellest source available for estimates for all illinois counties is the Small Area Income and Poverty Estimates Program, which is used here. For more information on the various sources of poverty estimates used for this project and how they differ, see the FAQs page.

At the time of release, all data were the most timely and accurate available.

#### **Data Sources**

- 1 Social IMPACT Research Center's analysis of Illinois State Board of Education's School Report Card Data, Available at https://www.isbe.net/Pages/Illinois-State-Report-Card-Data.aspx
- 2 Social IMPACT Research Center's analysis of the U.S. Census Bureau's Population Estimates and Illinois Department of Public Health, Illinois Teen Births by County. Available at http://www.dph.illinois.gov/data-statistics/vital-statistics/birth-statistics.

- (1) Census Data Sources(s): 2011-2015 American Community Survey 5-Year Estimates
- (2) Population for whom poverty status is determined is based on a total population estimate of 189,737, i.e. Assessed Population. Assessed population data excludes those residing in institutional settings: dormitories, institutions, group homes, jails, and nursing homes.
- (3) Rate and number of rural residents in poverty derived by calculating number of Champaign, Urbana and Rantoul residents and subtracting from countywide total with difference being those residing in balance of county. Poverty rates within rural communities can vary siginficantly.

  Highest poverty rates, descending order: Ludlow, Urbana, Champaign, Rantoul, Bondville, Savoy.

  Lowest poverty rates, ascending order: Foosland, Philo, Pesotum, Allerton, Ogden, St. Joseph.

### **Mental Illness**

Mental illnesses are common in the United States. Nearly one in five U.S. adults lives with a mental illness (44.7 million in 2016). Mental illnesses include many different conditions that vary in degree of severity, ranging from mild to moderate to severe. Two broad categories can be used to describe these conditions: Any Mental Illness (AMI) and Serious Mental Illness (SMI). AMI encompasses all recognized mental illnesses. SMI is a smaller and more severe subset of AMI. Additional information on mental illnesses can be found on the <a href="https://www.nimh.nih.gov//health/topics/index.shtml">NIMH Health Topics Pages</a> (<a href="https://www.nimh.nih.gov//health/topics/index.shtml">www.nimh.nih.gov//health/topics/index.shtml</a>).

### **Definitions**

The data presented here are from the 2016 National Survey on Drug Use and Health (NSDUH) by the Substance Abuse and Mental Health Services Administration (SAMHSA). For inclusion in NSDUH prevalence estimates, mental illnesses include those that are diagnosable currently or within the past year; of sufficient duration to meet diagnostic criteria specified within the 4th edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM-IV); and, exclude developmental and substance use disorders.

### **Any Mental Illness**

Any mental illness (AMI) is defined as a mental, behavioral, or emotional disorder. AMI can vary in impact, ranging from no impairment to mild, moderate, and even severe impairment (e.g., individuals with serious mental illness as defined below).

### **Serious Mental Illness**

Serious mental illness (SMI) is defined as a mental, behavioral, or emotional disorder resulting in serious functional impairment, which substantially interferes with or limits one or more major life activities. The burden of mental illnesses is particularly concentrated among those who experience disability due to SMI.

### Prevalence of Any Mental Illness (AMI)

Figure 1 shows the past year prevalence of AMI among U.S. adults.

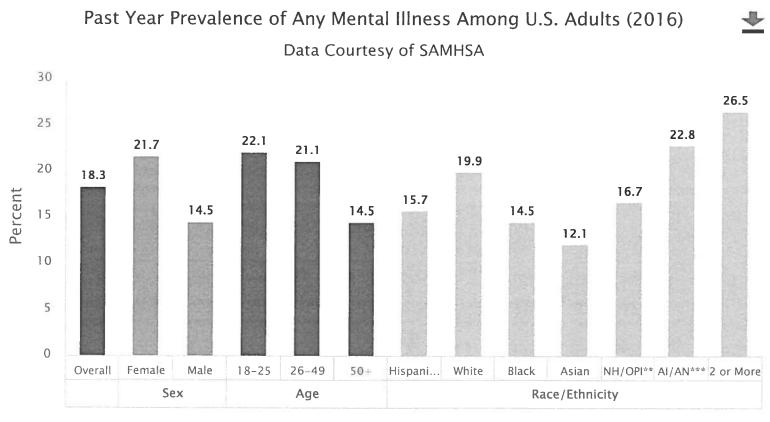

In 2016, there were an estimated 44.7 million adults aged 18 or older in the United States with AMI. This number represented 18.3% of all U.S. adults.

The prevalence of AMI was higher among women (21.7%) than men (14.5%).

Young adults aged 18-25 years had the highest prevalence of AMI (22.1%) compared to adults aged 26-49 years (21.1%) and aged 50 and older (14.5%).

The prevalence of AMI was highest among the adults reporting two or more races (26.5%), followed by the American Indian/Alaska Native group (22.8%). The prevalence of AMI was lowest among the Asian group (12.1%).

Figure 1

<sup>\*</sup>All other groups are non-Hispanic or Latino | \*\*NH/OPI = Native Hawaiian / Other Pacific Islander \*\*\*Al/AN = American Indian / Alaskan Native

### Mental Health Treatment — AMI

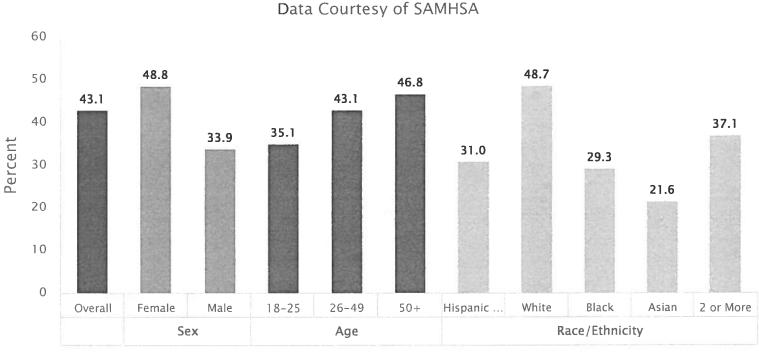

Figure 2 presents data on mental health treatment received within the past year by U.S. adults aged 18 or older with any mental illness (AMI). NSDUH defines mental health treatment as having received inpatient treatment/counseling or outpatient treatment/counseling, or having used prescription medication for problems with emotions, nerves, or mental health.

In 2016, among the 44.7 million adults with AMI, 19.2 million (43.1%) received mental health treatment in the past year. More women with AMI (48.8%) received mental health treatment than men with AMI (33.9%).

Figure 2

<sup>\*</sup>All other groups are non-Hispanic or Latino

### Prevalence of Serious Mental Illness (SMI)

Figure 3 shows the past year prevalence of SMI among U.S. adults.

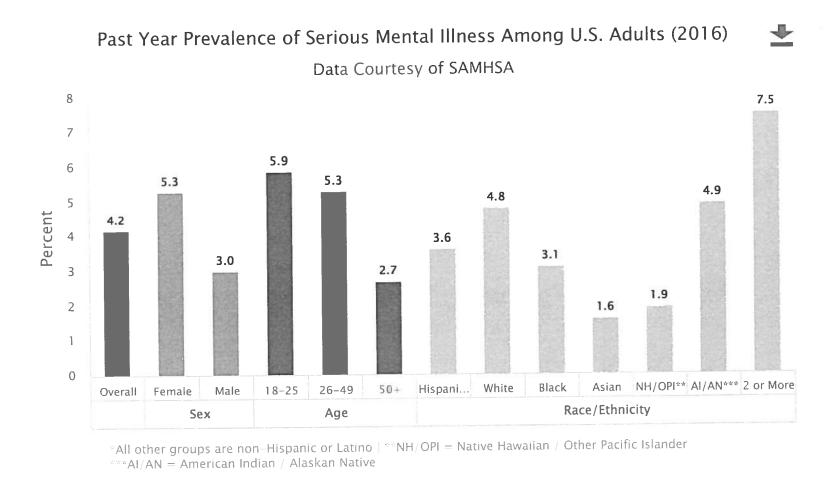

In 2016, there were an estimated 10.4 million adults aged 18 or older in the United States with SMI. This number represented 4.2% of all U.S. adults.

The prevalence of SMI was higher among women (5.3%) than men (3.0%).

Young adults aged 18-25 years had the highest prevalence of SMI (5.9%) compared to adults aged 26-49 years (5.3%) and aged 50 and older (2.7%).

Figure 3

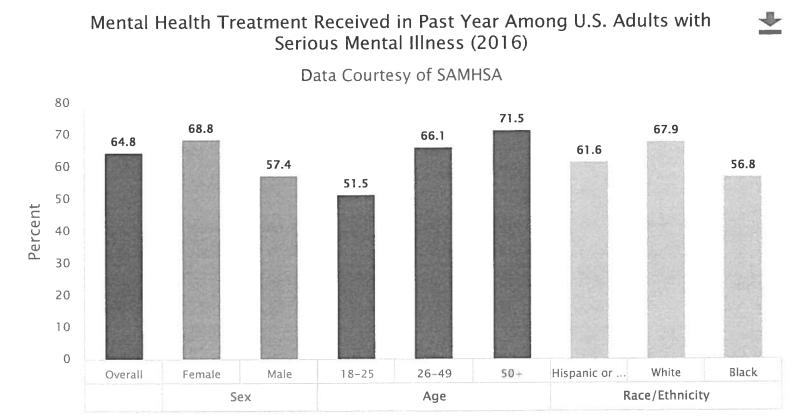

### Mental Health Treatment — SMI

Figure 4 presents data on mental health treatment received within the past year by U.S. adults 18 or older with serious mental illness (SMI). The NSDUH defines mental health treatment as having received inpatient treatment/counseling or outpatient treatment/counseling or having used prescription medication for problems with emotions, nerves, or mental health.

In 2016, among the 10.4 million adults with SMI, 6.7 million (64.8%) received mental health treatment in the past year. More women with SMI (68.8%) received mental health treatment than men with AMI (57.4%).

Figure 4

<sup>\*</sup>All other groups are non-Hispanic or Latino

### **Prevalence of Any Mental Disorder Among Adolescents**

Based on diagnostic interview data from National Comorbidity Survey Adolescent Supplement (NCS-A), Figure 5 shows lifetime prevalence of any mental disorder among U.S. adolescents aged 13-18.<sup>1</sup>

An estimated 49.5% of adolescents had any mental disorder.

Of adolescents with any mental disorder, an estimated 22.2% had severe impairment. DSM-IV criteria were used to determine impairment.

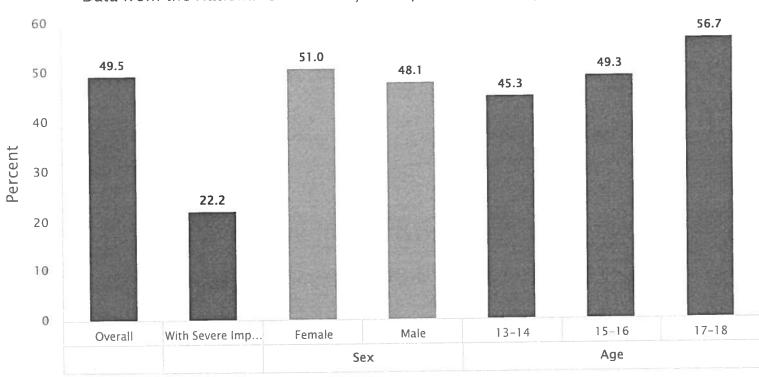

Figure 5

Lifetime Prevalence of Any Mental Disorder Among Adolescents (2001-2004)

Data from the National Comorbidity Survey Adolescent Supplement (NCS-A)

### **Data Sources**

Merikangas KR, He JP, Burstein M, Swanson SA, Avenevoli S, Cui L, Benjet C, Georgiades K, Swendsen J. Lifetime prevalence of mental disorders in U.S. adolescents: results from the National Comorbidity Survey Replication--Adolescent Supplement (NCS-A). *J Am Acad Child Adolesc Psychiatry*. 2010 Oct;49(10):980-9. PMID: 20855043

### Statistical Methods and Measurement Caveats

National Survey on Drug Use and Health (NSDUH)

Diagnostic Assessment:

The NSDUH AMI and SMI estimates were generated from a prediction model created from clinical interview data collected on a subset of adult NSDUH respondents who completed a past 12-month version of the Structured Clinical Interview for DSM-IV-TR Axis I Disorders (Research Version, Non-patient Edition (SCID-I/NP)).

The assessment included diagnostic modules assessing: mood, anxiety, eating, impulse control, substance use, adjustment disorders, and a psychotic symptoms screen.

The assessment did not contain diagnostic modules assessing: adult attention deficit hyperactivity disorder (ADHD), autism spectrum disorders, schizophrenia or other psychotic disorders (although the assessment included a psychotic symptom screen).

People who only have disorders that are not included in these diagnostic modules may not be adequately detected. However, there are known patterns of high comorbidities among mental disorders; these patterns increase the likelihood that people who meet AMI and/or SMI criteria were detected by the study, as they may also have one or more of the disorders assessed in the SCID-I/NP.

### Population:

The entirety of NSDUH respondents for the AMI and SMI estimates were the civilian, non-institutionalized population aged 18 years old or older residing within the United States.

The survey covered residents of households (persons living in houses/townhouses, apartments, condominiums; civilians living in housing on military bases, etc.) and persons in non-institutional group quarters (e.g., shelters, rooming/boarding houses, college dormitories, migratory workers' camps, and halfway houses).

The survey did not cover persons who, for the entire year, had no fixed address (e.g., homeless and/or transient persons not in shelters); were on active military duty; or who resided in institutional group quarters (e.g., correctional facilities, nursing homes, mental institutions, long-term hospitals).

Some people in these excluded categories had AMI and/or SMI, but were not accounted for in the NSDUH AMI and/or SMI estimates.

### Survey Non-response:

In 2016, 31.6% of the selected NSDUH sample did not complete the interview.

Reasons for non-response to interviewing include: refusal to participate (22.2%); respondent unavailable or never at home (4.5%); and other reasons such as physical/mental incompetence or language barriers (4.6%).

People with mental illness may disproportionately fall into these non-response categories. While NSDUH weighting includes non-response adjustments to reduce bias, these adjustments may not fully account for differential non-response by mental illness status.

Please see the 2016 National Survey on Drug Use and Health Methodological Summary and Definitions report for further information on how these data were collected and calculated.

### National Comorbidity Survey Adolescent Supplement (NCS-A)

### Diagnostic Assessment and Population:

The NCS-A was carried out under a cooperative agreement sponsored by NIMH to meet a request from Congress to provide national data on the prevalence and correlates of mental disorders among U.S. youth. The NCS-A was a nationally representative, face-to-face survey of 10,123

adolescents aged 13 to 18 years in the continental United States. The survey was based on a dual-frame design that included 904 adolescent residents of the households that participated in the adult U.S. National Comorbidity Survey Replication and 9,244 adolescent students selected from a nationally representative sample of 320 schools. The survey was fielded between February 2001 and January 2004. DSM-IV mental disorders were assessed using a modified version of the fully structured World Health Organization Composite International Diagnostic Interview.

### Survey Non-response:

The overall adolescent non-response rate was 24.4%. This is made up of non-response rates of 14.1% in the household sample, 18.2% in the unblinded school sample, and 77.7% in the blinded school sample. Non-response was largely due to refusal (21.3%), which in the household and unblinded school samples came largely from parents rather than adolescents (72.3% and 81.0%, respectively). The refusals in the blinded school sample, in comparison, came almost entirely (98.1%) from parents failing to return the signed consent postcard.

# Prevalence of Depression Among Adults Aged 20 and Over: United States, 2013–2016

Debra J. Brody, M.P.H., Laura A. Pratt, Ph.D., and Jeffery P. Hughes, M.P.H.

### Key findings

## Data from the National Health and Nutrition Examination Survey

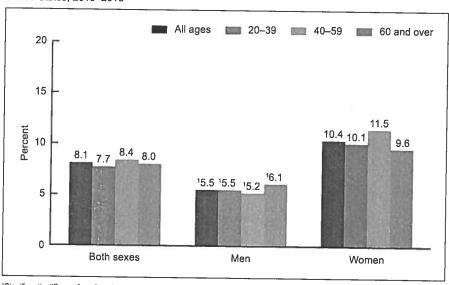

- During 2013–2016, 8.1% of American adults aged 20 and over had depression in a given 2-week period.
- Women (10.4%) were almost twice as likely as were men (5.5%) to have had depression.
- Depression was lower among non-Hispanic Asian adults, compared with Hispanic, non-Hispanic black, or non-Hispanic white adults.
- The prevalence of depression decreased as family income levels increased
- About 80% of adults with depression reported at least some difficulty with work, home, and social activities because of their depression.
- From 2007–2008 to 2015–2016, the percentage of American adults with depression did not change significantly over time.

Major depression is a common and treatable mental disorder characterized by changes in mood, and cognitive and physical symptoms over a 2-week period (1). It is associated with high societal costs (2) and greater functional impairment than many other chronic diseases, including diabetes and arthritis (3). Depression rates differ by age, sex, income, and health behaviors (4). This report provides the most recent national estimates of depression among adults. Prevalence of depression is based on scores from the Patient Health Questionnaire (PHQ-9), a symptom-screening questionnaire that allows for criteria-based diagnoses of depressive disorders (5). Estimates for non-Hispanic Asian persons are presented for the first time.

Centers for Disease Control and Prevention National Center for Health Statistics

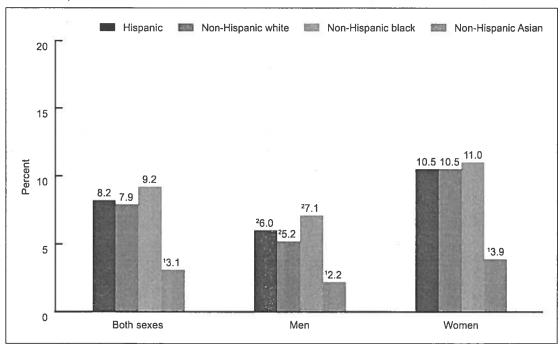

- Overall, women (10.4%) were almost twice as likely to have depression as men (5.5%). This pattern also was observed among each age group (Figure 1).
- Among both men and women, the percentage with depression did not differ statistically across age groups.

### The prevalence of depression was lower among non-Hispanic Asian adults than among any other race and Hispanic-origin group.

- Overall, non-Hispanic Asian adults had the lowest prevalence of depression (3.1%) compared with Hispanic (8.2%), non-Hispanic white (7.9%), and non-Hispanic black (9.2%) adults. This pattern was observed among both men and women (Figure 2).
- The prevalence of depression was not statistically different for Hispanic, non-Hispanic white, and non-Hispanic black adults, overall and among both men and women.
- Among all race and Hispanic-origin groups, except non-Hispanic Asian, men had a significantly lower prevalence of depression compared with women.

Figure 2. Percentage of persons aged 20 and over with depression, by race and Hispanic origin and sex: United States, 2013-2016

<sup>&#</sup>x27;Significantly lower than Hispanic, non-Hispanic white, and non-Hispanic black,

### The prevalence of depression among adults decreased as family income levels increased.

- Overall, 15.8% of adults from families living below the federal poverty level (FPL) had depression. The prevalence of depression decreased to 3.5% among adults at or above 400% of the FPL (Figure 3).
- Among both men and women, the prevalence of depression decreased with increasing levels of family income.
- Men with family incomes at or above 400% of the FPL had the lowest prevalence of depression (2.3%), while women with family incomes below the FPL had the highest prevalence (19.8%).

Figure 3. Percentage of persons aged 20 and over with depression, by family income level: United States, 2013–2016

<sup>&#</sup>x27;Significant decreasing linear trend.

<sup>2</sup>Significantly lower than women in same family income level.

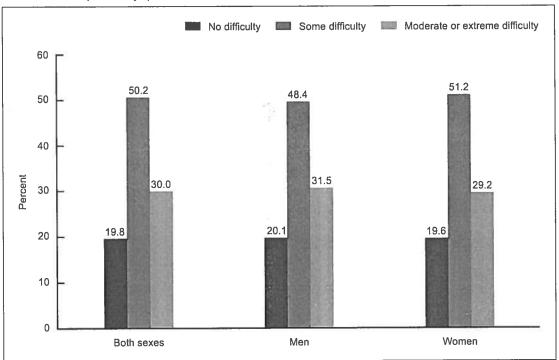

NOTES: Family income levels are defined by the federal poverty level (FPL). Depression was defined as a score greater than or equal to 10 on the Patient Health Questionnaire. Access data table for Figure 3 at: https://www.cdc.gov/nchs/data/detabriefs/db303\_table.pdf#3.

SOURCE: NCHS, National Health and Nutrition Examination Survey, 2013–2016.

About 80% of adults with depression reported at least some difficulty with work, home, or social activities because of their depression symptoms.

- 50.2% of adults with depression reported some difficulty with work, home, or social activities because of their depression symptoms (Figure 4).
- 30.0% of adults with depression reported moderate or extreme difficulty with work, home, or social activities because of their depression symptoms.
- The percentage of adults with depression reporting difficulty with work, home, or social activities due to depression symptoms was similar in men and women.

Figure 4. Percentage of persons aged 20 and over with depression who reported difficulty with work, home, or social activities due to depression symptoms: United States, 2013–2016

SOURCE: NCHS, National Health and Nutrition Examination Survey, 2007–2016.

#### Summary

During 2013–2016, 8.1% of American adults had depression in a given 2-week period. As observed in other studies (4,6), depression was almost twice as common among women as among men. Depression prevalence did not differ by age. Non-Hispanic Asian adults had the lowest prevalence of depression, a finding noted in other studies (7). Depression prevalence did not vary significantly among the other race and Hispanic-origin groups studied. The proportion of adults with depression increased with decreasing family income level. About 80% of adults with depression reported at least some difficulty with work, home, or social activities due to their depression symptoms. From 2007–2008 to 2015–2016, the prevalence of depression among both men and women showed no significant changes, similar to the results of another major federal survey that tracks depression estimates in the United States (8).

Prevalence estimates reported here do not include populations considered at higher risk for depression (i.e., those in nursing homes or other institutions). Persons currently treated for depression (i.e., medication or therapy) may not have screened positively for depression using the PHQ-9. Finally, some persons with depression may not have been able or willing to participate in the National Health and Nutrition Examination Survey (NHANES). Therefore, these findings may represent conservative estimates of depression among adults in the United States.

#### **Definitions**

<u>Depression</u>: Measured using the score from the Patient Health Questionnaire (PHQ-9), a nineitem depression-screening instrument that asks about the frequency of symptoms of depression in the past 2 weeks (5). Response categories of "not at all," "several days," "more than half the days," and "nearly every day" are given a score of 0 to 3. Summary scores ranged from 0 to 27. Depression was defined using a score of 10 or higher, a well-validated cut point used in primary care settings (5).

<u>Difficulties related to depression</u>: Persons with a score of 1 or more on the PHQ-9 symptoms are asked: "How difficult have these problems made it for you to do your work, take care of things at home, or get along with other people?" Responses are 0 (not at all difficult), 1 (somewhat difficult), 2 (moderately difficult), or 3 (extremely difficult). In Figure 4, 1 was defined as "some difficulty," 2 and 3 were defined as "moderate or extreme difficulty."

<u>Percent of federal poverty level</u>: Based on the income-to-poverty ratio, a measure of the annual total family income divided by the poverty guidelines, adjusted for family size.

#### Data sources and methods

Data from the NHANES 2007–2016 were used for these analyses. Data from two combined cycles (2013–2016) were used to test differences between subgroups. Trends in depression prevalence reflect a 10-year period of five 2-year NHANES survey cycles, 2007–2016.

NHANES is a cross-sectional survey designed to monitor the health and nutritional status of the noninstitutionalized civilian U.S. population (9). The survey consists of home interviews and standardized physical examinations in mobile examination centers (MEC). The PHQ-9 was administered by trained interviewers during a private interview in the MEC. Approximately 89% of MEC-examined adults completed the PHQ-9.

The NHANES sample is selected through a complex, multistage probability design. During 2007–2016, non-Hispanic black, non-Hispanic Asian, and Hispanic persons, among other groups, were oversampled to obtain reliable estimates for these population subgroups. Race and Hispanic origin-specific estimates reflect individuals reporting only one race. Persons reporting another race or multiple races are included in the total but are not reported separately.

Examination sample weights, which account for the differential probabilities of selection, nonresponse, and noncoverage, were incorporated into the estimation process. The standard errors of the percentages were estimated using Taylor series linearization (10), a method that incorporates the sample weights and sample design.

A t statistic was used to test for difference between groups. Tests for trends by family income and survey cycle were evaluated using orthogonal polynomials to determine linear or quadratic trends. The significance level for statistical testing was set at p < 0.05. All differences reported are statistically significant unless otherwise indicated. All estimates presented are statistically reliable based on a relative standard error of the estimate being at or below 30%. Statistical analyses were conducted using SAS System for Windows (release 9.4; SAS Institute Inc., Cary, N.C.) and SUDAAN (release 11.1; RTI International, Research Triangle Park, N.C.).

# Estimated Prevalence of Children With Diagnosed Developmental Disabilities in the United States, 2014–2016

Benjamin Zablotsky, Ph.D., Lindsey I. Black, M.P.H., and Stephen J. Blumberg, Ph.D.

### **Key findings**

### Data from the National Health Interview Survey

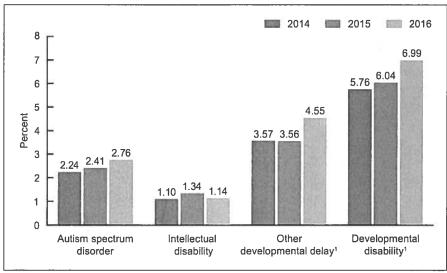

- During 2014–2016, the prevalence of children aged 3–17 years who had ever been diagnosed with a developmental disability increased from 5.76% to 6.99%.
- During this same time, the prevalence of diagnosed autism spectrum disorder and intellectual disability did not change significantly.
- The prevalence of autism spectrum disorder, intellectual disability, other developmental delay, and any developmental disability was higher among boys compared with girls.
- The prevalence of any developmental disability was lower among Hispanic children compared with children in all other race and ethnicity groups.

Developmental disabilities are a set of heterogeneous disorders characterized by difficulties in one or more domains, including but not limited to, learning, behavior, and self-care. This report provides the latest prevalence estimates for diagnosed autism spectrum disorder, intellectual disability, and other developmental delay among children aged 3–17 years from the 2014–2016 National Health Interview Survey (NHIS). Estimates are also presented for any developmental disability, defined as having had one or more of these three diagnoses. Prevalence estimates are based on parent or guardian report of ever receiving a diagnosis of each developmental disability from a doctor or other health care professional.

Keywords: autism spectrum disorder • National Health Interview Survey

### The prevalence of children diagnosed with any developmental disability increased from 2014 to 2016.

Figure 1. Prevalence of children aged 3–17 years ever diagnosed with selected developmental disabilites, by year: United States, 2014–2016

SOURCE: NCHS, National Health Interview Survey, 2014–2016.

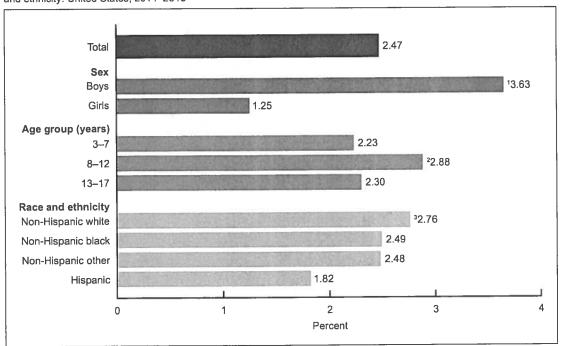

- During 2014-2016, the prevalence of children ever diagnosed with any developmental disability significantly increased, from 5.76% in 2014 to 6.99% in 2016 (Figure 1).
- The prevalence of children ever diagnosed with a developmental delay other than autism spectrum disorder or intellectual disability increased, from 3.57% in 2014 to 4.55% in 2016.
- There was not a statistically significant change in the prevalence of children ever diagnosed with autism spectrum disorder from 2014 to 2016.
- The prevalence of children ever diagnosed with intellectual disability did not significantly change from 2014 to 2016.

### A higher percentage of boys have been diagnosed with autism spectrum disorder compared with girls.

- During 2014–2016, the prevalence of children diagnosed with autism spectrum disorder was higher among boys (3.63%) than girls (1.25%) (Figure 2).
- Non-Hispanic white children (2.76%) were more likely to have been diagnosed with autism spectrum disorder than Hispanic children (1.82%).
- Children aged 8-12 years (2.88%) were more likely to have been diagnosed with autism spectrum disorder than children aged 3-7 years (2.23%).

### NCHS Data Brief <u>■ No. 291 ■ November 2017</u>

• The difference in the prevalence of children diagnosed with autism spectrum disorder between the ages of 8–12 (2.88%) and 13–17 (2.30%) years was not statistically significant (p = 0.06).

### The prevalence of diagnosed intellectual disability was higher among boys than girls.

- During 2014–2016, the prevalence of children ever diagnosed with intellectual disability was 1.48% among boys and 0.90% among girls (Figure 3).
- The prevalence of intellectual disability was lower among younger children than older children: 0.73% among children aged 3–7 years, 1.45% among children aged 8–12 years, and 1.40% among children aged 13–17 years.
- The prevalence of children diagnosed with intellectual disability did not differ significantly by race and Hispanic ethnicity.
- The difference in the prevalence of intellectual disability between non-Hispanic black children (1.53%) and non-Hispanic other children (0.86%) was not statistically significant (p = 0.21).

The prevalence of children ever diagnosed with developmental delay other than autism spectrum disorder or intellectual disability was lowest among older children.

- The prevalence of other developmental delay was higher among boys (4.77%) than girls (2.98%) (Figure 4).
- During 2014–2016, children aged 3–7 (4.37%) and 8–12 (4.24%) years had a higher prevalence of other developmental delay compared with children aged 13-17 years (3.08%).
- Non-Hispanic white children (4.43%) had a higher prevalence of other developmental delay compared with Hispanic children (2.98%).

### The prevalence of developmental disabilities was lowest among Hispanic children.

- The prevalence of developmental disabilities was higher among boys (8.15%) than girls (4.29%) (Figure 5).
- Children aged 13-17 years (5.76%) were less likely to have been diagnosed with any developmental disability than children aged 8-12 years (6.87%).
- During 2014-2016, Hispanic children (4.69%) were less likely to have been diagnosed with any developmental disability compared with non-Hispanic white children (7.04%), non-Hispanic black children (6.20%), and non-Hispanic other children (6.16%).

### **Summary**

During 2014–2016, there was a significant increase in the prevalence of children who had ever been diagnosed with any developmental disability. This increase was largely the result of an increase in the prevalence of children diagnosed with a developmental delay other than autism spectrum disorder or intellectual disability. There was not a significant change in the prevalence of diagnosed autism spectrum disorder or intellectual disability over the same time period.

The prevalence of developmental disabilities described in this report is lower than findings described in previous reports using NHIS data (1). This report uses a more restrictive definition for a developmental disability that does not include conditions such as attention-deficit/ hyperactivity disorder or learning disabilities, which may account for differences in estimates. A similar definition was used in a 2015 National Health Statistics Report (2).

For each condition examined, the prevalence was significantly higher among boys than girls, a finding common among children diagnosed with a developmental disability (1,3). The prevalence of any developmental disability diagnosis was lowest among Hispanic children compared with all other race and ethnicity groups; racial and ethnic disparities in the prevalence of developmental disabilities are findings commonly reported in the scientific literature (1,4). Prevalence among age groups varied by condition, which may reflect recent improvements in awareness and screening for developmental delay, resulting in younger cohorts having a higher diagnosed prevalence (4). However, for some children with less severe impairment, developmental disabilities, such as autism spectrum disorder and intellectual disability, may not be diagnosed until the child enters school and is observed by trained teachers (5).

#### **Definitions**

<u>Diagnosed intellectual disability</u>: Based on a positive response to the survey question, "Has a doctor or health professional ever told you that [sample child] had an intellectual disability, also known as mental retardation?"

<u>Diagnosed autism spectrum disorder</u>: Based on a positive response to the survey question, "Has a doctor or health professional ever told you that [sample child] had Autism, Asperger's disorder, pervasive developmental disorder, or autism spectrum disorder?"

<u>Diagnosed other developmental delay</u>: Based on a positive response to the survey question, "Has a doctor or health professional ever told you that [sample child] had any other developmental delay?"

<u>Diagnosed developmental disability</u>: A composite measure of children with a diagnosis of autism spectrum disorder, intellectual disability, or any other developmental delay.

Race and ethnicity: Based on two separate questions that determine Hispanic or Latino origin and race. Persons of Hispanic or Latino origin may be of any race.

### Data source and methods

Data from the 2014–2016 NHIS were used for this analysis. NHIS is a nationally representative survey of the civilian noninstitutionalized U.S. population. It is conducted continuously throughout the year by the National Center for Health Statistics (NCHS). NHIS is an in-person interview conducted in the respondent's home. In some instances, follow-up to complete the interview is conducted via telephone. The survey consists of (a) the Family Core component, which collects information on all family members; (b) the Sample Adult component, which collects additional information from one randomly selected adult per family; and (c) the Sample Child component, which collects additional information about one randomly selected child per family. The sample child component is completed by a family respondent, usually the parent (approximately 91% of all cases). Data for this analysis come from the Sample Child and Family Core components of NHIS. For more information about NHIS, visit <a href="https://www.cdc.gov/nchs/nhis.htm">https://www.cdc.gov/nchs/nhis.htm</a>.

NHIS is designed to yield a nationally representative sample, and these analyses used weights to produce national estimates. The sample design is described in more detail elsewhere (6). Point estimates and the corresponding variances for this analysis were calculated using SUDAAN software (7) to account for the complex sample design of NHIS. Linear and quadratic trends over time and differences between percentages were evaluated using two-sided significance tests at the 0.05 level.

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

### CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

### **BRIEFING MEMORANDUM**

DATE:

September 26, 2018

TO:

Members, Champaign County Mental Health Board (CCMHB)

FROM:

Lynn Canfield and Mark Driscoll

SUBJECT:

DRAFT Three Year Plan

Background: The Champaign County Mental Health Board is charged with developing a three-year plan with the coming year being the first year of the new three-year cycle. Throughout the course of any given year the Board participates in a dynamic process highlighting issues of the day. This process can entail presentations by outside entities during Board meetings, topics addressed during study sessions, distribution of research or other professional articles, materials prepared by staff, and input from members of the public. The on-line survey developed in the fall of 2017 attempted to engage the broader community as an extension of this dynamic process. The survey solicited input from four broad constituencies to learn about their experiences navigating the behavioral health and intellectual and developmental disability systems in Champaign County. The compilation of responses to the online surveys are the centerpiece of the 2018 needs assessment. The strategic planning process begins with this community needs assessment, described in a separate memorandum in this board packet.

The needs assessment project sought insight into the experiences people have with the local system. Typical barriers identified were: lack of transportation; financial issues; eligibility; stigma/embarrassment/fear; waiting lists; not knowing how to access services or what is available.

While community-based providers and other supportive organizations continue to respond to threats posed by a rapidly changing state and federal funding and policy context, making the Board's role as complex as ever, people seeking services have some difficulty finding and accessing local resources. As a result, our efforts should also include connecting people, coordinating across providers, and making the best possible information available to the public.

Action to Consider: The attached DRAFT Three Year Plan is presented for the period of 2019 to 2021, with revised goals and proposed objectives for 2019. Suggestions for improvement are welcomed. Service providers and other stakeholders will have an opportunity to provide input, and a revised draft will be presented for approval at a later meeting of the Board.

# CHAMPAIGN COUNTY MENTAL HEALTH BOARD THREE-YEAR PLAN FOR

FISCAL YEARS 2019 - 2021 (1/1/19 - 12/31/2021)

WITH ONE YEAR OBJECTIVES FOR

FISCAL YEAR 2019 (1/1/19 – 12/31/19)

### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

WHEREAS, the Champaign County Mental Health Board has been established under Illinois Revised Statutes (405 ILCS – 20/Section 0.1 et. seq.) in order to "construct, repair, operate, maintain and regulate community mental health facilities to provide mental health services as defined by the local community mental health board, including services for the developmentally disabled and for the substance abuser, for residents (of Champaign County) and/or to contract therefore..."

WHEREAS, the Champaign County Mental Health Board is required by the Community Mental Health Act to prepare a one- and three-year plan for a program of community mental health services and facilities;

THEREFORE, the Champaign County Mental Health Board does hereby adopt the following Mission Statement and Statement of Purposes to guide the development of the mental health plan for Champaign County:

#### MISSION STATEMENT

The mission of the CCMHB is the promotion of a local system of services for the prevention and treatment of mental or emotional, intellectual or developmental, and substance abuse disorders, in accordance with the assessed priorities of the citizens of Champaign County.

### STATEMENT OF PURPOSES

- 1. To plan, coordinate, evaluate and allocate funds for the comprehensive local system of mental health, intellectual disabilities and developmental disabilities, and substance abuse services for Champaign County.
- 2. To promote family-friendly community support networks for the at-risk, underserved and general populations of Champaign County.
- 3. To increase support for the local system of services from public and private sources.
- 4. To further develop the systematic exchange of information about local services and needs between the public/private service systems and the CCMHB.

In order to accomplish these purposes, the Champaign County Mental Health Board must collaborate with the public and private sectors in providing the resources necessary for the effective functioning of the community mental health system.

SYSTEMS OF CARE

Goal #1: Support a continuum of services to improve the quality of life experienced by meet the needs of individuals with mental and/or emotional disorders, addictions, substance use disorders, and/or intellectual or developmental disabilities and their families residing in Champaign County.

Objective #1: Conduct a needs assessment to inform development of the next three year plan.

Objective #2: Under established policies and procedures, solicit proposals from community based providers in response to Board defined priorities and associated criteria using a competitive application process.

Objective #1: Expand use of evidence informed, evidence based, best practice, recommended, and promising practice models appropriate to the presenting need in an effort to improve outcomes for individuals across the lifespan and for their families and supporters.

Objective #2: Promote wellness for people with mental illnesses, substance use disorders, intellectual disabilities, or developmental disabilities to prevent and reduce early mortality, through support services including access to services addressing basic needs, enrollment in benefit plans and coordinated access to primary care.

Objective #3: As practicable in light of potential congressional or presidential actions on the Affordable Care Act and Medicaid expansion, support development or expansion of residential and/or employment supports for persons with behavioral health diagnosis not supported through expansion of Medicaid or the Affordable Care Act.

Objective #4: Support broad based community efforts to prevent opiate overdoses and expand treatment options.

Objective #5: As enrollment in health insurance and Medicaid managed care plans reduce the uninsured population, realign CCMHB dollars to fund services and supports outside the realm of Medicaid, Build resiliency and support recovery e.g. Peer Supports, outside of a therapeutic environment.

Objective #6: Build evaluation capacity of contracted providers utilizing expertise of evaluators from the Department of Psychology at the University of Illinois to further positive outcomes of those engaging in funded services.

Goal #2: Sustain commitment to addressing health disparities experienced by the need for underrepresented and diverse populations. access to and engagement in services.

Objective #1: Support culturally responsive and family driven support networks for underrepresented populations, underserved populations, and general populations of Champaign County.

Objective #2: Provide technical assistance in support of continuous improvement of cultural and linguistic competence plans to meet the needs of the population served.

Objective #3: Encourage providers and other community-based organizations to allocate resources to provide training, seek technical assistance, and pursue other professional development activities for staff and governing and/or advisory boards to advance cultural and linguistic competence.

Objective #4: Use the Culturally and Linguistically Appropriate Services Standards (CLAS) as a blueprint to strengthen funded agencies' Cultural and Linguistic Competence.

Goal #3: Improve consumer access to and engagement in services. through increased coordination and collaboration between providers, community stakeholders, and consumers.

Objective #1: Encourage development of collaborative agreements between providers to increase or maintain access and coordination of services for consumers throughout Champaign County.

Objective #2: Participate in various coordinating councils whose missions align with the needs of the various populations of interest to the Board with the intent of strengthening coordination between providers in the delivery of services.

Objective #3: Explore at the Board level potential for collaboration on issues of mutual interest with the C-U Public Health District and the Champaign County Board of Health.

Objective #4: Engage with CUPHD, United Way, Carle Foundation Hospital, and OSF in the collaborative planning process for the next Community Health Improvement Plan.

Objective #5: Increase awareness of community services and access to information on when, where, and how to apply for services. In conjunction with the United Way of Champaign County, monitor implementation of the 211 information and referral system.

Objective #5: Investigate options for development of a web based compilation of local resources and or directories targeted to specific populations.

Goal #4: Continue the collaborative working relationship with the Champaign County Board for Care and Treatment of Persons with a Developmental Disability (CCDDB).

Objective #1: Coordinate integration, alignment, and allocation of resources with the CCDDB to ensure the efficacious use of resources within the intellectual disability and developmental disability (ID/DD) service and support continuum.

Objective #2: Assess alternative service strategies that empower people with ID/DD and increase access to integrated settings as exemplified by the collaborative approach to the Employment First Act.

Objective #3: Concurrent With the CCDDB, continue financial commitment to maintain and, if demonstrated, expand the availability of community-based housing Community Integrated Living Arrangement (CILA) housing opportunities for people with ID/DD from Champaign County and as part of that sustained

186

commitment, review the Community Integrated Living Arrangement (CILA) fund and recommend any changes.

Objective #4: Collaborate with the Champaign County Board for the Care and Treatment of Persons with a Developmental Disability on issues of mutual interest as exemplified by the expansion of CILA housing and joint sponsorship of events promoting acceptance, promoting inclusion and respect for people with ID/DD.

#### MULTI-AGENCY INVOLVED YOUTH AND FAMILIES

Goal #5: Building on progress achieved through the six Year Cooperative Agreement between the Federal Substance Abuse and Mental Health Services Administration (SAMHSA), the Illinois Department of Human Services (IDHS), and the Champaign County Mental Health Board (CCMHB) implement a plan to sustain the SAMHSA/IDHS system of care model.

Objective #1: Support the efforts of the Champaign Community Coalition and other system of care initiatives.

Objective #2: Ongoing Sustain support of Champaign County family-run organizations that incorporate family-driven and youth-guided principles, in recognition of the importance of in use of peer support specialists, and other peer-to-peer supports to assist multi-system involved families and youth. , maintain direct involvement and input about decisions that are made. Encourage organizations' focus on peer support specialists, peer to-peer support, advocacy at the local level, and statewide expansion of family-run organizations.

#### CRIMINAL JUSTICE AND MENTAL HEALTH SYSTEM COLLABORATION

Goal #6: Support infrastructure development and investment in services along the five criminal justice intercepts points to Divert from the criminal justice system, as appropriate, persons with behavioral health needs or developmental disabilities.

Objective #1: Continue involvement in the Crisis Intervention Team Steering Committee in support of increased collaboration between law enforcement and crisis team service providers on implementing mobile crisis response in the community.

Objective #2: Sustain efforts to engage persons with behavioral health diagnoses re-entering the community from jail or prison or with recent involvement with the criminal justice system, in treatment and other support services such as the Champaign County Problem Solving Court and reentry services

Objective #3: Maintain commitment to the Problem Solving Courts operating in Champaign County including continued participation on the Specialty Court Steering Committee.

Objective #4: Support integrated planning and service coordination for adults involved in the criminal justice system through participation in the Champaign County Reentry Council or similar body to address needs identified in the Sequential Intercept Map gaps analysis.

Objective #5: Through the National Association of County Behavioral Health and Developmental Disability Directors (NACBHDD), in its partnership with the National Association of Counties (NACo,) pursue opportunities for technical assistance and support through the "Decarceration Initiative," "Stepping Up: A National Initiative to Reduce the Number of People with Mental Illnesses in Jails," and the "Data Driven Justice Initiative," Encourage and participate in and other similar collaborative opportunities aimed at improving outcomes for those with behavioral health needs involved with the criminal justice system.

Goal #7: In conjunction with the Champaign County Sheriff's Office and other community stakeholders pursue a continuum of services as an alternative to incarceration and/or overutilization of local Emergency Departments for persons with behavioral health needs or developmental disabilities.

Objective #1: Serve on the Crisis Response Planning Committee, or its successor body, to continue to advance work initiated under the Justice and Mental Health Collaboration planning grant.

Objective #1: Support initiatives providing housing and employment supports for persons with a mental illness, substance use disorder, and/or intellectual and developmental disabilities through the Champaign County Continuum of Care or other local collaboration.

Objective #2: Identify options for developing jail diversion services to provide behavioral health assessments, crisis stabilization and detoxification from alcohol and/or other substances as may be necessary to serve Champaign County.

Objective #3: Secure commitment to support and sustain the development of a coordinated system of diversion services, from vested stakeholders in the public and private sectors.

Objective #4: Use public input gathered through these collaborations to guide advocacy for planning and policy changes at the state and federal levels, local system redesign and enhancement, and in the consideration of future funding priorities for the CCMHB.

Goal #8: Support interventions for youth who have juvenile justice system involvement to reduce contact with law enforcement or prevent deeper penetration into the system.

Objective #1: Investigate evidence based or recommended juvenile justice models as an alternative to the Parenting with Love and Limits (PLL) program.

Objective #1: Support continued implementation of the Parenting with Love and Limits (PLL) program based on positive evaluation and feedback from community partners and stakeholders, or as appropriate, an acceptable alternative.

Objective #3: Monitor local utilization of PLL and pursue options as necessary to address potential excess capacity.

Objective #2: Through participation on the Youth Assessment Center Advisory Board advocate for community and education-based interventions contributing to positive youth development and decision-making.

Objective #3: Through participation and engagement in the Champaign Community Coalition and other community focused initiatives, promote and encourage multi-system collaborative approaches for prevention and reduction of youth violence.

Objective #4: Promote and support those targeted interventions that specifically address historical trauma experienced by African American and other minority youth disproportionately impacted in multiple systems.

Objective #5: Utilize the principles from "Models for Change" to reduce the disproportionate minority contact with law-enforcement and involvement with the juvenile justice system.

#### COMMUNITY ENGAGEMENT & ADVOCACY

Goal #9: Address the need for acceptance, inclusion and respect associated with a person's or family members' mental illness, substance use disorder, intellectual disability, and/or developmental disability through broad based community education efforts to increase community acceptance and positive self-image.

Objective #1: Continue support for and involvement in efforts to challenge stigma and discrimination and other community education events including disABILITY Resource Expo: Reaching Out for Answers, and the National Children's Mental Health Awareness Day.

Objective #2: Promote substance use disorder prevention initiatives as a community education tool targeting youth and young adults.

Objective #3: Participate in behavioral health community education initiatives, such as national depression screening day, to encourage individuals to be screened and seek further assistance where indicated.

Objective #4: Encourage and support efforts to more fully integrate people with behavioral health disorders and/or intellectual or developmental disabilities into community life in Champaign County.

Goal #10: Stay abreast of emerging issues affecting the local systems of care and consumer access to services and be proactive through concerted advocacy efforts. Engage with other local, state, and federal stakeholders on emerging issues.

Objective #1: Monitor implementation of state Medicaid Plan amendments, 1115 waiver pilot projects, use of Managed Care Organizations to implement the Affordable Care Act and the expansion of Medicaid by the State of Illinois and advocate for increased service capacity sufficient to meet consumer demand through active participation in the Association of Community Mental Health Authorities of Illinois (ACMHAI) and other statewide associations and advocacy groups. and national associations such as the National Association of Counties (NACe).

Objective #2: Track state implementation of class action suit settlements involving persons with intellectual disabilities or developmental disabilities or mental illness, e.g. Ligas vs. Hamos Consent Decree and Williams vs. Quinn Consent Decree, and proposed closure of state facilities, and advocate for the

allocation of state resources sufficient to meet needs of clients returning to home communities or seeking fuller integration in their communities.

Objective #3: Maintain active participation in Through the National Association of County Behavioral Health and Developmental Disability Directors (NACHBBD), National Association of Counties (NACo), and like-minded national organizations, to monitor activities at the federal level. monitor the federal rulemaking process applying parity to Medicaid Managed Care and associated benefit plans and on the Institutions for Mental Disease (IMD) Medicaid Exclusion. Use opportunities for public comment on proposed rules and legislative action to advocate for the needs of our community.

DRAFT

#### CHAMPAIGN COUNTY MENTAL HEALTH BOARD

## CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

#### **BRIEFING MEMORANDUM**

DATE:

September 26, 2018

TO:

Members, Champaign County Mental Health Board (CCMHB) and

Champaign County Developmental Disabilities Board (CCDDB)

FROM:

Lynn Canfield, Executive Director

SUBJECT:

Fund Balances, Tax Liabilities, Unanticipated Revenues

#### Purpose

In this packet, revised 2019 budgets are presented for your consideration. Additional revenues and associated revisions are explained in a Decision Memorandum accompanying the budget documents, under Old Business. The purpose of this Briefing Memorandum is to offer context for possible Board actions in response to tax liabilities, miscellaneous revenues, and fund balances.

#### Background

<u>Fund Balances:</u> The recommended fund balance goal is to cover six months of operating costs, including contracts for services and supports provided by community-based organizations.

At the end of the Boards' fiscal year, December 31, fund balances appear to be higher than this goal because this is not the point in the year used for planning. For our purposes, the projected balances in May are most critical, as this is when the funds reach their lowest amount, just before the first distribution of property tax revenues each year. The majority of Board funding is spent on agency contracts, which use a term coinciding with the state fiscal year of July 1 through June 30. Accurately predicting property tax revenues in order to allocate in this way is a challenge, but overestimating the available revenue can put the agency programs, and the people they serve, at risk.

Analysis of the Board funds at their lowest point, in May 2018, showed that the CCDDB did not have sufficient funds to cover three months of operating costs and that the CCMHB had more than enough. The Treasurer invests these funds and anticipates increased interest income; although earning more on the funds is better than not, it may be desirable to plan bringing the fund balances closer to goal. The causes of the higher balance are: liabilities; return of excess revenue from agencies; unanticipated changes in revenues and expenditures.

The CILA fund relates to a mortgage and to maintenance of properties, and its revenues are largely interfund expenditures from the Boards.

<u>Tax and Other Liabilities:</u> Application of the fund balance goal is complicated by substantial liabilities in each Board's fund:

- CCMHB tax liability of \$430,716, hospital property tax revenues previously distributed.
- CCDDB tax liability of \$359,364, hospital property tax revenues previously distributed.
- The Boards share small liabilities associated with staff benefits which would be paid upon resignation, termination, or retirement.

1776 E. WASHING ON STREET

URBANA, ILLINOIS 61802

In the event of an unfavorable decision in the hospital property tax case, repayments from each fund would have the result of leaving the CCDDB with very low reserve, though the CCMHB would still have a small amount of reserve beyond the fund balance goal. Hospital tax revenues anticipated for 2019 would simply not be spent. Although the case is scheduled to be heard in January 2019, a decision might not be made in time for allocation of agency contracts next year.

<u>Unanticipated Revenues:</u> Reserves build through return of excess revenue from agency contracts along with other unplanned revenues and savings. Fortunate examples of unplanned revenue are a \$64,000 refund from a vendor in 2017 and refunds for 2018 national conference registrations.

The 2019 budgets were adjusted to receive higher estimated additional revenues - repayments from agencies, increased interest income, increased donations related to anti-stigma and Expo - and to spend them as Contributions & Grants, funding service providers through an established annual, competitive allocation process, with public review and decisions made in late Spring. The CILA budget uses additional revenue for improvements and repairs of the homes and appliances.

It is important to note that the return of excess revenue associated with agency contracts results directly from some persistent problems. It is unfortunate that we now plan for these in our budgeting process.

As early as August, agencies return unused funds from the contract year ending on June 30. This continues as independent audits are performed and reviewed, often into the following calendar year. A short-term problem emerges because we lack a process for reallocation. The longer-term issue is that these repayments relate to underperformance on contracts, whether due to low referrals, insufficient staffing, loss of other funding, or other barriers encountered by community-based providers. These issues are not expected to resolve during 2018 or 2019. The Boards and staff track local, state, and federal changes. To invest less in the local systems of support would not align with mission, but we might consider other ways to support these systems.

#### Supports Other than through Agency Contracts

These additional program supports exist and could be expanded, with the purpose of strengthening agency supports and services. They are not charged to the Contributions & Grants lines of Board Fund budgets and include:

- training workshops for case managers and others providing service directly to eligible people (may also improve coordination across providers);
- service-level data collection and analysis of programs used by adults with I/DD;
- outcome evaluation support through UIUC researchers; and
- technical assistance for cultural and linguistic competence strategies.

Additional supports for persons with MI, SUD or I/DD are being explored or in progress, also not not charged to Contributions & Grants:

- March 2019 disABILITY Resource Expo and updated comprehensive resource guide;
- anti-stigma events;
- Mental Health First Aid trainings for interested groups, especially in northern Champaign County and rural areas;
- low cost, web-based or text-based mental health supports available Countywide;

- collaboration with those entities most likely to encounter people in crisis, to improve crisis response; and
- Parkland Foundation scholarship fund, through which people eligible for board-funded services would access to post-secondary educational opportunities.

The CILA budget allows for repairs to the current homes. The Boards might also consider:

- purchasing one or two more homes (with consideration for workforce shortage and appropriate referrals of Champaign County residents);
- selling the current homes to a private investor or non-profit service provider;
- paying off the mortgage ahead of schedule.

#### **Possible Actions**

As stated above, the amounts associated with previous hospital tax revenues are quite large, \$430,716 in the CCMHB fund and \$359,364 in the CCDDB fund, the majority of each board's reserve. If there is a ruling favorable to the County, these amounts will no longer need to be available to pay off the liabilities. The CCDDB could leave this amount in the fund account to build toward the recommended reserve; the CCMHB is in a good position to spend at least this amount.

In addition to these earlier revenues, the CCMHB's 2019 budget has anticipated hospital property tax revenue of \$142,532, and the CCDDB \$118,919, pending favorable ruling. There is a mechanism in the budgets to spend these amounts during 2019, though not prior to a ruling.

The Boards might consider new strategies to further their missions:

- a student loan debt repayment program for people committing to work in Champaign County for a period of time, in the areas of service most harmed by the current and growing workforce shortage, from psychiatrists to direct support professionals, as there is no question that the shortage of each has deeply damaged our service systems;
- a scholarship fund, for recipients making a similar commitment to Champaign County, also for the purpose of strengthening the workforce;
- capital/infrastructure projects for eligible community-based service providers, through the existing competitive allocation process;
- housing, paid internships, or scholarships for people with I/DD or MI/SUD;
- other capital projects identified as of value to one or both Boards.

## CHAMPAIGN COUNTY BOARD FOR CARE AND TREATMENT OF PERSONS WITH A DEVELOPMENTAL DISABILITY

#### **DECISION MEMORANDUM**

DATE:

September 26, 2018

TO:

Members, Champaign County Mental Health Board (CCMHB)

FROM:

Lynn Canfield, Executive Director

SUBJECT:

FY2019 Champaign County CCMHB and CILA Budget Submissions

Overview: The purpose of this memorandum is to seek approval of second drafts of the Champaign County Mental Health Board (CCMHB) Budget and CILA Fund Budget, for County Fiscal Year 2019 (January 1, 2019 through December 31, 2019). Earlier approved versions were revised with advice from County Administration, incorporating increased revenue estimates and refining personnel cost estimates, and submitted for information to the Champaign County Board in August. Final budgets will be presented as part of their appropriations process in November. Further changes in revenue projections, personnel costs, or other planned expenditures, may occur before November, requiring your approval.

The CILA Fund Budget, under joint authority of the CCMHB and Champaign County Developmental Disabilities Board (CCDDB), uses previous and current year actuals. The projected fund balance may protect against larger liabilities or, at the direction and agreement of the Boards, be used to purchase additional homes or pay the bank loan ahead of schedule.

Attached are a revised 2019 CCMHB Budget and a revised 2019 CILA Fund Budget. The draft 2019 CCDDB Budget is included for information only, along with four pages of background details. Changes made to earlier versions are italicized in the attachments and include:

- Higher projected property tax revenues (both boards)
- Property tax revenue associated with the hospital; court hearing scheduled for January; a subsequent finding will determine whether this revenue will be used or repaid. In addition, a finding favorable to the hospital will result in repayment of earlier revenue deposits, reducing the fund balance (both boards)
- Increased investment interest (both boards and CILA)
- Small adjustments of personnel costs (CCMHB budget)
- Increased estimate of costs for non-employee trainings (to host workshops for local service providers) and decreased estimate of bank charges (CCMHB budget)
- Increased contributions and grants line (both boards)
- Increased rent revenue (CILA)
- Increase in equipment expense (CILA)
- Decrease in mortgage interest expense (CILA)

1776 E. WASHINGTON STREE

URBANA, ILLINOIS 61802

Decision Section:
Motion to approve the attached 2019 CCMHB Budget, with anticipated revenues and expenditures of \$5,404,493.
Approved Denied Modified Additional Information Needed
Motion to approve the attached 2019 CILA Fund Budget, with anticipated revenues and expenditures of \$123,300. Payment to this fund is consistent with the terms of the
Intergovernmental Agreement between the CCDDB and CCMHB.  Approved

	\$438,826	\$442,440

#### Interfund Expenditures 2019 v 2018

INTERFUND TRANSFERS	2019	2018
CCDDB Share of Donations & Miscellaneous Revenue	\$8,000	\$8,000
Payment to CILA Fund	\$50,000	\$50,000
	\$58,000	\$58,000

#### \*Professional Services:

 legal services, website maintenance and updates, human resource services, shredding, graphic design, ADA compliance consultant, independent audit reviews and other CPA consultation, organizational assessment, 211/Path with United Way, UIUC Evaluation Capacity Project (not shared with CCDDB), and Savannah Family Institute-PLL (not shared with CCDDB)

## \*\*Public Relations (Community Awareness) and disAbility Resource Expo:

- Ebertfest or other (not shared with CCDDB), community education/awareness, cost of some consultant support.
- Expo line is added mid-year 2018 to capture 2019
   Expo expenses, including for consultants.

### **Additional Information about Services**

Approval of 2019 Budgets does not obligate the Boards to all expenditures described; many are estimates based on previous years.

SERVICES	2019		2018	
Professional Services*	\$235,000	\$129,500 Savannah Family Institute (PLL), not shared with CCDDB. \$53,335 UI Evaluation, not shared with CCDDB. \$18,066 United Way for 211/Path. \$250 human resources services (AAIM). \$3,000 IT services (BPC). \$1,500 website accessibility testing (Falling Leaf). \$12,000 online application/reporting systems (EMK). \$1200 maintenance of online resource directory and AIR site. \$550 graphic design. \$1000 shredding services. \$3,000 CPA consult. \$5,000 legal. (Note that Expo/Special Projects consultants will not be charged to this line for 2019 but will instead be split between Public Relations and new disABILITY Resource Expo line, according to projects.)	\$263,467	\$130,700 Savannah Family Institute (PLL), not shared with CCDDB. \$52,976 UI Evaluation, not shared with CCDDB. Half of the \$40,000 Expo Coordinators (Mayer/Bressner). \$18,066 United Way for 211/Path. \$250 human resources services (AAIM). \$3,000 IT services (BPC). \$1,500 organizational assessment (Smith/Campbell). \$1,500 website accessibility testing (Falling Leaf). \$11,000 online application/reporting systems (EMK). \$936 maintenance of online resource directory and AIR site (ChrispMedia). \$450 graphic design. \$1000 shredding services. \$3,000 CPA consult (Brusveen). \$4,000 legal (Meyer/Capel, Weiner). \$5,000 online community needs assessment (EMK).
Public Relations**	\$30,000	\$15,000 Ebertfest film sponsorship, offset by Alliance member dues and other contributions of \$3k-\$6k/year. \$2,000 estimated for other community events. \$2,000 anti-stigma art show(s), promotion. A portion of Expo/Special Projects Coordinators will be charged to this line for work on non-Expo events and projects, and the amount allowed for may be higher than needed (\$11,000).	>\$50,000	\$15,000 Ebertfest film sponsorship, offset by Alliance member dues and other contributions of \$3k-\$6k/year. \$2,000 estimated for other community events or trainings. \$2,000 anti-stigma art show(s), promotion. \$1,000 sponsorship of CU Autism Network event. All other items charged here support the Expo, including venue, supplies, food, interpreters, advertising, t-shirts for volunteers and staff. Expo costs are offset by exhibitor/vendor fees and contributions from sponsors (\$20k-\$26k per year.)
disability Resource Expo**	\$60,000	Support for the 2019 and 2020 Expo events, including venue, supplies, food, interpreters, advertising, t-shirts, etc. Majority of Expo Coordinators' contracts are here (had been in Professional Fees in 2018.) Expo costs are offset by exhibitor/vendor fees and contributions from sponsors (\$20k-\$26k per year.)	\$23,333	Expenses associated with 2019 Expo but paid in 2018 will be charged here instead of in Public Relations line. Coordinator time associated with 2019 will be charged here instead of Professional Fees.
Contributions & Grants	\$4,347,815	Estimated payments to agencies from January 1 to June 30, 2019, as authorized in May 2018, plus 1/2 of estimated FY20 annual allocation amount, with agency contract maximums to be authorized by July 1, 2019.	\$3,954,384	Actual payments to agencies from January 1 to June 30, 2018, as authorized in May 2017, plus payments authorized in May 2018, to be made from June through December 2018.
Dues/Licenses	\$23,500	\$900 national trade association (NACBHDD) dues. \$2000 portion of membership in NACo. \$16,000 state trade association (ACMHAI) dues. \$250 Rotary membership dues. \$25 Human Services Council membership dues. \$? for any new membership, e.g., Arc of IL, NCBH, NADD.	\$23,600	\$825 national trade association (NACBHDD) dues (\$900 in 2019). \$2000 portion of membership in NACo. \$16,000 state trade association (ACMHAI) dues. \$260 Rotary membership dues. \$25 Human Services Council membership dues. \$? for any new membership, e.g., Arc of IL, NCBH, NADD.
Conferences/ Training	\$17,000	\$1000 registration for NACo and NACBHDD Legislative and Policy Conferences (may be offset by ACMHAI). \$350 for NACo Annual Meeting. Costs of travel (plus lodging and food) for 1-3 staff or board members for each of 1-2 NACBHDD and NACo meetings. Costs of travel (plus lodging and food) for 2-3 staff or board members for each of 3-4 quarterly ACMHAI meetings. Costs of one other conference/training for 1-2 staff/board members. MHFA trainer certification.	\$17,000	\$510 registration for NACo Conference, \$335 Annual Meeting. (NACBHDD Legislative and Policy Conference registration paid by ACMHAI). Costs of travel (plus lodging and food) for 1-3 staff or board members for each of 1-2 NACBHDD and NACo meetings. Costs of travel (plus lodging and food) for 1-3 staff or board members for each of 3-4 quarterly ACMHAI meetings. Costs of one other conference/training for 1-2 staff/board members. \$500 Georgetown U program.
Unexpected		Budget transfers if: staff offices move to a different location or are modified; legal expenses are greater; local trainings are staged; etc. Budget amendment in the event of hospital tax settlement or employee retirement/resignation. The MH and DD fund balances at their lowest point (May) should each include: six months of operating budget plus hospital tax deposit amounts plus each board's share (57.85%/42.15%) of accrued staff benefits. Liabilities associated with hospital tax revenue = \$430,716.29 MHB and \$359,363.81 DDB.		Budget transfers in the event: staff offices move to a different location or current offices modified; legal expenses are greater; local trainings are staged; etc. The MH and DD fund balances at their lowest point (May) should each include: six months of operating budget plus hospital tax deposit amounts plus each board's share (57.85%/42.15%) of accrued staff benefits. Liabilities associated with hospital tax revenue = \$430,716.29 MHB and \$359,363.81 DDB.

## Calculation of the CCDDB Administrative Share ("Professional Fees")

Adjustments:	2019	2018
CCMHB Contributions & Grants	\$4,347,815	\$3,954,384
Savannah Family Institute - PLL	\$129,500	\$130,700
UI Evaluation Capacity Project	53335	\$52,976
Ebertfest anti-stigma film and events	\$15,000	\$15,000
Payment to CILA fund	\$50,000	\$50,000
CCDDB Share of Donations & Misc Rev	\$8,000	\$8,000
Adjustments Total:	\$4,603,650	\$4,211,060
CCMHB Total Expenditures:	\$5,404,493	\$5,014,180
Total Expenditures less Adjustments:	\$800,843	\$803,120

	2019	2018
	CCDDB Share	CCDDB Share
Total Expenditures less Adjustments	800,843	\$803,120.00
Adjusted Expenditures x 42.15%	\$337,555	\$338,515
Monthly Total for CCDDB Admin	\$28,130	\$28,210

At he end of each Fiscal Year, actual expenses are updated, some revenues (e.g., Expo) are shared, and adjustments are made to the CCDDB current year share.

## Background for 2019 CCDDB Budget, with 2018 Projections and Earlier Actuals

2019 BUDGETED REVENUE		2018 PROJECTED	2017 ACTUAL	2016 ACTUAL	2015 ACTUAL	2014 ACTUAL

### **CCMHB 2018 Meeting Schedule**

First Wednesday after the third Monday of each month--5:30 p.m.

Brookens Administrative Center

Lyle Shields Room

1776 E. Washington St., Urbana, IL (unless noted otherwise)

September 12, 2018 – study session

September 26, 2018

October 17, 2018

October 24, 2018 - study session

November 14, 2018

November 28, 2018 - joint study session with the CCDDB

December 19, 2018 – tentative

\*This schedule is subject to change due to unforeseen circumstances. Please call the CCMHB-CCDDB office to confirm all meetings.

## **CCDDB 2018 Meeting Schedule**

Board Meetings 8:00AM except where noted Brookens Administrative Building, Lyle Shields Room 1776 East Washington Street, Urbana, IL

September 26, 2018 – Dimit Conference Room (8AM)

October 24, 2018 – Dimit Conference Room (7:30AM)

November 14, 2018 – Lyle Shields Room (8AM)

November 28, 2018 - tentative study session, Lyle Shields Room (5:30PM)

December 19, 2018 – Dimit Conference Room (7:30AM)

This schedule is subject to change due to unforeseen circumstances.

Please call the CCMHB/CCDDB office to confirm all meetings.

#### DRAFT

#### July 2017 to June 2018 Meeting Schedule with Subject and Allocation Timeline\*

The schedule provides the upcoming dates and subject matter of board meetings through June 2018 for the Champaign County Mental Health Board. The subjects are not exclusive to any given meeting as other matters requiring Board review or action may also be addressed or may replace the subject listed.

Study sessions may be scheduled throughout the year with potential dates listed. Study session topics will be based on issues raised at board meetings, brought to the CCMHB by staff, or in conjunction with the Champaign County Developmental Disabilities Board.

Included with the meeting dates is a tentative schedule for the CCMHB allocation process for Contract Year 2019 (July 1, 2018 – June 30, 2019).

Timeline	Tasks
7/19/17	Regular Board Meeting Approve Draft Budget Approve 2016 Annual Report
9/20/17	Regular Board Meeting Release Draft Three Year Plan 2016-2018 with FY18 Objectives U of I Program Evaluation Presentation
9/27/17	Study Session
10/18/17	Regular Board Meeting Release Draft Contract Year 2019 (CY19) Allocation Criteria Community Coalition Summer Initiatives Report
10/25/17	Study Session
11/15/17	Regular Board Meeting Approve Three Year Plan with One Year Objectives Allocation Decision Support – CY19 Allocation Criteria
11/29/17	Study Session
12/13/17	Public Notice to be published on or before this date, giving at least 21-day notice of application period.
12/13/17	Regular Board Meeting (tentative)

01/05/18	Open CCMHB/CCDDB Online System access to CCMHB CY19 Agency Program and Financial Plan Application forms.
1/17/18	Regular Board Meeting Election of Officers
1/24/18	Study Session
2/2/18	Online System Application deadline – System suspends applications at 4:30PM (CCMHB close of business).
2/9/18	List of Requests for CY19 Funding
2/21/18	Regular Board Meeting List of Requests for CY19 Funding
2/28/18	Study Session
3/21/18	Regular Board Meeting 2017 Annual Report
3/28/18	Study Session
4/11/18	Program summaries released to Board, copies posted online with CCMHB April 18, 2018 meeting agenda
4/18/18	Regular Board Meeting Program Summaries Review and Discussion
4/25/18	Study Session Program Summaries Review and Discussion
5/9/18	Allocation recommendations released to Board, copies posted online with CCMHB May 16, 2018 meeting agenda
5/16/18	Study Session Allocation Decisions
5/23/18	Regular Board Meeting Allocation Decisions Authorize Contracts for CY19
6/27/18	Regular Board Meeting Approve FY19 Draft Budget
6/28/18	CY19 Contracts completed/First Payment Authorized

# CHAMPAIGN COUNTY MENTAL HEALTH BOARD BOARD MEETING

Minutes—June 27, 2018

Brookens Administrative Center Lyle Shields Room 1776 E. Washington St Urbana, IL

5:30 p.m.

MEMBERS PRESENT: Susan Fowler, Judi O'Connor, Thom Moore, Joe Omo-Osagie,

Elaine Palencia, Kyle Patterson, Anne Robin, Julian Rappaport

**MEMBERS EXCUSED:** Margaret White

STAFF PRESENT: Lynn Canfield, Mark Driscoll, Stephanie Howard-Gallo

OTHERS PRESENT: Gail Raney, Chris Gleason, Rosecrance; Nancy Greenwalt,

Promise Healthcare; Alex Campbell, EMK Consulting

#### **CALL TO ORDER:**

Dr. Fowler called the meeting to order at 5:30 p.m.

#### **ROLL CALL:**

Roll call was taken and a quorum was present.

#### CITIZEN INPUT / PUBLIC PARTICIPATION:

None.

#### APPROVAL OF AGENDA:

Dr. Fowler requested Agenda Items 6.B. and 6.C. be moved in front of 6.A. The Board agreed and the agenda was approved.

#### PRESIDENT'S COMMENTS:

None.

#### **NEW BUSINESS:**

#### Promise Healthcare Child Psychiatry Request:

Promise Healthcare has sent a letter requesting \$20,250 from the Champaign County Mental Health Board for support services necessary to manage children's access to the new psychiatric services. The letter from Promise Healthcare requesting assistance from the Board was included in the Board packet.

The new request would enable Promise Healthcare to expand psychiatric services available to patients at Frances Nelson to include children and youth. The pediatric psychiatry services would be available one morning per week. Up to fifty children and youth are projected to be served in the first year. Services would likely start sometime in September. Other revenue will result from billing Medicaid, Managed Care Plans, and private insurance, and from nominal sources such as patient fees or co-pays. Even with these, the agency projects a gap of \$20,250 between anticipated revenue and expenses. A means of funding the \$20,250 requested from the Board has been identified by staff.

The Rosecrance Recovery Home contract is to be pro-rated adjusting the term of the contract and reducing the contract maximum when issued. The delayed implementation of the Recovery Home contract is expected to generate sufficient funds to support the Promise Healthcare request. Promise Healthcare has an existing contract with the Board that includes psychiatric services. The scope of services and budget can be amended to include child psychiatry and adjust the contract maximum. Funding beyond the current contract term would be contingent upon submission of an application that includes support child psychiatry, for the PY2020 allocation cycle. Staff recommended the Champaign County Mental Health Board approve the request.

Board discussion followed. Dr. Rappaport stated for the record he was deeply disappointed and found it shameful this service was not getting support from state or local providers for this service to the community. Dr. Robin and Dr. Moore concurred for the record.

MOTION: Dr. Robin moved to authorize the Executive Director to issue an amendment to the Promise Healthcare "Mental Health Services with Promise" contract increasing the contract maximum by \$20,250 to support the expansion of psychiatric services to include pediatric psychiatry one half day per week. Dr. Moore seconded the motion. A roll call vote was taken with all members voting aye. The motion passed unanimously.

#### University of Illinois "Build Program Evaluation Capacity: Year 4 Proposal"

For the last three years, the Champaign County Mental Health Board has contracted with the University of Illinois to assist agencies to build evaluation capacity within funded programs. The initial proposal was the result of meetings with the evaluators, staff, and representatives of the Board. The consultants under contract are Drs. Nicole Allen and Mark Aber. They are well

qualified to engage in this work, have worked with CCMHB funded agencies in the past, and are familiar with the mission and work of the Board.

Annual reports on the outcome of their work with funded programs have been presented to the Board and to the agencies. As part of the FY16 contract, the evaluators participated in the Board retreat, assessed current evaluation activities and reporting of funded programs, and reported their findings to the Board. A similar report was presented to Board following the close out of year two. In September, the evaluators are scheduled to present a report on activities and progress achieved under year three.

Throughout the last year, a representative of the evaluation team has attended meetings of the Mental Health and Developmental Disabilities Agencies Council to report on activities and promote services available to CCMHB funded programs. A presentation by the evaluators and four agencies that received intensive support will be made at the August meeting of the Council.

The first year was an assessment of current evaluation requirements and agency reports. Year two and three focused on developing evaluation capacity within programs, including targeted intensive support to four programs each year. Renewal of the contract for another year is recommended in order to continue supporting progress achieved by the targeted programs under prior contracts, to engage several new programs with intensive evaluation technical assistance and support, and to offer consultation and other support services to all CCMHB funded programs and to the Board. Amount requested is \$53,335 an increase of \$359 over last year. A copy of the proposal was included in the Board packet.

MOTION: Dr. Robin moved to authorize the Executive Director to execute a contract with the University of Illinois in the amount \$53,335 to implement the scope of work presented in Capacity Building Evaluation: Year 4 proposal. Dr. Rappaport seconded the motion. A roll call vote was taken and all CCMHB members voted aye. The motion passed.

#### **Needs Assessment Survey Results:**

Alex Campbell from EMK Consultants presented the results of the online Needs Assessment Survey initiated in the fall of 2017. The results were included in the Board packet. A written summary of the data will be forthcoming.

#### **Anti-Stigma Community Event:**

A Decision Memorandum was included in the Board packet. Allocation of up to \$15,000 to sponsor a film and support and amplify concurrent activities is requested. The Roger Ebert's Film Festival has been central to our anti-stigma efforts, with a sponsored film and the festival's support for related community activities. Our anti-stigma messaging has become a festival theme and received increased exposure, media coverage, and special attention from festival leadership and staff, especially for panel discussions and concurrent art exhibits. The Alliance itself has expanded over the years to include large and small provider organizations, support groups, UIUC School of Social Work, Parkland, the Champaign Community Coalition, and Swann Special

Care Center. The anti-stigma/pro-inclusion effort supports Mental Health, Developmental Disabilities, and Substance Use Disorder community awareness and education.

During the 2018 festival, we held a youth screening/discussion of the sponsored film, staged and promoted an art show, participated in a well-attended panel discussion dedicated to anti-stigma, and maintained a website to promote the artists and the Alliance's mission. Activities are ongoing in response to opportunities, including beyond the festival.

The total cost for the film sponsorship is anticipated to be \$15,000. In 2018, the initial expense of this sponsorship was offset by \$5,560 in Alliance member contributions and sales of passes.

MOTION: Dr. Moore moved to approve up to \$15,000 for sponsorship of an anti-stigma film at the 2019 Roger Ebert's Film Festival. Mr. Patterson seconded the motion. A roll call vote was taken and all members voted aye. The motion passed unanimously.

#### **CCMHB FY2018 Budget:**

A copy of the proposed FY2018 CCMHB Budget and the CILA Budget was included in the Board packet for review. Ms. Canfield reviewed the documents with Board members.

MOTION: Dr Robin moved to approve the proposed 2019 CCMHB Budget with anticipated revenues and expenditures of \$5,231,018. Ms. O'Connor seconded the motion. A roll call vote was taken and the motion passed unanimously.

MOTION: Ms. O'Connor moved to approve the proposed 2019 CILA Fund Budget, with anticipated revenue of \$118,100 and expenditures of \$94,194. Payment to this fund is consistent with the terms of the Intergovernmental Agreement between the CCDDB and CCMHB. Dr. Rappaport seconded the motion. A roll call vote was taken and the motion passed unanimously.

#### **Agency Information:**

Mr. Chris Gleason from Rosecrance, Central Illinois (RCI) announced there is currently no wait list for assessments for mental health services. Walk-in assessments for adults are currently available 2 days a week.

#### **OLD BUSINESS:**

#### **Schedules and Allocation Process Timeline:**

An updated copy of the meeting schedule and allocation timeline was included in the Board packet for information only.

MOTION: Ms. O'Connor moved to cancel the July 2018 meeting. Mr. Omo-Osagie seconded the motion. A voice vote was taken and the motion passed unanimously.

#### **CCDDB INFO:**

The CCDDB met earlier in the day.

#### **APPROVAL OF MINUTES:**

Minutes from 5/16/18 and 5/23/18 meetings were included in the Board packet for review.

MOTION: Dr. Moore made a motion to approve the minutes from the May 16<sup>th</sup> and May 23rd meetings. Ms. Palencia seconded the motion. A voice vote was taken and the motion passed.

#### **EXECUTIVE DIRECTOR'S COMMENTS:**

None.

#### **STAFF REPORTS:**

Staff reports from Mark Driscoll, Kim Bowdry, Shandra Summerville, and Stephanie Howard-Gallo were included in the packet for review. Dr. Fowler asked for a PUNS update. 900 names were chosen and 12 were from Champaign County.

#### **BOARD TO BOARD:**

Ms. Palencia had an orientation with RACES and Adelaide Aime, Executive Director.

#### FINANCIAL INFORMATION:

The Expenditure Approval Report from the Champaign County Auditor's Office was included in the packet for review.

MOTION: Dr. Robin moved to approve the Expenditure Approval Report as presented in the packet. Dr. Rappaport seconded the motion. A voice vote was taken and the motion passed. The claims report was approved.

#### **BOARD ANNOUNCEMENTS:**

None.

#### **ADJOURNMENT:**

The meeting adjourned at 6:50 p.m.

Respectfully

Submitted by: Stephanie Howard-Gallo

CCMHB/CCDDB Staff

\*Minutes are in draft form and are subject to CCMHB approval.

## Mark Driscoll Associate Director for Mental Health & Substance Abuse Services

#### Staff Report – September 26, 2018 Board Meeting

#### **Summary of Activity**

PY19 Contracts Update: At the June meeting, the Board approved an amendment to the Promise Healthcare Mental Health Services contract and renewal of the U of I program evaluation contract. The Promise Healthcare amendment has been executed. It increases the contract maximum to support access to pediatric psychiatry for children and youth being served by the agency. Payments were adjusted as of September 1<sup>st</sup>. The U of I contract has been executed. The Program Evaluation Team is in the process of selecting the three programs for intensive support. A decision will be made on the targeted programs prior to the September Mental Health Development Disabilities Council meeting.

An amendment has also been issued to the new Cunningham Children's Home contract. Shortly after the start of the contract year the program requested the name be changed from Independent Living Opportunities to ECHO Housing and Employment Support. The reason for the change was to eliminate confusion between DCFS funded services and those supported with CCMHB funds. The agency has communicated with staff on separate occasions about staffing pattern, other funds that target employment support to young adults, and plans to pursue other funding specific to assisting homeless youth. The agency also requested a follow-up meeting to the June contract meeting to reaffirm expectations on staffing and use of other funds.

The Rosecrance Recovery Home contract has not been issued. The Recovery Home is expected to open in late 2018. The contract is on hold until Rosecrance notifies CCMHB it is ready to move forward with hiring program staff. The contract amount will be pro-rated to account for the shortened contract term.

Parenting with Love and Limits: The Rosecrance Parenting with Love and Limits (PLL) program was moved from grant to fee for service for the PY19 contract. In late June and July, the program has experienced an exodus of staff. Three of the four therapists have resigned as has the case manager. The remaining therapist is attempting to engage referred families and has started a PLL group. No services were billed in July. With a group started some billable activity will have occurred during intake and continue through completion of group and family coaching sessions.

Rosecrance has met with CCMHB staff to discuss the status of the program. Effort is being made to recruit new staff but so far has not resulted in many qualified candidates applying. A secondary issue is with engagement of referred families. In many instances staff has been unable to contact the families. Neither of these issues is unique to PLL.

Subsequent to the CCMHB meeting, Rosecrance held a meeting with stakeholders. Based on the discussion with stakeholders, there was interest in getting input from youth and families on PLL, having PLL attempt to engage families at court that has proven successful in the past, consider program alternatives although stakeholders are supportive of PLL and consider it successful for those families that complete the program. It was acknowledged that issues with recruiting and retaining staff and engagement with families remain regardless of whatever program is offered. Rosecrance is to draft a proposal outlining options for moving forward.

CCMHB Needs Assessment and Draft Three Year Plan: A fair amount of time and energy has been spent compiling the documents included in the Needs Assessment and drafting the cover memo. The online survey of various constituencies completed last fall is the central piece of the Needs Assessment. Supplementing this information are other assessments and reports. The Briefing Memo references content of the assessment and provides links to the source documents as appropriate. An initial working draft of the Three-Year Plan appears as a separate document. Revisions to the draft will be made based on Board discussion and community input.

<u>CCMHB Site Visits</u>: Site visits on two agencies were completed in July. Agencies monitored were Community Service Center of Northern Champaign County and the Children's Advocacy. Center. No significant issues were noted and both programs met expectations for documentation of reported activity. More site visits will be scheduled in the coming months.

<u>Criminal Justice – Mental Health:</u> The Reentry Council continues to meet on a regular basis. The Housing Authority of Champaign County has chosen to join the Council. Effort is being made to broaden community representation to include health care providers, peer supports groups (GROW), and expand participation from municipal government as well as reconnect with members having light attendance. The Council is establishing bylaws. An executive committee has been formed and I have agreed to serve on that body. The County Board has approved continued funding for the Reentry Program administered by Rosecrance. Services provided under this contract are coordinated with the CCMHB funded Criminal Justice program.

A primary focus of the most recent meeting of the Crisis Intervention Team Steering Committee was the county wide CIT report. This particular report reviewed twelve months' worth of data on disposition of CIT calls. That report is included as part of the CCMHB 2018 Needs Assessment.

In other crisis related news, Carle Foundation Hospital is contracting with The Pavilion to provide crisis services to individuals presenting at the Carle Emergency Department. While Rosecrance is now providing 24-hour coverage on-site at the OSF Emergency Department. And the state is expanding its crisis service array to include mobile crisis response for those enrolled in Medicaid. As part of this shift, providers of youth crisis services (SASS Providers) can now serve adults. Other providers wanting to serve the Medicaid population will need to meet Illinois Department of Health and Family Services certification requirements. A CCMHB study session on changes to crisis services is scheduled for October 24, 2018.

<u>Champaign County Continuum of Care</u>: The Continuum reviewed and ranked proposals from local providers as part of the Department of Housing and Urban Development annual application. Cunningham Township has been meeting with local funders and other stakeholders on developing an emergency shelter and transitional housing for women and women with children. And CU at Home has agreed to lease the TIMES Center. It will house the Phoenix Drop-in Center and this winter the CU Men's Emergency Shelter.

ACMHAI Fall Meeting: Attended the educational forum at the ACMHAI meeting held in Normal, Illinois. Presenters included the Executive Director of the Community Behavioral Health Association, the Director of the DHS-Division of Mental Health, and President of Meridian Health Plan. All spoke from different perspectives of the changes occurring in state supported behavioral healthcare services.

#### Kim Bowdry, Associate Director for Intellectual & Developmental Disabilities Staff Report – September 2018

NACBHDD: I traveled to the NACBHDD Summer Board Meeting in Nashville, TN. I attended the NACBHDD ID/DD Summit and the Board Meeting. For more information on this please refer to the NACBHDD Summer Meeting and I/DD Summit and NACo Annual Conference Briefing Memo from Lynn. Lynn sent this as an email attachment on Wednesday, September 12, 2018. The biggest take away from this was how terrible it will be for Illinois to move the I/DD population into Medicaid Managed Care.

I also participated in monthly NACBHDD I/DD committee calls.

<u>Site Visits</u>: I accompanied Mark Driscoll, Associate Director for MH/SUD on site visits at the Community Service Center of Northern Champaign County and the Children's Advocacy Center. I completed a site visit with the CCRPC Decision Support Person Program in August.

<u>Trauma Informed Care</u>: I attended a "Trauma and Crisis Response Workshop" at the University Of Illinois School Of Social Work in July. In August, I attended a "Trauma in the Community" workshop, presented by Karen Simms with the CU Trauma and Resilience Initiative.

<u>Provider Trainings</u>: In early August, I began coordinating the "Trauma Informed Care for Persons with Intellectual/Developmental Disabilities Training." I have attached the flier for this training. It will be held at the Champaign Public Library on October 4, 2018 and Raul Almazar, RN, MS is the presenter. The University Of Illinois School Of Social Work is cosponsoring this training, so in addition to QIDP CEUs, LSW, LCSW, and LCPC CEUs will also be available.

Other scheduled trainings include "211" on November 1, 2018 and "Law Enforcement Rules and Regulations in Response to Crisis Situations" on December 6, 2018. Each of these scheduled trainings will be held at the Champaign Public Library.

<u>CCDDB Reporting</u>: We will begin our second year using the online reporting system. I am looking forward to having a full year's worth of data to begin looking at and tracking trends in the services provided.

<u>ACMHAI</u>: I participated in the I/DD committee call in May. I attended the quarterly meeting in Bloomington in September. The focus of the presentations was on Managed Care.

<u>MHDDAC</u>: I participated in monthly meetings of the Mental Health & Developmental Disabilities Agencies Council Meeting.

Webinars & Chats: I participated in a "Working Memory" chat. I participated in the Doors to Wellbeing Peer Specialist Monthly Webinar Series. I participated in an nTIDE Lunch and Learn webinar. I attended a Reentry Council Meeting. I listened to two "Sex Talk for Self-Advocates" webinars. I participated in an "ISBE: Parent Guide" webinar. I participated in a Managed Care webinar. I participated in two Employment First State Leadership Mentoring Program webinars. I participated in a chat on "Executive Functioning." I participated in a webinar titled, "Direct Support Professionals and Quality of Life of People with IDD," which focused on the relationship between DSPs and people with IDD's quality of life. I participated in a webinar titled, "DRS - What is it? How Can it Help?"

<u>School of Social Work – Community Learning Lab</u>: Lynn and I attended a Case Management class at the University Of Illinois School Of Social Work. This semester those students are working on mapping out local resources. This class is also gathering data on barriers people/families face when trying to access services in Champaign County through an online survey.

<u>Racial Taboo Planning Committee</u>: I attended a meeting of the Racial Taboo Planning Committee. The group decided to pursue three main lines of action from now through June 2019. The lines of action include:

- 1. Naming resources (films or short audio/video clips to discuss; books; etc.) to be used throughout the year.
- 2. Plan a conference.
- 3. Use Parkland's Race Talks model of planned conversations with youth in community settings.

Alliance for Inclusion & Respect: I participated in three planning meetings for the Alliance for Inclusion and Respect. The AIR artists will be selling their books and artwork at the Market Place Shopping Center Family Fun Fest on October 6, 2018 from 10am - 2 pm. The event organizers have asked that AIR provide a children's art activity, we will have a foam pumpkin craft available to attendees.

<u>DisABILITY Resource Expo</u>: I participated in planning meeting for the DisABILITY Resource Expo Steering Committee. The 12<sup>th</sup> Annual DisABILITY Resource Expo is scheduled for March 30, 2019 at the Vineyard Church.

<u>Transition Planning Committee</u>: The TPC held its first meeting of the school year on Friday, September 21, 2018. Jermaine Raymer and Kharis Gordon of PACE presented a new PACE program, "Fast Track." The TPC is planning events throughout the school year.

Illinois Department of Human Services-Division of Developmental Disabilities Updates: On Tuesday, September 11, 2018 the DDD released the Notice of Funding Opportunity for the Independent Service Coordination Program. The state currently has 17 ISCs, with each ISC serving a different region. Effective July 1, 2019 there will be 12 regions. Of these 12 regions, seven of the current regions were unchanged. Existing ISC agencies and new providers can apply to cover one or more of the 12 regions. Applications are due by November 12, 2018.

For more information: http://www.dhs.state.il.us/page.aspx?item=112848

The DDD updated the Self-Direction Assistance guidelines for the Home-Based Services program, which were previously significantly changed in May 2018.

For more information: <a href="http://www.dhs.state.il.us/page.aspx?item=93863">http://www.dhs.state.il.us/page.aspx?item=93863</a>

As of August 1, 2018 the PUNS categories will no longer include the "Emergency" and "Critical" categories. People will instead be categorized as "seeking services" and those who are not in need of services at this time will be categorized as "planning for services."

For more information: http://www.dhs.state.il.us/page.aspx?item=109266

<u>PUNS Selection & Reports</u>: DHS-DDD selected fifteen Champaign County people from the PUNS database in June 2018. New PUNS Selection 2018. Three of those 15 people have already received award letters - two for Home Based Services (HBS) and one for CILA. The remaining ten people are working with a CCRPC ISC to complete the pre-admission screening (PAS) process (one person is no longer interested in Medicaid waiver services and one person is currently incarcerated). Of the 10 individuals actively pursuing services, two are interested in CILA and the remaining eight are interested in HBS.

I have attached updated (September 11, 2018) PUNS Summary by County and Selection Detail for Champaign County.

in the next year.

# Division of Developmental Disabilities Prioritization of Urgency of Needs for Services (PUNS) Summary By County and Selection Detail

September 10, 2018

County: Champaign Reason for PUNS or PUNS Update 85 New 247 Annual Update 50 Change of category (Emergency, Planning, or Critical) Change of service needs (more or less) - unchanged category (Emergency, Planning, or Critical) AA 185 Person is fully served or is not requesting any supports within the next five (5) years 19 Moved to another state, close PUNS 22 Person withdraws, close PUNS 15 Deceased Individual Staved in ICF/DD 2 Individual Moved to ICF/DD 5 Individual Determined Clinically Ineligible 37 Unable to locate 1 Submitted in error 162 Other, close PUNS EMERGENCY NEED(Person needs in-home or day supports immediately) 1. Individual needs immediate support to stay in their own home/family home (short term - 90 days or less); e.g., hospitalization of care giver or temporary illness of an individual living in their own home. 2. Individual needs immediate support to stay in their own home/family home or maintain their employment 7 situation (long term); e.g., due to the person's serious health or behavioral issues. 3. Care giver needs immediate support to keep their family member at home (short term - 90 days or less); e.g., 3 family member recuperating from illness and needs short term enhanced supports. 4. Care giver needs immediate support to keep their family member at home (long term); e.g., care giver is 6 permanently disabled or is terminally ill and needs long term enhanced supports immediately to keep their family member at home. EMERGENCY NEED(Person needs out-of-home supports immediately) 1. Care giver is unable or unwilling to continue providing care (e.g., person has been abandoned). 22 2. Death of the care giver with no other supports available. 3 3. Person has been committed by the court or is at risk of incarceration. 2 4. Person is living in a setting where there is suspicion of abuse or neglect. 10 5. Person is in an exceedingly expensive or inappropriate placement and immediately needs a new place to live 8 (for example, an acute care hospital, a mental health placement, a homeless shelter, etc.). 74 Other crisis, Specify: CRITICAL NEED(Person needs supports within one year) 1. Individual or care giver will need support within the next year in order for the individual to continue living in 142 their current situation. 2. Person has a care giver (age 60+) and will need supports within the next year. 87 3. Person has an ill care giver who will be unable to continue providing care within the next year. 26 4. Person has behavior(s) that warrant additional supports to live in their own home or family home. 83 5. Individual personal care needs cannot be met by current care givers or the person's health has deteriorated. 31 6. There has been a death or other family crisis, requiring additional supports. 8 Person has a care giver who would be unable to work if services are not provided. 60 8. Person or care giver needs an alternative living arrangement. 26 9. Person has graduated or left school in the past 10 years, or will be graduating in the next 3 years. 191 8 10. Person is tiving in an inappropriate place, awaiting a proper place (can manage for the short term; e.g., persons aging out of children's residential services). 11. Person moved from another state where they were receiving residential, day and/or in-home supports. 10 12. The state has plans to assist the person in moving within the next year (from a state-operated or private 1 Intermediate Care Facility for People with Developmental Disabilities, nursing home or state hospital). 13. Person is losing eligibility for Department of Children and Family Services supports in the next year. 8 15. Person is losing eligibility for Intermediate Care Facility for People with Developmental Disabilities supports 1

# Division of Developmental Disabilities Prioritization of Urgency of Needs for Services (PUNS) Summary By County and Selection Detail September 10, 2018

17. Person is residing in an out-of-home residential setting and is losing funding from the public school system. 18. Person is losing eligibility for Individual Care Grants supports through the mental health system in the next 1 20. Person wants to leave current setting within the next year. 10 26 21. Person needs services within the next year for some other reason, specify: PLANNING FOR NEED(Person's needs for service is more than a year away but less than 5 years away, or the care giver is older than 60 years) 1. Person is not currently in need of services, but will need service if something happens to the care giver. 155 2. TRAUMA INFORMED CARE FOR PERSONS WITH INTELLECTUAL/DEVELOPMENTAL DISABILITIES Raul Almazar, RN, MA

# What is Trauma: Understanding the Impact of Trauma in Our Lives

Traumatic experiences can be dehumanizing, shocking and terrifying. Often a traumatic experience includes the betrayal of a trusted person or institution and a loss of safety. Trauma can result from experiences of violence, abuse, neglect or disasters that induce powerlessness, fear and recurring hopelessness. Trauma impacts one's spirituality and relationships often resulting in ongoing feelings of shame, guilt, rage and isolation. Despite all of this, healing is possible. This session will address the very high prevalence of trauma in the population we serve and will use the ACE study to help explain the symptoms and behaviors we see every day. With a better collective understanding of trauma, more people will find their path to healing and wellness. And with a greater public commitment to trauma- informed programs and systems for survivors, we lessen and prevent a wide range of health, behavioral health and social problems for generations to come.

October 4, 2018

9am – 12:30 pm

3.0 CEUs

Champaign Public Library 200 W. Green Street Champaign, IL 61820 Robeson Pavilion C

Learning objectives:

- 1. The attendee will understand the prevalence of trauma and the effect of trauma in our lives and the lives of those we serve.
- 2. Attendees will learn of the importance and implications of the ACE study, not only in terms of symptom development but also as a way to integrate physical and behavioral health.
- 3. Attendees will learn to view symptoms as adaptations and shift practice from stabilization and symptom reduction to providing new tools for self-regulation.

# September 2018 Monthly Staff Report-Shandra Summerville

# **Cultural and Linguistic Competence Coordinator**

# Agency Cultural and Linguistic Competence(CLC) Technical Assistance, Monitoring, Support and Training for CCMHB/DDB Funded Agencies

Organizations have submitted 4<sup>th</sup> Quarter Reports. I will provide information about the progress and required benchmarks by the Boards. There are a few organizations that received an extension until September 28, 2018

# **CLC Coordinator Direct Service Activities:**

The CLC Site visit protocol was updated to ensure that monitoring and evaluation are documented about the agencies progress.

<u>Mental Health First Aid-</u> The instructor certification for Mental Health First Aid is up for renewal. I began the recertification process for renewal to ensure that it is up to date.

<u>CLC Training Series:</u> I met with Community Choices about the IN Project. This is an opportunity for self-advocates to provide training on effective ways of learning how to serve people with a developmental disability and intellectual disability. I will begin a collaboration with Community Choices to ensure that other organizations are able to take advantage of this training. The IN-Project Training will be able to fulfill the Annual Training Requirement for one year.

# Georgetown Leadership Academy: Increasing Cultural Diversity and Cultural and Linguistic Competence in Networks Supporting Individuals with Intellectual and Developmental Disabilities:

The individual coaching calls with Professor Tawara Goode, Director of National Center for Cultural Competence will be in October.

<u>ACHMHAI-</u> I participated in the Children's Behavioral Health Committee Call on August 23. I also attended the meeting on September 7<sup>th</sup> & 8<sup>th</sup> in Bloomington, IL. This was in partnership with the Illinois Public Health Association.

# **Anti-Stigma Activites/Community Collaborations and Partnerships**

University of Illinois African-American Community Healing Storytelling Project-

The Voices of Community Healing Storytelling event was held on September 8<sup>th</sup>. There were four stories that were featured from people that live in the community. They defined community healing and how to heal from trauma that impacted their community.

2**23** 1|Page

# **Background and Framework about the project:**

As members of C-HeART (Community Healing and Resistance Through Storytelling), we are interested in creating healing spaces. Each member came to our collaboration with knowledge about individual healing. We believe it is important to go beyond personal healing strategies to include a community in the healing process. We also wanted to create a framework that focused on cultural strengths, specifically storytelling and resistance. Over the course of several meetings we shared our ideas about storytelling and healing then we reviewed the research literature to identify how others talked about storytelling as a form of healing. At varying times, for example 4 months after an initial draft, we invited colleagues to review the framework. We received their feedback and made further changes to the framework. We also shared the framework informally with community members in order to get feedback. We engaged in this process for over a year. Ultimately, we created the Community Healing and Resistance Through Storytelling.

The 3 major components to the C-HeARTS framework are: (a) justice, (b) storytelling and resistance, and (c) three psychological dimensions: connectedness, collective memory, and critical consciousness.

Justice is a moral ideal and a guiding principle that communities aim for to realize optimal well-being within three spheres of life: personal, interpersonal and organizational. In the personal sphere, wellbeing involves (e.g., feeling safe and accepted and includes increased social bonding and commitment to each other and more smiling and less crying), in the interpersonal sphere wellbeing is enhanced when individuals build trust and resist interpersonal distrust and resist denigrating dominant cultural narratives and disprove stereotypes, and in the organizational sphere, systems are in place to promote fairness, develop new community narratives and where you have control over resources and are able to meet demands.

**Storytelling and resistance** are cultural behaviors that enable psychological dimensions. Storytelling is a rich oral tradition among African-descended people that is an effective healing intervention. Resistance reflects the fact that even in the face of oppression, African-descended people defy systems of injustice and pursue acts of self-determination.

- Storytelling and resistance through public testifying opportunities or facilitated group processes can be used to understand, validate, and nurture relationships to promote
   Connectedness
- Storytelling and resistance through co-creating and sharing products and critical bycommunity reflection can be used to increase trust, remember traumas and triumphs, and decolonize minds to promote Collective Memory

(Source: Dr. Carla Hunter/Dr. Sharde Smith)

**Alliance for Inclusion and Respect-**

224

There have been 3 meetings with the Artists that have been productive and helpful as we provide additional opportunities to promote artists and authors that are living with different abilities and mental health challenges. (August 1, August 29, September 17) We have created an opportunity hear feedback from the artists about ways they their artwork and books can promoted. There is an interest to have more opportunities to sell their products. There will be additional opportunites for the AIR artists to be at the following activities:

- 1. Winter Famer's Market at Lincoln Square ( Dates will be based on the artists' availability and actual booth space.
- 2. October 6 Family Day at Market Place Mall-10:00- 2:00pm
- 3. Ebert Festival Art Show April 20, 2019- 9:00am-2:00pm

## **Ebert Festival 2019**

The planning for Ebert Festival has begun with an initial contact with Andrew Hall, Ebertfest Coordinator. There is an interest to have more student engagment this year from high school students. I met the new principal from Urbana High School about the student screening during the Ebert Festival. Ebertfest will be April 10-14, 2019.

# Stephanie Howard-Gallo

# Operations and Compliance Coordinator Staff Report -

# September 2018 Board Meeting

#### SUMMARY OF ACTIVITY:

#### Contracts:

A few 2019 contracts for our funded programs were returned after the June 29<sup>th</sup> deadline, which resulted in delayed payments.

## **Certificates of Liability Insurance:**

Certificates of Liability Insurance were requested on July 6<sup>th</sup> with a due date of August 1<sup>st</sup>. A reminder was sent the last week of July. Three agencies did not meet the deadline, which resulted letters of non-compliance being sent to them and their payment being held. I have received the three agency's proof of liability insurance and payments have been released.

# Fourth Quarter Reporting:

4<sup>th</sup> Quarter financial and program reports for all funded programs were due August 31<sup>st</sup> at the close of business. Performance Outcome Measures are due at the 4<sup>th</sup> Quarter of each funding year, as well. Quite a few of the agencies requested an extension of time to complete the reporting. As of this writing, no letters of non-compliance have been sent and no payments have been withheld.

# **Anti-Stigma Efforts:**

I attended Alliance for Inclusion and Respect (AIR) planning meetings on August 1<sup>st</sup>, August 29<sup>th</sup>, and September 17th. Our artists have been invited to participate in the October 6, 2018 "Family Fun Fest" at Market Place Mall from 10 am - 2 pm. They will have an area to sell their artwork, books, and other goods called "Artist Avenue".

A possible booth at the Urbana Farmer's Market is being explored as well. We discussed having two artists share the space each Saturday or as many Saturdays that we have an interest from the artists.

# 2019 DisABILITY Expo:

I attended an Expo planning meeting on September 11th. The Expo will take place on March 30, 2019 at the Vineyard. We discussed last year's event and ways to improve the Expo this year.

#### Other:

- Preparing meeting materials for CCMHB/CCDDB regular meetings and study sessions/presentations.
- Composing minutes from the meetings.
- I attended the County Department Heads meeting in Lynn Canfield's place on September 12<sup>th</sup>.

# disABILITY Resource Expo: Reaching Out For Answers Board Report September, 2018

The 12<sup>th</sup> annual Expo will be held on Saturday, March 30<sup>th</sup> at The Vineyard Church in Urbana.

The first Steering Committee of the new planning year was held on September 11 with 18 members present. We were pleased to welcome 3 new members to our group, Michelle Clayton-disability advocate, Dianne Husby-Gordon-CU Able, and Shawn Johnson-U. of I. Police Dept. The group reviewed responsibilities of the Expo Subcommittees, and spent some time discussing evaluation summaries from the 2018 Expo. Ideas for a theme for the 12<sup>th</sup> annual Expo were given to the Exhibitor Committee to discuss further. Subcommittees will begin to meet soon. Our next Steering Committee will be Oct. 23 at 1:00 pm at the IL Worknet Center in Champaign.

There are multiple opportunities in Sept. and Oct. to distribute Expo Save-The-Date magnets and posters promoting the 2018 Expo. We will have an Expo booth at two events, Family Day by Dr. G's Brainworks and Carle's Wellness, Fun & Medicare 101 on Oct. 6. We hope to have the above-noted materials distributed at all of the following events:

*PACE Open House for new Access Alley	Sept. 20 (3:00-7:00 pm)
*Penguin Project Play — "High School Musical, Jr." Urbana High School	Sept. 21 & 22 (7:00 pm) Sept. 23 (2:00 pm)
*Out of the Darkness Walk/American Foundation Crystal Lake Park	Sept. 22 (11:00am-1:00 pm)
*Low Vision Fair, Danville Library	Sept. 24 (Time?)
*Family Day presented by Dr. G's Brainworks AIR Artist's exhibit and sale, Market Place Mall	Oct. 6 (10:00am-2:00 pm)
*Wellness, Fun & Medicare 101 Carle at the Fields	Oct. 6 (9am-Noon)
*Octoberfest (Benefits DSC)  Downtown Champaign	Oct. 6 (3:00 pm-Midnight)
*Down Syndrome Network Buddy Walk Champaign County Fairgrounds	Oct. 6 (9:00 am-2:00 pm)
*disABILITY Awareness Month, Champaign City Bldg. display	Month of October

Respectfully submitted,

Barb Bressner & Jim Mayer
