

CIRCUIT COURT OF ILLINOIS
SIXTH JUDICIAL CIRCUIT

CIRCUIT ADMINISTRATIVE ORDER 09-1

SUBJECT: GPS Monitoring, Offender Management Program

The 6th Judicial Circuit authorizes the implementation of an Offender Management Program to supplement current agencies and personnel providing supervision of offenders within the Sixth Judicial Circuit. Administration of the Offender Management Program will be the responsibility of CAM Systems and Secure Alert, with the Sixth Judicial Circuit retaining oversight authority.

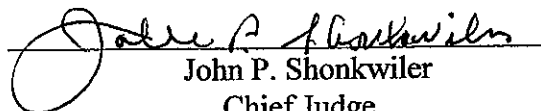

The Offender Management Program will provide adequate personnel and an inventory of GPS monitoring devices to perform supervision of offenders, as directed by specific court order. CAM Systems will be responsible for installing the GPS device on the offender and collecting all fees and costs from the offender for said monitoring. Secure Alert will be responsible for reporting to the proper authorities when an offender violates the conditions of a stay away order.

The Offender Management Program will focus on the monitoring of offenders through the utilization of electronic monitoring devices. These devices shall include, but will not be limited to, the use of active Global Positioning System (GPS) and electronic home confinement to increase offender accountability, as an alternative to incarceration, to increase public safety and to enforce pre and post sentencing needs or requirements of each court. The 6th Judicial Circuit shall utilize the Offender Management Program until otherwise ordered by the chief circuit judge, Sixth Judicial Circuit.

Each county within the Sixth Judicial Circuit shall prepare a separate order for the assignment of offenders to the Offender Management Program which shall include the conditions of compliance. Bonds, certificate of conditions of probation or supervision or orders of conviction may be amended setting forth said conditions of compliance.

Dated: March 31, 2009

Effective Date: May 1, 2009

John P. Shonkwiler
Chief Judge
Sixth Judicial Circuit
