# 2020 Census considerations

- UIUC student confusion or lack of awareness about where to complete their Census forms.
- Confusion and lack of trust among foreign-born residents about completing Census form and citizenship question.
- COVID-19 delaying and preventing in-person Census taker visits.
- Even if these issues do not affect the quality of the 2020 Census data, the public may question the data validity.
- However, we must work with the data available.
