Division of Water Pollution Control ANNUAL FACILITY INSPECTION REPORT

for NPDES Permit for Storm Water Discharges from Separate Storm Sewer Systems (MS4)

This fillable form may be completed online, a copy saved locally, printed and signed before it is submitted to the Compliance Assurance Section at the above address. Complete each section of this report.

Report Period: From March, 2014 To March, 2015

Permit No. ILR40 00256

MS4 OPERATOR INFORMATION: (As it appears on the current permit)

Name: County of Champaign, Illinois Mailing Address 1: Brookens Administrative Center

Mailing Address 2: 1776 East Washington Street County: Champaign

City: Urbana State: IL Zip: 61802 Telephone: (217) 384-3708

Contact Person: John Hall, Director of Planning and Zoning Email Address: jhall@co.champaign.il.us
(Person responsible for Annual Report)

Name(s) of governmental entity(ies) in which MS4 is located: (As it appears on the current permit)

Champaign County, Illinois

THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. Changes to best management practices (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

- | | | | |
|--|--------------------------|---|--------------------------|
| 1. Public Education and Outreach | <input type="checkbox"/> | 4. Construction Site Runoff Control | <input type="checkbox"/> |
| 2. Public Participation/Involvement | <input type="checkbox"/> | 5. Post-Construction Runoff Control | <input type="checkbox"/> |
| 3. Illicit Discharge Detection & Elimination | <input type="checkbox"/> | 6. Pollution Prevention/Good Housekeeping | <input type="checkbox"/> |

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

ANNUAL FACILITY INSPECTION REPORT

April 1, 2015

N.P.D.E.S. PHASE II PERMIT FOR STORMWATER DISCHARGES

from

MUNICIPAL SEPARATE STORM SEWER SYSTEMS

Champaign County, Illinois
NPDES Permit No. ILR40 00256

REPORTING PERIOD:

Year 1 is April 1, 2014 to March 31, 2015

MS4 OPERATOR INFORMATION:

County of Champaign, Illinois
Brookens Administrative Center
1776 East Washington Street
Urbana IL 61802
Contact person: John Hall, Director of Planning and Zoning

GOVERNMENTAL ENTITY IN WHICH MS4 IS LOCATED:

Champaign County, Illinois

INTRODUCTION

Champaign County was identified as a small Municipal Separate Storm Sewer System (MS4) in March 2003 as part of the expanded Phase II of the National Pollutant Discharge Elimination System (NPDES) Storm Water Program.

Mandated by Congress under the Clean Water Act, the NPDES Storm Water Program is a comprehensive two-phased national program for addressing the non-agricultural sources of storm water discharges which adversely affect the quality of our nation's waters. The Clean Water Act prohibits anybody from discharging pollutants through a point source into a water of the United States unless they have an NPDES permit. A point source is any discernible, confined and discrete conveyance, such as a pipe, ditch, channel, or container.

Phase II required small MS4s in urbanized areas to obtain NPDES permits and implement six minimum control measures by using selected best management practices (BMPs).

Urbanized areas are delineated by the Census Bureau and are defined as a central place or places and the adjacent densely settled surrounding area, that together have a residential population of at least 50,000 people and an overall population density of at least 500 people per square mile. Only about 10 square miles (about 1%) of the approximately 1,000 square miles that make up Champaign County are included in the urbanized area (see the attached map).

Champaign County is not a municipality but the regulatory definition of MS4 also includes any County owned road with a drainage system. County Highway roadside ditches are currently the only point source discharges in the urbanized area maintained by Champaign County.

Champaign County must maintain compliance with the MS4 requirements of the NPDES Storm Water Program. MS4 compliance requires that an updated Notice of Intent (NOI) be on file with the Illinois Environmental Protection Agency (IEPA) at all times. The NOI must explain which best management practices Champaign County will use to implement the six required minimum control measures. The six required minimum control measures are the following:

- **Public Education and Outreach.** Selected BMPs should educate the public on the various ways to reduce storm water pollution.
- **Public Participation and Involvement.** Selected BMPs should involve the public in developing, implementing, and reviewing MS4 best management practices.
- **Illicit Discharge Detection and Elimination.** Selected BMPs should identify improper discharges and spills to drainage systems and include enforcement mechanisms.
- **Construction Site Runoff Control.** Selected BMPs should enable construction site operators (builders and MS4s) to manage storm water runoff so as to reduce pollution.
- **Post-Construction Runoff Control.** Selected BMPs should enable property owners (developers and MS4s) to manage storm water runoff so as to reduce pollution from a site after construction activities have ended.
- **Pollution Prevention and Good Housekeeping.** Selected BMPs should enable the MS4 entity to minimize pollution from its own property and facilities by reducing pollution from streets, parking lots, open spaces and storage and vehicle maintenance areas and is discharged into local waterways or that results poor maintenance of storm sewer systems.

Champaign County has worked in cooperation with the other MS4s in the Champaign County Urbanized Area to share costs and expertise and common efforts to develop a regional consistency towards fulfilling the NPDES Phase II MS4 requirements.

Champaign County has sought to develop a plan suited to the MS4 requirements but also tailored to the abilities of an Illinois county. The NPDES Phase II MS4 requirements were included as a formal County land use policy in the Champaign County Land Resource Management Plan that was adopted in April 2010.

Champaign County filed a third NOI with IEPA to include the five-year period of April 1, 2014 to March 31, 2019. This document serves as the annual report for Year 1 activities.

SELF ASSESSMENT OF PERMIT COMPLIANCE

Item A: Changes to Best Management Practices

There are no changes to the 31 BMPs listed for Year 1 of the NOI effective April 1, 2014.

Item B: Permit Compliance Assessment

The Champaign County Stormwater Management Program proposed implementing three BMPs for Year 1 of the ILR40 permit (beginning with the reissued date of 2014). These BMPs address all six minimum control measures and at least one BMP in each minimum control measure was completed over the course of the reporting period. Tables 1 through 6 summarize stormwater management program activities from April 2014 through March 2015. Table 7 identifies BMP's that were started and still in progress and Table 8 identifies BMP's that remain pending.

Table 1: Public Education and Outreach

BMP ID	Activities
A.1.1. - Flyers and information sheets at permit counter.	A new handout regarding erosion control requirements in rural Champaign County plus handouts regarding County planning and zoning topics are displayed and available at the Planning and Zoning permit counter. These are available to the public at any time and are included in materials when applicable.
A.2.1. - Inform business groups about MS4, NPDES, and BMPs upon request.	No requests for presentations about MS4, NPDES and BMPs were made from business groups.
A.2.2. - Inform developer, contractor, engineering, and architecture groups about MS4, NPDES, and BMPs.	A presentation about MS4, NPDES and BMPs was not formally given to developers, contractors, engineers and architecture groups. However, information was sent to engineering firms regarding the proposed Erosion and Sediment Control Ordinance. Some comments were received that have improved the draft ordinance.
A.2.4. - Inform environmental, conservation, and citizen groups about MS4, NPDES, and BMPs upon request.	No requests for presentations about MS4, NPDES and BMPs were made from environmental, conservation, and citizen groups.

Table 2: Public Participation and Involvement

BMP ID	Activities
B.4.1 – Comply with applicable state and local public notice requirements.	Zoning Board of Appeals held public hearings on Case 769-AT-13 (proposed Storm Water Management and Erosion Control Ordinance).
B.6.1. - Intergovernmental Storm Water Management group meetings.	Staff attended and participated in three meetings over the course of the reporting year.
B.7.1. - Include NPDES MS4 requirements in the County's Land Resource Management Plan.	Annual update and Erosion Control Ordinance work included in RPC Work Plan for FY15.

Table 3: Illicit Discharge Detection and Elimination

BMP ID	Activities
C.3.1. - Establish citizen complaint phone line for illegal dumping and illicit discharges into drainage systems.	The Department of Planning and Zoning phone line is maintained for citizen complaints regarding illegal dumping and illicit discharges. References could be added to relevant directories.
C.3.2. - Establish citizen complaint phone line for non-complying and/or non-functioning private sewage treatment systems	The Department of Planning and Zoning phone line is maintained for citizen complaints regarding non-complying and / or non-functioning private sewage treatment systems. References could be added to relevant directories.
C.6.1. - Annual Report to the Environment and Land Use Committee (of the Champaign County Board) and the Champaign County Board.	Annual Report prepared and presented to the Environment and Land Use Committee (ELUC).

Table 4: Construction Site Runoff Control

BMP ID	Activities
D.4.1. - Develop processes and procedures to evaluate proposed construction site runoff mechanisms.	The draft Erosion and Sediment Control Ordinance identifies specific information that must be submitted in order to evaluate proposed construction site runoff mechanisms. Procedures will be implemented upon adoption of the ordinance.

Table 5: Post-Construction Runoff Control

BMP ID	Activities
	All BMP's in progress or incomplete
	See tables 7 and 8 below.

Table 6: Pollution Prevention / Good Housekeeping

BMP ID	Activities
	All BMP's incomplete
	See tables 7 and 8 below.

Table 7: BMPs in Progress

BMP ID	Status
C.2.1. - Prohibit illegal dumping and illicit discharges into drainage system.	Ordinance language has been drafted regarding illegal dumping and illicit discharges into drainage systems. Adoption of the draft language will be pursued after Erosion and Sediment Control Ordinance has been adopted.
C.3.3. - Create a database of existing private sewage treatment systems and develop management plan to bring non-compliant systems into compliance.	Records of private sewage treatment systems obtained from Public Health Department. GIS database is under development.
D.1.1. - Soil erosion and sediment control regulations.	Draft erosion and sediment control ordinance (Case 769-AT-13) went through a public hearing, was recommended to the County Environment and Land Use Committee, and is currently under consideration by the County Board.
D.2.1. - Erosion and sediment control BMPs.	Erosion and Sediment Control BMPs are included in the draft Erosion and Sediment Control Ordinance. Details are included as technical appendices.
D.3.1. - Prohibit illegal dumping and illicit discharges into storm drainage system from construction activities.	The draft Erosion and Sediment Control Ordinance includes a prohibition of illegal dumping and illicit discharges from construction activities and seeks to address potential issues through appropriate site planning and buffer requirements for certain activities.
D.4.2. - Training class or workshop for evaluating and inspecting construction site runoff control mechanisms.	A budget for staff attendance at training for evaluating and inspecting construction site runoff control mechanisms was approved for FY2015.
D.6.1. - Develop procedures and processes to inspect construction sites for compliance with construction site runoff control mechanisms.	The draft Erosion and Sediment Control Ordinance identifies the levels of compliance that are expected upon inspection. Inspection procedures will be implemented upon adoption of the ordinance.
E.3.1. - Develop procedures to insure that storm water management facilities are maintained to function as designed (post-construction).	The draft Erosion and Sediment Control Ordinance requires ongoing maintenance of stormwater management facilities.

Table 8: BMPs Pending

BMP ID	Explanation of Pending Status
A.2.3. - Inform agriculture community, Farm Bureau, and 4H about MS4, NPDES, and BMPs.	Looking for groups that would like a presentation.
A.6.1. - Educational and informational material on web page.	An individual webpage for the stormwater management program has not been developed yet. A page will be created once the erosion and sediment control ordinance is complete.
C.1.1. - Map drainage system outfalls into streams and rivers.	Mapping is expected to begin in 2015.
E.2.1. - Require annual inspections of publicly owned storm water management facilities (post-construction).	Expected to be included in SWPPP to be developed in 2015.
E.4.1. - Training class or workshop for evaluating and inspecting construction site runoff control mechanisms (post-construction).	Expected to occur in 2015.
E.5.1. - Develop procedures and processes to inspect construction sites	Dependent upon final requirements adopted in the erosion and sediment control ordinance.

for compliance with post-construction runoff control mechanisms.

F.1.1. - Spill prevention protocol.	Undetermined due to lack of coordination within County Departments. Expected to be established with the development of the SWPPP.
F.1.2. - Spill response protocol.	Undetermined due to lack of coordination within County Departments. Expected to be established with the development of the SWPPP.
F.1.3. - Pesticide storage, application, and disposal training.	Investigating the storage, application and disposal of pesticides by grounds maintenance.
F.1.4. - Hazardous material and storage management training.	Investigating the storage, application and disposal of pesticides by grounds maintenance.
F.2.1. - Storm water Pollution Prevention Plan (SWPPP) for County owned facilities.	Planning efforts are expected to begin in 2015.
F.3.1. - Investigate feasibility and effectiveness of integrated, bio-detention and filtering for County campus redesign.	Issue was not discussed by the County Board.

INFORMATION COLLECTED AND ANALYZED IN YEAR 1

Champaign County did not collect stream samples to assess stormwater quality for Year 1 of the permit period. No observations or reports were made or received during the reporting year.

Information related to private sewage treatment systems was collected and is being compiled into a GIS database.

STORMWATER PROGRAM ACTIVITIES PROPOSED FOR YEAR 2 (April, 2015–March 2016)

The activities proposed for Year 2 (April 2015– March 2016) are summarized in Attachment D.

RELIANCE ON OTHER GOVERNMENTAL ENTITY

Champaign County does, and will continue to participate in and share resources with the Cooperative MS4 Group; however, it does not rely on another governmental entity to satisfy its permit obligations.

YEAR 1 CONSTRUCTION PROJECTS

Champaign County construction projects may be authorized under the Facilities Department or the Highway Department. Projects and details are provided in Table 9.

Table 9: Construction Projects from April 2014 through March 2015

Section Number	Road District	Project Type	Area of Disturbance	Status
14-10004-00-BR	East Bend	Culvert Replacement	< 1 acre	Set for Spring 2015
