

MEMORANDUM OF UNDERSTANDING
BETWEEN
CARLE FOUNDATION HOSPITAL
AND
CHAMPAIGN COUNTY SHERIFF'S OFFICE
FOR
ADMINISTRATION OF INTRANASAL NALOXONE BY DEPUTIES

Purpose:

The purpose of the Memorandum of Understanding (the "MOU") is to establish a working relationship between Carle Foundation Hospital ("Carle") and Champaign County Sheriff's Office ("CCSO"). Carle and CCSO may be referred to herein individually as a "Party" and collectively as the "Parties".

It provides an agreement whereby Carle provides naloxone and MAD (as defined herein) to CCSO deputies to benefit community members who have respiratory failure or impending respiratory failure after an opioid overdose. Opioid Overdose is defined as an intentional or unintentional use of an opioid containing prescription, or heroin, that causes decreased level of consciousness and inadequate respirations to support brain and heart function.

Method of Cooperation:

Carle administration will arrange an annual meeting to review this MOU. The Parties will communicate to update each other about any mutual developments related to this MOU. Both Parties will review contact information and agreed upon services and make modifications as needed in writing. In the event a particular need is previously unforeseen, either party may amend this MOU and document changes on the MOU at the earliest possible convenience and submit for new signature.

Agreement:

The Parties Have Agreed as Follows:

Carle agrees to purchase naloxone and mist atomizer devices ("MAD") to outfit kits for the CCSO deputies.

Carle agrees to train the deputies to recognize impending respiratory failure from opioid overdose and to administer intranasal naloxone via MAD.

Carle agrees to resupply the MAD after use by the CCSO deputies.

Carle agrees to resupply naloxone after use if the deputy is unable to exchange the empty naloxone syringe with the EMS agency.

CCSO deputies agree to administer intranasal naloxone via MAD if they deem appropriate using the training they were given by Carle.

The parties will share information about patients who have received naloxone such that the process can be monitored for quality.

Term/Severance of Agreement:

This MOU shall enter in force upon signature by both Parties and remains in force perpetually, unless terminated earlier by either Party upon thirty (30) days, written notice to the other Party.

The termination of this MOU shall not affect the validity or duration of projects under this MOU that are initiated prior to such termination.
