

HIGHWAY BUILDING CAPITAL

Fund 083-062

BUDGET HIGHLIGHTS

This budget was created in FY2018 to allocate funds for the capital costs of highway building facilities. A Facility Assessment Report completed by Bailey Edward in November 2015 indicated that the annual cost to maintain the Deferred Maintenance Backlog (DMB) for the Highway Fleet Maintenance, Highway Salt Dome and Highway Garage facilities is approximately \$300,000. The Highway Department began transferring funds to this Capital Fund in 2018 and will continue to transfer funds this year. This is intended to be like a “sinking fund” where funds accumulate until capital repairs are necessary. Although this falls short of the DMB, it is a good start to having a healthy maintenance fund for the Highway Department facility.

For the 2021 budget there is \$100,000 budgeted as an expenditure for capital repairs that may arise during the year. Additionally, the budget includes receipt of insurance funds for hail damages incurred in July 2020, and appropriation for repairs to be completed in FY2021.
