## APPENDIX A

### I. ENVIRONMENTAL HEALTH

The following environmental health services supplement the Local Health Protection Grant environmental health programs.

A. Community surveillance, education and prevention to prevent mosquito-borne viruses including West Nile virus.

- a. Performance of environmental surveillance, public information, human case investigation and prevention of mosquito-borne diseases such as West Nile viral encephalitis and other vector-borne diseases. These activities are funded by an Illinois Department of Public Health [IDPH] grant to the County Health Department.
- b. The Public Health District presently is operating under the Intergovernmental Agreement between the Champaign-Urbana Public Health District, the City of Champaign, the City of Urbana and the Village of Savoy for the *Culex* Mosquito Prevention Program effective April 1, 2011. The Village of Savoy is participating in this program at no expense to the County Health Department. The Village of Savoy is paying for its participation in this program.

B. Radon test kit distribution and community education to promote radon awareness and mitigation. These activities are funded by a grant from the Illinois Emergency Management Agency to the Public Health District.

C. Perform services within the county jurisdiction pursuant to the grant agreements for the body art program, tanning program and the summer food inspection program. These services are funded by IDPH grants to the Public Health District.

D. Well water testing for non-valid public health significance [i.e., for any reason other than a reason for which testing is required under the potable water supply program standard], as interpreted by IDPH, is a fee-for-service program. Interpretation and dissemination of laboratory test results for coliform bacteria from the IDPH laboratory will be performed. Fees shall be paid according to the fee schedules and payments will be made to the County Health Department.
