MINUTES

I. Call to Order

Committee Chair Esry called the meeting to order at 6:30 p.m.

II. Roll Call

A verbal roll call was taken and a quorum was declared present.

III. Approval of Agenda and Addenda

MOTION by Goss to approve the agenda as amended; second by Thorsland. Upon vote, the **MOTION CARRIED** unanimously.

Hall asked to add item VII E; for information only. He provided a handout of an email from Ted Hartke, and an article related to wind and solar farms.

IV. Approval of Minutes

A. ELUC Committee Meeting – February 7, 2019

MOTION by Thorsland to approve the minutes of the February 7, 2019 ELUC meeting; second by Goss. Upon vote, the **MOTION CARRIED** unanimously.

Asplund stated the agenda contains a typo. The date of the minutes to be approved should be February 7, 2019, not February 7, 2018.

V. Public Participation

Arik Miller

Miller stated he would remain at the meeting and be available for questions regarding agenda item IX C, the zoning case.

VI. Communications

Esry reviewed the information contained in a handout provided by Susan Monte, regarding a hazardous waste recycling event in Gibson City.

Esry noted copies of the CLOSED session minutes related to agenda item XI A are being circulated for review.

VII. New Business: for Information Only

A. *Selected Legislative Bills of Potential Interest*

Monte summarized four of the bills listed that she feels are relevant to County residents. Two of the bills relate to the Mahomet Aquifer and two involve fees for single-use bags. Eisenmann expressed concern regarding the language pertaining to records related to company waste which would not be subject to FOIA in SB2027.

B. *Illinois Environmental Protection Agency Notice of Application and Public Hearing for 401 Water Quality Certification, Dynegy Midwest Generation, LLC, Middle Fork Vermilion River Bank Stabilization, Vermilion County*

Monte stated the public hearing is scheduled for March 26, 2019, considering a permit application to construct a wall to contain the coal ash at the river bank. She noted this is not the desired solution that many are seeking. Monte encouraged all to contact the National Park Service; who has authority under the National Wild & Scenic Rivers Act.

C. *Update on Dangerous Structures Enforcement Cases*

Hall commented the issue of dangerous structure enforcement cases was presented to the County Board for the first time in 2015. He reviewed some of the properties listed on the handout provided. In response to a question from Goss related to the Foosland cases listed, Hall explained cases are prioritized by the number of complaint calls received by the Planning and Zoning office.

D. *Update on Champaign County Land Bank*

Hall noted the most recent path is for Champaign County to join the Vermilion County Land Bank.

E. *Ted Hartke Email*

Hall provided a copy of an email and article provided by Ted Hartke relating to dispositioning materials at the decommissioning of a wind or solar farm.

VIII. New Business: Items to Receive and Place on File by ELUC to Allow a 60-Day Review Period

A. *Direction Regarding Proposed Zoning Ordinance Text Amendment for PV Solar Farm Requirements in Response to Municipal Concerns*

Hall stated some of the things stated in the letter are not proposed in this amendment. The municipalities requested the 60-day review period. He noted the text amendments were discussed at an RPC technical

meeting. Hall cautioned that although the proposed minimum separation is increased to one and one-half miles, he does not anticipate future solar farm developers will find sites outside the mile and a half.

Thorsland commented he does not support some of the proposed text amendments; particularly the minimum separation. He stated there does not seem to be any data to support negative impacts on development or home values. Fortado raised a concern about the subdivision approval for solar farm land lease exceeding five years.

MOTION by Goss; seconded by Eisenmann. Upon vote, the **MOTION CARRIED**.

B. *Direction Regarding Proposed Zoning Ordinance Text Amendment for PV Solar Farm Requirements Other Than in Response to Municipal Concerns*

Hall explained the proposed changes. According to Hall, the current language of the ordinance only allows people to apply for a variance for a non-conforming structure only after a structure has been damaged. Hall stated a local bank requested the proposed change regarding bond ratings. Goss commented that this may be because smaller, local banks cannot afford a rating by Moody's or Standard & Poor's.

The committee provided direction to Hall to structure these amendments to be voted on separately. Hall asked committee members to communicate preferences of the structure of the amendment packages to him.

MOTION by King-Taylor; seconded by Goss. Upon vote, the **MOTION CARRIED** unanimously.

IX. New Business: Items to be Recommended to the County Board

A. *Resolution Approving the Application for, and If Awarded, Acceptance of a 2019 ILCSWMA Mini-Grant*

Monte provided a handout and stated the funds would be used to advertise for a pharmaceutical collection in April. Fortado suggested the addition of matching funds information to the form.

MOTION by Thorsland; seconded by King-Taylor. Upon vote, the **MOTION CARRIED** unanimously.

B. *Resolution Approving the Application for, and If Awarded, Acceptance of a 2019 American Water Environmental Grant*

Monte provided a handout and stated the funds would be used to support content and use of a website addressing MS4 public education.

MOTION by Goss; seconded by Fortado. Upon vote, the **MOTION CARRIED** unanimously.

C. **Zoning Case 924-AM-19.** *A request by Arik and Kylie Miller d.b.a. Miller Farm Barn, to amend the Zoning Map to change the zoning district designation from AG-1 Agriculture to AG-2 Agriculture in order to establish and operate a Rural Event Center as a combination "Private Indoor Recreational Development" and "Outdoor Commercial Recreational Enterprise" as a Special use Permit in related Zoning Case 925-S-19, on a 10.2 acre tract of land in the East half of the Northeast Quarter of Section 28 of Township 21 North, Range 10 East of the Third Principal Meridian in Compromise Township and commonly known as the farmstead at 2079 CR2600N, Gifford.*

Hall explained the change to the AG-2 zoning district allows for the Special Use Permit for the Event Center. He noted the ZBA continued the case regarding the event center until March 28. In response to a question by Thorsland, Arik Miller responded he is working to develop a life safety plan. Miller noted he does not have any other intended use for the barn, if the special use is not granted. Eisenmann asked how Miller intends to comply with the noise restriction in the nuisance ordinance. Miller responded he intends to monitor noise levels and is willing to work with neighbors if there is a problem.

MOTION by Thorsland; second by Patterson. Upon vote, the **MOTION CARRIED** unanimously. Per a request by Thorsland, this item will not be on the consent agenda.

X. Old Business

- A. *Resolution Appointing Recycling Coordinator for Champaign County REVISIT – not taken to Feb CB meeting*

Hall stated this was not taken to the February board meeting due to concerns raised by the County Executive, Darlene Kloeppel. Monte commented the language in the resolution changes from the Coordinator being “appointed” to being “designated”.

MOTION by Fortado; second by Thorsland. Upon vote, the **MOTION CARRIED** unanimously.

XI. Other Business

- A. *Semi-annual Review of CLOSED Session Minutes*

Esry noted the minutes recommended for opening have been distributed for the committee members to review.

Summary

This memorandum describes survey responses to the 2018 Champaign County MS4 Area Storm Water Survey, and contains a comparison between the survey responses received in 2018 and in 2017.

Survey Intent.

The Champaign County MS4 Area Storm Water Survey is administered to identify citizen concerns related to storm water within the Champaign County Urbanized Area. The Champaign County Urbanized Area includes Champaign, Urbana, Savoy, Tolono, and the all areas located within one half-mile of those municipalities.

The annual survey is conducted to satisfy the Champaign County MS4 Storm Water NPDES Annual Facility Report identified best management practice requirement regarding Public Involvement/ Participation of Environmental Justice Areas within the Unincorporated MS4 Area.

Study Area Population.

In 2018, Champaign County's MS4 "qualifying" EJ Parcel jurisdiction is comprised of a total of 3,212 parcels. Allowing a 95% confidence interval and a 5% margin of error, the random sample size of 344 was used, as recommended for a population of 3,212.¹

Survey Distribution.

On June 11, 2018, a total of 400 surveys were mailed to a randomly selected sample of recipients residing within Environmental Justice areas of the Champaign County MS4 Area. A bilingual copy (English/ Spanish) of the survey is available on the Champaign County Department of Planning and Zoning Storm Water Program webpage, and available upon request.

Sample Size.

As of June 29, 2018, a total of 70 survey responses were received. A reminder postcard was mailed to the same random sample of 400 parcels.

Response Rate.

As of August 28, 2018, a total of 84 mailed survey responses and 1 online survey response was received. A response rate of 24 percent was reached with regard to the mailed survey. A 10%-15% response rate for a survey distributed by mail is considered an average.

Follow-up Contact regarding County Board Review.

A total of 13 respondents indicated they wanted to be notified about the County Board review of survey results, with 10 respondents providing contact info.

Comparison of survey responses received in 2018 and in 2017.

RE: Proposed Changes to MS4 Environmental Justice Areas

BACKGROUND

Champaign County was identified as a small Municipal Separate Storm Sewer System (MS4) in March 2003 as part of the expanded Phase II of the National Pollutant Discharge Elimination System (NPDES) Storm Water Program. As such, Champaign County must maintain compliance with the MS4 requirements of the NPDES Storm Water Program.

Since 2016 the Illinois Environmental Protection Agency has required all MS4 permittees to "...identify environmental justice areas within its jurisdiction and include appropriate public involvement/participation."

The Illinois Environmental Protection Agency defines Environmental Justice (EJ) as the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies

The Illinois Environmental Protection Agency defines Environmental Justice (EJ) Area as a community with a low-income and/or minority population greater than twice the statewide average. In addition, a community may be considered a potential EJ community if the low-income and/or minority population is less than twice the state-wide average but greater than the statewide average and it has identified itself as an EJ community. If the low-income and/or minority population percentage is equal to or less than the statewide average, the community should not be considered a potential EJ community.

Champaign County uses a mailed survey as a means of providing appropriate public participation for its EJ Area population.

The income and population statistics used to identify EJ Areas change yearly and therefore, the EJ Areas may change yearly. Each year since 2016 the Regional Planning Commission staff has been tasked with identifying the EJ Areas within the unincorporated area.

The attached PowerPoint presentation summarizes the EJ Areas for the program year 4/1/19-3/31/20 and the changes from the previous year.

RE: Solar Farm Zoning Text Amendment

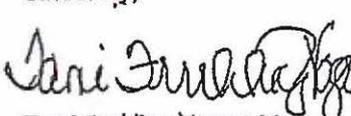

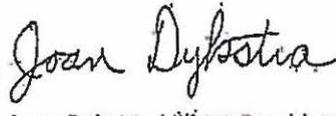

Dear Chairman,

As you're aware, the County Board recently adopted text amendments in the Zoning Ordinance regarding Solar Farms in Champaign County. This has resulted in a flurry of zoning cases whereas many of the applicants are seeking various waivers to the said Ordinance. Of particular interest to the Local Municipalities, is the development of such Solar Farms within the one and one-half mile extraterritorial jurisdiction (ETJ). As we have long experienced; the County and Municipalities must work together within our shared jurisdictional limit that is mutually beneficial and respectful of each agency's planning efforts. This is why it was surprising to learn that the Solar Farm zoning changes did not adhere to the standard ETJ but reduced permitting to the one-half mile limit. In addition; the notification process is concerning given the potential of large-scale developments within our respective planning areas.

Pursuant of your Board Value Teamwork which includes "Intragovernmental Cooperation" and "Collaboration to Achieve Goals" definitions, we are requesting that County Board and/or the Environment and Land Use Committee (ELUC) reevaluate the application requirements for Solar Farms located in Champaign County. Specifically, we request that full ETJ one and one-half-mile distance be enforced when considering any application. In addition, we believe there is an opportunity to improve our collaborative efforts by implementing a requirement for the Municipality to consider a resolution which would accompany the application to the County. This resolution would be considered non-binding regarding the Solar Farm request however it would completely satisfy the notification requirements which has been called into question.

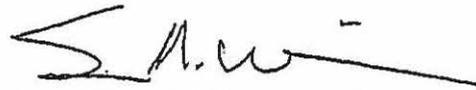

We look forward to your prompt attention to this matter and we stand ready to discuss further.

Sincerely,

The existing Section 6.1.5B.(2) is as follows:

- (2) The PV SOLAR FARM County Board SPECIAL USE permit shall not be located in the following areas:
- a. Less than one-and-one-half miles from an incorporated municipality that has a zoning ordinance unless the following is provided:
 - (a) No part of a PV SOLAR FARM shall be located within a contiguous urban growth area (CUGA) as indicated in the most recent update of the CUGA in the Champaign County Land Resource Management Plan, and there shall be a separation of one-half mile from a proposed PV SOLAR FARM to a municipal boundary at the time of application for the SPECIAL USE Permit, except for any power lines of 34.5 kVA or less and except for any proposed PV SOLAR FARM substation and related proposed connection to an existing substation.
 - (b) The PV SOLAR FARM SPECIAL USE permit application shall include documentation that the applicant has provided a complete copy of the SPECIAL USE permit application to any municipality within one-and-one-half miles of the proposed PV SOLAR FARM.
 - (c) If no municipal resolution regarding the PV SOLAR FARM is received from any municipality located within one-and-one-half miles of the PV SOLAR FARM prior to the consideration of the PV SOLAR FARM SPECIAL USE permit by the Champaign County Board, the ZONING ADMINISTRATOR shall provide documentation to the County Board that any municipality within one-and-one-half miles of the PV SOLAR FARM was provided notice of the meeting dates for consideration of the proposed PV SOLAR FARM SPECIAL USE Permit for both the Environment and Land Use Committee and the County Board.
 - b. Less than one-half mile from the CR Conservation Recreation Zoning District.

1. Revise Section 6.1.5B.(2) as follows:

- (2) The PV SOLAR FARM County Board SPECIAL USE permit shall not be located in the following areas:
- a. Less than one-and-one-half miles from an incorporated municipality that has a zoning ordinance except for any power lines of 34.5 kVA or less and any related proposed connection to an existing substation. Any request for a waiver of this minimum separation shall include unless the following is provided:
 - (a) No part of a PV SOLAR FARM shall be located within a contiguous urban growth area (CUGA) as indicated in the most recent update of the CUGA in the Champaign County Land Resource Management Plan, ~~and there shall be a separation of one-half mile from a proposed PV SOLAR FARM to a municipal boundary at the time of application for the SPECIAL USE Permit, except for any power lines of 34.5 kVA or less and except for any proposed PV SOLAR FARM substation and related proposed connection to an existing substation.~~

{NOTE: The 11/5/18 letter from non-home rule municipalities requested an increase of the required separation to one-and-one-half miles and better notification to municipalities. Increasing the minimum separation distance to more than one-half mile will make all existing approved solar farms “nonconforming” which will interfere with the right to make repairs if an already approved PV SOLAR FARM is damaged to more than 50% of replacement value so changes are also proposed to Section 8 Nonconformities. See proposed changes to Zoning Ordinance Section 8.2.}

- (b) The ZONING ADMINISTRATOR shall notify in writing any municipality that is located within one-and one-half miles of any proposed PV SOLAR FARM upon the receipt of any substantial PV SOLAR FARM SPECIAL USE permit application in addition to any notice otherwise required.
- (b c) The PV SOLAR FARM SPECIAL USE permit application shall include documentation that the applicant has provided a complete copy of the SPECIAL USE permit application to any municipality within one-and-one-half miles of the proposed PV SOLAR FARM.
- (d) Municipal subdivision approval for any PV SOLAR FARM land lease exceeding five years may be required by any relevant municipal authority that has an adopted comprehensive plan and when required said subdivision approval shall be necessary for compliance with Section 13.2.1.

ATTACHMENT C. DRAFT Changes to Section 6.1.5B.(2) PV Solar Farm Requirements
FEBRUARY 27, 2019

(e) The public hearing for any proposed PV SOLAR FARM that is located within one-and-one-half miles of a municipality that has a zoning ordinance shall occur at a minimum of two BOARD meetings that are not less than 28 days apart to provide time for municipal comments during the public hearing, unless the 28-day comment period is waived in writing by any relevant municipality.

(d f) For any proposed PV SOLAR FARM that is located within one-and-one-half miles of a municipality that has a zoning ordinance, the ZONING ADMINISTRATOR shall notify said municipality of the recommendation by the BOARD after the close of the public hearing.

{Note: This part of the amendment was not requested in the 11/5/18 letter from non-home rule municipalities but a communication to any affected municipality at the end of the public hearing is reasonable to ensure good coordination.}

(e g) After the initial review of the BOARD recommendation for the PV SOLAR FARM SPECIAL USE permit by the Environment and Land Use Committee of the COUNTY BOARD, if the Environment and Land Use Committee makes a preliminary determination to accept the BOARD recommendation, the PV SOLAR FARM SPECIAL USE permit shall remain at the Environment and Land Use Committee for a maximum 30-day comment period, or until the next regularly scheduled meeting, to allow comments regarding the PV SOLAR FARM SPECIAL USE permit to be received from any relevant municipal authority prior to the Environment and Land Use Committee recommendation to the County Board, unless the municipal comment period is waived in writing by any relevant municipality. If a PV SOLAR FARM is not located within one-and-one-half miles of a municipality the Environment and Land Use recommendation can be referred to the County Board without a municipal comment period.

{NOTE: This part of the amendment was not requested in the 11/5/18 letter from non-home rule municipalities but is consistent with comments made by some municipal planning staffs and should facilitate consideration by non-home rule municipalities. Note that the same review described above could be added under Section 9.2 Amendments to formalize the review of text amendments.}

(e h) If no municipal resolution regarding the PV SOLAR FARM is received from any municipality located within one-and-one-half miles of the PV SOLAR FARM prior to the consideration of the PV SOLAR FARM SPECIAL USE permit by the Champaign County Board, the ZONING ADMINISTRATOR shall provide

documentation to the County Board that any municipality within one-and-one-half miles of the PV SOLAR FARM was provided notice of the meeting dates for consideration of the proposed PV SOLAR FARM SPECIAL USE Permit for both the Environment and Land Use Committee and the County Board.

2. Add the following to Section 8.2.3 at the end:

The requirements of Section 8.2.3 shall not apply to any PV SOLAR FARM authorized prior to {effective date of this amendment} or PV SOLAR FARM equipment that is in the process of being repaired or replaced.

{Note: This part of the amendment was not requested in the 11/5/18 letter from non-home rule municipalities but is recommended to correct for making recently authorized PV SOLAR FARMS “nonconforming”. This part of the amendment makes clear that any recently authorized PV SOLAR FARM that later fails to operate and is in the process of being repaired will not lose its zoning right to operate.}

3. Add new Section 8.2.4 as follows:

8.2.4 For purposes of applicability of this Section 8.2 to any PV SOLAR FARM, any PV SOLAR FARM for which a SPECIAL USE permit had been authorized prior to {effective date of this amendment}, said PV SOLAR FARM may be constructed in compliance with the SPECIAL USE permit and subject to a duly approved Zoning Use Permit so long as the construction shall be consistent with the SPECIAL USE permit expiration requirements of Section 6.1.5T. and any special conditions of approval that may be applicable.

{Note: This part of the amendment was not requested in the 11/5/18 letter from non-home rule municipalities but is recommended to correct for making recently authorized PV SOLAR FARMS “nonconforming”. This part of the amendment corrects for that part of Section 8.2 that refers to ‘...a lawful USE of land exists...’ and it makes clear that any recently authorized PV SOLAR FARM may be constructed pursuant to the standard requirement of a Zoning Use Permit, provided that the Special Use Permit has not expired.}

RE: Update on Direction Regarding Proposed Zoning Ordinance Text
Amendment for PV Solar Farm Requirements Other than in Response
to Municipal Concerns (continued from the 3/7/19 ELUC meeting)

BACKGROUND

At the 3/7/19 meeting the Committee reviewed a memorandum dated 2/27/19 that included two proposed changes to the Zoning Ordinance. Those changes are included as Attachment A.

The 2/27/19 memorandum also referred to another proposed change involving the minimum required credit rating for financial institutions headquartered in Champaign County providing solar farm financial assurance. No draft language was included for this proposed change in that 2/27/19 memo.

ALTERNATIVE MINIMUM CREDIT RATING FOR FINANCIAL INSTITUTIONS HEADQUARTERED IN CHAMPAIGN COUNTY

The Zoning Ordinance currently requires that a financial institution providing financial assurance for solar farm decommissioning must have a minimum corporate debt rating of "A" by S&P or "A2" by Moody's. Staff has been contacted about establishing alternative minimum credit ratings for banks headquartered in Champaign County.

An alternative minimum credit rating for banks headquartered in Champaign County that provide financial assurance for solar farm decommissioning is proposed in Attachment B.

The proposed alternative minimum credit rating for banks headquartered in Champaign County is approximately the same as the minimum corporate debt ratings from S&P or Moody's so there should be little or no added risk to Champaign County arising from this proposed change.

It is assumed there is only one bank headquartered in Champaign County that will be able to meet these minimum credit ratings.

The proposed changes in this memorandum have been referred to the State's Attorney's Office for legal review.

FEBRUARY 27, 2019

1. Delete existing Section 6.1.5B.(2)b.:

b. ~~Less than one half mile from the CR Conservation Recreation Zoning District.~~

{Note: This part of the amendment is not related to the 11/5/18 letter from non-home rule municipalities. Based on the reviews of recently authorized PV SOLAR FARMS, a minimum separation from the CR Conservation Recreation Zoning District is not necessary and should be eliminated from the Ordinance.}

2. Amend Section 8.3.2 to read as follows (proposed new text is underlined):

8.3.2 Should such STRUCTURE be destroyed by any means to an extent of more than 50% of its replacement cost at the time of destruction, it shall not be reconstructed unless a VARIANCE is granted by the BOARD in accordance with Section 9.1.9. The BOARD may authorize such a VARIANCE prior to such STRUCTURE incurring any damage or destruction.

{Note: This part of the amendment was not requested in the 11/5/18 letter from non-home rule municipalities and is not related to any recently authorized PV SOLAR FARM. This part of the amendment makes it clear that an owner can apply for a variance to replace a nonconforming structure prior to the structure actually being destroyed.}

**RE: Resolution Authorizing the Execution of an Intergovernmental
Agreement to Provide for Champaign County Participation in a Land
Bank with the Vermilion County Land Bank
(Update on Champaign County Land Bank Project)**

BACKGROUND

Notes from the latest Champaign County Land Bank Project Meeting are included as Attachment A. Note that most of the meeting attendees were from Rantoul.

**VERMILION COUNTY LAND BANK AUTHORIZES AMENDING BYLAWS TO
ALLOW NEW MEMBERS FROM OUTSIDE VERIMILION COUNTY**

The Vermilion County Land Bank Authority recently voted to authorize amending their bylaws to allow members from outside Vermilion County to join, so that Champaign County jurisdictions could join the land bank. Those bylaws have not yet been amended.

A copy of the existing unsigned Intergovernmental Agreement and Bylaws for the Vermilion County Land Bank Authority is included as Attachment B.

COSTS FOR CHAMPAIGN COUNTY MEMBERSHIP IN JOINT LAND BANK

The cost of membership for Champaign County to join the land bank is expected to be similar to the cost for Vermilion County to join the Vermilion County Land Bank Authority. For the first three years of membership in the land bank Vermilion County paid \$50,000 for year one; \$40,000 for year two; and \$5,000 for year three.

It is possible that the total cost for Champaign County membership could be a contribution of cash and/or real property and/or in-kind contribution but that is yet to be determined. Champaign County currently has three properties acquired through demolition of dangerous structures and a land bank could provide a means of disposal of such properties. The appraised values of those three properties total approximately \$34,000.

An ongoing contribution may also be required beyond the first three years but the hope is that the land bank will be self-supporting after three years.

BENEFITS OF CHAMPAIGN COUNTY MEMBERSHIP IN A LAND BANK

It is difficult to estimate the benefits to Champaign County from membership in a land bank. The most likely benefit is as a means of disposing of properties that Champaign County acquires from demolition of dangerous structures.

Because the land bank is a form of intergovernmental agreement there could be some benefit to the land bank from having Champaign County as a member, but that is a legal question that may need researched.

- 2. Update and discussion on Vermilion County Land Bank proposal**

Vermilion County Land Bank Authority (VCLBA) voted 18-1 to authorize amending their bylaws to allow members from outside Vermilion County. This vote was specifically taken to allow members from Champaign County to join.

The group discussed a number of issues, including how the land bank would be funded, staffing, voting rights, a proposed requirement that all members financially support the land bank, and how to assist communities with varying degrees of capacity and interest.

- It is anticipated that the initial funding of the land bank could comprise 2 grants from IHDA, which combined total \$450,000. Additional funding would be secured from ongoing resource development activities, fees for services, and transaction proceeds.**
- Staffing would comprise a new Executive Director and 2 additional staff, which would include the current VCLBA staff in a part-time or advisory capacity. Staff would be hired as needed; in-kind staffing support or services to offset the need for new staff would be explored.**
- Each member would be required to commit to support the land bank through a contribution that could include a cash grant, contributions of real property, in-kind goods and services, or something with cash value**

equivalency. How much support and what form is to be determined, but the initial ask is for a 3-year commitment, to ensure the land bank has adequate time. The group also discussed that the bylaws could stipulate conditions on where funds had to be expended and what portions might be allocated to general operating expenses.

- The land bank would provide on-call services to member communities, so communities would ultimately decide whether and how to use the land bank in their respective jurisdictions. The land bank would not be authorized to act in a jurisdiction without the governing body authorizing it via adoption of the land bank IGA AND express approval of the project or activity in question.

After discussion, Brian White recommended a working group of representatives from Champaign and VCLBA meet and begin addressing key operational issues, including, but not limited to: amending the bylaws; establishing a 3-year budget and strategic plan; establishing a staffing plan; reviewing and revising governing documents; and, extending membership to Champaign County members. He also recommended that the new land bank board plan to take refresher training on land banking in Illinois, so that all members shared a baseline knowledge.

Brian White and Ken Turner will contact VCLBA.
