Intergovernmental Agreement between the County of Champaign and the City of Champaign

Mr. Cooper stated the committee has seen this agreement before. They are trying to come up with some revised wording to make the document clearer as well as setting an amount so the County doesn't pay over what we have put in our budget. There will also be a termination date added with the City having to come back to us with a new agreement if there is to be an extension.

MOTION by Crozier to defer this item to the November Highway & Transportation Committee Meeting; seconded by Langenheim.

Mr. Crozier stated he asked to defer this issue as a courtesy to our incoming Engineer, he feels the November meeting would allow him time to get settled and review this issue.

Ms. Busey suggested that if the motion is passed, the committee move their November meeting so they can vote on the issue with the currently seated County Board.

Ms. Feinen stated if negotiations are to continue she would like the negotiating team to think about discussing the option of the County completing a portion of this in exchange for sales tax revenue, we're improving a road so we can have additional tax revenue in Champaign and she feels if we are going to participate it would be nice if we could share in that benefit for at least some time.

Committee consensus to hold the November committee meeting on Friday, November 5th with a regular committee meeting still being held on October 22nd.

Ms. Avery stated she would like to schedule a meeting with members of the subcommittee and the new County Engineer to review this issue and decide on a date for a joint meeting with City officials to further negotiate an agreement to present to the committee on November 5th.
