#### Board of Directors Champaign County Nursing Home Urbana, Illinois April 9, 2012

Directors Present: O'Shaughnessey, Hambrick, Anderson, Czajkowski, Hambrick, Palinkas

Directors Absent/Excused: Emanuel

Also Present: Busey, Gima, Schuette

#### 1. Call to Order

The meeting was called to order at 6:00 pm by Chair O'Shaughnessey

#### 2. Roll Call

Busey called the roll of Directors. A quorum was established.

#### 3. Agenda & Addendum

The agenda was approved as submitted (motion by Czajkowski, second by Anderson, unanimous).

#### 4. Approval of Minutes

The open session minutes of March 12, 2012 were approved as submitted (motion by Anderson, second by Czajkowski, unanimous).

#### 5. Public Participation

There was no public participation.

#### 6. Old Business

There was no old business.

#### 7. New Business

#### a. Administrator's Report

Schuette provided an update on the recent IDPH surveys:

The IDPH revisit was completed with no findings. The Life Safety Survey plan of correction was also completed. The survey window is now closed.

Kenna Williamson, Care Plan Coordinator, provided an overview of the MDS 3.0 assessment process:

MDS 3.0 is a holistic look at a resident. It is a 40 page document that requires between 1 to 3 hours to complete, including interviews with residents and families. It is used to determine our reimbursement for both Medicare and Medicaid. In the coming months, it will be used to determine how surveys are conducted. Surveyors will know what areas of care that will be targeted in the survey process based on the quality indicators that will be derived from the MDS. In February, a total of 227 assessments were completed. In January, 198 were completed. Medicare assessments are done at day 5, day 14, day 30 and every 30 days thereafter. Private pay and Medicaid residents are assessed within 14 days of admission, every quarter and if a significant change in condition occurs.

#### b. Management Report: Operations and Financial Position

Gima reviewed the February financials. February showed a net loss of -\$16k. Revenues were just under \$1.1 million, under budget by \$87k. Expenses were just under \$1.2 million, \$4k under budget. Three factors contributed to the loss. Census drop in February,

December operations were profitable with a gain of \$25k. January revenues are expected to be \$1.266 million, which bodes well for January's results.

Census for January 2012 was 197.6. The mix for the last two months has been excellent with Pvt Pay coming in very strong. Medicare volume still needs improvement:

	Dec 11	Jan 12
Medicaid	53%	53.1%
Pvt Pay	38%	37.8%
Medicare A	9%	9.2%

Medicare Advantage plans are exerting new pressures to reduce length of stay. CCNH has no difficulties with that objective. There are issues with establishing proper measures of performance that correctly reflect the responsibilities of each party.

CCNH's cash position increased slightly from 1.1 million in January to \$1.13 million in February. Accounts receivable increased from \$3.8 million to \$4.0 million. Accounts payable increased slightly from \$1.62 million to \$1.8 million during the same period. The cash balance is at the mercy of the state's status on Medicaid payments. The Comptroller's office stated that it is possible that there could be an additional payment delay before the end of the state fiscal year. CCNH is currently facing a three-month payment delay.

#### c. Medicaid Payment Status\Medicaid Rate Cuts

The rhetoric out of Springfield is much stronger this year than last year regarding Medicaid provider rate cuts. The Governor has thrown out a 9% rate cut. HFS has an internal memo stating a 6% cut. The message is clear – nursing homes will see some level of rate cuts starting in July. The state currently does not have enough funds to pay all of its bills. It is highly unlikely that any budget cuts implemented in 2013 will be deep enough to the point where the state will have enough cash to pay its' bills. As a result, it is also highly likely that we will also face additional payment delays.

The IGT program will dampen Medicaid rate cuts. With the IGT, a 5% rate cut will result in an effective rate cut of about 3.2% - which still reduces our Medicaid revenue by almost \$200k over 12 months.

#### d. Corporate Compliance

Additional background information was provided to the Board in the management update. Information on services that would be provided under the Shared Compliance Program was reviewed.

#### e. Renal Dialysis Update

Management met with a third renal dialysis company last week. A follow-up meeting is expected within the next two weeks.

#### 8. Next Meeting Date

Monday March 12, 2012, 6 pm.

#### 10. Adjournment

Chair O'Shaughnessey declared meeting adjourned at 6:50 pm.

Respectfully submitted

Scott T. Gima Recording Secretary To:

Re:

Management Report

March's census came in at 190.7, which is down considerably from our average of 197.3 for the first fiscal quarter (Dec-Jan-Feb).

Here's what's happened on admissions and discharges.

	Nov	Dec	Jan 2012	Feb 2012	Mar 2012
Admits				-	
Pvt	8	8	5	5	8
Pay/Insurance					
Medicare A	12	13	10	18	12
Medicaid	1	2	l l		2
Total	21	22	16	23	22
Discharges					
Pvt	5	5	6	8	8
Pay/Insurance				]	
Medicare A	6	9	5	10	7
Medicaid	1		1	1	2
Total	12	15	12	19	17

March's payer mix was 35 percent Private Pay, 54 percent Medicaid, and 10 percent Medicare. CCNH trend of late has been 37.3 percent Private Pay, 52.4 percent Medicaid, and 10.3 percent Medicare. Medicare volume has remained down and has had continuing revenue implications. In March, Medicare volume was up, but Medicare revenues were down; Pvt Pay volume was down over February and the only direction revenues is down.

March 2012 resulted in a loss of \$(66)k.

Noteworthy items for March include:

• Revenue was under budget by \$(49)k. Within this figure is a shortfall in Medicare A revenues, some \$(29)k under budget. The variance in Medicare A is not as dramatic as it has been in prior months. Pvt Pay revenues were under budget by about \$(94)k while Medicaid was \$67k over budget. Pvt Pay has been a very positive development in December and January; CCNH lost the edge in February. The March variances are significant; of particular note is the fact that 456 resident days converted from Pvt Pay to Medicaid status during the month.

There is a broader issue with the conversion days being so high. We are not used to seeing such a high number; DeKalb County has recently experienced high conversion days as well; it may well be a signal that eligibility delays are mounting at HFS. The impact of conversion days is that they distort revenue recognition for both private pay and Medicaid. When the days are lower, the effect is more manageable. But 456 days is enough to make us re-think how we handle this transaction.

- Expenses were under budget by \$1,220, but within this positive variance are several areas where CCNH should have performed better.
- Within non-labor expenses, Attorney Fees were over budget by \$3k; Professional Fees were \$4k over budget; insurance was under budget by \$(10)k; gas w \$6k under while electric was \$5k over; food was \$6k over. In Nursing, expenses were \$4k over budget; nursing expenses have been running under budget. Within Nursing, various operational items including Pharmacy, Professional Fees, and Equipment Rentals were over budget. Agency costs were \$83k, an upward and a troubling spike from what we have been experiencing.

Take a look at the figures in bold type-face as they represent significant changes from prior months. (Figures will not add to 100 percent.) The obvious highlight is the change in Medicaid and Pvt Pay. The table documents significant negative swings in the percentages of Medicaid and Pvt Pay. Medicare A is still not where we want it, but Medicare was not the problem in March.

	Dec-11	As Pct of Pt Revenue	Jan-12	As Pct of Pt Revenue	Feb-12	As Pct of Pt Revenue	Mar-12	As Pct of Pt Revenue
Medicare A	\$269k	22.5%	\$267k	22.6%	\$246k	22.8%	\$264k	23.6%
Medicaid	\$457k	38.2%	\$464k	39.3%	\$432k	40.1%	\$490k	44%
Pvt Pay	\$418k	35%	\$394k	33.4%	\$347	32.5%	\$293k	26.3%

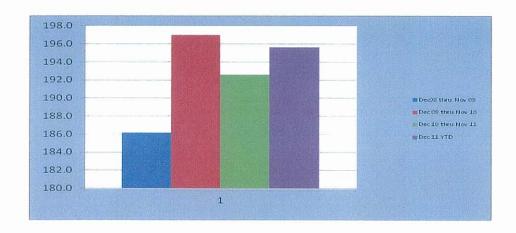

Misc Revenue and Property Taxes excluded from calculation

Expenses came in at \$1.269 million. Agency costs were \$83k in total; this level of expenses represents a continuing a trend of reduced agency reliance. But February was higher than

expected and March was higher still. Further below in this memo you will find a chart tracking agency usage.

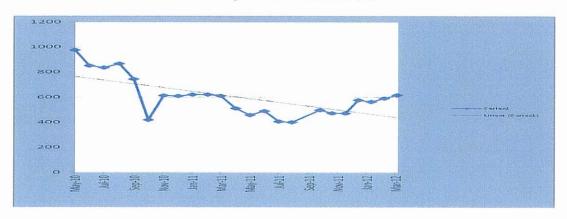

Average daily census has stabilized at a higher level. For fiscal 2010, CCNH experience an ADC of 197; our target was 195. For Fiscal 2011, CCNH dipped to 193. That result is still better than recent history, but not where it should be. Fiscal 2012 may be mimicking last year's census pattern: off to a good start but dipping in the 2<sup>nd</sup> and 3<sup>rd</sup> fiscal quarters when census, particularly Medicare A, tanked. You see this in the graph, below, where the purple bar (representing this current fiscal 2012) is quite a bit better than 2011.

#### **ADC By Fiscal Year**

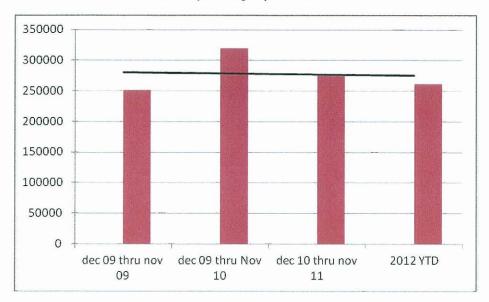

Medicare days were 617 in March for an ADC of 19.9 including the Medicare Advantage days, which do not pay on a par with traditional Medicare. Based on CCNH's recent experience, Medicare census has not been as strong as what we had built up last year. Here's the pattern for Medicare A since May of last year. This is a big change in a short period of time.

Medicare A Resident Days May 2010 thru March 2012

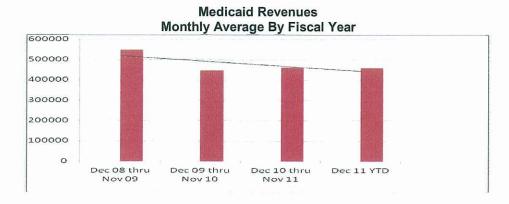

In November, Medicare revenues came close to reversing a 7-month period where Med A revenues were under \$300k. November posted \$292k in Med A revenues; December, sadly, dropped to \$269k. The per diem – at \$466 - was lower than expectations. January saw Medicare A revenues at \$267k with a per diem of \$473. February, was not good at \$246k. This month, March, was \$264k. As you can tell from the following graph, the Medicare trendline is no longer flat, but is now declining.

Med B came in at \$46k, which is significantly better than average.

Beginning in July 2011, Medicaid revenues exceeded \$500k per month for four consecutive months. That represented a major change in CCNH's pattern; since Oct 09 Medicaid revenues had consistently been under \$500k. In Fiscal 2012, Medicaid revenues have been under \$500k, but March reached \$490k. Consequently, CCNH's monthly average for Medicaid revenues has now edged higher than what it was for 2010:

CCNH's payer mix continues to move in a direction that is, overall, positive. A return to a higher Medicaid percentage of revenue will represent continued financial stress. The following table provides the comparisons in this significant change

# Comparative Payer Mix CCNH

	Dec-07 thru June 08	Dec-08 thru Mar-12
Medicaid	62%	52.4%
Medicare	<del>9</del> %	10.3%
Pvt Pay	29%	37.3%
Totals	100%	100%

Last Four Months w/Property Tax and County
Overhead Allocated Monthly

	Dec-11	Jan-12	Feb-12	Mar-12
Medicare A Medicare B Medicaid Pvt Pay Adult Day-Private Adult Day-TXX Miscellaneous Property Tax	\$ 269,111 \$27,443 \$456,867 \$418,380 \$7,950 \$14,065 \$1,112 \$86,119	\$267,048 \$32,308 \$464,209 \$394,211 \$8,120 \$10,634 \$4,109 \$86,119	\$245,984 \$29,922 \$432,112 \$347,185 \$8,930 \$9,721 \$2,991 \$86,119	\$263,665 \$45,762 \$490,350 \$293,488 \$6,912 \$12,617 \$1,666 \$87,840
All Revenues	\$1,281,047	\$1,266,758	\$1,162,964	\$1,202,300
All Expenses	\$1,255,779	\$1,239,820	\$1,178,640	\$1,268,540
Net Income/(Loss)	\$ 25,268	\$26,938	\$(15,676)	\$(66,240)
Census Change ADC Change	6,192 199.7	6133 (1.0)% 197.8 (0.9)%	5,631 (8.2)% 194.2 (1.9)%	5,912 5.0% 191 (1.8)%
FTE	183.1	180.3	174	178

March's ending cash balance was \$1.115k at month-end and remains a testimonial to how thin CCNH's cash position really is. Accounts Payable for March was \$1.822 million. Cash position remains tight and this roller-coaster situation continues to retard overall performance.

The following graphs provide a comparative statement of position for CCNH through March 2012.

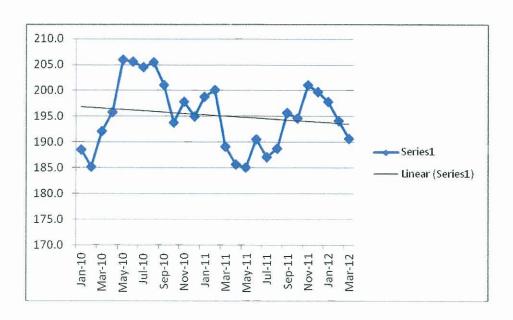

The solid line is a trend line for the displayed data and it should appear in red on your computers. (These graphs will display best when viewed on your screens.)

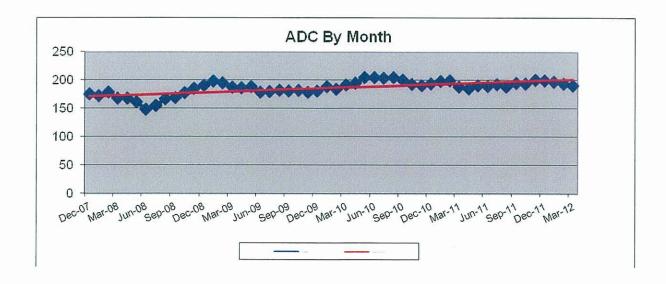

#### Census

Census continues to receive a lot of attention. Fiscal 2010 ended with an ADC of 196.5 versus our target of 195. Fiscal 2012 (Dec-Jan-Feb) got off to a good start. However, as you have been following things via the flash updates, census has trailed off.

CCNH met its census target of 195 in Dec and January, but not in February (194); March was 190.7.

ADC Since January 2010

#### Revenues

For eleven of the last twelve months, revenues have been less than \$1.2 million (property taxes excluded). July, August were the lowest yet at \$1.108 million and \$1.103 million, respectively. November was a bright spot at \$1.602 million (retro IGT). December was \$1.194 million – close but not quite there. The critical factor still is with Medicare revenues, although there have been significant swings with Medicaid and Pvt Pay. Usually these swings work against each other, i.e., Medicaid increases and Pvt Pay falls. Overall, Fiscal 2011 saw large swings in volume and revenue, leaving a huge revenue gap with Medicare that still needs to be filled.

CCNH's Medicare A has now weakened and is a major concern. When one compares CCNH's current performance against its mid-year figures, the Medicare drop has been significant and it has had a telling impact on revenues. So, while revenue from patient services is down about 7 percent, Medicare A is down over 25 percent.

# Revenue From Pt Services By Month in millions

	All (avg)	Medicare (avg)
July 2010 thru Jan 2011	\$1.246	\$0.357
Feb 2011 thru Mar 2012	\$1.158	\$0.265
Change	\$(0.088)	\$(0.092)
Percent	(7.1)%	(25.8)%

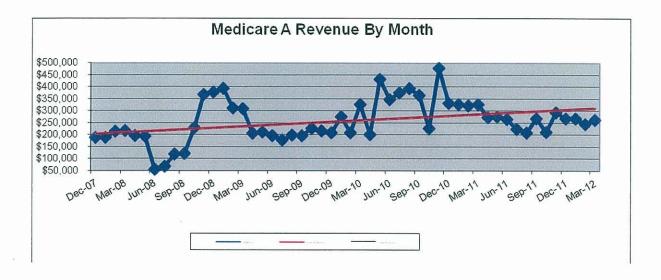

#### Medicare Average Census Days

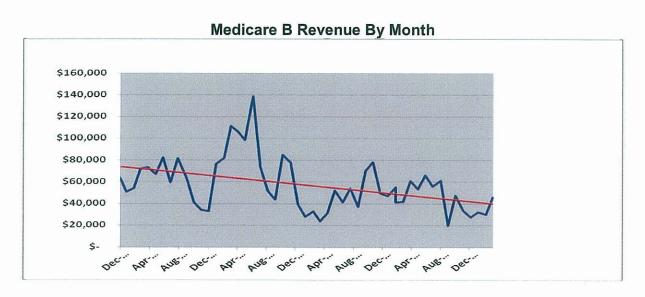

Period	Days/month
Dec09-Mar 2010 Dec10-Mar 2012	592 532
Apr10-Nov 2010	756
Pct Chg (Nov 10 over Mar 12)	(29.6) pct

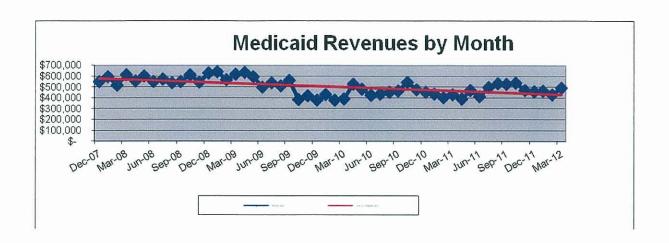

The Medicare per diem is a critical factor in building a better revenue base and we have significant improvements to make in our performance.

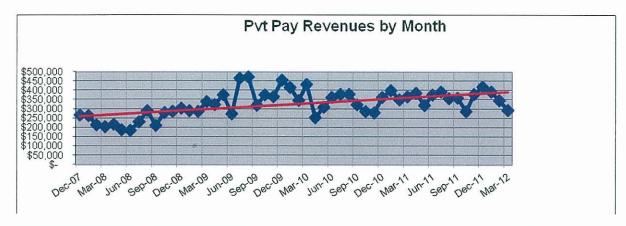

For the most part, Medicaid revenues continue to be stable. Since November, Medicaid revenues have decreased slightly, fortunately off-set by Private Pay. Recently, Medicaid was on the rise, but in recent months it has returned to lower utilization levels.

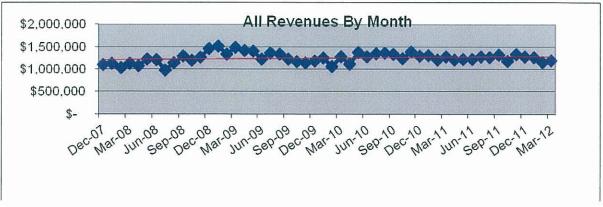

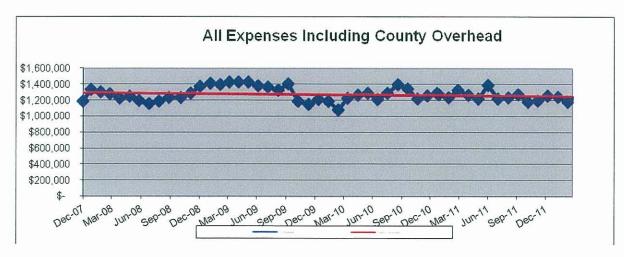

#### **Expenses**

Total expenses for March amounted to \$1.269 million.

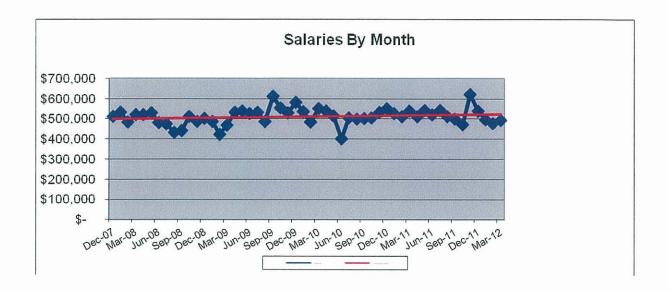

The following graph illustrates agency expense through March 2012. We are concerned with the recent increases in agency usage. We have established the fact that we can do better.

The big picture view appears in the following graph. The figures since October 09 reflect the elimination of the transfer expense associated with IGT program.

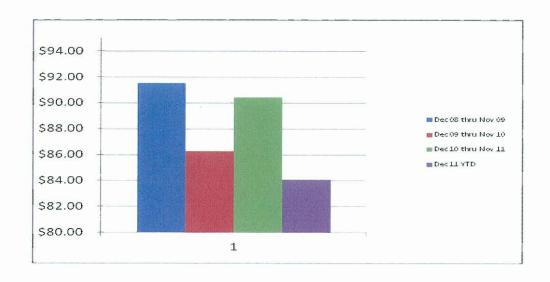

Salaries continue to be our biggest cost. Graphically, the salary relationship is presented below.

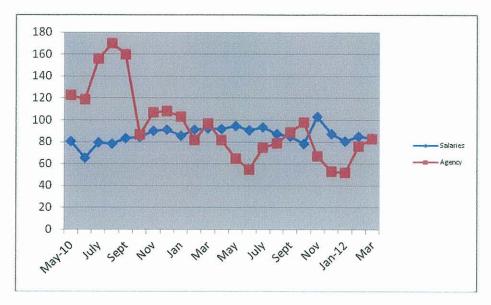

Salaries per resident day are settling in at \$90-\$92. This fiscal year, FY 2012, salary cost per day has been under \$90; February was \$84.85 and March \$83.28. The big picture, though, gives you the salient point: CCNH costs are under control. Salaries per day are up compared to last year, but that is more than off-set by the reduction agency costs. The last graph, below, compares salaries to agency, and there has been a big improvement in containing outside staffing costs. Despite a few tumbles here and there, CCNH staffing controls are usually effective.

Salaries Per Resident Day By Fiscal Year

#### Summary

Census continues to be the big determinant of success. The first quarter of fiscal was decent: on average (197.3) we met the census goals. February was a bit unnerving as CCNH dropped below the target of 195 – admittedly not by much at 194.2. However, I am reminded of CCNH's experience last year when a strong first quarter was followed by two weak ones. It's true that I am jittery on this and March has proven me correct so far. Medicare revenues continue to be problematical. Volume swings between Pvt Pay and Medicaid were significant in March.

As you have been following in the Flash Updates, the State's Medicaid financing crisis continues to evolve. Being able to secure working capital remains our highest priority. Operating effectiveness will reduce – but not eliminate – the need for financing working capital.

Re: Cash Position

Sources & Uses of Anticipated Funds

Attached are several exhibits showing CCNH's cash position as of March 31, 2012.

Perhaps the graph exhibit best represents the changes in the important balance sheet accounts: cash, accounts receivable, and accounts payable. The receipt of a large amount of retro IGT payments was a huge boost; with the State now paying regularly, CCNH should enjoy predictable cash flow until August or September, when the slow payment fun begins all over again.

Since November 2011, Accounts Receivable and Accounts Payable are down appreciably. Cash is up. As of March 2012, A/R and A/P are up slightly; cash remains just over \$1.1 million and has been steady for the last 3 months.

individual facility is likely to struggle with policy development and implementation, causing the auditing requirements attendant to compliance to suffer.

I think the best format for this new endeavor is to use the existing management agreement and make compliance a special assignment for MPA. A detailed proposal of our compliance services is attached, along with an Amendment to Management Contract. You may engage MPA to perform the compliance services by signing the Amendment.

Very truly yours,

Michael A. Scavotto

Ma South

President

- The Federal government is getting more aggressive—and successful—at recovering penalties under these laws. For example, health care fraud prosecutions increased 69% last year. As the government refines data mining and other technology tools, enforcement will increase.
- The Patient Protection and Affordable Care Act mandates compliance programs for all SNFs by March 23, 2013. Even if the Supreme Court overturns this law, the compliance requirement is likely to stay, or be reenacted as separate legislation. Even without a mandate, a compliance program is essential to avoid hefty penalties.
- A compliance program can only prevent criminal sanctions if it is effective, and this requires day-to-day implementation, strategy, auditing and regulatory updates. This is more than a busy administrator or DON can handle.
- MPA's Shared Compliance Programs use our qualified team of legal, management, nursing, administrative and financial expertise to provide compliance services tailored to each SNF, working closely with existing staff and procedures. MPA provides a baseline audit of compliance status, policy and procedure development, assistance with compliance training, strategic guidance for auditing, ongoing review of and updates to the program, and best practices.
- MPA's compliance services minimize financial loss with reduced sanctions, penalties and lawsuits; improve quality of care and reputation; lower exposure to liability; improve best practices; reduce whistle blowing; and minimize repayments.

This joint compliance effort will require corporate support from our offices in St. Louis plus daily on-site involvement from the CCNH staff. MPA's General Counsel & Compliance Officer – a healthcare attorney experienced in regulatory compliance – will provide the overall guidance to the program. A compliance officer will be selected from the CCNH management staff and will serve as the day-to-day contact for the compliance program.

MPA's goal is to create a system for implementing compliance that lowers costs; strengthens regulatory accountability; and allows individual facilities like CCNH to take advantage of economies of scale normally reserved for facilities that are members of systems and/or chains.

MPA's shared approach has worked well with MPA Business Systems, which have been in place at DeKalb and Champaign Counties and are working well. Both clients have recognized a savings of approximately 40 percent while improving the effectiveness of the Business Office.

MPA's Shared Compliance Program is priced at \$40,000 annually (subject to CPI increases in future years). It is designed to be less costly than hiring additional staff to manage an in-house compliance program. In developing our Shared Compliance Program and in early experience with other clients, it is clear that individual facilities lack the resources to keep up with the regulatory programs and changes that are emanating from Federal and State agencies. At best, an

Ms. Mary Ellen O'Shaughnessey Chair, Board of Directors Champaign County Nursing Home 500 S. Art Bartell Rd. Champaign Illinois 61802

Re: Corporate Compliance

Shared Compliance Program

Dear Ms. O'Shaughnessey:

#### Confidential

The purpose of this memorandum is to formalize our proposal regarding the Compliance Program at Champaign County Nursing Home (CCNH).

You have asked for a proposal from MPA where MPA would direct the compliance program at CCNH. In previous discussions with the Nursing Board of Directors, we have advanced the following compliance parameters:

 Nursing homes are expected to comply with HIPAA, OIG screening requirements, the Anti-Kickback Statute, the Stark/Self-Referral Law, the False Claims Act, billing and cost reporting rules, Medicare and Medicaid regulations, resident rights, and quality of care standards—that's a lot to keep up with.

# Shared Compliance Program Proposal Champaign County Nursing Home

#### Introduction

As you are aware, the Affordable Care Act requires compliance programs as a condition of enrollment in federal healthcare programs. While this mandate is reason enough to upgrade compliance procedures, providers have additional incentives to invest in compliance. Increasing government regulation, coupled with heightened enforcement of healthcare fraud laws, has moved compliance to the forefront of operational concerns. Reimbursement cuts make the management of revenues and costs essential. HIPAA violations, careless vendor agreements, and other common mistakes can lead to hefty financial penalties; and billing errors can lead to unexpected repayments. An effective, fully implemented compliance program is an economical way to improve processes and reduce risk.

#### **Objectives**

- Create a compliance culture that compliments your organization's missions
- Maximize adherence to federal and state requirements
- Target organization-specific risks
- Minimize financial loss from penalties, repayments, investigations and defense
- Improve quality of practices, services and care
- Improve billing accuracy and claims processing
- Enhance employee morale
- Reduce whistle blowing
- Improve organizational reputation

#### **Compliance Services**

In order to achieve the above objectives, MPA proposes to perform the following services (described in more detail at Exhibit A). MPA will work with CCNH's administrator and other staff to assess CCNH's current compliance status and develop a Compliance Program that satisfies government requirements and targets your organization's risks.

The Office of Inspector General (OIG) recommends that all healthcare compliance programs contain the following elements:

- (1) Written policies, procedures, and standards of conduct
- (2) A designated compliance officer and compliance committee
- (3) An effective training and education program
- (4) Effective lines of communication
- (5) Enforcement of standards through well-publicized disciplinary guidelines

- (6) Internal monitoring and auditing
- (7) Prompt response to detected offenses and corrective action

In addition to the components recommended by the OIG, we suggest including the following in the Compliance Program: (8) Regular review of Compliance Program; and (9) Updates to the Compliance Program.

#### Stages of Development

Please see Exhibit A for a detailed description of services; Exhibit B for timelines; and Exhibit C for a Table of Responsibilities.

#### I. Assessment

MPA will work with CCNH staff to conduct a baseline audit of CCNH's compliance status.

#### II. Program Document Development

MPA will develop a Compliance Program document that contains CCNH's policies and procedures ("P&P") on general compliance requirements and principles. The document will build on CCNH's existing P&P, supplementing as necessary to complete the Compliance Program.

#### III. Development of Policies and Procedures

Using the results of the baseline assessment, MPA will develop P&P targeting specific risk areas identified by the baseline assessment, CCNH input, and OIG and other guidance.

#### IV. Training and Education

MPA will develop a training plan, customized for CCNH to implement, in the form of live seminars, workshops, and/or webinars, that addresses 1) general compliance principles and procedures; and 2) specific areas of risk identified for CCNH (e.g. HIPAA, QA process management, vendor contracting, etc.).

#### V. Auditing and Monitoring

MPA will develop audit tools for CCNH to use to measure each Compliance Program risk area, including compliance risks identified for CCNH. The audit tools will be designed to regularly and strategically benchmark each area and redirect P&P in response to audit results.

#### VI. Updates and Improvements

MPA will provide ongoing updates to the Compliance Program based on new regulations, OIG guidance, and improvements in best practices. MPA will also organize a comprehensive annual review of the Compliance Program and recommend improvements.

#### Role of CCNH

A successful and effective compliance program requires two things: one, the strategic guidance and written policies and procedures, training plan, and auditing and monitoring guidance to be provided by MPA; and two, the commitment of resources such as time, personnel, cultural emphasis, the regular performance of audits, and the ongoing provision of training, to be provided by CCNH. The ongoing success of your compliance program, once implemented, will require an ongoing commitment of personnel to conduct the facility-specific audits, conduct facility-level employee training, and follow policies and procedures. For further guidance on the roles of the parties, please see the Table of Responsibilities (Exhibit C).

#### **Professional Fees**

The total professional fees for the Compliance Program will be \$40,000.00 annually. Our services will be billed in twelve monthly billings of \$3,333.33, starting with the final approval of this proposal. (A partial first month will be pro-rated.)

In subsequent years, the professional fee is adjusted by growth in the CPI using the All Urban Consumers Index.

Additional costs related to long distance telephone, and other reimbursables (such as travel and lodging, webinar costs, training aids, etc.) are in addition to the professional fee and are billed at cost.

Our services are designed to reduce your risk of regulatory penalty via a program that is well-documented and maintained. However, there can be no assurance that all risk will be eliminated. Any damages arising from or out of our work will be limited to the lesser of either our professional fees or actual damages. Services rendered under MPA's Compliance Program are under the direction of a seasoned healthcare attorney with regulatory and compliance experience; however, our services do not constitute legal advice. In the event CCNH needs formal legal services in relation to the Compliance Program, we will be pleased to assist in the coordination of those services, if requested by CCNH.

You may cancel this arrangement at any time upon thirty (30) days' notice whereupon any obligations MPA may have to CCNH cease.

# Exhibit A Detailed Description of Compliance Program Services

MPA will work with CCNH to develop a Compliance Program with the following elements:

- 1. Written policies, procedures, and standards of conduct
- 2. A designated compliance officer and compliance committee
- 3. An effective training and education strategy
- 4. Effective lines of communication
- 5. Enforcement of standards through well-publicized disciplinary guidelines
- 6. Internal monitoring and auditing (to be performed by CCNH staff with MPA guidance)
- 7. Prompt response to detected offenses and corrective action
- 8. Regular review of Compliance Program
- 9. Updates to the Compliance Program

Compliance Program development is divided into the following six stages:

#### I. Assessment of Compliance Status

MPA will work with your staff to assess CCNH's current state of compliance with the nine Compliance Program Components.

This "baseline" compliance audit will be used to:

- Develop written policies, procedures, and goals for each Compliance Program element
- Create a specific action plan for meeting these goals
- Assign responsibility for each action item
- Develop an audit tool to measure the progress of each Compliance Program element

#### II. Compliance Program Document Development

MPA will draft a Compliance Program document, which will be tailored to organization-specific practices. Building on CCNH's existing compliance practices, MPA will develop P&P for the following Compliance Program elements:

#### Designating a compliance officer and compliance committee

MPA will work with CCNH to identify a Compliance Officer and Compliance Committee, and define the roles of the officer and committee. MPA will also help delineate how the compliance officer and committee will interface with and report to CCNH.

#### Conducting effective training and education

The Compliance Program will describe CCNH's plan for compliance related training (including how often employees will be trained and on what topics, and how training is documented).

#### · Developing effective lines of communication

If CCNH does not have one already, MPA will help CCNH develop a toll-free hotline for employees, residents, and others to report potential compliance program violations. MPA will incorporate the hotline availability and the practice of promoting the hotline into the Compliance Program document.

If requested, MPA will develop a dashboard which will be used to report the status of key compliance measures to senior management.

#### · Enforcing standards through well-publicized disciplinary guidelines

MPA will review CCNH's employee handbook to determine whether compliance is sufficiently addressed as an element of evaluating employees and managers. While compliance training and education are designed to prevent disciplinary action, the Compliance Program must state how non-compliance will be addressed. If additional P&P are needed, MPA will work with staff input to develop P&P that include consequences for violating the Compliance Program and failing to detect Compliance Program violations. Corrective action may take the form of employee education. P&P will explain the range of discipline; who is responsible for taking action and how matters are handled; and that disciplinary action will be taken on an equitable basis. These P&P will be listed in the Compliance Program document and become a part of employee training.

#### · Responding promptly to detected offenses and developing corrective action

MPA will review CCNH's P&P for handling internal investigations, and expand them in the Compliance Program document. There will be guidelines for: investigating incidents or reports of alleged non-compliance, including P&P for developing a proper corrective action plan; self-reporting overpayments; and how to document the investigation and corrective action process.

The Compliance Program document will also include a Code of Conduct setting forth CCNH's basic compliance requirements and guiding principles. Finally, the Compliance Program document will include P&P for compliance with federal and state false claims laws (required by the Deficit Reduction Act for entities that receive or make annual Medicaid payments of at least \$5 million).

# III. Development of Policies and Procedures that Target Organization-Specific Compliance Risks

Next, MPA will review CCNH's P&P against OIG compliance guidance; prior surveys; staff input; and the results of the baseline assessment. The P&P development will focus on the compliance risks identified in the baseline assessment.

#### IV. Training and Education

MPA will develop a training plan for CCNH to implement, which will set out training topics, frequency, and documentation requirements. In addition, MPA will provide the following training programs:

- ► General compliance training emphasizing the importance of compliance, and explaining the Compliance Program and how to report non-compliance. This training will be one live seminar or workshop (1 to 2 hours) provided to CCNH employees and County Board members.
- ► Two additional training sessions (live seminar, workshop, and/or webinar) addressing two compliance topics identified with CCNH (e.g. HIPAA, managing the QA process; etc.)

With each webinar or seminar, MPA will provide P&P for documenting completion of training and measuring training effectiveness. Training on additional topics and for employees and directors who join CCNH after the above training is complete is available for an additional fee.

#### V. Auditing and Monitoring

For each compliance risk area, MPA will work with CCNH staff (management, administrative, clinical and/or billing) to develop an audit tool to benchmark CCNH's compliance progress in each compliance risk area. Audit tools include: random sampling of records or charts, reviewing written contracts, observing clinical staff, assessing HIPAA documentation, evaluating employee training and discipline records, and reviewing compliance report complaint logs and investigative files. Audits will be conducted by CCNH personnel, with direction from MPA.

Audits will be repeated by CCNH at measured intervals as appropriate (monthly, quarterly, annually, or bi-annually, depending on the complexity of the standard and degree of risk involved). After each audit, CCNH will create a results report to be shared with your management staff. Periodically, MPA will review these reports, identify areas needing improvement, update goals, and work with your management staff to develop a plan to achieve these new goals.

#### VI. Updates and Improvements

MPA will provide ongoing regulatory updates to the Compliance Program. In addition, and in connection with the annual audit, MPA will organize an annual evaluation of the Compliance Program, specifically addressing whether:

- adequate resources are dedicated to compliance
- P&P need to be updated based on audit results
- the Compliance Program is followed by employees
- the roles of Compliance Officer and Compliance Committee need clarification or modification
- further employee education and training are needed
- the reporting mechanism is used
- disciplinary P&P are followed, applied consistently, and effective to prevent non-compliance
- audit techniques successfully identify risk areas and monitor improvements
- investigation and corrective action procedures promptly identify, minimize the effects of, and prevent further non-compliance
- the Compliance Program is sufficiently documented

The results of the evaluation will be reported to senior management along with recommendations for improving the Compliance Program in the following year.

#### **Corporate Support**

MPA will serve as a resource to you and will be available to answer questions that may arise regarding the Compliance Program and its policies and procedures.

#### **Ongoing Management of Your Program for Results**

The following steps are crucial for continuing a successful program:

- Creating a compliance culture that compliments the organization's mission
- Training and education
- Reviewing the effectiveness of auditing and monitoring
- Assessing the Compliance Program annually
- Updating the Compliance Program based on new regulations, OIG guidance, and improvements in best practices

When performed on an annual basis, the above services, combined with the efforts of your staff, will keep your Compliance Program effective.

Exhibit B Suggested Timeline

	Service/D	Deliverable	Estimated time for completion
I.			Assessment information requests will be sent to CCNH within one month of engagement. Once the information requests are returned to MPA, our analysis will take 8-10 weeks.
II.	Compliance Progran	n Document Development	3-4 weeks from completion of Assessment
III.	III. Development of P&P that Target Organization- Specific Compliance Risks		3-4 months from completion of Compliance Program document
IV.	Training and Education	General compliance training (live, 1-2 hours)	After the Compliance Program document is complete, training materials will be developed within 2 months
		Training on specific compliance issues (live or webinar)	After P&P development is complete, training will be developed within 1 month
		Additional training on additional topics identified by CCNH (if requested for an additional fee)	1-2 months for development of training program and materials
		General compliance training for new employees and directors who join CCNH after the above training has been completed (live or webinar) (if requested for an additional fee)	4-6 weeks to schedule training
		Procedures for documenting training completion and effectiveness	Provided with each training session
V. Auditing and Monitoring		-	After the Compliance Program P&P are finalized, MPA will develop audit tools (1-2 months). Audits will be conducted by CCNH, with MPA guidance, at various intervals as needed.
VI.	Updates and	Annual review of Compliance Program Effectiveness	4 weeks, to be performed one year after Compliance Program implementation
	Improvement	Updates based on regulation, guidance and best practices	Continual; as needed

Our goal is to complete the above services in 12 months. However, actual times may vary, due to unforeseeable scheduling delays, complexities, or expanded compliance needs. It may take more than a year for staff to become compliant with new policies, procedures, and audit functions. However, the written compliance program document, policies and procedures, and training and auditing plans will be in place for CCNH within one year of engagement, assuming cooperation of CCNH.

### Table of Responsibilities

Task	MPA Responsibility	CCNH Responsibility
Assessment of Compliance Status	Provide checklists, requests for information	Distribute checklists, requests for information to relevant personnel for completion
	Review and analyze responses to requests for information, and develop strengths, weaknesses, and goals	Provide information about existing compliance policies and procedures
		Facilitate timely and accurate completion of checklists and requests
		Participate in discussion about results
Compliance Program  Document Development	Draft compliance program document for CCNH	Review and provide feedback on draft documents
		Disseminate compliance program to employees, directors, and vendors
Develop Policies and Procedures that Target Organization-Specific	Amend existing policies. Draft additional policies and procedures	Provide existing policies and procedures
Compliance Risks		Review amended policies and new policies
		Disseminate completed policies and procedures and incorporate them into daily operations
Training and Education	Conduct one compliance training session for department managers and employees	Work with MPA to identify 2 risk areas appropriate for additional training
	Conduct live or webinar training on 2 additional compliance issues, for CCNH staff	Identify facility personnel who will provide ongoing employee education (new employee orientation, quarterly, annual in-
	Develop a plan for how CCNH will conduct, document and evaluate training on an ongoing basis	services)
Auditing and Monitoring	Develop audit tools for each of the risk areas that are a part of	Assign responsibility (CCNH staff) for conducting audits

	the CCNH compliance program	
	Schedule timelines for audits	Complete the audits and report the results back to MPA
	Review ongoing audit results with CCNH staff and monitor results for improvement and effectiveness	Provide feedback to MPA to identify the most effective audit processes
Updates and Improvement	Oversee an annual audit of overall compliance program effectiveness at CCNH	Participate in the annual audit; provide requested information to MPA
	Provide updates based on regulations, best practices, and other guidance	Incorporate updates into training, policies and procedures, and audit process
		Report new compliance concerns to MPA

#### Amendment to Management Contract

THIS AMENDMENT TO MANAGEMENT CONTRACT is made and entered into as of the	day of
2012 by and between the Champaign County Board, acting on behalf of the County of	
Champaign, a body politic and corporate owning and operating as Champaign County Nursing H	lome (the
"Home"), and Management Performance Associates, Inc., a Missouri corporation (the "Manager"	).

#### **RECITALS**

- a. The parties hereto have previously entered that certain Management Contract dated June 19, 2011; and
- b. The parties desire to amend the Management Contract for the purpose of changing certain terms and conditions as set forth below.

#### WITNESSETH

NOW, THEREFORE, the parties agree as follows:

Section IV, Manager's Duties, is amended by adding a new section 4.15, Management of the Compliance Program:

Manager shall be responsible for designing, and overseeing the implementation and ongoing management of, a Compliance Program for Home. Manager shall be responsible for conducting a baseline compliance audit; assisting with policy and procedure development and compliance training; providing strategic guidance for compliance audits; providing ongoing updates to the Compliance Program; serving as a compliance resource to Home; and conducting an annual review of the Compliance Program's effectiveness.

2 Section VI, Management Fee, is amended by adding after the first paragraph:

Pursuant to Section 4.15, Management of the Compliance Program (above), Manager shall invoice Home the amount of \$40,000 per year for the additional Management Fee for the Compliance Program, payable in monthly payments of \$3,333.33 in advance.

Manager will invoice this service under the line item "MPA Compliance Services." In addition to the Management Fee, direct costs of Manager for expenses such as travel

and lodging expenses, long distance telephone, and webinar or other training costs incurred in carrying out the duties of this Contract shall be reimbursed separately by Home on a monthly basis subject to the terms of the Champaign County Travel Policy and monthly review by the Nursing Board.

IN WITNESS THEREOF, the undersigned have executed this AMENDMENT TO MANAGEMENT CONTRACT as of the day and year first written above.

Re: Renal Dialysis

CCNH continues to work with three vendors to establish a dialysis service. Progress has been slow. We have received no indications that the vendors are not interested; it's more likely that this project is on our A list but not on theirs.

The purpose of this memorandum is to request approval-in-concept. Under this approach, the Nursing Board authorizes management to proceed on implementation provided that the dialysis initiative remains within parameters that are acceptable to the Nursing Board.

Time is the most significant factor. New revenue opportunities are quite limited in skilled nursing and this is a program that offers great promise. We anticipate a 6-month project schedule once all parties agree on what the arrangement is. With the consolidation of the long-term care with the hospital division of the State Architect, regulatory hurdles have become more uncertain.

Here's what we can say so far:

- 1. Program: Hemodialysis is preferred over peritoneal. Peritoneal is easier to implement, but is not as efficient as hemo, will not make much of a difference in the lives of the residents, and does not differentiate CCNH.
- 2. Location: In the child care area
- 3. Size: 6-8 stations (chairs)
- 4. Staffing: by vendor including medical direction and specialized nurses
- 5. Licensure: Vendor provides dialysis permit from CMS. CCNH brings the child care space up to skilled nursing code standards.
- 6. Cost: Scope is roughly \$300k. Commercial Builders quoted in February at \$235k-\$265k. The vendor can supply the architect, but expect additional costs above and beyond construction.
- 7. Billing: Vendor bills Medicare Part B fee schedule; CCNH bills Medicare Part A.
- 8. Market: Program breaks even at 5.4 average daily census.

Re: Management Update

This is the forty-fifth in a series of updates designed to keep you current on developments at CCNH.

**Census:** For the first quarter of fiscal 2012, census averaged 197.3. Our preferred level is 195 while the budget is 190. March census was 190.7, and this is very similar to last year where a strong first quarter was followed by two very weak ones. The mix in March was look good: 54 percent Medicaid, 35 percent Pvt Pay, 11 percent Medicare. Private Pay had been running strong, but that changed when CCNH got hit with over 400 conversion days; so, Pvt Pay tanked and Medicaid jumped to 54 percent.

Operations: March had a loss of \$(66)k. We are not pleased with this performance. Medicare revenues continue to be our frustration. This month, Pvt Pay was significantly off the pace of the three prior months, being under budget in march by \$(94)k. CCNH incurred 456 conversion days in March; this is a very large figure and a potential game-changer in how CCNH recognizes revenues in the future if conversion days do not return to more normal levels. Expense management in a few non-labor classifications could stand some improvement.

April's census came in at 191.1, just a bit better than March. However, the census signal seems to be pretty strong: this year is following last year's census pattern where CCNH had a strong 1<sup>st</sup> and 4<sup>th</sup> quarter with 6 intervening months of low census. March and April fit that characterization. In April, Medicaid was up to 56.6 percent, Medicare was down to 8 percent, and Pvt Pay came in at 35.4 percent. These are not good prognosticators for a profitable April.

The next big pushes in our end of the healthcare industry will be more intense compliance efforts plus a push to reduce hospitalizations. In terms of compliance, you are up to speed. The hospitalization thing deserves some comment. There are several ways to look at the necessity for hospitalizations. How many happened within 30 days of discharge from the hospital? How many within a week? What diagnoses and conditions represented the bulk of the activity? Hospitals will be penalized 1 percent of their Medicare reimbursement this year, increasing to 3 percent within a very short period of time. CCNH hospitalizes a significant number of residents each year, and CCNH is no different from any other provider. However,

we must ask the question: Could the resident have been cared for at CCNH? In many cases, the answer is "yes". Getting a favorable resolution is easier said than done as we are talking about a clinical process improvement involving medical management. For sure, there are some things we can resolve internally at the nursing level; Scott and Chuck are already moving in this direction. For years, the easy thing to do has been to hospitalize; it's easy on everybody, including families. Providers tend to re-think their priorities when financial incentives change. CCNH is very pleased to get engaged on this issue as better medical management will only improve care at all levels.

There are no new developments on short-term financing although it remains a priority. The need for financing is several months into the future, but it remains imminent. We continue to solicit additional banks and have begun considering a private placement in an effort to spread the burden.

Currently, Medicaid payments are two months in arrears. That's good. However, the Medicaid situation remains dire. Providers are facing rate cuts and delays will be more protracted in FY 2013 than in FY 2012. At this time there is no agreement between the Governor and the Legislature. The following are a few items that have been proposed:

A cut to the Standard Medicaid Rate
A reduction in the capital component of the Standard Medicaid Rate
An increase in the Determination of Need score for intermediate residents
A freeze on intermediate care admissions

Last year, the bed tax was increased from \$1.50 to \$6.07. While the size of this increase is huge, it was accompanied by a change-over to a fully-funded MDS reimbursement system. Facilities with large Medicaid loads benefit from the new system; in CCNH's case, there should be about \$28k in new net revenue; as a point of comparison, DeKalb County is similar to Champaign in many respects and its gain is roughly \$53k. Currently, State HFS is in a fast-track to implementing the bed tax. Facilities have received rate notices; the tax bills cannot be far behind.

The bed tax initiative and a Medicaid rate cut are two different things. On the one hand, the bed tax nets CCNH about \$28k. On the other hand, a rate reduction of 5 percent costs CCNH about \$322k.

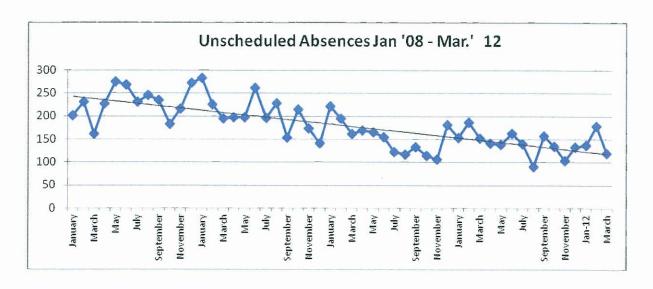

Additional IGT payments – we think they are IGT checks – have been received. The checks are coming without supporting documentation, which makes the accounting a little curious. We have been requesting back-up remittance advices from HFS; we will get them eventually. Right now, the payments in questions calculate like IGT and are timed like IGT; so, until we learn otherwise, they are IGT.

Relief via the Illinois Finance Authority remains a possibility. Such a program would allow CCNH to finance as much as 97 percent of its Medicaid receivables; the current RAN authorization level is 85 percent. While the concept has been finalized, the details are proving to be difficult. Accordingly, the only option for CCNH is to seek relief in the private sector.

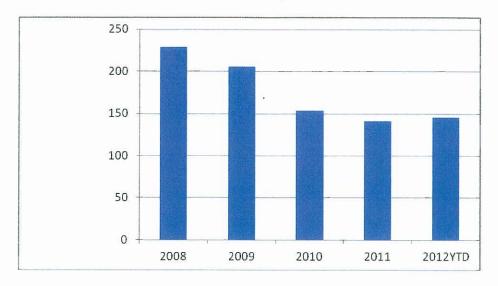

In regard to IDPH, a recent complaint investigation was dismissed with no findings. As of this writing, there are no outstanding IDPH issues. (A State Plan of Correction has been submitted in connection with the Annual Licensing Survey. No final disposition has been received yet.)

**Employees:** In general, we have been doing much better with unscheduled absences. CCNH has experienced an uptick in unscheduled absences; fortunately, March dropped to a lower level, the lowest for this fiscal year. Here's the latest through March 2012 along with some historical averages:

Period	Average Absences
June - Dec 09	195
Jan- June 10	178
July-Dec 10	129
Jan-June 11	156
July- Dec 11	127
Fiscal 2011	145.4
Fiscal 2012 YTD	142.5

Unscheduled Absences by Calendar Year

We are working to resolve an Unfair Labor Practice charge surrounding two employee settlements that were agreed to between AFSCME and CCNH. At issue is whether CCNH was correct in withholding payroll and related taxes.

\*\*\*\*\*

As always, give me a call (314-434-4227) or zap me via e-mail if you have questions or want to discuss anything.
