

## APPENDIX: LRMP DEFINED TERMS

*The following defined terms can be found in italics within the text of the LRMP Volume 2 Chapters: Goals, Objectives and Policies; Future Land Use Map; and Implementation Strategy, as amended. Terms already available in the Zoning Ordinance Definitions have been removed.*

### **Contiguous Urban Growth Area (CUGA)**

Unincorporated land within the County that meets one of the following criteria:

- land designated for urban land use on the future land use map of an adopted municipal comprehensive land use plan, intergovernmental plan or special area plan, and located within the service area of a public sanitary sewer system with existing sewer service or sewer service planned to be available in the near- to mid-term (over a period of the next five years or so).
- land to be annexed by a municipality and located within the service area of a public sanitary sewer system with existing sewer service or sewer service planned to be available in the near- to mid-term (over a period of the next five years or so); or
- land surrounded by incorporated land or other urban land within the County.

### **discretionary review**

The County may authorize certain non-agricultural land uses in unincorporated areas of the County provided that a public review process takes place and provided that the County Board or County Zoning Board of Appeals (ZBA) finds that the development meets specified criteria and approves the development request. This is referred to as the ‘discretionary review’ process.

The discretionary review process includes review by the County ZBA and/or County Board of a request for a Special Use or a Zoning Map Amendment. For ‘discretionary review’ requests, a public hearing occurs before the County ZBA. Based on careful consideration of County [LRMP] goals, objectives and policies and on specific criteria, the ZBA and/or County Board, at their discretion, may or may not choose to approve the request.

### **good zoning lot** (commonly referred to as a ‘conforming lot’)

A lot that meets all County zoning, applicable County or municipal subdivisions standards, and other requirements in effect at the time the lot is created.

### **parks and preserves**

Public land established for recreation and preservation of the environment or privately owned land that is participating in a conservation or preservation program

### **pre-settlement environment**

When used in reference to outlying Champaign County areas, this phrase refers to the predominant land cover during the early 1800s, when prairie comprised approximately 92.5 percent of land surface; forestland comprised roughly 7 percent; with remaining areas of wetlands and open water. Riparian areas along stream corridors containing ‘Forest Soils’ and ‘Bottomland Soils’ are thought to most likely be the areas that were forested during the early 1800s.

### **public infrastructure**

‘Public infrastructure’ when used in the context of rural areas of the County generally refers to drainage systems, bridges or roads.

Volume 2: Champaign County Land Resource Management Plan  
Appendix

**public services**

'Public services' typically refers to public services in rural areas of the County, such as police protection services provided the County Sheriff office, fire protection principally provided by fire protection districts, and emergency ambulance service.

**rural**

Rural lands are unincorporated lands that are not expected to be served by any public sanitary sewer system.

**site of historic or archeological significance**

A site designated by the Illinois Historic Preservation Agency (IHPA) and identified through mapping of high probability areas for the occurrence of archeological resources in accordance with the Illinois State Agency Historic Resources Preservation Act (20 ILCS 3420/3). The County requires Agency Report from the IHPA be submitted for the County's consideration during discretionary review of rezoning and certain special use requests. The Agency Report addresses whether such a site is present and/or nearby and subject to impacts by a proposed development and whether further consultation is necessary.

**urban development**

The construction, extension or establishment of a land use that requires or is best served by a connection to a public sanitary sewer system.

**urban land**

Land within the County that meets any of the following criteria:

- within municipal corporate limits; or
- unincorporated land that is designated for future urban land use on an adopted municipal comprehensive plan, adopted intergovernmental plan or special area plan and served by or located within the service area of a public sanitary sewer system.

**urban land use**

Generally, land use that is connected and served by a public sanitary sewer system.
