

**CHAMPAIGN COUNTY
EMERGENCY MANAGEMENT AGENCY**

1. I was able to attend FEMA training on Individual Assistance and Public Assistance to be able to better understand what benefits will be offered to governmental and family units with any Federal Disaster Declaration.
2. We continue to work with several agencies on a full-scale exercise to be held in late summer or early fall. This exercise will exercise our plan for handling an Infectious Disease outbreak in Champaign County.
3. Estimates to repair our garage were given to the Insurance Company and approved at approx \$44,500.00 and work should start in early June. Our thanks go to Pro Ambulance Company for being kind enough to store our Command Post inside there location.
4. Severe weather has not been a major problem this month how ever some damage has occurred with downed power poles and tree damage. I am trying to work with AmernIP to create a coordination link with their local office during severe weather to prioritize calls so that fire units do not have to spend as much time sitting on downed power lines until power is shut off.
